### 1. Introduction

- (a) Every health and care system in England is required to produce a multi-year Sustainability and Transformation Plan (STP), showing how local services will evolve and become sustainable over the next five years – ultimately delivering the Five Year Forward View vision of better health, better patient care and improved NHS efficiency (NHS England 2016).
- (b) To deliver these plans, local health and care systems came together in January 2016 to form 44 STP ‘footprints’. The health and care organisations within each footprints have been working together to develop STPs with the aim of delivering genuine and sustainable transformation in patient experience and health outcomes. A Kent and Medway STP footprint was established covering all eight Kent and Medway CCGs over a footprint population of 1.8 million (NHS England 2016).
- (c) On 3 June 2016, 2 September 2016, 25 November 2016 and 3 March 2017 the Committee considered an update on the Kent and Medway Sustainability and Transformation Plan. On 3 March 2017 the Committee considered the progress of the STP and agreed the following recommendation:
  - *RESOLVED that the report on the Kent and Medway Sustainability and Transformation Plan be noted and an update be presented to the Committee at the appropriate time.*

### 2. Recommendation

RECOMMENDED that the report on the service models and hurdle criteria for the Kent and Medway Sustainability and Transformation Plan be noted and an update be presented to the Committee at the appropriate time.
