Guidance Notes

Notes: Please note that there is no 2019-20 Education attainment or absence data due to the impact of Coronavirus (COVID-19). In both cases, data shown in the 2019-20 column is 2018-19 data, shown in italics and rated against 2018-19 targets. Figures for indicator CYPE8 (Rate of proven re-offending by CYP) shown in red have not been published by the Ministry of Justice (MoJ) but are included for information in this scorecard.

Please note that not all Children's Social Work indicators can be shown broken down by District for the associated CSWS team, as caseloads relating to these indicators are held by Area and Kent LA level teams. Cases included in a dataset are based on the Service working with the child and not the child's geographical residence. For new Teams/Services that are created within CSWS or EH, there will be no historical data shown initially, as it is only available from the point at which the new Team/Service begins.

POLARITY

H	The aim of this indicator is to achieve the highest number/percentage possible
L	The aim of this indicator is to achieve the lowest number/percentage possible
T	The aim of this indicator is to stay close to the target that has been set

RAG RATINGS

RED	Floor Standard* has not been achieved
AMBER	Floor Standard* achieved but Target has not been met
GREEN	Target has been achieved

Directorate Scorecard - Kent KPIs

Education and Early Help targets have been reviewed as they were out of date. Many of the targets were set when new measures were introduced, without any trend or comparative data to support this process. Targets now take into account the national position, where this is available, and the year on year improvements seen to date, and seek to drive continuous improvement.

Commentary on Integrated Children's Services Indicators:

Children's Social Care

AMBER: The percentage re-referrals to Children's Social Work Services within 12 months of a previous referral was 29.4% for October 2020 and has remained above the Target of 25.0% this reporting year, although it has been decreasing very slightly over the last couple of months. This compares to the latest published information for the England average of 22.6%, 22.3% for Kent's Statistical Neighbours and 25.1% for the South East (all comparative rates are for 2018/19 performance). As the rates of re-referrals are higher than anticipated a separate piece of work has been commissioned to analyse the re-referral data and to undertake targeted case file audits.

AMBER: The percentage of children becoming subject to a child protection plan for the second or subsequent time is 23.3%, which is a slight reduction from the performance of 24.0% in September. This is outside the target range of 17.5% - 22.5% and compares to average rates for England of 20.8% and Statistical Neighbours 21.1% (2018/19).

AMBER: The percentage of CIC Foster Care in KCC Foster Care/Rel & Friends placements (excluding UASC) is 79.8% which is below the target of 85.0%. Year-to-date performance has averaged 80.0%. Information regarding the availability of in-house foster placements is continually reviewed to ensure that foster carer capacity is fully utilised and that children and young people are placed in the most suitable placement and there is a continued focus on recruiting and retaining Kent Foster Carers.

AMBER: The percentage of care leavers in education, employment or training (of those KCC is in touch with) is 61.4%. This is an increase from the September performance of 60.8% but remains below the target of 65.0%

AMBER: The average caseload in the Children's Social Work Teams (CSWT) is 19.5 cases, which is above the target caseload of no more than 18 children/young people but has improved from the average caseload of 21 cases in September 2020.

GREEN: Percentage of Returner Interviews completed for those with Children's Social Work Involvement is 93.3% which exceeds the target of 90.0%

GREEN: The percentage of Children in Care in same placement for the last two years (for those in care for two and a half years or more) is 70.4%, achieving the 70.0% Target. The latest published England average is 69.0%, and 68.5% for Kent's Statistical Neighbours (2018/19).

GREEN: The average number of days between becoming a child in care and moving in with an adoptive family is 315 days, which remains significantly below the nationally set target of 426 days. The latest national data is for 2019 - the England average was 363 days, and 332 days for Kent's statistical neighbours.

GREEN: The percentage of Children's Social Work Case File Audits graded good or outstanding is 81.1% which is above the 80.0% Target.

GREEN: The percentage of case holding posts filled by permanent qualified social workers is 92.8%, remaining above the target of 85.0%.

GREEN: The average caseloads in the Children in Care (CIC) Teams is 14 cases, remaining below the target caseload of no more than 15 children/young people.

Intensive Early Help

AMBER: The percentage of EH Assessments completed in the given month, within 6 weeks of allocation has continued to improve and in October 2020 was 67.1%, moving towards the target of 70.0%. The improvement in the year-to-date, which started from a performance level in April of 58.0%, have been aided by a new performance reporting tool giving managers clear oversight and improved ability to track progress.

AMBER: The percentage of cases open to Intensive Early Help that were audited and graded as good or outstanding is 73.1% which is below the 80.0% target.

GREEN: The percentage of referrals to an Early Help Unit where a previous episode ended within 12 months is 24.8%, achieving the target of lower than 25.0%

GREEN: The percentage of Early Help cases closed with outcomes achieved that come back to Early Help or Children's Social Work Services in 3 months is 15.0%, which is at the Target level.

GREEN: The average Caseload within Early Units is 12 Families, which is below the Target set of an average of no more than 15 Families.

Commentary on Education Indicators:

The majority of education indicators are annual. Commentary has only been provided for indicators where new data has been published since the last scorecard was issued

RED: The percentage of EHCP issued in 20 weeks has dipped very slightly in the last month to 31.1% remaining below the target of 60% and the national performance of 60.4% and Kent's benchmark group of 58.5%. Work is taking place as part of the SEND improvement programme to develop quality assurance of EHCPs, including an increased understanding of what good looks like, and to improve Educational Psychology (EP) timescales in statutory advice by reviewing their triage and assessment processes and building capacity in the Service.

RED: The number of Kent resident pupils being placed in independent or out-of-county special schools has increased from 1,214 in September to 1,232 in October and is below the target of 900

RED: The percentage of CYP registered to EHE who receive an offer of a visit within 10 school days of them being brought to our attention continues to decline and at 93.8% remains below the target of 100%

AMBER: There are 11 primary aged pupils who have been permanently excluded from school, three pupils higher than the target. However exclusions from Kent schools are still lower than the national figure (reported as a rate of the school population).

GREEN: The number of permanent exclusions from secondary schools at 12 remains well below the target of 27.

GREEN: The percentage of Children Missing Education cases, closed within 30 school days, has increased from 88.9% in September to 90.2% in October and now meets the target.

GREEN: The Percentage of Year 12-13 age-group (16-17 year olds) not in education, employment or training (NEET) is a seasonally impacted indicator increasing over the Summer months. In the month of October, it was 2.2% which compares favourably to the target of 2.4% and broadly in line with the performance for the same time last year (2.1%). However Local Authorities are judged by the DfE on the 3-month rolled figure (for December, January, and February) which in 2019/20 was 3.3%, below our target and in the fourth quintile (second from bottom) of all LAs.
