Aims and Objectives

This aim of the project is to consider the final options for delivering Biodiversity Net Gain (BNG) units at KCC sites and explores opportunities to scale a wider programme of selling units across KCC's freehold land— particularly sites that are vacant, surplus to requirements, or challenging to dispose of.

The objectives of the project are to implement a pilot for Biodiversity Net Gain (BNG) on the ex-tenant farm fields at Preston Hill, evaluate the associated value proposition, and determine the preferred option to be taken forward in the final business case.
