

Summary of Budget Consultation

The Council's 2025-26 budget public consultation ran from 13th June to 7th August 2024. It was hosted on the Council's Let's talk Kent website and can still be viewed via this link <https://letstalk.kent.gov.uk/budget-consultation-2025-26>.

In total, 2,389 people responded to the questionnaire, which is 8.8% lower than the response rate to last year's budget consultation. Responses were received from Kent residents, KCC staff, and a range of local businesses and organisations. 30% of respondents found out about the consultation via Facebook, and 25% via an email from Let's talk Kent or the Council's engagement and consultation team.

A supporting document was provided, which set out the background to the consultation including: key facts about Kent; KCC's strategic priorities; the financial challenges the council has had to address in recent years including areas of significant spending growth in particular in providing services for the most vulnerable residents; an overview of how the Council plans to spend the 2024-25 budget and how we are funded; and the 2025-26 financial challenge. The document included information on the council tax referendum principles, the assumed increases for 2025-26, and the impact on council tax bills. The document sets out the financial outlook for the forthcoming year and that difficult decisions will be needed to balance significant forecast spending increases with the forecast resources from council tax and central government settlement.

The consultation sought views on council tax proposals for both general council tax and the adult social care levy, and asked respondents to indicate their level of support for increases in line with, above (for general council tax only), or below the referendum level, or whether they are opposed to an increase. The consultation sought views on how services should be prioritised and savings should be made, by asking for levels of comfortableness with making spending reductions across the Council's different service areas, as well as which of these service areas to prioritise if there was only £1 of investment left to make. The consultation also sought views on some specific approaches to saving the Council money or generating more income and asked for any other suggestions on ways to make savings or increase income.

A detailed report setting out the responses received from the public consultation is included as a background document to this report along with feedback from engagement with VCSE sector. An exercise with KCC management cohort is reported separately from the public consultation.
