Guidance Notes

Notes: Please note that there is no 2019-20 or 2020-21 Education attainment data due to the impact of Coronavirus (COVID-19).
 Figures for indicator CYPE8 (Rate of proven re-offending by CYP) shown in red have not been published by the Ministry of Justice (MoJ) but are included for information in this scorecard.
 Please note that not all Children's Social Work indicators can be shown broken down by District for the associated CSWS team, as caseloads relating to these indicators are held by Area and Kent LA level teams. Cases included in a dataset are based on the Service working with the child and not the child's geographical residence. For new Teams/Services that are created within CSWS or EH, there will be no historical data shown initially, as it is only available from the point at which the new Team/Service begins.

POLARITY

- H** The aim of this indicator is to achieve the highest number/percentage possible
- L** The aim of this indicator is to achieve the lowest number/percentage possible
- T** The aim of this indicator is to stay close to the target that has been set

RAG RATINGS

- RED Floor Standard* has not been achieved
- AMBER Floor Standard* achieved but Target has not been met
- GREEN Target has been achieved

* Floor Standards are set in Directorate Business Plans and if not achieved must result in management action

Commentary on Education SEND Indicators:

One of the barriers to issuing EHCPs within 20 weeks has been the backlog within the Educational Psychology service for Educational Psychology assessments. Focused work has been taking place to reduce this backlog and following a previous rise it has now reduced again. Another contributory factor is staffing challenges across the SEND services. Recruitment has been continuing to the new structure and is largely complete. A new app is currently being tested to record all SEN staff (joiners and leavers) and once this goes live this data will be available on a monthly basis. New staff are being supported through induction, and all staff are attending mandatory training sessions. Now the new structure has been recruited to the staffing should be more complete and stable from September, so this should start to have a positive impact.

Directorate Scorecard - Kent KPIs

Commentary on Integrated Children's Services Indicators:**Children's Social Care**

RED: At 74.4% the percentage of children in care placed in KCC foster care, or in placements with relatives/friends, is just below the floor standard of 75.0%. The target of 85.0% is an aspirational target set to drive up the use of in-house provision and historically performance has remained stable at around 80.0%. However several factors contributed to the lower rates over the last 12 months. There has been an increase in the number of children in care, some of which is due to the extended timescales for care proceedings to be concluded which has meant that many babies and younger children are remaining in care longer. Recruitment and retention of foster carers also remains a challenge especially during the current cost of living crisis, not only for Kent but across the South region and nationally. This has been highlighted within the recent Government Social Care Review which was published in May 2022. Foster homes for children to live together with their parents and homes for siblings remains a high priority but recruitment of these provisions within Kent remains a significant challenge. Actions being taken include a continuous focus on the recruitment of foster carers, with particular emphasis on some geographical areas and types of carers required, for example to increase the number of foster carers who are able to accommodate parent and child placements. Work has also commenced with Local Authority colleagues in the South to apply to become one of the pilot Regional Care Co-operatives so that the recommendations of the Social Care Review can be implemented to start to address some of the barriers to recruitment.

RED: The percentage of case holding posts filled by permanent qualified social workers is 74.0%, just below the floor standard of 75.0%. The average performance for the last 12 months is 75.8%, significantly below the target of 85.0% (which is based on the national average for Agency Social Workers of 15%), Recruiting and retaining qualified social workers remains a priority for CYPE and a range of initiatives are being explored and implemented. These include the review of work undertaken by social workers to consider whether some tasks can be undertaken by alternative roles such as Social Work Assistants. The annual collection of Children's Social Care Workforce data, provides some comparative data as at 30th September 2022 - Social Work Vacancies: Kent 16.5%, England average 20.0%, SE average 18.8%; % Agency Social Workers covering vacancies - Kent 12.3%, England average 17.6%, SE average 17.9%; Social Worker turnover - Kent 15.9%, England average 17.1%, SE average 18.6%.

RED: The average caseload in the Children's Social Work Teams (CSWT) is 23.7 cases, which is above the target caseload of no more than 18 children/young people. The challenge with caseloads relates to increases in demand and the turnover rates for qualified social workers (please see commentary above).

AMBER: The Percentage of Returner Interviews completed for those with Children's Social Work Involvement is 84.4%, below the Target of 90.0% Target and continuing a trend of decreased performance. The form held on the Case Management System is scheduled for review and analysis for this piece of work will identify the issues relating to non-completion and how this can be improved

AMBER: The percentage of care leavers in education, employment or training (of those KCC is in touch with) is 59.6% which is a 1.7% reduction from the previous month (June 2023), and below the Target of 65.0%.

AMBER: The average caseload in the Children in Care (CIC) Teams is 17 cases, which is above target of no more than 15 children/young people. This is a slightly improved position when compared to the previous month. The number of children in care (excluding UASC) has increased 6.1% when compared to July 2022. A comprehensive set of measures to improve the recruitment and retention of social workers is in place, aimed at reducing the average caseloads for all teams.

GREEN: The percentage re-referrals to Children's Social Work Services within 12 months of a previous referral was 23.4% for July 2023, achieving the Target of below 25.0%. This performance compares to the latest published England average of 21.5%, 20.4% for Kent's Statistical Neighbours and 25.9% for the South East (all comparative rates are for 2021/22 performance).

GREEN: The percentage of children becoming subject to a child protection plan for the second or subsequent time is 21.2% which is within the target range of 17.5% - 22.5% and compares to average rates for England of 23.3%, Statistical Neighbours 23.8% and the South East 23.7% (2021/22).

GREEN: The percentage of Children in Care in same placement for the last two years (for those in care for two and a half years or more) is 73.4% and above the Target of 70.0%. Kent's performance remains above the latest published average for Kent's Statistical Neighbours of 72.1%, the average for the South East of 68.0% and the England average of 71.0% (comparative data is for 2021/22).

GREEN: The average number of days between becoming a child in care and moving in with an adoptive family is 332 days, within the nationally set target of less than 426 days. The average number of days had been increasing as a result of delays to court hearings but in recent months the average number of days has started to reduce, improving performance against this measure. This compares to the latest published England average of 367 days, the average of 333 days for Kent's Statistical Neighbours and an average of 364 for local authorities in the South East Region (data is for 2021/22).

GREEN: The percentage of Children's Social Work Case File Audits graded good or outstanding is 88.5%, which is above the 80.0% Target.

Directorate Scorecard - Kent KPIs

Commentary on Education Indicators:

The majority of education indicators are annual. Commentary has only been provided for indicators where new data has been published since the last scorecard was issued where targets exist.

RED: The number of permanent exclusions from secondary schools at 56 pupils is above the target of 24. PRU, Inclusion and Attendance Service (PIAS) Inclusion Advisers work regularly with SEND Inclusion Advisers and Specialist Teachers using reports produced by the Management Information team with the latest data which identifies pupils who have been persistently suspended to ensure support is in place from KCC to try to reduce suspensions and risks of permanent exclusion. PIAS will be moving into the Education section of the CYPE directorate in September which will enhance opportunities to work with colleagues from the SEN service to examine the correlation between pupils with SEN and suspensions, and to set up robust action plans in the new academic year.

RED: The percentage of pupils at KS2 achieving age-related expectations in Reading, writing & mathematics - FSM gap at 28.0 is above both the target (22.0) and above the early emerging national gap.

AMBER: The Percentage of Year 12-13 age-group (16-17 year olds) not in education, employment or training (NEET) in July was 3.5% which is above the target of 2.8%. Please note this is a seasonal indicator and numbers will naturally increase as the academic year progresses. For this reason, the DfE uses the rolled average for December, January, and February. Provisional data for 2022/23 shows Kent to have 3.3% NEETs, which combined with the Not Known cohort (2.5%) the aggregate figure is 5.8%. The latest national NEET and participation scorecard that has been published by the Department of Education for 2021/22 shows Kent to be 5.1% compared to the South East at 5.4% and England at 4.7%.

AMBER: 15 primary aged pupils were permanently excluded from school during the last 12 months; three pupils above the target.

AMBER: The percentage of DWP and other identified eligible 2 year olds taking up a free early education place at 69.2% is just 0.8 below the target of 70%. This compares favourably to last year's take-up of 67.1%.

AMBER: The percentage of pupils at EYFS achieving a Good Level of Development - FSM gap at 21.4 is above the target of 19.7 and above the early emerging national gap of 19.9

AMBER: The percentage of pupils at KS2 achieving age-related expectations in Reading, writing & mathematics at 58.7% is below the target (61.0%) but in line with the national performance (59%)
