**8. Aims and Objectives and Equality Recommendations** — Note: You will be asked to give a brief description of the aims and objectives of your activity in this section of the App, along with the Equality recommendations. You may use this section to also add any context you feel may be required.

Since the inception of Early Help and Preventative Services (EHPS) in 2015, Kent County Council (KCC) has been able to maintain a comprehensive Open Access offer, including both universal and targeted provision, delivered through both KCC staff and settings and commissioned services across the 0-19 years age group.

Open Access services work closely with partners including Public Health services such as Health Visiting provisionthrough co-location. Currently we commission two Children's Centres in Kent (Millmead and Seashells) and 12 district-based youth service contracts.

In his budget announcement in October 2021, the then Chancellor, Rishi Sunak, outlined his plans for the roll out of a national Family Hubs programme launching the programme in November 2021. The programme is led by the Department for Education (DfE) in collaboration with the Department of Health and Social Care (DHSC) to ensure there is policy integration at national level to develop an enhanced multiagency partnership. The framework was developed following the Early Years Healthy Development Review published in 2021 (The Best Start for Life, A Vision for the 1001 Critical Days). The in-depth research and engagement was conducted by a review team including parents, carers, sector professionals, volunteers and academics.

KCC is committed to the implementation of Family Hubs in Kent as part of its ambition to deliver the best outcomes for all children, young people, and their families, delivering services identified through the Family Hub guidance.

The DfE launched the national Family Hub Programme Framework in August 2022 alongside an application for 75 Local Authorities to apply for transformation funding to create multiagency community-based provision. Kent was identified as one of the eligible Local Authorities for funding aligned to the Family Hub and Best Start for Life strategy.

The DfE sets out key funded areas as part of the Family Hub model and transformation within the Start for Life offer. This includes Parenting Support.

Parenting supports builds on our existing model, we intend to introduce a new programme of support that has a proven track record of success and will complement the existing service, it will allow a consistent evidence based approach across the county. The new parenting support model will include pre and post-natal parents through adolescence to adulthood

The analysis from the available evidence suggests that the development and implementation of Family Hubs in Kent and the delivery of Parenting Support may have impacts for all protected characteristic groups due to the mixed client base:

- Age
- Disability
- Sex
- Race
- Religion and Beliefs
- Pregnancy and Maternity
- Carer Responsibilities

# **Section B – Evidence**

## 13. Who have you involved, consulted and engaged with?

Please give details in the box provided. This may be details of those you have already involved, consulted and engaged with or who you intend to do so with in the future. If the answer to question 12 is 'No', please explain why.

Initial informal engagement took place with staff, service users and partners to explore the themes and aims of a Family Hub model in Kent to inform the proposals as the programme began to evolve. Colleagues from across Integrated Children's Services have spoken with KCC staff, health visitor and midwifery colleagues and other public health colleagues and commissioners.

Staff engagement has included information sessions, with a guest speaker from the Anna Freud Centre, who had been appointed by the DfE to support the implementation of Family Hubs across England. Further area-based engagement sessions have taken place with Open Access staff and a Let's Talk Kent platform has been set-up to take feedback directly from Open Access staff.

Further consultation and engagement has taken place and will continue with internal and external stakeholders as well as children and young people, parent /carer representatives throughout the duration of this programme of transformation.

The Family Hub services consultation launched on 19 July 2023and will run for a period of 8-weeks, closing on 13 September. The consultation aims to gather the views of the community about the proposed changes to Children's Centre services, youth provision, health visiting and community-based midwifery care.

17. Are there any positive impacts for all or any

of the protected groups as a result of the activity that you are doing? Answer: Yes/No

#### 18. Please give details of Positive Impacts

The principles and framework for the Family Hub model, as set out by central government, are built based on improving user experience by:

- 1. increasing access to a wider range of services in one place or under one shared umbrella;
- 2. improving the interface and join-up between services; and
- 3. having services working within practice that builds on strengths and puts children and their families at the centre of services.

The positive impacts that we anticipate:

#### **Service Users/Clients**

- Enhanced parenting programmes that are more accessible for parents through the digital and virtual opportunities
- More opportunities for Fathers/partners to engage in parenting programmes
- Flexible parenting programmes that are specific to the needs of parents
- Triple P parenting programmes allows more bespoke intervention around family needs
- Enhanced programmes for parents of children with additional needs or disabilities
- Sustainability with enhanced knowledge, skills and joint working providing targeted parenting support once funding has ceased
- Greater balance of evidence-based programmes

#### **Staff and Volunteers**

- Training opportunities to further develop staff
- Opportunities for parents/carers to become volunteers
- Opportunities for volunteers to be part of parent/carer panels to help co-design family hub service services

#### **Residents/Communities/Citizens**

Promoting positive parenting. Families are the basic and essential building blocks
of societies and have a crucial role in social development. They bear the primary
responsibility for the education and socialisation of children as well as instilling
values of citizenship and belonging in society

## **Negative Impacts and Mitigating Actions**

The questions in this section help to think through positive and negative impacts for people affected by your activity. Please use the Evidence you have referred to in Section B and explain the data as part of your answer.

	c,and d).	
b)	<b>Details of Negative</b>	Existing KCC staff will be seconded into parenting roles which
	Impacts for Age	will create vacancies within the service. If these posts are not
		backfilled in an attempt to save money due to the existing
		budget pressures, this could lead to a reduction of parenting
		programmes for parents with children over the age of 2.

c)	Mitigating Actions	Whilst we will be unable to backfill all vacant posts as a result of
	for age	the new Parenting model, we can backfill some to mitigate the
