# Growth, Economic Development and Communities Performance Dashboard

Financial Year 2022/23

**Results up to end of December 2022** 

**Produced by Kent Analytics** 

## **Guidance Notes**

#### **RAG RATINGS**

Results in this report show either quarterly data or Year to Date (YTD) values.

| GREEN | Target has been achieved                             |
|-------|--|
| AMBER | Floor Standard* achieved but Target has not been met |
| RED   | Floor Standard* has not been achieved                |

<sup>\*</sup>Floor Standards are the minimum performance expected and if not achieved must result in management action

#### **Activity Indicators**

Activity Indicators representing demand levels are also included in the report. They are not given a RAG rating; instead, they are compared with previous year or tracked within an expected range represented by Upper and Lower Thresholds. The Alert provided for Activity Indicators is whether they are in expected range or not. Results can either be in expected range (**Yes**) or they could be **Above** or **Below**.

LRA01 – The number of visits to libraries and mobiles was 26% higher than expected for Quarter 3. Visits remained fairly high in this traditionally quieter Quarter which likely reflects not only the continued recovery of libraries but also their use as warm spaces during the winter months.

LRA02 – The number of items issued was 3% higher than expected, with children's issues remaining high, possibly as a legacy of the successful Gadgeteers Summer Reading Challenge and the continued growth of e-issues, which have increased by 13% on the same Quarter last year.

LRA05 – The seasonal downturn after the summer period was not as great as expected with the upper expectations for contacts being exceeded slightly.

LRA27 – the number of online contacts to Kent Archives did not meet expectations in Quarter 3. Use of the kentarchive.org website has been decreasing as it has been in place for some years now, so regular researchers are likely to have saved their searches and the PDF guides created by the team to support customers, which means that there is less navigation around the site. Social media engagement has also fallen, possibly due to the increased use of the physical service.

EPE16 – The median number of days is now at floor level and though an increase on the previous Quarter, reflects an improvement over the position for the same period the previous year; vacancies have now been filled and it is anticipated that this will positively impact performance in future quarters.

COR01 – The coroner service is reliant on information from the NHS particularly in order to progress cases and while the NHS continues to be under pressure, the information is not always provided as quickly as we require in order to progress cases in an optimal time frame. This has been exacerbated by the recent and current NHS and doctors strikes. There has also been some impact from sickness absences within the team.
