#### Future agenda items

While much of the discussion at KMEP focuses on immediate issues linked with Government funding rounds and the work of the South East LEP, KMEP should have a broader, longer-term role in setting out the strategic economic priorities for Kent and Medway.

As part of the development of the Growth Strategy, it is suggested that a series of discussions are organised at KMEP, considering the key Growth Strategy themes (including links with the Kent Environment Strategy and the refreshed Kent and Medway Housing Strategy). With the Board's agreement, these will be programmed into future agenda items.
