Reason(s) for decision:

Background

The rates payable by Children’s Services are reviewed annually, with any revisions normally introduced from the start of the new financial year.

Some of the increases are directly linked to the published Department for Education fostering rates, which are reviewed by the Department annually.

Financial Implications

The increase in payments and income have been reflected in the Council’s budget plans presented to County Council on 10 February 2023 under the heading “Inflation - Children’s Social Care” at just over £7.0m. This calculation includes an assumed uplift for all in-house fostering and associated payments. It is estimated the cost of these proposals will be £0.6m more than provided in the

budget as the DFE annual uplift to the National Minimal Allowance was greater than estimated. The Directorate will look to see what alternative management action could be taken to mitigate against this increase in costs and the resulting impact will be reported in the monitoring throughout the forthcoming year. Where alternative compensating actions are not possible the Council has approved a £12m contribution to the risk reserve in 2023-24.

Legal implications

The national minimum standards, together with regulations on the placement of children in foster care, such as the Fostering Services (England) Regulations 2011, form the basis of the regulatory framework under the Care Standards Act 2000 for the conduct of fostering services. The report distinguishes between those rates over which Members can exercise their discretion, and those set by Government or external agencies.

Equalities implications

We have not assessed any adverse impact within these proposals to increase funding rates for children's services.

Cabinet Committee recommendations and other consultation:

The Children's and Young People Cabinet Committee considered the decision on 8th March 2023.

Any alternatives considered and rejected:

The alternatives would be to either:

- Freeze the rates at 2022-23 level or apply a lower percentage increase than proposed. This was rejected on the basis that the security of an annual uplift continues to form part of Kent Fostering's approach to improving the recruitment and retention of foster carers by enabling the service to provide a more competitive package in the carer's marketplace and by not applying a reasonable uplift could put at risk this strategy.
- Apply a higher percentage uplift than propose. This was rejected on the basis that this would be unaffordable within the allocated budget.

Any interest declared when the decision was taken and any dispensation granted by the Proper Officer: None
