RAG Rating	Amber	Amber	Amber	Red

Commentary

If Unaccompanied Asylum Seeking Children (UASC) are excluded from this performance measure performance for April is 92.6% and above the Target set.

A weekly clinic is now in place at one of the reception centres to provide Initial Health Assessments for new arrivals, and for UASC living in the community additional clinics have been set up by the Health Service to respond to the levels of demand.

Data Notes

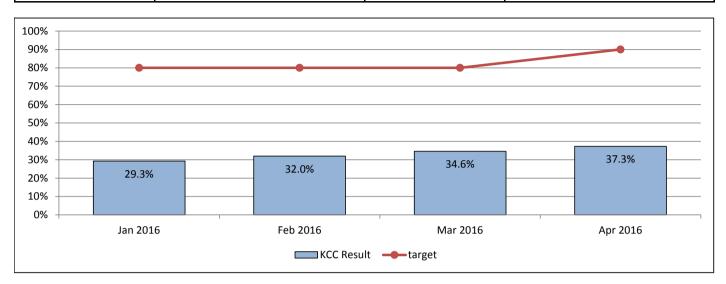

Target: 90% (RAG Bandings: Below 85% = Red, 85% to 90% = Amber, 90% and above = Green)

Tolerance: Higher values are better

Data: Figures shown are a snapshot as at 30/04/2016

RAG Rating	Red	Red	Red	Red

Commentary

This performance measure relates to the notification to the Health Service for an Initial Health Assessment within 5 working days for children and young people who have become looked after.

Performance against this measure had been poor during 2015/16, due to a combination of process and incomplete recording of data. This measure has therefore been included as a new performance measure into the SCS Monthly Scorecard to ensure that referrals to Health are made in a timely and consistent manner.

The performance rate of 37.3% relates to a rolling 12 months average. The implementation of new business processes, and the monitoring of compliance across operational teams, has significantly improved more recent performance. The rolling 3 months average (February-April 2016) shows performance as being 81.3%.

Data Notes

Target: 90% (RAG Bandings: Below 80% = Red, 80% to 90% = Amber, 90% and above = Green)

Tolerance: Higher values are better

Data: Figures shown are based on a rolling 12 month period. The result for April 2016 for example shows performance

for May 2015 to April 2016.

Data Source: Liberi
