Part 1: INITIAL SCREENING (November 2013)

Context

Kent County Council is procuring to provide a contract which involves the receipt, bulking and transportation of residual waste from Thanet and Canterbury District councils.

Aims and Objectives

From November 2015, Kent County Council will:

- Secure a Provider(s) to provide a reception, bulking and transportation service for Thanet and Canterbury residual waste.

Beneficiaries

The intended beneficiaries are householders in Kent as recipients of the district council domestic collection services.

Data

As the Waste Disposal Authority, Kent County Council is responsible for ensuring that all waste collected in Kent is disposed of correctly in the most financially efficient way. The disposal of this waste is a 'back office' procedure, with all 'customer facing' elements of this process the responsibility of the Waste Collection Authority (WCA).

Potential Impact

This Equality Impact Assessment is a screening to indicate potential areas of impact, both positive and negative, to the diverse population of Kent, which could result from the award of a new contractor to process the Authority's bulk waste service to Thanet and Canterbury districts.

There are no Protected Characteristics that will be impacted upon either positively or negatively.

The screening table (page 3-4) details the initial assessment.
