The Kent Improvement Plan

This document describes the planned actions to improve services to children and/or support looked after children. It outlines immediate as well as longer term actions to embed an understanding of the type of focus that should be maintained, irrespective of various ongoing external and internal challenges.

The actions in this plan are aligned with the actions in the East and West Kent Health improvement plans. Specific actions to be achieved jointly with partners are indicated throughout the plan.

Partners across a range of agencies including Health, Education, Police and Probation have contributed to this plan and will be actively involved in its achievement. See Priority 4 – Strengthening Partnership for particular details.

Governance Arrangements

An Improvement Board was established in February 2011 to support rapid and sustainable improvement of services that safeguard children and/or support looked after children. Its key roles are to agree, monitor and report progress on the actions in the Improvement Plan. This will include monitoring the targets set out in the Kent Improvement Notice issued by the Secretary of State in January 2011 and added to in March 2011. The Board has an independent chair, Liz Railton, who has been approved by the Parliamentary Under Secretary of State for Children and Families. She will report directly to the Minister and the Leader of the Council on progress on a quarterly basis. The Board will meet monthly and its membership will include:

- The Independent Chair
- KCC Managing Director
- KCC Lead Member
- KCC Managing Director Families and Social Care
- KCC Director of Specialist Children's Services, Families and Social Care
- Department for Education observer
- KSCB Independent Chair
- Chief Executive, Kent & Medway PCT cluster
- Chief Executive, Kent Community Health Trust
- Kent Police

The Board's work will also be reported to:

- Kent Children's Trust Board
- Kent Safeguarding Children's Board
- Members of Kent County Council
- NHS PCT Boards, East and West Kent and the Strategic Health Authority via Health partners

Overall Context

For some years Kent County Council (KCC) has been regarded as a good local authority in relation to children's services, and previous inspections of KCC and its partners have judged children's services to be 'good'. However, following the learning from Haringey, the nature of inspection has fundamentally shifted away from more managed, notified models such as the Joint Annual Reviews, and towards unannounced inspections.

It is now apparent that in Kent, 'good' services have not been consistently underpinned by a culture that secures appropriate levels of transparency, accountability and ownership to result in responsiveness to emerging issues of concern, including the increased demand on specialist services. As a result, safeguarding and looked after children services are currently judged by inspectors as inadequate.

These inspections (conducted by Ofsted and by the Care Quality Commission) have resulted in clarity about the collaborative partnership effort and clear focus now required.

National and Local Context - Challenges

The improvement actions outlined in the plan are being taken at a challenging time for public services, with significant pressures on resources together with new policies and strategies being formulated and implemented by the coalition government. For Kent County Council, the response to these imperatives includes council-wide organisational structural redesign. The new Families and Social Care Directorate will secure greater alignment of activity across age groups and integration of care pathways. A new strategic commissioning function will also address need and commissioning across all care services and drive a family approach to prevention and support within the council and partnership organisations. The twelve children's trust district boards will be retained, which bring partners together in localities to drive the delivery of the Every Child Matters agenda.

Whilst these contextual features pose challenges, the Council and its partners are determined to maintain a rigorous focus on vulnerable children particularly those in need of safeguarding and being looked after.

Partnership Vision for Children and Young People

Kent County Council and partners have outlined the following vision for children and young people:

"In Kent successful achievement exceeds aspiration, diversity is valued and every child and family is supported. Children and young people are positive about their future and are at the heart of joined up service planning. They are:

- *nurtured and encouraged at home*
- *inspired and motivated by learning*
- *safe and secure in the community and*
- *living healthy and fulfilled lives*

We have an additional vision that the improvement actions lead to:

- Children's needs being identified and responded to at the earliest stage possible to increase the potential for them to achieve their life chances.
- Children who are eligible for specialist children services receive a good quality service.
- Leadership, management and practice that is effective in safeguarding those children that need it.

Strengths

Despite the inspection judgement of 'inadequate' (including some serious and significant areas of concern) there are many commendable aspects of the service currently in place to support vulnerable children. Inspectors highlighted these in their feedback and report. These included:

- Feedback from children and young people (7 to 16 years olds) that they feel safer at school.
- Council Members champion the rights of children and young people through the Children's Champion Board. The Board is well established and has recently developed a clear relationship with the children in care council. As a result young people and Members meet regularly in a variety of settings, some of which are informal at the request of the young people concerned. Both groups speak positively about this process and the progress that is being made.
- The County's diversity and equality strategy and attendant policy and procedures are implemented effectively. In particular, the council and partners have responded well to the challenge of providing services to high numbers of asylum seeking young people. However, the recording of ethnicity on children's records requires attention because there are examples of occasions when this information has not been completed.
- Some good and effective services provide support to looked after children and young people. These include Catch 22, the fostering service (including the treatment and multi-disciplinary team fostering), the adoption service, the service to unaccompanied asylum-seeking children and young people, and the advocacy and support services provided by Action for Children.
- The disabled children's team provides a good service. Effective use of Aiming High investment opportunities has led to improved outcomes such as increased availability of short breaks with foster carers for disabled children.
- Improved and outcome focussed commissioning and the development of the county's own fostering service which has significantly increased choice

of placement and enabled skilled, specialist resources to become available to children and young people.

- Placement stability has increased and young people themselves report very positively about some of the help and assistance they have received from services such as the post-16 team.
- Effective Corporate Parenting focus has produced good outcomes particularly in relation to housing for care leavers.
- The proportion of care leavers in education, employment or training was higher than the statistical neighbour average in 2009 and around the same as the England average. Further progress has been made in 2010 and the proportion is now higher than the England average.
- The customer care service which manages complaints is good and provides effective reporting. Feedback is given routinely to managers and staff and the analysis of complaints is thorough and effective, lending itself to informing service development and management. Learning (*from complaints*) is integrated into training programmes including induction and managers are responsive to complaint feedback.

Strengths identified by the Care Quality Commission (in respect of Health)

- In Primary Care Trusts (PCTs) and Acute Trusts there is a strong strategic awareness of the importance of safeguarding and a high awareness across health staff.
- Safeguarding policies and procedures are sound and available to staff in all locations visited and there is an extremely good system of safeguarding supervision in place across all services inspected (West Kent).
- Learning from serious case reviews (SCR) amongst health partners is very good.

Areas of Concern

Ofsted found the following areas for attention and action:

- Action had not been taken to sufficiently address concerns identified through audits or the unannounced inspection of contact, referral and assessments in August 2010.
- There were ineffective quality assurance and performance management arrangements and inconsistency in supervision practice.
- There were capacity challenges in different parts of the County which were not addressed.

- The long term teams hold a mixture of cases (CIN, CP and LAC including cases involved in care proceedings). Priority is frequently given to cases in crisis leaving other cases without the focus required. There is a need to review the effectiveness and impact upon the quality of service provided to looked after children.
- The level of recording of interventions, case planning and reviewing is not adequate and this is compounded by poor implementation of the ICS system which is recognised as being ineffective in supporting the business processes of the organisation. Three disconnected systems including ICS are in place and running in tandem to compensate.
- The limited development of preventative and early intervention services across the partnership and the lack of consistent understanding of thresholds and eligibility for specialist social work services with limited implementation of the Common Assessment Framework (CAF) and the Team Around the Child approach.
- Insufficient level of child centred direct work including in the context of timely assessments of children, young people and their families.
- Agencies do not exercise their safeguarding responsibilities appropriately by ensuring that their referrals contain accurate and sufficient information to enable informed responses to be made.
- Although reducing now, caseloads of front-line workers have been too high. This has been compounded by the current cohort of social workers who are inexperienced and new to the UK needing a higher level of support than experienced workers. As of February 2011 there are significant vacancies at the first-line management level (16 permanent Principal Social Worker vacancies).
- The inspection by the Care Quality Commission (CQC) found that Health providers and commissioners need to secure health assessments for looked after children; screen for substance misuse given the prevalence of substance misuse in over more than half of birth families. They also found that CAMHS support is inadequate with inconsistent community provision for young people between 16 and 18 years.
- Education achievement of looked after children and young people needs to improve as well as the need for reductions in exclusions, improvements in attendance, and greater consistency in the quality of Personal Education Plans.

Our Approach to Improvement

Our action plan has been built around six key themes. These are:

Priority One: Providing confident leadership and management across children's services

- A clear vision and sense of direction
- Modelling professional competence, confidence and self belief
- Providing leadership at every level
- Prioritising and pacing the actions to achieve change so that it is manageable, achievable and sustainable
- Communicating clear expectations throughout the organisation and across the Kent Children's Trust partnership
- Supporting, problem solving and listening (including high quality supervision)
- Rewarding and celebrating excellence
- At all levels, holding people to account for poor performance
- Management that is responsible, proactive and solution-focussed

Priority Two: Putting in place effective front-line practice

- Effective multi-agency early intervention and prevention
- Consistent implementation of thresholds, appropriate management of risk and confidence in knowing when to intervene
- A robust, consistent system for responding to referrals, underpinned by high quality practice standards
- A high quality child centred social work assessment service supported by timely decision making
- A high quality family support service
- Building a range of services which support families and their children at the earliest possible point

Priority Three: Creating an organisation fit for purpose

- Putting in place an effective and sustainable structure
- Ensuring accountability and compliance throughout the organisation
- Establishing clear priorities and aligning resources to meet them
- Promoting a culture that embeds the Kent behaviours and competencies
- Ensuring front-line teams receive the infrastructure support they need
- Front door services delivered from offices that are fit for purpose and adequately supported by IT and other systems

Priority Four: Strengthening partnerships to make a difference

- A shared vision by all partners and a commitment to work together to improve services to safeguard and look after children and young people
- A Children's Trust that drives better outcomes for all children and young people
- A Safeguarding Children's Board that supports high quality safeguarding and is open, challenging and honest across the partnership
- Joint commissioning of services that keep children safe and free from harm

Priority Five: Becoming the employer of choice in the region

- Effective source and supply of social workers and managers
- A compelling offer (reward package for recruitment and retention)
- Ongoing recruitment and retention actions
- Induction for a range of staff recruited from different countries and at different levels
- Long term focus on the growth and development of the children's workforce
- Sufficient line management and supervision capacity to guide and support front line workers so they feel safe in carrying out their duties
- An excellent supervision, training and development programme for staff at every level in the organisation

Priority Six: Robustly managing performance

- A comprehensive performance system
- Accurate and timely management information
- A personal accountability structure
- Individual analysis and intervention
- Individual achievement measured
- An effective model of management and supervision
- Supervision and support is informed by management information
- Effective quality assurance of practice

Our Leadership Style to Secure the Improvements

Members and officers are determined to deliver rapid, visible and sustainable improvement to our children's services. Our approach will be steered by the following characteristics:

- **A sense of urgency** – we know that the current situation is unacceptable and we will not rest until services for children are safe
- **Connection to the Front-Line** - listening, understanding, supporting and taking action to assist front-line staff to do a good job
- **An unremitting focus on what is important** - fixing the most important things first
- **Management grip** - driven by strong performance management and tackling problems as they arise in an ongoing way
- **Intolerance of the unacceptable behaviours** - the first step of our improvement journey will be to eradicate unacceptable practice and unacceptable behaviour
- **Complete transparency** - we will produce information that allows elected members, partners, government and the public to understand our progress. Creating a culture of openness to encourage staff to raise concerns/issues
- **The top priority** for KCC and its partners

OUR CORE STRATEGY – THE TEN CORE TASKS

This Improvement Plan will deliver sustained improvement across all of children's services leading to improved outcomes for children and young people within Kent. Our core strategy, however, focuses on tackling those areas of greatest risk first and laying the foundations for more effective practice. The core tasks are as follows, and will be implemented over the next six months:

We will improve the quality of practice by

1. Bringing in a peripatetic team to
 - Reduce the number of unallocated cases
 - Reduce numbers of incomplete assessments
 - Restore timely assessment timescales.
2. Strengthening the quality of work undertaken in the assessment teams with external support, monitoring and audit
3. Restoring throughput, pruning caseloads and reducing the number of children in need
4. Making structural changes for handling initial assessments, fixing Kent Contact and Assessment Service, introducing specialist looked after children teams and ensuring we have the right amount of staff in the right locations
5. Strengthening first line management accountability and the quality of supervision through training, development and audit

We will improve the children's system by

6. Implementing an effective management information and quality assurance framework

7. Filling resource gaps by more effective recruitment and putting in place a compelling workforce strategy
8. Building an effective commissioning framework and range of preventive services
9. Strengthening the Kent Safeguarding Children Board and the Children's Trust arrangements, Common Assessment Framework and threshold arrangements
10. Providing front line teams with suitable accommodation, ICT arrangements, infrastructure and support

The detailed Improvement Plan is set out below, organised against the six key themes, but annotated with references to Improvement Notice Targets (IN 1. to IN 16. – see appendix), Ofsted recommendations (O 1. to O 23. – see appendix) and Core Tasks (CT 1. to CT 10. – as set out above) to show which actions support these targets, recommendations and tasks.

Priority 2: High quality front-line practice

Key Objectives:

High quality, rigorous and consistent front-line practice to safeguard children and young people, including those who are looked after. Appropriate duty and initial assessment arrangements; Manageable workloads; Robust procedures, processes and actions which analyse risk and lead to consistent plans and actions to manage those risk; Front line staff and managers are clear about the arrangements regarding the throughput of work between teams; Effective child protection conference process to ensure multi-agency working which supports effective plans for children and young people; Improved Care Planning and permanence for Looked After Children, Health Needs of Looked After children and young people are addressed; Improvements in educational outcomes for looked after children.

Priority Leads (Accountable) – Alastair Pettigrew,

2.1 Outcome – Children are safeguarded as a result of high quality practice driven by robust management, underpinned by sound systems and processes.

Ofsted Recommendations

Areas for improvement for SAFEGUARDING

Immediately:

1. Review the current childcare caseload and ensure that all children in need of safeguarding and protection are identified and receive appropriate services.
2. Ensure that all partners are fully conversant with the threshold for accessing social care services and provide the appropriate levels of referral information
3. Improve the quality and timeliness of initial and core assessments
4. Establish clear arrangements for the referral and treatment of young people aged 16-18 requiring a CAMHS service

Within three months:

5. Establish systematic performance management processes at all levels to improve the quality of practice and management across the partnership.
6. Improve the child protection conference process to ensure that professionals are properly prepared and service user confidence is restored.
7. Ensure that each child protection plan sets out measurable recommendations
8. Review the effectiveness and value for money of the contact centre
9. Ensure that ethnicity data is entered in each child and young person's electronic and paper file
10. Ensure that health services subscribe to a suitably independent interpreter service

Within six months:

11. Review the workforce and take the necessary steps to address capacity and capability shortfalls.
12. Review the effectiveness and value for money provided by the current computer based recording systems.
13. Take steps to align training and development opportunities with service prioritised outcomes.

Areas for improvement for LOOKED AFTER CHILDREN

Immediately:

14. Ensure that all assessments of looked after children are completed to the standards required by statutory guidance, contain the necessary health and educational information and are included on the child's record.
15. Improve the quality of case planning and ensure that all relevant professionals are able to participate and contribute to the process.

Within three months:

16. Establish a functional performance management system and ensure that the integrated children's system is fit for purpose
17. Ensure that all looked after children can access CAMHS up until 18 years of age
18. Ensure that missing from care and missing from school policies are aligned for looked after children
19. Reduce the numbers of looked after children who are excluded from school and ensure that policies and practices relating to excluded children are consistent across the county

Within six months:

20. Review the effectiveness of generic social care teams for looked after children and their impact upon the quality of service that is provided
21. Develop a multi-disciplinary looked after children strategy and clarify management and leadership roles and accountabilities
22. Develop a screening tool for substance misuse for use with looked after children and young people
23. Strengthen the arrangements for the contribution of the voluntary sector to enable their full contribution to good outcomes for young people and care leavers

Improvement Notice Targets

1. Working with partners to develop preventative and early intervention services across the partnership;
2. Preparing documentation, in agreement with Kent Local Safeguarding Children Board and Kent's Improvement Board, that sets out clear thresholds and criteria for access to children's social care which ensure that children at risk of harm receive intervention identified in the assessment of need in order to minimise risk and that such thresholds and criteria are implemented by all partners and agencies of the Council consistently across the County;
3. Reducing the number of unallocated cases over 28 days to 200 or less, the number of initial assessments out of timescale to 200, and the number of core assessments out of timescale to 100 by August 2011 and thereafter minimising the number of each;
4. Ensuring that the responsiveness and quality of assessments and child protection investigations improve, are clear and evidence based minimising risk and meet the standards set out in 'Working Together to Safeguard Children 2010', ensuring that in all cases referrers are informed of the outcome of all their referrals;
5. Ensuring that a written performance management and quality assurance framework is prepared and implemented by all staff with a view to driving up the quality of social care practice. The framework should include regular auditing arrangements of the quality of case files, the frequency of which should be agreed by the Improvement Board, and ensure that results of audits inform ongoing actions to improve the quality of frontline practice;
6. Ensuring that children in need receive a timely service, minimising risk, by at least maintaining the percentage of initial and core assessments carried out on time as set out in 'Working Together to Safeguard Children' at the levels prevailing when this Improvement Notice was issued;
7. By ensuring that partner agencies have a clear understanding of children's social care thresholds and by ensuring that clear definitions of 'contact' and 'referral' are in place, increase the number of initial assessments of children in need per 10,000 population aged under 18 to be in line with statistical neighbour averages such that the percentage of referrals to children's social care going on to initial assessment increases from the 2009-10 baseline of 46% to 65% over the period January to March 2012 and an average of at least 65% over the period 2012-13;
8. Implementing a programme of review and taking action as a result to reduce the percentage of child protection plans lasting two years or more to 6% over the period 2012-13 whilst ensuring that the percentage of those children who become subject to a child protection plan who do so for a second or subsequent time reduces to the statistical neighbour average;
9. Ensuring that there is sufficient capacity and capability within children's social care and actions are taken to improve the retention and stability of the workforce, in particular by reducing the vacancy rate of qualified social workers to 10%;

10. Developing and implementing a comprehensive programme of induction, training, mentoring and continuous professional development for all social care staff, ensuring effective supervision of child protection social work practice is in place and ensuring that all management oversight and decision-making on individual cases is set out in writing on the case files, that these activities are reviewed and the results inform the ongoing development of practice;
11. Developing and implementing a multi agency looked after children strategy which clarifies the respective responsibilities of all agencies and which supports improved outcomes for children in care;
12. Working with the children in care council and others as the Council thinks is appropriate to ensure that all children in care are routinely made aware on a regular basis about how they can contribute to the development of the service or make complaints;
13. Improving the quality of care plans, by improving the assessment of looked after children and ensuring that all plans contain health and education information and that Independent Reviewing Officers are used to assure quality and challenge casework decisions and unacceptable delays in meeting statutory requirements;
14. Improving the percentage of children adopted to 11% by March 2012 and to 13% over the period 2012-13;
15. Working with schools and others as appropriate to develop and implement a strategy to improve the educational achievements of children in care, such that the following quantitative targets are met:
 - Narrow the gap in attainment (as measured by the percentage of children achieving level 4 in English at the end of Key Stage 2) between children in care and their peers such that it is no more than 34 percentage points by the end of the academic year 2011/12
 - Narrow the gap in attainment (as measured by the percentage of children achieving level 4 in maths at the end of Key Stage 2) between children in care and their peers such that it is no more than 33 percentage points by the end of the academic year 2011/12
 - Narrow the gap in attainment (as measured by the percentage of young people achieving 5+A*-C at GCSE including English and Maths) between children in care and their peers such that it is no more than 36 percentage points by the end of the academic year 2011/12
 - Reduce the percentage of children in care who miss 25 days or more days of schooling during the academic year to no more than 11%
16. Working with local health commissioners and providers to ensure that the percentage of children in care having health and dental checks increases to at least the England average of 85% by March 2012 and to at least maintain that over the period 2012-13.
