Summary and recommendations of equality analysis/impact assessment

- **Context**

The new secondary school at Chilmington Green is the strategic solution for the additional secondary school places required in Ashford. The school is expected to be funded by the DfE via the 'wave' programme, has a sponsor in ULT and has planning permission in place.

Forecast suggest that there will be a significant deficit of Year 7 places in Ashford in 2023-24 and onwards with little options to add additional place above what has already been agreed in existing schools. The opening of a new school would provide the capacity needed.

Given that KCC have existing buildings which can be used as a temporary home for Chilmington Green, it would be in the best interest of families in Ashford to open the school off-site as it would avoid KCC having to look at the possibility of transporting pupils out of the Borough to secure secondary school places.

1

Utilising the former Ashford South school site for temporary provision would seem to be the best option available given that the costs are less than that at Linden Grove, the location to the centre of Town and that it is the preferred option of the sponsor.

- **Aims and Objectives**

To ensure that there are sufficient, high quality, non-selective secondary school places in Ashford for all who require a place, including those required to enable parental choice.

- **Summary of equality impact**

Adverse Equality Impact Rating Low

Equality Analysis /Impact Assessment

Protected groups

No negative impact on protected groups is anticipated.

Information and Data used to carry out your assessment

In Ashford Borough secondary school rolls have risen significantly over the last 10 years. For several years, school leaders have temporarily offered places above their published admissions number to support KCC in being able to allocate sufficient places for National Offer Day.

The pressures for non-selective places in the Ashford Town non-selective planning group are particularly acute. Published pupil forecasts (figure 1) would suggest there will still be a significant deficit of Year 7 places which has to be addressed throughout the Plan period. The latest forecasts, yet to be published, suggest a significant increase in the deficit of places for September 2023 with -149 place being required.

The information and data used to carry out the assessment is taken from school census records (October 2021) and the published data shown in the County Council's Commissioning Plan for Education Provision in Kent 2022-26 which is a five-year rolling plan that is updated annually. It sets out KCC's future plans as Strategic Commissioner of Education Provision across all types and phases of education in Kent. A copy of the plan can be viewed from this link:
