Introduction

This paper provides the Governance and Audit Committee with a report on progress in delivering our responsibilities as your external auditors. The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you; and
- a number of challenge questions in respect of these emerging issues which the Committee may wish to consider.

Members of the Governance and Audit Committee can find further useful material on our website www.grant-thornton.co.uk, where we have a section dedicated to our work in the public sector (<http://www.grant-thornton.co.uk/en/Services/Public-Sector/>). Here you can download copies of our publications including:

- Spreading their wings: Building a successful local authority trading company
- Easing the burden, our report on the impact of welfare reform on local government and social housing organisations
- All aboard? our local government governance review 2015
- Stronger futures: development of the local government pension scheme
- Rising to the challenge: the evolution of local government, summary findings from our fourth year of financial health checks of English local authorities
- 2020 Vision, exploring finance and policy future for English local government
- Where growth happens, on the nature of growth and dynamism across England

Emerging issues and developments

Spreading their wings: Building a successful local authority trading company

Grant Thornton

Our report, 'spreading your wings' focuses on how to set up a local authority trading company and, importantly, how to make it successful. It is available at <http://www.grant-thornton.co.uk/Global/spreading-their-wings-LATC-report-2015.pdf>

The trend in using alternative models to protect and develop services has continued over the last year. As councils continue to confront financial pressure, many have considered how to reduce costs, generate income and improve efficiency by introducing commercial structures.

The introduction of LATCs has been a key part of this innovation and we predict that the number will grow in the next five years. While restricted initially to areas such as entertainment or airports – for example Birmingham's NEC and Manchester Airport – LATCs have grown into new areas such as highways, housing and education. More recently, LATCs dedicated to the delivery of social care services have emerged.

We recognise that the delivery of a successful company is not easy. In light of this, this report provides practical guidance on the steps that need to be followed in:

- deciding to set up a local authority trading company
- setting up a local authority trading company
- building a successful local authority trading company.

Grant Thornton has worked with many LATCs and continues to support growth in this area. We have based this report on market research, interviews with councils and LATCs, and our own experience of working with LATCs and councils. It is a practical guide drawing on our own experiences but also on the successful companies we have worked with.

Welfare Reform Review: Easing the burden

Grant Thornton

Our second welfare reform report, 'Easing the burden' provides insight into the impact of welfare reform on English local authority and social housing organisations over the past two years. It is available at <http://www.grant-thornton.co.uk/Global/Easing-the-burden-welfare-reform-report.pdf>

It focuses on the governance and management arrangements being put in place across the two sectors to deliver reform, the early signs of how successful the reforms have been and the upcoming issues and risks on the reform agenda in the wider context of social impact.

The key messages include:

- The cumulative effect of various welfare reforms is putting a significant financial strain on those people needing welfare support
- The majority of local authorities and housing associations surveyed have seen a rise in average council tax and rent arrears since 2012/13, which they attributed at least in part to welfare reform
- There has been limited movement to smaller properties as a result of the spare room subsidy and benefit cap reforms,
- Local authorities are becoming reliant on Discretionary Housing Payments (DHP) to plug the gap for those unable to pay.
- Any reduction in DHP funding from central government is therefore likely to result in further increases to rent arrears and homelessness in the next two years, unless mitigated by other means
- The withdrawal of ring-fenced hardship funding (formerly the Social Fund) will result in a reduction of provision, as the majority of local authorities told us that they are not in a position to fund this from their own revenue
- Reductions in DHP, hardship funding and general funding reductions inhibit the ability of local authorities and housing associations to pursue early intervention policies, preventing people falling into long-term benefit dependency. This has cost implications for the medium- to long-term.
- The cost of administering housing benefit is rising as a result of welfare reform. Around half of local authorities and housing associations surveyed said housing benefit is becoming significantly more costly to administer, partly due to the increased complexity of cases.

The Queen's Speech 2015 – what it means for local government

Local government issues

The Queen's Speech was presented to Parliament on 27th May 2015 and set out the new government's policies and proposed legislative programme for the next parliamentary session. There are a range of proposals impacting on local government, including:

- A Cities and Local Government Devolution Bill aimed at boosting growth and increasing local government productivity and efficiency. It will provide the legislative framework to deliver the Greater Manchester deal and other future deals. The provisions of the bill will be applied to specified combined authorities and their areas, led by an elected mayor.
- A Housing bill extending right to buy legislation to housing associations and requiring local authorities to dispose of high-value vacant council houses. This bill will also introduce measures to simplify and speed up the neighbourhood planning system other changes to housing and planning legislation to support housing growth.
- An Education and Adoption bill that aims to speed up intervention in failing schools and requires inadequate, and coasting schools to become academies. It is also planned to introduce regional adoption agencies, working across local authority boundaries to reduce delays in the adoption system.

Challenge question

Have members:

- been briefed on the new government's proposed legislative programme and its likely impact on the Council?

Local Government New Burdens

Local government issues

The National Audit Office (NAO) published its review of new burdens on local government on 5th June 2015.

In 2011, the government reaffirmed its commitment to the New Burdens Doctrine (the Doctrine). The Doctrine set out how the government would ensure that new requirements that increased local authorities' spending or reduced their income did not lead to excessive council tax increases. The Doctrine commits the government to assess and fund extra costs for local authorities from introducing new powers, duties and other government-initiated changes.

The NAO report considers the new burdens regime, how it is managed and overseen and the DCLG's arrangements for new burdens assessments. It concludes that:

- government departments have embraced the new burdens Doctrine and the DCLG's guidance has promoted consistent assessment and encouraged consultation with local government on the impact of new requirements;
- however, the government is not sufficiently open about which new burdens are assessed or the outcomes of assessments; and
- the DCLG has not promoted post implementation reviews to ensure funding is adequate.

The NAO also concludes that the DCLG needs to use intelligence from new burdens regime better, to improve its understanding of the pressures affecting local authorities' financial sustainability.

Challenge question

Have members been briefed on the key findings of the NAO's review of new burdens on local government?

English devolution – local solutions for a successful nation

Local government issues

The Local Government Association's (LGA) white paper on devolution includes a warning to the new government that the principle of cuts without reform could stifle growth and development and challenge the sustainability of vital local services. The paper sets out:

- Why devolution matters
- The principles to sustain devolution
- A road map to follow to help deliver reform
- Proposals that will strengthen accountability and governance in the new system

It states that:

Local government has done more than any other part of the public sector over the course of the last parliament to make the public finances more sustainable and managed to do so while protecting front line services. All evidence suggests that this cannot continue over the next five years without more radical reform. Given the continuing need to reduce the national deficit, only a reinvigorated agenda for reform, underpinned by sustainable funding for local services, will deliver the ambition of the new Government for our communities and national economy.

Challenge question

Have members been briefed on the headline messages from the LGA's white paper on devolution?

Understanding your accounts – Member guidance

Accounting and audit issues

Local authority Governance and Audit Committee members are not expected to be financial experts, but they are responsible for approving and issuing the authority's financial statements. However, local authority financial statements are complex and can be difficult to understand.

In 2014 we prepared a guide for Members to use as part of their review of the financial statements. It explains the key features of the primary statements and notes that make up a set of financial statements. It also includes key challenge questions to help Members assess whether the financial statements show a true and fair view of their authority's financial performance and financial position. Any new members to the Governance and Audit Committee may find this guide helpful.

The guide considers the :

- explanatory foreword – which should include an explanation of key events and their effect on the financial statements
- annual governance statement – providing a clear sense of the risks facing the authority and the controls in place to manage them
- movement in reserves statement – showing the authority's net worth and spending power
- comprehensive income and expenditure statement – reporting on the year's financial performance and whether operations resulted in a surplus or deficit
- balance sheet – a 'snapshot' of the authority's financial position at the year end; and
- other statements and additional disclosures

We have provided copies of the Guide to Local Authority accounts to the Council for distribution to the Governance and Audit Committee.
