Aims and Objectives

The Public Health Service Transformation Programme aims to:

Improve services for our communities; targeting those who need them most; informed by evidence and ensuring join up and alignment internally as well as with other related services

Maximise impact of investment; spending where it can have the biggest impact. This will ensure Public Health Services are efficient and reprofile funding into a new prevention proposition

Quality assure services against best practice; ensuring they are safe and effective

Ensure services are fit for the future, sustainable and responsive to need (political, economic, social, technological, legal, international and environmental) and continue to be affordable. This will include managing changes in demand, ensuring provider capacity and capability, insights-led changing trends in society and utilising new technology.

Yes
Details of Positive Impacts
<p>The service's specification is being refined to ensure all protected groups are able to have equal access and benefit from the service.</p> <p>A specific women's pathway is being developed to recognise the different needs and experiences of this group. This will support a bespoke recovery offer for this cohort moving forwards and the women's only group 'Worth' has been designed to support and empower women to make positive changes. Women specific recovery housing also exists, offering personalised support as well as help with resettlement.</p> <p>A specific pathway for the neurodivergent community will also be developed.</p> <p>The contract will continue to fund an LGBTQ+ Inclusion Worker - this worker will not only support this cohort directly, but will continue to upskill and educate all frontline staff on some of the issues this group may face and how best to engage with support this cohort. They will also share appropriate resources and partner agency details.</p> <p>To support the Nepalese speaking community in Kent, a Nepalese speaking group has been established, allowing service provision to recognise Nepalese social and cultural contexts and enabling service users to recover in their own language.</p> <p>The service supports a wide range of underserved groups. A particular focus for the service is supporting those with co-occurring conditions such as mental and/or physical health needs.</p> <p>In order to ensure accessibility for those with additional needs, the service offers a number of different options when it comes to service delivery e.g. residential rehab, detox, community treatment, day programme, blended offer (online and face to face). Similarly, a number of different referral options enable</p>

users to access the service through whichever option is most convenient.

Kent's new Lived Experience Recovery Organisation will develop close links with the East Kent service to ensure further co-production of the service offer and accessibility, this will include leads in areas such as families and advocacy.
