

Kent's European Relationship Select Committee – evidence request

Questions for European project leads (KCC and external) v2

1. Could you please provide a brief pen portrait of any EU funded project you have been involved with (noting the relevant funding stream).
2. What were the reasons for deciding to take part in a European project? (What alternatives did you have?)
3. What are the key challenges with regard to obtaining European funding for projects?
 - What local changes or developments could be put in place to help to address such challenges in the future?
4. If your approaches for funding failed, what were the reasons and what would you recommend to others to aid their success?
5. (If your project was with European partners) What are the key challenges that have been identified from your experience of working with European partners?
 - What local changes or developments could be put in place to help to address such challenges in the future?
6. What have been the key outcomes and benefits from participation in the project?
7. Please add any other comments/learning points you feel could inform the review.
