

INTERNAL AUDIT PROGRESS REPORT GOVERNANCE AND AUDIT COMMITTEE 7 October 2021

1. Introduction

- 1.1 The role of the Internal Audit function is to provide Members and Management with independent assurance that the control, risk and governance framework in place within the Council is effective and supports the Council in the achievement of its objectives. The work of the Internal Audit team should be targeted towards those areas within the Council that are most at risk of impacting on the Council's ability to achieve its objectives.
- 1.2 Upon completion of an audit, an assurance opinion is given on the soundness of the controls in place. The results of the entire programme of work are then summarised in an opinion in the Annual Internal Audit Report on the effectiveness of internal control within the organisation.
- 1.3 This activity report provides Members of the Governance and Audit Committee and Management with 6 summaries of completed work between July and September 2021.

2. Key Messages

- 6 audits have been finalised since the previous progress report, which was reported to Members in July 2021. See Appendices A & B
- 2 audits from the 2020/21 audit plan are still awaiting finalisation. These has been escalated to Corporate Management Team for action
- 16 of 55 audits from the 2021/22 audit plan are at planning or fieldwork stage
- 15 grants / certifications have been certified to date, with a further 4 currently in progress. See Appendix C

3. Updates

3.1 Internal Audit Plan

The following report provides an update on the work completed between July and September 2021 against both the 2020/21 and 2021/22 Audit Plans.

In addition to the planned work completed during this period, we have also provided consultancy advice in relation to:

- The Reconnect Programme, in respect of the grant application process. As a result of this engagement, we have now agreed to undertake a short review of the grants issued to-date, ahead of the next application round.
- The Total Placement Service in relation to the process for authorising placement costs.

Table 1: <u>Summary of Assurance Levels to Date</u>

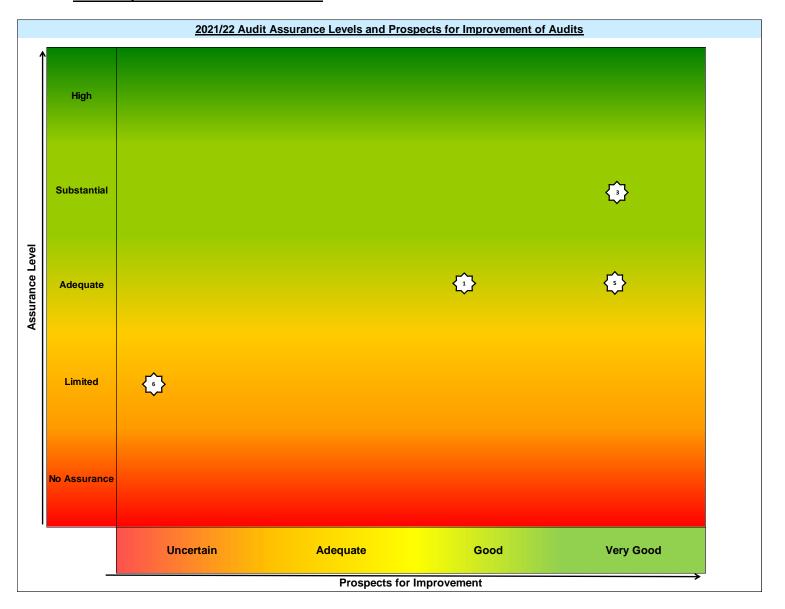

Table 2 – <u>Summary of Audits by Committee Meeting</u>

	Governance & Audit Committee – 7 October 2021				
	Audit	Assurance	Prospects for Improvement		
1	Schools Themed Review - Cyber Security (EXEMPT)	ADEQUATE	GOOD

Substantial	1	25%	■ High ■ Substantial
Adequate	2	50%	□ Adequate □ Limited
Limited	1	25%	■No
No	0	0%	50%

3.2 Grant Certification Work:

Internal Audit work on grant certification provides an essential service for the Council. Although it is not audit opinion work, the Audit team's schedule of grant certifications is an ongoing commitment of Internal Audit resources which requires adherence to strict timescales for the certification of claims submitted.

In 2021-22, the team has audited and certified Interreg 15 grant claims with a value of €975,194 with a further 4 grant claims currently in progress. An additional "On The Spot" (enhanced re-audit) for one grant project has been completed with a further 2 On The Spot checks currently in progress.

Grant work is also completed by the Audit team in respect of validating expenditure of various UK Government Grants awarded for particular activities such as Highways Block Capital Grant, Travel Demand Management and Bus Service Operators Grant.

Details of all certifications can be seen at **Appendix C**.

3.3 Internal Audit Resources:

In accordance with the Public Sector Internal Audit Standards, members of the Committee need to be appraised of relevant matters relating to the resourcing of the Internal Audit function.

The recent team restructure was finalised in September 2021 and the recruitment for all vacant Auditor and Trainee Auditor posts is well advanced.

The Principal Auditor (IT Specialist) post is currently out to advert, with the interviews scheduled at the end of October 2021.

A number of contract auditors have been resourced to support audit plan delivery, until vacant posts have been filled and new team members are fully inducted.

3.4 External Quality Assessment

Work is underway to address the actions arising from the recent External Quality Assessment. A full update on the External Quality Assessment action plan, will be reported to Members in January 2022.

. Under the Spotlight!

With each Progress report, Internal Audit turns the spotlight on the audit reviews, providing the Governance and Audit Committee with a summary of the objectives of the review, the key findings, conclusions and recommendations; thereby giving the Committee the opportunity to explore the areas further, should it wish to do so.

In this period, the following report summaries are provided at **Appendix D**, for the Committee's information and discussion.

(A) Cross Directorate	(B) Adult Social Care and Health
None	None
(C) Children, Young People and Education	(D) Strategic and Corporate Services

		proactive in addressing circumstances which create vulnerability across Kent.	
	EU Interreg - Experience	To provide the tools and infrastructure to capitalise on the emerging trend for personalised and	
		local tourism experiences which provide reasons to visit at any time of the year.	
	EU Interreg – Green Pilgrimage	Protecting natural & cultural heritage whilst developing jobs & growth along pilgrim routes by	
		developing low impact tourism, digitilisation, pilgrim accommodation & strengthening local	
		traditions.	

No.	Grant	Description	Status as at 10/09/2021
	EU Interreg - H20	Overcoming barriers to integrated water and ecosystem management in lowland areas adapting to climate change.	1 Claim in progress
	EU Interreg – IMPULSE2	IMPULS will help small life science and nutrition businesses from South-East England and Northern France to collaborate, innovate and access business opportunities on the other side of the Channel. The project will deliver a series of virtual webinars, organise international business matchmaking events and facilitate virtual access to life science industry events.	1 Claim in progress
	EU Interreg - Inn2Power	Supporting Kent based companies in the offshore wind sector with internationalisation & market entry in mainland Europe.	1 Claim completed
	EU Interreg - PATH2	Enabling women, families and healthcare professionals to prevent, diagnose and successfully manage mild and moderate perinatal mental health issues.	1 Claim completed
	EU Interreg - Prowater	Contributing to climate adaptation by restoring the water storage of the landscape via ecosystem-based adaptation measures.	1 Claim in progress
	EU Interreg - SCAPE	Developing landscape-led design solutions for water management that make costal landscapes better adapted and more resilient to climate change.	1 Claim completed
	EU Interreg - SHIFT	Engaging with people over 45 years of age to develop a tailored sexual health and wellbeing model.	1 Claim completed
	EU Interreg - SIE	Evaluating and improving business support services for SMEs specifically related to exporting and internationalisation.	
	EU Interreg – STAR2Cs	Overcoming the implementation gap faced by local government adapting to climate change.	
	EU Interreg – Step by Step	Seeking to increase the impact of the internationally evidenced men's sheds programme in particular employment & health outcomes.	1 Claim and On the Spot completed
	EU Interreg - TICC	Implementing an integrated community team at a pilot site to work with the principles of Buurtzorg (A Dutch home-care model known for innovative use of independent nursing teams in delivering relatively low-cost care).	
	EU Interreg - Triple A	Supporting homeowners to adopt different low-carbon technologies in their homes.	
	EU Interreg - Triple C	Implementing a set of cost-effective actions to reduce flooding and erosion.	1 Claim completed
	EU Interreg - Upcycle your waste	The programme will run over three years and aims to support SMEs in reducing their running costs by handling and transforming their waste into new resources for the community.	1 Claim completed
	EU Interreg - USAC		1 Claim completed
	Department of Health and Social Care	Public Health Test and Trace Grant.	In progress – deferred to 2022
	Department for Transport	Highways Travel Demand Management Grant.	In Progress
	Department for Transport	Bus Service Operators Grant.	Complete
	Department for Education	Additional School and College Transport Grant.	Complete
	Department for Transport	Highways Block Capital Grant.	Complete
	Department for Transport	Ashford Sevington (Border Post) Grant.	Complete

Appendix D – Summaries of Completed Audit Reviews

D2 - CS08-2021 - Access Pool

Audit Opinion	Substantial
Prospects for Improvement	Very Good

Internal Audit concluded that there are strong governance arrangements to monitor and manage pooled investments in line with the Kent Pension Fund Investment Strategy, and effective performance monitoring and reporting mechanisms are in place. The expected benefits and savings from participation in the Access Pool are being realised and effectively reported to stakeholders. Income is being distributed in a timely manner and in line with the agreed arrangements, and effective risk management arrangements are well embedded.

Several key strengths have been identified below. No significant weaknesses were identified.

Two low risk issues have been identified in relation to scoring on the Fund Risk Register and Superannuation Fund Committee risk appetite training. It is recognised that these issues do overlap with a previous internal audit review on Pension Fund Investment Governance, which was issued in December 2019. The issues from this previous review are still under follow up review.

Key Strengths

- The governance arrangements for pooled investments are adequate and in line with the Kent Business Fund Investment Strategy, and appropriate delegations of authority are in place.
- Governance and exit arrangements are appropriately accounted for in contract documents.
- Value for money has been considered prior to investing in ACCESS Pool, and there is a controlled implementation and review method for launching pooled funds to ensure these investments are the best course of action for the Fund.
- Meetings of the ACCESS Joint Committee and Officer Working Group took place as required throughout 2020, with appropriate Council representation.
- There are appropriate information sharing mechanisms between ACCESS Pool and the Fund's representatives, which were applied in practice.
- Appropriate performance monitoring information is submitted and reviewed by the members of the ACCESS Joint Committee and S151 Group.

- The designated ACCESS Support Unit Technical Leads and Contract Manager compile performance reports for the Joint Committee as required.
- Details of savings realised from pooled arrangements are reported to the Superannuation Fund Committee.
- Internal Audit is satisfied that the savings projections for the year were reasonable and appropriate and accurately reported in the Fund's 2019 and 2020 Annual Reports.

The Fund's net fee savings during 2019/2020 were £1.596m, with a cumulative net saving of £4.024m since the beginning of the pooling project, as reported in their 2020 Annual Report.

- There are controls in place for the management of the Fund's risks.
- Sensible arrangements are in place to govern the distribution of the Fund's income from pooled investments.

Areas for Development

- Scoring within the Fund's Risk Register could be improved.
- Risk appetite training for Superannuation Fund Committee members is not yet captured in the Fund's Training & Development Plan for 2021/22.

Prospects for Improvement

Our overall opinion of **Very Good** for Prospects for Improvement is based on the following factors:

 Internal Audit is satisfied that the management actions provided address our findings in full.

Summary of Management Responses

	No. of Issues Raised	Mgt Action Plan Developed	Risk Accepted and No Action Proposed
High Risk	0	N/A	N/A
Med Risk	0	N/A	N/A
Low Risk	2	2	0

D3 - RB02-2021 - Strategic Commissioning - Follow Up

Audit Opinion	N/A	
Prospects for Improvement	N/A	

Scope Summary

- The audit included a review of relevant documentation and interviews with the Interim Strategic Commissioner, Senior Commissioners and other officers.
- In order to provide assurance, Internal Audit reviewed the implementation and effectiveness of all management plans for the 5 Issues with a "Medium" risk rating in the report, CA11-2019 Strategic Commissioning Overview.

Key Findings

- The Commissioning Framework, which includes Commissioning Standards, is still in draft and not yet complete. The absence of Standards is a weakness in itself and contributes to continuation of the issues raised in the original report, CA11-2019 – Strategic Commissioning Overview.
- There is insufficient evidence of a standard approach to strategic commissioning, in particular analysing and evaluation of benefits of lowvalue and in-house services and following up on those evaluations.
 Progress, however, has been made.
- There is insufficient evidence of a consistent approach to documenting outcomes from analysis or of a clear and universal understanding of commissioning across the Council, although progress has been made.

- There is insufficient evidence of consistency across the Council regarding how roles and responsibilities of commissioning are assigned.
- The issue of transformation of the Strategic Commissioning Division into a corporate support function is not widely understood.
- Procurement risk is now included in the Risk Register.

Management Action Status

Implemented

 One of the 5 management actions with a "Medium" risk rating has been fully implemented.

In Progress

• Management actions for 3 out of the 5 issues with a "Medium" risk rating are in the process of being implemented.

Not Implemented

• One of the 5 issues with a "Medium" risk rating has not been implemented.

Summary of Implementation of Management Actions

Total Issues	Implemented	In Progress	Not Implemented	Superseded
5	1	3	1	0

D5 - CA03-2021 - Records Management (DRAFT)

Audit Opinion	Limited
Prospects for Improvement	Uncertain

The audit opinion of Limited is based on Internal Audit's findings from a review of the current processes, interviews with key members of staff and a staff survey. Overall, it is concluded that sufficient guidance, training and bespoke advice is available.

However, there are a number of important areas where processes and organisational awareness, understanding and compliance require improvement.

Key Strengths

- Relevant policies and procedures, including the Data Protection Policy, Records
 Management Policy, and the Information Management Manual (IMM) were
 assessed and confirmed to be comprehensive, up-to-date and the latest versions
 are available to officers. The IMM is under review with an action plan that
 documents the required outcomes.
- Policies and procedures clearly outline corporate and service responsibilities and arrangements for record classification, storage, security, transmission and disposal.
- An organisational Information Asset Register (IAR) is in place and includes the main category requirements. However, there are important issues to be addressed, which are explained below (see Issue 4 below).
- A staff survey conducted as part of the audit identified that there is a high level of awareness (90%) that the overall responsibility for records management sits with all staff within the organisation.
- A Data Retention Schedule is in place and is consistent with the Information Asset Register. The use of a unique identifier in the IAR and Retention Schedule ensure that when a change is made to the database for one record, there is an automatic update to the other. However, there are important issues to be addressed, which are explained below.
- The contract for external archiving and retrieval of historic records is managed through a set of key performance indicators, for which there has been a high rate of compliance since the contract began in 2017.
- There is a clear process for paper record destruction and disposal by the Records Management Service.
- The Records Manager has a high level of expertise and is a subject matter expert, who is able to identify strategic actions required and is available to advise on all information governance queries.
- There is a governance structure in place for the management of records, via a Cross Directorate and a Corporate Information Governance Group.

Areas for Development

- An e-learning training module for Records Management is available to all staff; however, completion is not mandatory and is not monitored. The staff survey conducted as part of the audit identified a low level of completion, and a low level of awareness of the main components of the control framework.
- There is reduced assurance that the Information Asset Register is fully up to date due to restructures across the organisation, which may have resulted in unforeseen gaps.
- A programme of information audits (and the necessary level of resource to deliver it) is required, to conduct a full Information Asset Register review and give assurance that all assets are known, recorded and subject to appropriate controls and oversight.
- Processes to ensure the Data Retention Schedule remains up to date are reliant
 on the Records Manager being advised either a) of a new record type usually via
 a query from a service, or b) via the information audit process. There is reduced
 assurance that the Data Retention Schedule is fully up to date.
- The Data Retention Schedule is not sufficiently detailed to identify when specific records are due for retention or disposal review. The process is manual, and responsibility sits with services, although in practice, some do not have suitable processes or environments to identify when records have reached their retention deadline.
- There are three current cases of records required for a statutory request having gone missing and audit trails of their transmission have not been maintained. Furthermore, there is no clearly communicated policy on the specific process that staff should follow if a historic file requested via a statutory process cannot be located by the Records Management Service.
- ICT controls to be introduced with the implementation of SharePoint will vastly improve the Authority's ability to classify and manage electronic records but will require significant input and support from the Records Manager to issue guidance and provide training. The realisation of security benefits will also rely heavily on compliance by services.
- The substantial increase in storage capacity for electronic records that will come
 with SharePoint must be accompanied by organisation-wide training and
 guidance, to drive good file management behaviours and avoid the potential for
 relaxation of disciplines.

Prospects for Improvement

Our overall opinion of Uncertain for Prospects for Improvement is based on the following factors:

• The Records Manager has a clear and complete understanding of where organisational process gaps and weaknesses exist. However, aside from her attendance at the Cross Directorate Information Governance Group where she will report concerns, she has no line management route for implementing the required improvements to Records Management Service processes, limited authority to drive other cross-authority changes and also insufficient capacity.

Summary of Management Responses			
	No. of Issues	Mgt Action Plan	Risk Accepted and
	Raised	Developed	No Action Proposed
