## Guidance Notes

**Notes:** Please note that there is no 2019-20 or 2020-21 Education attainment data due to the impact of Coronavirus (COVID-19).  
 Figures for indicator CYPE8 (Rate of proven re-offending by CYP) shown in red have not been published by the Ministry of Justice (MoJ) but are included for information in this scorecard.  
 Please note that not all Children's Social Work indicators can be shown broken down by District for the associated CSWS team, as caseloads relating to these indicators are held by Area and Kent LA level teams. Cases included in a dataset are based on the Service working with the child and not the child's geographical residence. For new Teams/Services that are created within CSWS or EH, there will be no historical data shown initially, as it is only available from the point at which the new Team/Service begins.

### POLARITY

- H** The aim of this indicator is to achieve the highest number/percentage possible
- L** The aim of this indicator is to achieve the lowest number/percentage possible
- T** The aim of this indicator is to stay close to the target that has been set

### RAG RATINGS

- RED** Floor Standard\* has not been achieved
- AMBER** Floor Standard\* achieved but Target has not been met
- GREEN** Target has been achieved

\* Floor Standards are set in Directorate Business Plans and if not achieved must result in management action

### DIRECTION OF TRAVEL (DOT)

-  Performance has improved
-  Performance has worsened
-  Performance has remained the same

KS2 = DfE Provisional Data, published 6th September 2022. DfE Published Data is due for release on 15th December 2022.

KS4 = DfE Provisional Data, published 20th October 2022. DfE Published Data is due for release in February 2022. There is currently no 2022 KS5 data available. DfE Provisional KS5 data is due for release on 10th November and will be included in the next scorecard.

## Directorate Scorecard - Kent KPIs

All Education attainment and progress targets are currently being reviewed in light of 2022 outturn data and comparative National data. Targets will take into account the national position, where this is available, and seek to drive continuous improvement, whilst taking into account Covid impact and lost learning.

#### Commentary on Integrated Children's Services Indicators:

##### Children's Social Care

**RED:** At 74.8% the percentage of children in care placed in KCC foster care, or in placements with relatives/friends, has fallen just below the floor standard of 75.0%. The target of 85.0% is an aspirational target set to drive up the use of in-house provision and historically performance has remained stable at around 80.0%. However several factors have contributed to the decrease in more recent performance. Firstly there has been an increase in the number of children in care over the last six months, some of which is due to the extended timescales for care proceedings to be concluded which has meant that many babies and younger children are remaining in care longer. Recruitment and retention of foster carers remains a challenge especially during the current cost of living crisis, not only for Kent but across the South region and nationally. This has been highlighted within the recent Government Social Care Review which was published in May 2022. Foster homes for children to live together with their parents and homes for siblings remains a high priority but recruitment of these provisions within Kent remains a significant challenge. This year we also saw an increase in the number of unavailable beds over the summer as foster carers were asking for a break before looking to match themselves with other children, leading up to and during the holidays. This impacted on the utilisation of placements which, in turn, impacted on this performance indicator. Actions being taken include a continuous focus on the recruitment of foster carers, with particular emphasis on some geographical areas and types of carers required, for example to increase the number of foster carers who are able to accommodate parent and child placements.

**RED:** The average caseload in the Children's Social Work Teams (CSWT) is 24.5 cases, which is above the target caseload of no more than 18 children/young people, but is a reduction from the 28.8 cases reached in July 2022. The challenge of high caseloads was raised by Ofsted during their Inspection of children's services in May 2022 and a Task and Finish group has been established to identify the causes and to make recommendations. Some of the factors being considered are: recruitment and retention of social workers; the establishment levels for social work staff; the distribution of those establishment levels across the service, both geographically and across different types of teams; the throughput of cases; and the roles of support staff including Social Work Assistants and Business Support Officers. The annual collection of Children's Social Care Workforce data is currently underway. When published this will provide a national overview for the Social Work workforce, and comparative information with regard to social worker vacancies, caseloads and rates of turn-over.

**AMBER:** The Percentage of Returner Interviews completed for those with Children's Social Work Involvement is 87.5%, which is below the Target of 90.0% Target. Reasons for the drop in performance are being investigated, including a possibility that this is linked to the implementation of a new form on the children's social care case management system. No comparative data for other local authorities is available, but the completion rates within Kent are considered to be high.

**AMBER:** The percentage of care leavers in education, employment or training (of those KCC is in touch with) is 62.4%. Whilst this is below the 65.0% target the performance for September 2022 continues to show improvement and is the highest performance achieved since September 2019 (63.3%).

**AMBER:** The percentage of case holding posts filled by permanent qualified social workers is 75.8%, below the target of 85.0% (which is based on the national average for Agency Social Workers of 15%). After a period of month-on-month decreases over the last 10 months, the performance for September shows improvement. This improvement equates to an additional 6.8 FTE Social Workers compared to the previous month. Actions being taken include those noted above with regard to average caseloads.

**AMBER:** The average caseload in the Children in Care (CIC) Teams is 15.6 cases, which is just above target of no more than 15 children/young people. This is an improvement in performance when compared to the previous six months when caseloads have been above 16 cases. A comprehensive set of measures to improve the recruitment and retention of social workers is in place, aimed at reducing the average caseloads for all teams.

**GREEN:** The percentage re-referrals to Children's Social Work Services within 12 months of a previous referral was 20.9% for September 2022, achieving the Target of below 25.0%. This performance compares to the latest published England average of 22.7%, 21.5% for Kent's Statistical Neighbours and 27.7% for the South East (all comparative rates are for 2020/21 performance).

**GREEN:** The percentage of children becoming subject to a child protection plan for the second or subsequent time is 22.2% which is within the target range of 17.5% - 22.5% and compares to average rates for England of 22.1%, Statistical Neighbours 22.5% and the South East 23.5% (2020/21).

**GREEN:** The percentage of Children in Care in same placement for the last two years (for those in care for two and a half years or more) is 75.3% and above the Target of 70.0%. Kent's performance remains above the latest published the average for Kent's Statistical Neighbours of 69.3%, the average for the South East of 68.0% and the England average of 70.0% (comparative data is for 2020/21).

**GREEN:** The average number of days between becoming a child in care and moving in with an adoptive family is 368 days, within the nationally set target of less than 426 days. The average number of days had been increasing as a result of delays to court hearings but in recent months the average number of days has started to reduce, improving performance against this measure.

**GREEN:** The percentage of Children's Social Work Case File Audits graded good or outstanding is 82.3%, which is above the 80.0% Target.

##### Intensive Early Help

**AMBER:** The percentage of referrals to an Early Help Unit where a previous episode ended within 12 months is 27.5%, which is above the target of 25.0%. Performance has remained stable at an average of 27.1% over the previous six months.

**GREEN:** The percentage of EH Assessments completed in the given month, within 6 weeks of allocation, is at 85.2%, achieving the target of 85.0%

**GREEN:** The percentage of cases open to Intensive Early Help that were audited and graded as good or outstanding is 87.6%, achieving the 80.0% target.

**GREEN:** The percentage of EH cases closed with outcomes achieved that come back to EH or CSWS in 3 months is 13.5%, remaining below the Target of 15.0%

## Directorate Scorecard - Kent KPIs

**Commentary on Education Indicators:**

*The majority of education indicators are annual. The attainment and progress targets for the latest set of results have been removed due to the impact of Covid on outcomes. Commentary has only been provided for indicators where new data has been published since the last scorecard was issued where targets exist.*

**RED:** The percentage of Education, Health and Care Plans (EHCPs) issued within 20 weeks each month continues to decline. In September 60 out of 231 plans (26.0%) were completed with 20 weeks. The rolling 12-month average to September 2022 is higher at 41.3% with 1,001 out of 2,423 being issued within timescale. Performance has deteriorated significantly in the last quarter as a consequence of staff churn and vacancies in the casework team. We are expecting this to be addressed through the current recruitment processes. Revised criteria have been agreed to help manage EHC needs assessment requests and reduce inappropriate EHC plans which do not meet the criteria set out in the SEND code of practice. This has successfully reduced the number of EHC need assessments carried out for under-fives. These criteria are being rolled out across all age groups over the next 3-6 months.

**RED:** 20 primary aged pupils were permanently excluded from school during the last 12 months; 8 pupils above the target. Permanent exclusion remains the very last resort for the most serious incidents and where all school resources, multi-agency intervention and services to promote inclusion within the setting have been exhausted. A deep dive of the 20 permanent exclusions from primary schools is underway.

**RED:** The number of permanent exclusions from secondary schools at 33 pupils is above the target of 24. Advisers from the PRU, Inclusion and Attendance Service (PIAS) continue to work closely with schools to find alternatives to permanent exclusion within the constraints of the statutory processes and DfE guidance

**AMBER:** The Percentage of Children Missing Education cases, closed within 30 school days has fallen to 87.9% in September from 91.2% in May to 88.2% and is below the target (90%).

**AMBER:** The percentage of CYP registered to EHE who receive an offer of a visit within 10 school days of them being brought to our attention at 88.5% remains consistently below the target of 95%

**AMBER:** The percentage of DWP and other identified eligible 2-year-olds taking up a free early education place at 68.6% is below the target of 70%. There have been the usual established regular communications with the Early Years and Childcare Sector as a whole, including the weekly topical blog, termly (six times annually) generic Early Years and Childcare Bulletin and ongoing contact with individual providers as appropriate and necessary. The Early Years and Childcare Service's Threads of Success training offer continues to be delivered on virtual platforms alongside increasing levels of face-to-face support, including continuing support for providers in relation to their implementation of the Early Years Foundation Stage.

**GREEN:** The Percentage of Year 12-13 age-group (16-17 year olds) not in education, employment or training (NEET) in September was 2.4% which is above the target of 2.8%. Please note this is a seasonal indicator and numbers will naturally increase as the academic year progresses. For this reason, the DfE uses the rolled average for December, January and February which is 2.8%. When combined with the Not Known cohort (2.3%) the aggregate figure is 5.1% which is an overall improvement of 2.4 percentage points from last year's performance of 7.5%. The improvement is largely due to reducing the number of not knowns through enhanced tracking. There were 758 fewer young people whose activity was not known than in the previous year.
