By:	Chairman of Governance and Audit Committee					
	David Tonks, Head of Audit and Risk					
To:	Governance and Audit Committee – 14 September 2011					
Subject:	COMMITTEE WORK PROGRAMME					
Classification:	Unrestricted					

**Summary**: A forward work programme ensures that the responsibilities of the committee are met and means sufficient time is allocated for members of the Committee to cover areas they collectively wish to examine in more detail.

## FOR DECISION

## Introduction and background

1. This is a standing item on each agenda to allow members to review the plan for the year ahead, and provide members with the opportunity to identify any additional items that they would wish to include.

## Current work programme

2. Annex 1 shows the latest programme of work for the Committee up to December 2012. The content of the programme is matched to the Committee terms of reference and aim to provide the minimum coverage necessary to meet the responsibilities set out. The programme is updated to reflect the requests from members for additional reports on specific items of interest, although in some cases the exact timing of this work has yet to be finalised.

## Recommendations

- 3. It is recommended that Members:
  - Approve the forward work programme for 2011/12 to meet the Committee's terms of reference, and;
  - Identify any additional items that members would wish to include.

David Tonks Head of Audit and Risk Ext: 4614
