### Aims and Objectives

The aim of the project is to provide sufficient electricity to a new School Building development. In order that an adequate electricity supply can be provided to the new facility, it is necessary for a new electricity substation to be provided on the Site which will exclusively serve the new School Buildings.

The Land upon which the substation is to be installed comprises an amenity area which is not proposed to be used by the School for any of its statutory outdoor education requirements

Once the new substation has been installed this project will be fulfilled and will enable the School Buildings to be brought into use.

There will be no loss to the School's education requirements, nor to any of its staff, pupils and visitors as a result of the installation of the substation.
