Anjan Ghosh - AH Public Health

Aims and Objectives

The aim is to re-commission the Kent Drug and Alcohol Inpatient Detoxification (IPD) Service as part of the Kent Consortium. The objective is to build sustainability into the local system and speed up access to IPD, by ensuring bed nights are purchased in advance and priority access is given to residents within consortium member local authorities (Kent, Medway, Surrey, and Oxfordshire).

Current evidence suggests there is no negative impact and this recommendation is an appropriate measure to advance equality and create stability for vulnerable people.

Section B – Evidence

Do you have data related to the protected groups of the people impacted by this activity?

Yes

It is possible to get the data in a timely and cost effective way?

Yes

Is there national evidence/data that you can use?

Yes

Have you consulted with stakeholders?

Yes

Who have you involved, consulted and engaged with?

Consortium Members

Drug and Alcohol Providers Public Health Consultant Office for Health Improvement and Disparities (OHID) regional leads Reach Out and Recover (ROAR) - Kent's Lived Experience Recovery Organisation (LERO)
Has there been a previous Equality Analysis (EQIA) in the last 3 years?
No
Do you have evidence that can help you understand the potential impact of your activity?
Yes
Section C – Impact
Who may be impacted by the activity?
Service Users/clients Service users/clients
Staff Staff/Volunteers
Residents/Communities/Citizens Residents/communities/citizens
Are there any positive impacts for all or any of the protected groups as a result of the activity that you are doing?
Yes
Details of Positive Impacts
1. Age Young adults: Improved access to specialist detox services can prevent long-term substance misuse and associated harms. Older adults: Tailored support for age-related health conditions and poly-substance use, improving quality of life and reducing hospital admissions. 2. Disability Mental health conditions: Enhanced therapeutic alliances and trauma-informed care can improve engagement and outcomes. Physical disabilities: Accessible facilities and support services ensure equitable treatment experiences. 3. Gender Reassignment Services can be designed to be inclusive and sensitive to the needs of trans and non-binary individuals, reducing stigma and improving engagement. 4. Marriage and Civil Partnership Support for family and relationship dynamics during recovery can strengthen social networks and reduce relapse risk. 5. Pregnancy and Maternity Specialist pathways for pregnant individuals with substance misuse issues can reduce risks to both parent and child, improving maternal and neonatal outcomes. 6. Race Culturally competent care and targeted outreach can address disparities in access and outcomes for ethnic minority groups. 7. Religion or Belief Respect for religious practices (e.g. dietary needs, prayer times) within inpatient settings can enhance comfort and engagement.

8. Sex

Gender-specific services (e.g. women-only groups) can provide safer spaces for recovery, especially for those with histories of trauma.

9. Sexual Orientation

LGBTQ+ inclusive services can reduce barriers to access and improve trust in healthcare providers.

Negative impacts and Mitigating Actions

19. Negative Impacts and Mitigating actions for Age

Are there negative impacts for age?

No
