# <u>Application for Village/Town Green registration</u> <u>Commons Act 2006 section 15</u> <u>Evidence</u>

### Location

This is a parcel of land adjacent to the Barnes Car Park to which it lies to its West. Please see exhibit 1, 2, 3 and 4 for location.

### **Reason for application**

This land has been used for over 50 years as an amenity by local residents and visitors alike. It lies under the cliff and between the promenade and the cliff. It has never been fenced and is believed to have been in existence since the building of the sea wall in the late 18 hundreds. It was at one time known as "Sea Walk". The parcel of land gives a natural relief from the busy bays of Westbrook and St Mildred's which lie to the east and west respectively. The promenade forms part of the Viking Coastal Trail.

Thanet District Council, after a misleading consultation, have voted to dispose of a major part of this land and sell it to "preferred developers" with likely use as a coach park or beach huts. This would be totally inappropriate and a great loss to both wildlife and the residents that use and enjoy it. The Thanet coast is quite unique for both its chalk and wildlife as born out by the fact it has been designated as of special scientific interest.

The coastline has been built up and developed over the years and there has been a continuing loss of open spaces on the coast. This application is made in the hope of preserving a small part of it for the benefit of future generations.

#### Evidence

I have lived in Westbrook since 1971 and in the area generally since 1951. To the best of my knowledge this land has been unfenced with public access for well over 20 years. Please see exhibit 5 which is a copy of postcards probably over 50 years old showing the existence of the promenade and parcel of land available for public access. This land has been used regularly by dog walkers, picnickers, walkers, bird watchers and at one stage had picnic tables. See exhibit 8 there are concrete stands where I understand they were located. You will also see well trodden paths on this land.

A request was made last year for the council not to cut the grass as it had several wild grasses, plants and shrubs frequented by seed eating birds and is used at night in winter for roosting by Turnstones when the weather is bad.

Many dog walkers use this piece of land to exercise their dogs throughout the year and especially so when they are banned from the beach in both the adjoining bays during the summer months.

There is a public bench located on this land and this is often used by cyclists for a break on the Viking Cycle Way and walkers to sit and enjoy the sea views and interesting wildlife to been seen on this stretch of Chalk reef.

Exhibit 5 shows the land as it is at present and I have also enclosed other exhibits showing old postcards of the surrounding area as evidence as to the age of the promenade in general.

I also enclose a copy of press cutting which explains why I feel strongly that this land should be preserved both for wildlife and residents.
