Hi Andrew,

Hope all's well.

I'm in my late forties, and have lived in Collier Street for 6 years (Marden for 10 years previously) with my wife Jo and three boys. The boys have all attended St Margaret's in Collier St, the two youngest are still there whilst our eldest Rufus has just moved on to Bennett Memorial.

Since graduating in Electronic Engineering I've worked all my life in both Television Post Production and the Music Industry (creating corporate video content) and have been freelance for the last 13 years - a Company Director for the last 9 years of that. Whilst that may not seem immediately relevant, I've had the pleasure to work with a number of charitable organisations and trusts over the last two decades producing event, fundraising and other marketing video content. Primarily the BRIT Trust, which supports a number of educational and music charitable concerns - the two main being the BRIT school in Croydon and Nordoff Robbins the music therapy charity. All the charities under the umbrella of the BRIT Trust are either focussed on the use of music to support children in need, or to enhance the availability of arts education as widely as we can.

I've really valued being a small part of their work, so when the call came from the YEF I was delighted that there may be an opportunity to help them in any way I can on a local level.

We're very lucky to live in such a good nurturing community. Our experience of education here via our children has been extremely positive. The friends and wider network I've encountered reveal a superb positive energy, so I would be hugely proud to get involved with the foundation and help with what it does for the next generation of our community.

If you need any specific information alongside this, or anything else - do please let me know.

All the best,
Nick.
