A report by the Head of Regulatory Services to Kent County Council's Regulation Committee Member Panel on Monday 21st January 2013.

Recommendation: I recommend that the County Council informs the applicant that the application to register the land at Four Acres at East Malling as a new Village Green has been accepted, and that the land subject to the application be formally registered as a Village Green.

Local Members: Mrs. T. Dean

Unrestricted item

Introduction

 The County Council has received an application to register land at Four Acres in the parish of East Malling as a new Village Green from local resident Mrs. J. Kollnberger ("the Applicant"). The application, made on 13th February 2012, was allocated the application number VGA643. A plan of the site is shown at Appendix A to this report and a copy of the application form is attached at Appendix B.

Procedure

- 2. The application has been made under section 15 of the Commons Act 2006 and the Commons Registration (England) Regulations 2008.
- Section 15 of the Commons Act 2006 enables any person to apply to a Commons Registration Authority to register land as a Village Green where it can be shown that: *'a significant number of the inhabitants of any locality, or of any neighbourhood within a locality, have indulged as of right in lawful sports and pastimes on the land for a period of at least 20 years;*
- 4. In addition to the above, the application must meet one of the following tests:

• Use of the land has continued 'as of right' until at least the date of application (section 15(2) of the Act); or

• Use of the land 'as of right' ended no more than two years prior to the date of application, e.g. by way of the erection of fencing or a notice (section 15(3) of the Act); or

• Use of the land 'as of right' ended before 6th April 2007 and the application has been made within five years of the date the use 'as of right' ended (section 15(4) of the Act).

5. As a standard procedure set out in the regulations, the Applicant must notify the landowner of the application and the County Council must notify every local authority. The County Council must also publicise the application in a newspaper circulating in the local area and place a copy of the notice on the County Council's website. In addition, as a matter of best practice rather than legal requirement, the County Council also places copies of the notice on site to provide local people with

the opportunity to comment on the application. The publicity must state a period of at least six weeks during which objections and representations can be made.

The application site

- 6. The area of land subject to this application ("the application site") consists of a roughly triangular area of land of approximately 0.1 hectares (0.4 acres) in size situated on the northern-western corner of the housing estate known as Four Acres in the parish of East Malling and Larkfield. The site is shown on the plan at **Appendix A**.
- 7. The application site consists of an open area with grassed surface which is bounded by hedges and fencing from neighbouring properties. Access to the site is via the garage block serving properties on the estate or via Public Footpath MR105 which runs along the northern boundary of the site.

The case

- 8. The application has been made on the grounds that the application site has become a Town or Village Green by virtue of the actual use of the land by the local inhabitants for a range of recreational activities 'as of right' for more than 20 years.
- 9. Provided in support of the application were 38 user evidence questionnaires from local residents, a supporting statement, photographs showing use of the application site, a location map. A summary of the evidence in support of the application is attached at **Appendix C**.

Consultations

- 10. Consultations have been carried out as required and the following responses have been received.
- 11. East Malling and Larkfield Parish Council wrote in support of the application and confirmed that the application site had been used for recreation since the housing estate was built by Tonbridge and Malling Borough Council more than 20 years ago.
- 12. Cllr. L. Simpson also wrote in support of the application and stated that she had played on the application site as a child whilst living on the estate and that her children had played there too.
- 13. Mrs. T. Dean, the local County Member, also wrote to confirm her support for the application.

Landowner

- 14. The application site is owned by Russet Homes Ltd. ("the landowner") and is registered with the Land Registry under title number K699962.
- 15. The landowner is aware of the application and a representative has visited the County Council's offices to view the application, however, no objection was received from the landowner during the consultation period.

Legal tests

- 16. In dealing with an application to register a new Town or Village Green the County Council must consider the following criteria:
 - (a) Whether use of the land has been 'as of right'?
 - (b) Whether use of the land has been for the purposes of lawful sports and pastimes?
 - (c) Whether use has been by a significant number of inhabitants of a particular locality, or a neighbourhood within a locality?
 - (d) Whether use of the land 'as of right' by the inhabitants has continued up until the date of application or meets one of the criteria set out in sections 15(3) or (4)?
 - (e) Whether use has taken place over period of twenty years or more?

I shall now take each of these points and elaborate on them individually:

(a) Whether use of the land has been 'as of right'?

- 17. The definition of the phrase 'as of right' has been considered by the House of Lords. Following the judgement in the Sunningwell¹ case, it is considered that if a person uses the land for a required period of time without force, secrecy or permission ("*nec vi, nec clam, nec precario*"), and the landowner does not stop him or advertise the fact that he has no right to be there, then rights are acquired.
- 18. In this case, there is no evidence to indicate that use of the application site has been in any way with force, in secrecy or undertaken on a permissive basis. The evidence submitted in support of the application refers to free and unrestricted use throughout the relevant period and there is no evidence on the ground (e.g. old fencing) to suggest that access to the application site has been restricted in any way.
- 19. Therefore, in the absence of evidence of any challenges to use, use of the application site would appear to have taken place 'as of right'.

(b) Whether use of the land has been for the purposes of lawful sports and pastimes?

- 20. Lawful sports and pastimes can be commonplace activities including dog walking, children playing, picnicking and kite-flying. It is not necessary to demonstrate that both sporting activities *and* pastimes have taken place since the phrase 'lawful sports and pastimes' has been interpreted by the Courts as being a single composite group rather than two separate classes of activities².
- 21. Legal principle does not require that rights of this nature be limited to certain ancient pastimes (such as maypole dancing) or for organised sports or communal activities to have taken place. The Courts have held that '*dog walking and playing with children [are], in modern life, the kind of informal recreation which may be the main function of a village green*^{'3}.

¹ R v. Oxfordshire County Council and another, Sunningwell Parish Council [1999] 3 All ER 385

² R v. Oxfordshire County Council and another, Sunningwell Parish Council [1999] 3 All ER 385

³ R v Suffolk County Council, ex parte Steed [1995] 70 P&CR 487 at 508 and approved by Lord Hoffman in R v. Oxfordshire County Council, ex parte Sunningwell Parish Council [1999] 3 All ER 385

- 22. In this case, the evidence demonstrates that the land has been used for a range of recreational activities, as summarised at **Appendix C**. The majority of use is related to playing in children and, in particular, ball games. Other activities include family picnics, dog exercise and teaching children how to ride bicycles.
- 23. The nature and location of the Four Acres estate also suggests that this area lends itself to being used for recreational activities by local residents. For example, some of the witnesses state that the gardens of many properties on the estate are too small for activities such as football, cricket and rounders to take place. Other witnesses state that the application site is the only area locally where children are able gather and play safely, as the estate is isolated from the village centre of East Malling and surrounded by farmland which is not available for recreation.
- 24. Some of the witnesses refer to the use of the application site as a short cut to access the Public Footpath (MR105) leading to the village centre and local amenities. Such use is a public rights of way type use and must be discounted when considering the Village Green application.
- 25. There is, nonetheless, sufficient evidence of use for other recreational activities to indicate that the land has been used for lawful sports and pastimes.

(c) Whether use has been by a significant number of inhabitants of a particular locality, or a neighbourhood within a locality?

- 26. When considering a Town or Village Green application, the County Council must be satisfied that the application site has been used by the residents of a specific 'locality' or of a 'neighbourhood within a locality'. This is because the right to use a Town or Village Green is restricted to the inhabitants of a locality, or of a neighbourhood within a locality. It is therefore important to be able to define this area with a degree of accuracy so that the group of people to whom the recreational rights are attached can be identified.
- 27. The definition of locality for the purposes of a Town or Village Green application has been the subject of much debate in the Courts. In the Cheltenham Builders⁴ case, it was considered that *…at the very least, Parliament required the users of the land to be the inhabitants of somewhere that could sensibly be described as a locality… there has to be, in my judgement, a sufficiently cohesive entity which is capable of definition'. The judge later went on to suggest that this might mean that locality should normally constitute 'some legally recognised administrative division of the county'.*
- 28. In cases where the 'locality' is so large that it is difficult to show that the application site has been used by a significant number of people from that locality, it will be necessary to consider whether there is a relevant 'neighbourhood' within the wider locality. On the subject of neighbourhood, the Courts have held that '*it is common ground that a neighbourhood need not be a recognised administrative unit. A housing estate might well be described in ordinary language as a neighbourhood...* The Registration Authority has to be satisfied that the area alleged to be a

⁴ R (Cheltenham Builders Ltd.) v South Gloucestershire District Council [2004] 1 EGLR 85 at 90

neighbourhood has a sufficient degree of cohesiveness; otherwise the word "neighbourhood" would be stripped of any real meaning⁵.

29. The County Council also needs to be satisfied that the application site has been used by a 'significant number' of the residents of the locality. The word "significant" in this context does not mean considerable or substantial: 'a neighbourhood may have a very limited population and a significant number of the inhabitants of such a neighbourhood might not be so great as to properly be described as a considerable or a substantial number... what matters is that the number of people using the land in question has to be sufficient to indicate that the land is in general use by the community for informal recreation rather than occasional use by individuals as trespassers'⁶. Thus, what constitutes a 'significant number' will depend upon the local environment and will vary in each case depending upon the location of the application site.

The 'neighbourhood within a locality'

- 30. In this case, the Applicant specifies the locality at Part 6 of the application form as 'East Malling and Larkfield Parish Council [in the] Borough of Tonbridge and Malling'.
- 31. The administrative parish of East Malling and Larkfield is a legally recognised locality with defined boundaries. However, the evidence of use is concentrated in a very small part of the parish and it cannot be said that a significant number of the residents of the parish as a whole have used the application site. It is therefore necessary to consider whether there is a qualifying neighbourhood within the locality of East Malling and Larkfield parish.
- 32. Many of the witnesses, when responding to the locality question on the user evidence questionnaire, state that they consider themselves to be resident of Four Acres, which is the name of the housing estate within which the application site is situated. Certainly, the evidence of use is concentrated from within the estate: of the 40 witnesses, 39 live on the Four Acres estate.
- 33. The estate was originally developed by Tonbridge and Malling Borough Council and today the communal areas are managed by Russet Homes, with some properties now being in private ownership. Four Acres therefore has the unifying characteristics of a housing estate or neighbourhood. Furthermore, the location of the estate (see **Appendix D**), away from the main village centre and surrounded entirely by farmland, also suggest that it is a distinct and identifiable community that would be capable of constituting a neighbourhood for the purposes of Village Green registration.

'significant number'

34. In this case, only 7 of the 46 households on the Four Acres estate did not provide evidence of use in support of the application. Three quarters of the households that did provide evidence refer to use of the application site on a daily or weekly basis throughout their period of use.

⁵ R (Cheltenham Builders Ltd.) v South Gloucestershire District Council [2004] 1 EGLR 85 at page 92

⁶ R (Alfred McAlpine Homes Ltd.) v Staffordshire County Council [2002] EWHC 76 at paragraph 71

- 35. Such use would have been sufficient to indicate to the landowner (who in this case is also responsible for managing other areas on the estate and would have made regular visits) that the application site was in general use by the estate community.
- 36. Therefore, it can be concluded that the application site has been used by a significant number of the residents of the neighbourhood of Four Acres within the locality of East Malling and Larkfield parish.

(d) Whether use of the land by the inhabitants is continuing up until the date of application or meets one of the criteria set out in sections 15(3) or (4)?

- 37. The Commons Act 2006 requires use of the land to have taken place 'as of right' up until the date of application or, if such use has ceased prior to the making of the application, to fulfil one of the alternative criterion set out in sections 15(3) and 15(4) of the 2006 Act (as set out at paragraph 4 above).
- 38. In this case, the application was made in 2012. All of the evidence questionnaires are dated within two weeks of the date of the application. Given the open nature of the application site and the ease of access onto it, there is no evidence to suggest that use has not continued until (and beyond) the date of the application.

(e) Whether use has taken place over a period of twenty years or more?

- 39. In order to qualify for registration, it must be shown that the land in question has been used for a full period of twenty years. In this case, use of the application site 'as of right' is continuing and, as such, the relevant twenty-year period ("the material period") is calculated retrospectively from the date of the application, i.e. 1992 to 2012.
- 40. The user evidence summarised at **Appendix C** demonstrates that there has been use of the application site in excess of the last twenty years.
- 41. Therefore, it can be concluded that there has been use of the application site for a full period of twenty years.

Conclusion

- 42. Although this application is unopposed, it is still necessary for the County Council to be satisfied that all of the requisite legal tests have been met. In this case, the evidence demonstrates that the application site has been used by local residents for a period of over 20 years for the purposes of lawful sports and pastimes.
- 43. From close consideration of the evidence submitted, it can therefore be concluded that the legal tests concerning the registration of the land as a Village Green (as set out above) have been met.

Recommendation

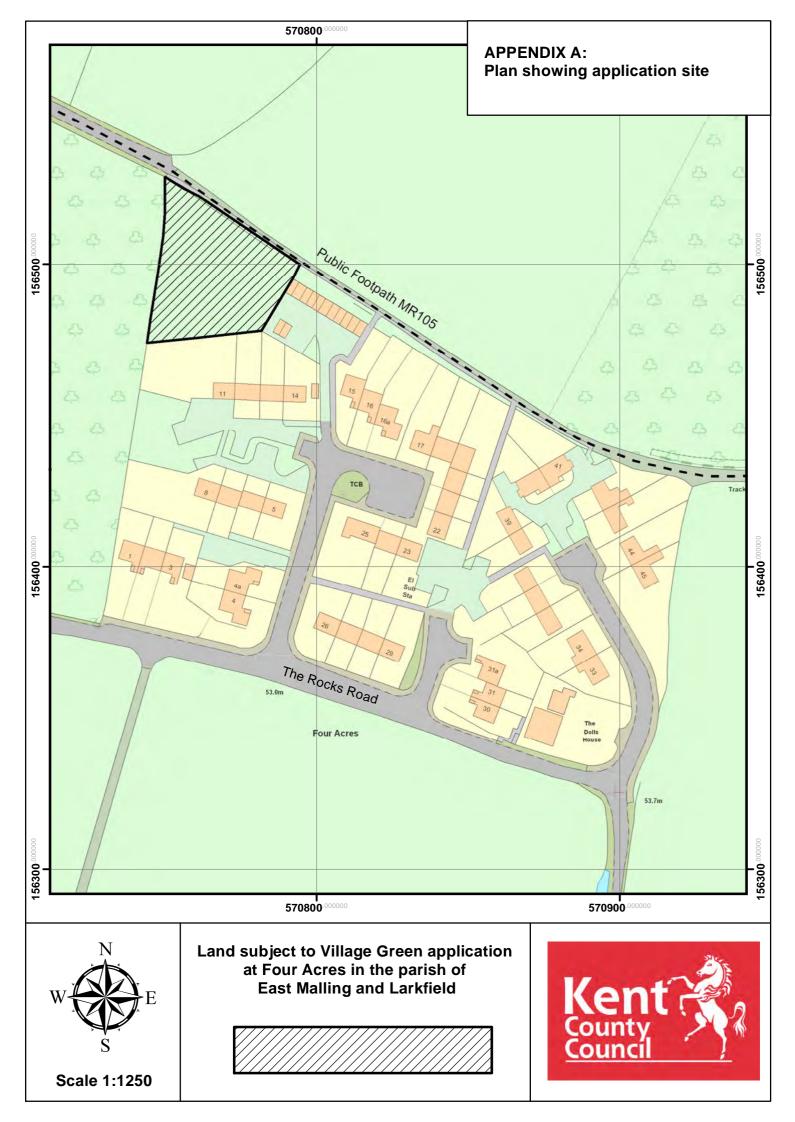

44.I recommend that the County Council informs the applicant that the application to register the land at Four Acres at East Malling as a new Village Green has been accepted, and that the land subject to the application be formally registered as a Village Green.
