Introduction and Overview

Chairman's foreword

The last year has seen a very significant growth in the value of the Pension Fund, with a return of 21% the Fund increased in value by under £1bn.

In the year we also had the results of the triennial actuarial valuation which saw the funding level increase to 89% and employer contribution rates held at 21% for the local authority employers.

These good outcomes are a tribute to the work of the Superannuation Fund Committee and in particular to the Chairman for the last 16 years Mr James Scholes who stepped down from the County Council in May.

The other major development in the year has been the progress made on pooling local authority assets. This is a Government initiative which requires the 89 English and Welsh administering authorities to work collaboratively with neighbouring Councils to set up investment pools and reduce investment management costs. Kent is part of the Collaboration of Central, Eastern and Southern Shires (ACCESS) with 10 other County Council Pension Funds. Good progress is being made.

I am really looking forward to working on a challenging agenda as the new Chairman of the Committee.

Charlie Simkins
Chairman – Superannuation Fund Committee

Introduction and Overview

The Superannuation Fund Committee

The Superannuation Fund Committee exercises all of the powers and duties of the Kent County Council (KCC) in relation to its functions as Administering Authority for the Fund. The Committee is responsible for setting investment strategy, appointing professional fund managers and carrying out regular reviews and monitoring of investments. It also monitors the administration of the Pension Scheme and determines Pension Fund policy in regard to employer admission arrangements.

The membership of the Committee during 2016-17 is detailed below. There were 5 full Committee meetings during the year.

Committee Members	
James Scholes, Chairman	Kent County Council
Dan Daley, Vice Chairman	Kent County Council
John Davies	Kent County Council
Alan Marsh	Kent County Council
Richard Parry	Kent County Council
Charlie Simkins	Kent County Council
Tom Maddison	Kent County Council
Zita Wiltshire	Kent County Council
John Burden	Gravesham Borough Council
Nick Eden-Green	Canterbury City Council
Paul Clokie	Ashford Borough Council
Les Wicks	Medway Council
Mary Wiggins	Kent Active Retirement Fellowship
David Coupland	Kent Active Retirement Fellowship
Sophy Lysaght	Unison Representative

A new committee has been constituted following the Council elections in May 2017. Members of the new committee are as follows:

Committee Members 2017-18	
Charlie Simkins, Chairman	Kent County Council
Nick Chard, Vice Chairman	Kent County Council
Dan Daley	Kent County Council
Paul Barrington-King	Kent County Council
Alan Marsh	Kent County Council
Paul Bartlet	Kent County Council
Paul Cooper	Kent County Council
James McInroy	Kent County Council
John Burden	Gravesham Borough Council

Introduction and Overview

Committee Members 2017-18	
Nick Eden-Green	Canterbury City Council
Paul Clokie	Ashford Borough Council
John Wright	Kent County Council
Les Wicks	Medway Council
Mary Wiggins	Kent Active Retirement Fellowship
David Coupland	Kent Active Retirement Fellowship
Sophy Lysaght	Unison Representative

Local Pensions Board

The Local Pensions Board for Kent was established in April 2015 in accordance with the relevant Government Legislation.

The membership of the Board during 2016-17 is detailed below; there were 2 full Board meetings.

Board Members	
Susan Carey, Chairperson	Kent County Council
Derek Smyth	Kent County Council
David Monk	Shepway District Council
Alison Kilpatrick	Kent and Medway Fire and Rescue Service
Joe Parsons, Vice Chairperson	Unison Representative
Sophy Lysaght	Trade Union Representative
John Peden	Staff Representative
David Coupland	Kent Active Retirement Fellowship Representative

Following the Council elections in May 2017, the Pensions Board has been reconstituted as follows:

Board Members 2017-18	
Margaret Crabtree, Chairperson	Kent County Council
Rosalind Binks	Kent County Council
David Monk	Shepway District Council
Alison Kilpatrick	Kent and Medway Fire and Rescue Service
Joe Parsons, Vice Chairperson	Unison Representative
Sophy Lysaght	Union Representative
John Peden	Staff Representative
David Coupland	Kent Active Retirement Fellowship Representative

Introduction and Overview

Kent County Council Officers and Others

The day to day operations and management of the Fund and implementing the decisions of the Superannuation Fund Committee are delegated to the KCC Section 151 officer and his staff. This includes the power to seek professional advice and devolve day to day handling of the Fund's investments to professional fund managers and advisers within the scope of the regulations. KCC undertakes the monitoring and accounting for the investments of and income due to the Fund.

Senior Officers	
Andy Wood	Corporate Director of Finance
Nick Vickers	Business Partner - Pension Fund
Alison Mings	Treasury and Investments Manager
Barbara Cheatle	Pensions Manager

Fund Managers
Schroder Investment Management
Woodford Investment Management
Baillie Gifford & Co
Sarasin & Partners
State Street Global Advisors (SSgA)
M&G Investments
Impax Asset Management
Goldman Sachs Asset Management (GSAM)
DTZ Investment Management
Fidelity Worldwide Investments
Kames Capital
YFM Equity Partners
HarbourVest Partners
Partners Group Management II S.ar.l
Henderson Global Investors
BMO Investments (Pyrford)
Kent County Council Treasury Management Team

Further details of the Fund Manager mandates can be found in the Statement of Investment Principles (SIP) and the Investment Strategy Statement (ISS) which replaced the SIP from 1 April 2017.

Introduction and Overview

Other Organisations providing services to the Kent Fund

Service	Organisation
Custodian	Northern Trust Company
Bankers	National Westminster Bank
Fund Actuary	Barnett Waddingham
Additional Voluntary Contributions (AVC) Providers	Equitable Life Assurance Prudential Assurance Company Standard Life Assurance
Investment Consultants	Hymans Robertson
Auditors	Grant Thornton
Legal Advisors	Kent County Council Legal Services
Performance Measurers	The WM Company (till June 2016) Northern Trust Company (from July 2016) PIRC Limited
Administration software provider	Aquila Heywood

The Kent Pension Fund maintains the following statutory statements and policies; these are reviewed and updated regularly:

- Funding Strategy Statement;
- Investment Strategy Statement (from 1 April 2017);
- Statement of Investment Principles (Up to 31 March 2017);
- Governance Compliance Statement;
- Communications Policy Statement.

These documents can be found on the Pension Fund's website - <http://www.kentpensionfund.co.uk/local-government/fund-information/policies>

Risk Management

Kent County Council as the Administering Authority for the Kent County Council Superannuation Fund has delegated responsibility for the management of risk to the Superannuation Fund Committee.

Risk register

The Committee regularly reviews the Fund's key risks and has identified the main risks as:

- proposals for Pooling Investments;
- fund investment return below that assumed by the actuary;
- employer outsourcing – admission bodies;
- admission agreements/scheduled body resolutions closed to new members.

Arrangements have been agreed for the management of these risks in order to mitigate their impact on the Fund.

Introduction and Overview

Financial, demographic, regulatory, and employer risks

Details of the counter measures in place for financial, demographic, regulatory, and employer risks are included in the Fund's Funding Strategy Statement (FSS). The FSS is reviewed annually.

Operational risks

Kent County Council's Internal Audit Section conducts regular audits on the management of risk in the Pension Fund.

Third party risk such as that relating to employers in the Fund is managed through monitoring the timeliness of receipts of contributions as well as the annual review of guarantees / bonds provided by Admitted bodies.

Investment risk management

Further details of the Fund's policy on investment risk management are disclosed in in the Fund's Investment Strategy Statement (ISS). The Superannuation Fund Committee formally considers investment risk at four of its five planned meetings during the year.

Assurance over third party operations is provided by investment managers who are required to provide annual AAF 01/06 reports and ISAE 3402 reports.

Fund Overview

Financial Performance

3 Year forecast vs. actual income and expenditure analysis

The table below compares actual income and expenditure with that projected at the 2013 triennial valuation.

	2014-15 £m	2015-16 £m	2016-17 £m
Projected at 31 March 2013			
Contributions net of pension payments	(8)	(11)	(24)
Investment Income net of expenses	84	89	94
Net income	76	78	70
Actual			
Contributions net of pension payments	(55)	8	16
Investment Income net of expenses	74	90	85
Net income	19	98	101

The triennial valuation forecast a fall in contributions net of payments over the 3 year period however actual net income has increased. The higher income from Employers and Members was mainly due to an additional 5,000 contributing Members partly as a result of the auto-enrolment of new members.

Introduction and Overview

The number of pensioners also increased but lower than forecast CPI resulted in lower actual pension payments. In 2014-15 there was a one off transfer payment of £63.7m to the Greater Manchester Pension Fund which resulted in negative income from dealing with Members in that year.

Net investment income was mainly in line with forecast and takes into account higher management expenses due to the growth in fund valuations.

2016 Triennial Valuation

The Triennial valuation as at 31 March 2016 calculated a funding level of 89%. (2013 - 83%).

The funding level as a percentage has increased due to good investment returns and employer contributions although it has been partly offset due to changes in the financial assumptions used.

The increase in the funding level would normally result in lower employer contributions being required going forward however the lower expected long term return on investments (discount rate) has resulted in higher long term pension liabilities. This, coupled with a shorter recovery period of 17 years as compared to 20 years previously, has resulted in slightly higher contribution rates for employers and a general increase in Payroll has resulted in a higher contributions overall. Pension payments are projected to go up in line with CPI and a marginal increase in number of members retiring.

Details of the Actuary's assumptions used are included in the Barnett Waddingham report on page 34.

Investment income and management costs are projected to rise at a steady rate.

The Table below shows the forecast cash flow for the next three years based on the Actuary's assumptions.

3 year cash flow forecast

	2017-18 £m	2018-19 £m	2019-20 £m
Contributions	222	228	234
Pension payments	-223	-234	-252
Investment income	116	122	128
Management costs	-20	-22	-24
Net Cash Flow	95	94	86

2016-17 performance

During 2016-17 the Fund increased in value by £967.6m (21%) as the result of a net return on investments of £951.7m, and net inflow in respect of dealings with members, taking account of transfers-out, of £16m.

Contributions from Employers and Members increased by £7.3m from 2015-16 reflecting the increase in contributing members and increase in salary. Benefits Payable also increased in 2016-17 by £4.6m, due

Introduction and Overview

to the increase in pensioner members of 1,388.

In 2016-17 management costs, including investment management expenses, were £22.7m, an increase on 2015-16 (£17.8m). The 2016-17 Investment management fees reflected the substantially increased value of assets under management. Administration and other costs were marginally higher than in 2015-16.

Management Expenses

The following table compares actual Administration, Governance and Oversight costs against the budget for 2016-17:

	Actual	Budget
	£000's	£000's
Pensions Administration	2,270	2,299
Fund Administration	482	486
Administration expenses	2,752	2,785
Actuarial Fees	323	283
Actuarial fees directly recovered from employers	-188	-220
Investments and Accounting	180	176
ACCESS pooling costs	92	150
Tax consultants	18	31
Investment Consultants	14	20
Performance Measurement Fees	32	43
Audit fee	31	31
Governance and Oversight Expenses	502	514

Actual Administration expenses were overall lower than budgeted due to savings in staff costs. Governance and Oversight expenses were below budget reflecting lower costs relating to the ACCESS pooling project.

Amounts due from Employers

During 2016-17 KCC continued to streamline the process for collecting contributions from employers resulting in 99% (99% in 2015-16) of total contribution income being received by the due date of the 19th of the month following. At 31 March 2017 amounts outstanding were £16m (31 March 2016 £20m). The option to levy interest on overdue contributions was not exercised.

Employers

During 2016-17 the number of Employers in the Fund increased to 589 mainly as the result of the conversion of schools to academies and the admission to the Fund of more commercial organisations following the outsourcing of service provision from local authorities.

The following table shows a summary of the number of employers in the Fund analysed by scheduled bodies and admitted bodies which are active (i.e. with contributing members) and ceased (i.e. with no active members but with some outstanding liabilities).

Introduction and Overview

	Active	Ceased	Total
Scheduled Body	290	177	466
Admitted Body	69	53	122
Total	359	230	589

Fund Trends

A summary of the Fund's key trends is shown below:

	2012-13	2013-14	2014-15	2015-16	2016-17
Net Assets @ 31 March (£000's)	3,812,698	4,137,259	4,539,037	4,597,540	5,565,175
Number of Contributors	42,554	44,917	48,668	49,816	50,834
Contributions (£000's)	213,713	209,749	217,714	220,961	228,285
Number of Pensioners	33,731	34,841	35,917	37,260	38,648
Benefits Paid (£000's)	192,463	195,377	207,356	210,281	214,895

Financial Summary

A brief summary for the last 5 years is shown below:

	2012-13 £000's	2013-14 £000's	2014-15 £000's	2015-16 £000's	2016-17 £000's
Value of Fund at start of year	3,310,588	3,812,698	4,137,259	4,539,037	4,597,540
Revenue account for year					
- Contributions and transfers	222,553	216,637	222,177	224,366	238,851
- Investment (net) & other income	58,341	72,853	74,113	90,449	84,792
- Benefits and other expenses	-202,976	-203,495	-277,358	-216,314	-222,949
Net Revenue	77,918	85,995	18,932	98,501	100,694
Increase (Decrease) in market value of investments in year	424,192	238,566	382,846	-39,998	866,941
Increase in Fund during year	502,110	324,561	401,778	58,503	967,635
Value of Fund at end of year	3,812,698	4,137,259	4,539,037	4,597,540	5,565,175

Introduction and Overview

Fund Investment Assets as at 31 March 2017

	UK £000's	Non-UK £000's	Global £000's	Total £000's
Equities	1,609,354	1,234,999	1,136,972	3,981,325

Deferred Pensioners	37,835	39,777	41,534	42,476	42,352

Member Age Profile

The following table shows that at 31 March 2017 the age profile of the contributing membership was:

Age	Members
Under 20	550
20 – 25	3,671
26 – 30	3,736
31 – 35	4,315
36 – 40	5,282

Introduction and Overview

Age	Members
41 – 45	6,845
46 – 50	8,572
51 – 55	8,190
56 – 60	6,090
61 – 65	2,906
66 – 70	573
Over 70	104

Five year analysis of pension overpayments, recoveries and write offs

Overpayments

The overpayments identified over the last 5 years as the result of the Fund's participation in the National Fraud Initiative are shown below:

Year	No	Value £	Action
2013	2	2,847	No response, therefore put forward for write off
Total	2	2,847	
2015	2	16,883	Recovered
	1	3,716	Seeking Recovery
	1	2,040	No response, therefore put forward for write off
Total	4	22,639	

Note: the number of cases has decreased as a mortality screening service is now used on a monthly basis to identify registered deaths.

Pension overpayments write offs

Details of the write offs made in the last 5 years:

Year	No of cases	Value £
2012-13	60	18,979
2013-14	15	3,154
2014-15	10	2,975
2015-16	15	3,947
2016-17	36	8,135

Investments

Investment Strategy Overview

This report sets out details of the progress made against the Fund's investment strategy during the year.

At its regular meetings during 2016/17 the Committee reviewed the actual fund asset allocation compared to the benchmark, and where the variance was in excess of the tolerance level of +/- 2%, as per the Fund's Statement of Investment Principles (SIP), agreed any action to be taken.

The Fund's strategic asset allocation at 31 March 2017 was as follows:

Asset Class	Allocation %	Index
UK Equities	32	FTSE All Share
Overseas Equities	32	MSCI World Index NDR
Fixed Income	15	BAML GBP Broad Market
Property	13	IPD All Properties Index
Private Equity and Infrastructure	2	GBP 7 Day LIBID
Absolute Return	5	RPI +5%
Cash	1	GBP 7 Day LIBID
Total	100	

There has been no change in the allocation during 2016-17.

Portfolio Distribution at 31 March

The graph below shows the Fund's actual portfolio distribution between the main asset-classes as at 31 March 2016 and 31 March 2017 vs the benchmark.

Value of Funds under Management by Fund Manager

The following graph shows the proportion of the Fund under management by fund manager as at 31 March 2017 and the table lists the Fund's 10 largest equity holdings at that date.

Equity

10 Largest Equity Holdings in the Fund as at 31 March 2017

	Market Value £m	% of the Fund's Net Assets
Royal Dutch Shell	67	1.2%
British American Tobacco	44	0.8%
Amazon	39	0.7%
HSBC	38	0.7%
Glaxo Smith Kline	38	0.7%
Rio Tinto	36	0.6%
Vodafone	34	0.6%
Lloyds Banking Group	32	0.6%
Astra Zeneca	31	0.6%
Prudential	30	0.5%
Total	389	7.0%

Investments

Property

The graph below provides detail of the type of property in which the Fund invests whilst the second table provides detail of the Fund's 5 largest direct properties held as at 31 March 2017.

Largest 5 properties held by the Kent Pension Fund

Property	Property Type	Market Valuation £m
Battersea Park, London	Industrial	41.33
Drury House, London	Office	40.14
Lakeside Village, Doncaster	Retail	33.12
Colindale Retail Park, London	Retail	27.83
3-5 Charing Cross Road, London	Retail	26.95

Investment performance 2016-17

The investment performance of the fund managers is reported on a quarterly basis to the Superannuation Fund Committee. The fund managers submit reports and valuations for this purpose and managers of the large mandates meet at least annually with the Committee and / or its officers to make presentations and to answer questions.

Investments

Fund Managers are required to provide valuation information to Northern Trust which assesses the rate of return achieved and provides performance reports that are for consideration by the Committee.

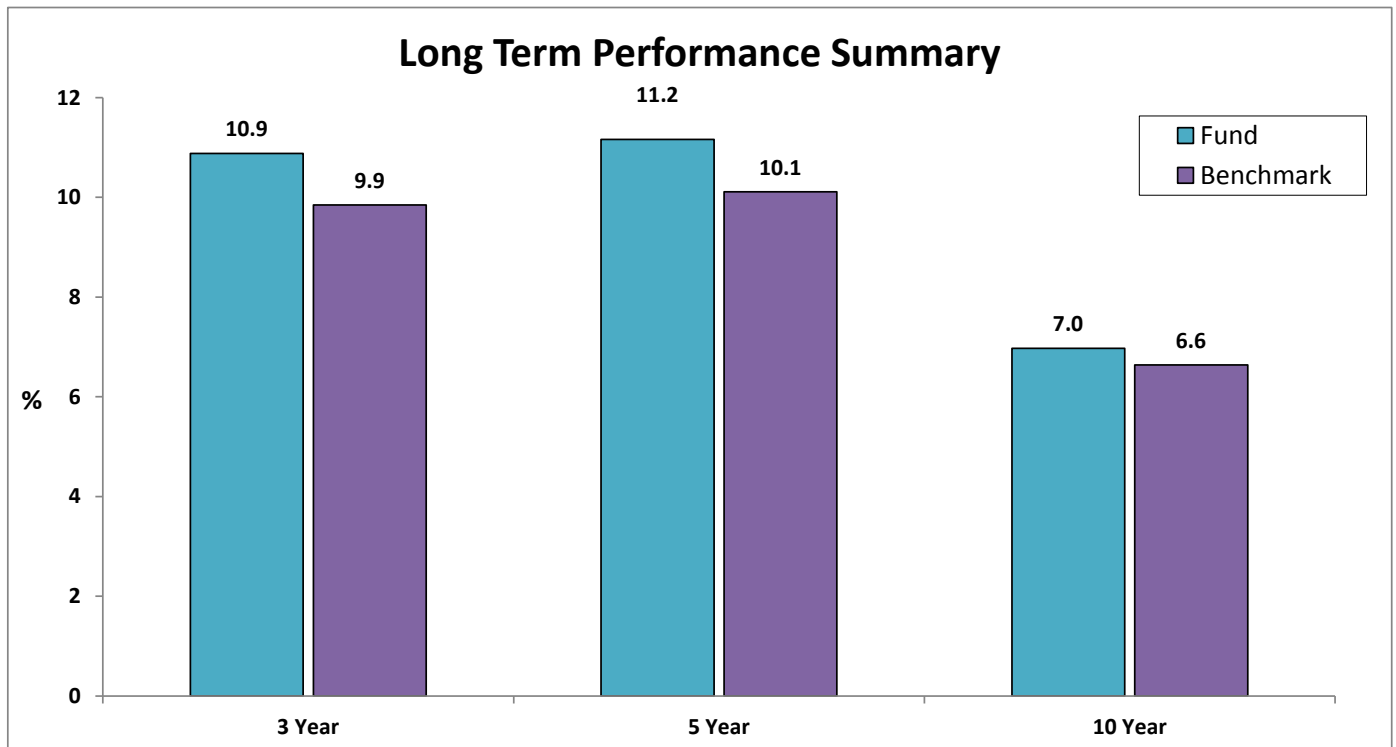

Total Fund Performance

The graph below shows the relative performance of the Kent Fund over the last 10 years. The overall return on the Fund for 2016/17 was 21.1% compared to the customised Strategic benchmark of 18.1%.

For comparison the PIRC Local Authority Universe average fund return for 2016/17 was 21.4%.

The graph overleaf shows the long term performance of the Fund compared against the Fund's Strategic benchmark.

Returns by Asset Class for 2016-17

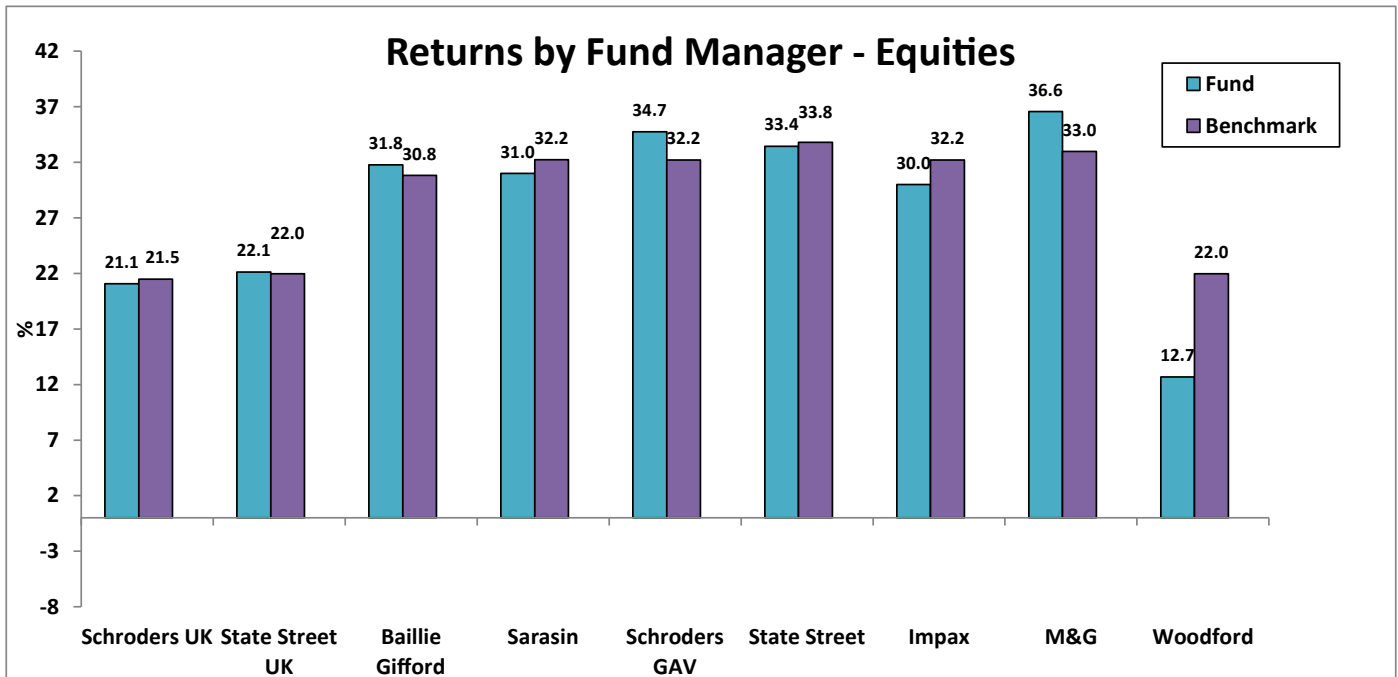

The analysis set out below shows the returns by asset class for 2016/17:

Investments

Performance by Fund Manager

The following graphs show the performance of the Equity and other Mandates compared to their benchmarks for the year ended 31 March 2017.

Environmental Social and Governance Investments Policy

Details of the Fund's responsible investment policies and environmental, social and governance issues are included in the Statement of Investment Principles (SIP) and in the Investment Strategy Statement (ISS) which replaces the SIP from 1 April 2017.

Investments

The Fund complies with the UK Stewardship Code through the outsourcing to its external investment managers, responsibility for governance, engagement, and voting activity. The Superannuation Fund Committee receives quarterly monitoring reports from the managers.

Voting by Equity Fund Managers 2016/17

	Number of Resolutions		
	For	Against	Abstain
Baillie Gifford	1,704	169	5
Schroders	305	4	0
Sarasin	603	147	37

The Fund is a member of The Pensions and Lifetime Savings Association (PLSA) and The Institutional Investors Group on Climate Change (IIGCC) and has signed up to the UN Principles for Responsible Investments (UNPRI).

Details of the Fund's compliance with the Myners principles are at appendix 4 of the Fund's Statement of Investment Principles available on the Kent Pension Fund website at www.kentpensionfund.co.uk.

Administration

Key Service Standards for Scheme Members

The table below details the Fund's Key Service Standards and performance against these standards.

Type of case	Target time	Number processed	Processed within target
Calculation and payment of retirement award	20 days from receipt of paperwork	2,238	95%
Calculation and payment of dependants benefit	15 days from receipt of paperwork	410	95%
Provision of estimates	20 days from receipt of paperwork	3,145	67%
Correspondence	Full reply within 15 working days	5,370	99%

Administration and governance costs per member of the pension fund were as follows:

- 2016-17: £24.7
- 2015-16: £25.5

Staff to fund-member ratios were:

- 2015-16: 65 staff for 129,552 members
- 2016-17: 64 staff for 131,834 members

There are 359 employers actively participating in the Fund and the profile of members is as detailed below:

	Contributors		Pensioners		Deferred pensioners	
	31Mar 2017	31Mar 2016	31Mar 2017	31Mar 2016	31Mar 2017	31Mar 2016
Kent County Council	22,797	22,363	20,362	19,716	22,595	22,792
Other Employers	28,037	27,453	18,286	17,544	19,757	19,684
Total	50,834	49,816	38,648	37,260	42,352	42,476

Scheme details

The Kent Pension Fund is part of the Local Government Pension Scheme (LGPS) and is administered by Kent County Council (KCC) for the purpose of providing pensions and other benefits for the pensionable employees of KCC, Medway Council, the district and borough councils in Kent and a number of other employers within the county area. The Pension Fund is a reporting entity and KCC as the Administering Authority is required to include the Fund's accounts as a note in its Report and Accounts. Teachers, police officers and firefighters are not included as they come within other national pension schemes. The LGPS is a contributory defined benefit pension scheme.

The Scheme is governed by the Public Service Pensions Act 2013. The Fund is administered in accordance

Administration

with the following secondary legislation:

- the Local Government Pension Scheme Regulations 2013 (as amended);
- the Local Government Pension Scheme (Transitional Provisions, Savings and Amendments) Regulations 2014 (as amended);
- the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2016

The Fund is overseen by the Kent County Council Superannuation Fund Committee (the Scheme manager). The Local Pension Board which was established in 2015 assists the Scheme manager to ensure the effective and efficient governance and administration of the Scheme.

Membership

Membership of the LGPS is voluntary and employees are free to choose whether to join or remain in the Scheme or to make personal arrangements outside the Scheme. Employers in the Fund include Scheduled Bodies which are Local Authorities and similar entities whose staff are automatically entitled to be members of the Scheme; and Admitted Bodies which participate in the Fund by virtue of an admission agreement made between the Authority and the relevant body. Admitted bodies include voluntary, charitable and similar entities or private contractors undertaking a local authority function following a specific business transfer to the private sector.

Funding

Benefits are funded by contributions and investment earnings. Contributions are made by active members of the Fund and range from 5.5% to 12.5% of pensionable pay for the financial year ending 31 March 2017. Employee contributions are matched by employers' contributions which are determined by the Fund's actuary based on triennial actuarial funding valuations at a level necessary to assure that the Fund is able to meet 100% of its existing and liabilities. Any shortfall is being spread over a period of up to a maximum of 20 years. The triennial valuation at 31 March 2013 certified the employer contribution rate payable from 1 April 2014 to 31 March 2017.

The 2013 triennial valuation certified a common contribution rate of 20% of pensionable pay to be paid by each employer participating in the Kent Pension Fund. In addition to this, each employer has to pay an individual adjustment to reflect its own particular circumstances and funding position within the Fund. Details of each employer's contribution rate are contained in the Statement to the Rates and Adjustment Certificate in the triennial valuation report.

The latest triennial valuation carried out as at 31 March 2016 has calculated an average contribution rate of 20.9% of pensionable pay. These rates came into effect from 1 April 2017.

Benefits

Pension benefits under the LGPS are based on the following:

Administration

	Service pre April 2008	Membership from 1 April 2008 to 31 March 2014	Membership from 1 April 2014
Pension	1/80 x final pensionable salary	1/60 x final pensionable salary	1/49 (or 1/98 if opted for 50/50 section) x career average revalued salary
Lump sum	Automatic lump sum of 3/80 x final pensionable salary. In addition, part of the annual pension can be exchanged for a one-off tax-free cash payment. A lump sum of £12 is paid for each £1 of pension given up.	No automatic lump sum. Part of the annual pension can be exchanged for a one-off tax-free cash payment. A lump sum of £12 is paid for each £1 of pension given up.	No automatic lump sum. Part of the annual pension can be exchanged for a one-off tax-free cash payment. A lump sum of £12 is paid for each £1 of pension given up.

If a member has to leave work at any age due to permanent ill health the scheme provides a tiered ill health retirement package. If the member is unlikely to be capable of gainful employment within a reasonable time after they leave they will receive increased benefits payable immediately. Up to 31 March 2014 a scheme member needed to have total membership of at least 3 months to qualify for ill health benefits. Since 1 April 2014 this qualifying period has increased to 2 years.

Where a scheme member dies in service a lump sum is payable by way of a death grant equal to three years' pay. Scheme members are able to make an 'expression of wish' concerning to whom the grant should be payable in the event of their death.

The scheme also makes provision in the event of death for the payment of pensions to surviving spouses, civil partners, eligible children and, subject to certain qualifying conditions, cohabiting partners.

Increasing benefits

In addition to the scheme benefits members may, if they wish, pay extra to increase their retirement benefits. They can do this either by paying additional contributions to buy extra LGPS pension, by making payments to the scheme's Additional Voluntary Contributions (AVC) arrangements, or by making payments to a personal pension, stakeholder pension or Free-standing AVC scheme of their choice. There is a range of other benefits provided under the scheme including early retirement, ill health pensions and death benefits. For more details, please refer to the Kent Pension Fund website.

There is a range of other benefits provided under the Scheme including early retirement, ill health pensions and death benefits. For more details, please refer to the Kent Pension Fund website: www.kentpensionfund.co.uk.

Communications

The Pension Section communicates with members and employers in a variety of ways: newsletters

Administration

are sent to pensioners, pension forums are used to communicate with employers, and current and former Scheme members have access to the KCC Pensions Section to make written, email or telephone enquiries. Information can also be found on the Kent Pension Fund's website, www.kentpensionfund.co.uk. Scheme members receive an annual benefit illustration and each pensioner and deferred pensioner is advised annually of the indexation increase to their pension. The Kent Active Retirement Fellowship (KARF) has been established as a facility of which pensioners can become members and participate in a wide variety of activities. KARF has established groups throughout the County and welcomes new members.

Internal Dispute Procedure

The Kent Pension Fund has a formal Internal Dispute Procedure to consider a member dispute over a decision made either by a scheme employer or Kent County Council acting as the Administering Authority. An independent person is appointed by each employer to consider an appeal made by a scheme member.

2016-17 Disputes considered	2016-17 Appeals upheld

Actuary's report

Introduction

The last full triennial valuation of the Kent County Council Pension Fund was carried out as at 31 March 2016 as required under Regulation 62 of the Local Government Pension Scheme Regulations 2013 (the Regulations) and in accordance with the Funding Strategy Statement of the Fund. The results were published in the triennial valuation report dated 31 March 2017.

2016 Valuation Results

Asset value and funding level

The results for the Fund at 31 March 2016 were as follows:

- the smoothed market value of the Fund's assets as at 31 March 2016 for valuation purposes was £4,556m;
- the Fund had a funding level of 89% i.e. the assets were 89% of the value that they would have needed to be to pay for the benefits accrued to that date, based on the assumptions used. This corresponded to a deficit of £547m.

Contribution Rates

The employer contribution rates, in addition to those paid by the members of the Fund, are set to be sufficient to meet:

- the annual accrual of benefits allowing for future revaluation of benefits and increases to pensions in payment when these fall due;
- plus an amount to reflect each participating employer's notional share of the Fund's assets compared with 100% of their liabilities in the Fund, in respect of service to the valuation date.

The primary rate of contribution at a whole Fund level was 14.9% of payroll p.a. The primary rate as defined by Regulation 62(5) is the employer's share of the cost of benefits accruing in each of the three years beginning 1 April 2017.

In addition each employer pays a secondary contribution as required under Regulation 62(7) that when combined with the primary rate results in the minimum total contributions as set out below. This secondary rate is based on their particular circumstances and so individual adjustments are made for each employer.

Details of each employer's primary and secondary rates are contained in the Rates and Adjustment Certificate in the triennial valuation report.

Assumptions

The key assumptions used at whole Fund level to value the benefits at 31 March 2016 are summarised overleaf:

Actuary's report

Assumption	31 March 16
Discount rate	5.4% p.a.
Pension increases (CPI)	2.4% p.a.
Salary increases	In line with CPI until 31 March 2020 and 3.9% p.a. thereafter
Pension increases on GMP	Funds will pay limited increases for members that have reached SPA by 6 April 2016, with the Government providing the remainder of the inflationary increase. For members that reach SPA after this date, we have assumed that Funds will be required to pay the entire inflationary increases.
Mortality	<p>The post retirement mortality assumptions adopted are as follows:</p> <ul style="list-style-type: none"> • For members, the S2PA series with a multiplier of 95%, making allowance for CMI 2015 projected improvements and a long-term rate of improvement of 1.5% p.a. • For dependants, 115% of the S2PMA tables for male dependants and 110% of the S2DFA tables for female dependants, making allowance for CMI 2015 projected improvements and a long-term rate of improvement of 1.5% p.a.
Retirement	Each member retires at a single age, weighted based on when each part of their pension is payable unreduced.
Commutation	Members will convert 50% of the maximum possible amount of pension into cash

Further details of these assumptions can be found in the relevant actuarial valuation report.

Updated position since the 2016 Valuation

Since 31 March 2016, investment returns have been higher than assumed at the 2016 triennial valuation. The value placed on the liabilities will, however, have also increased slightly due to the accrual of new benefits as well as a decrease in the real discount rate underlying the valuation funding model. Overall, we expect that the funding level should be slightly higher than at 31 March 2016 although the ongoing cost is likely to have increased due to lower real discount rates.

The next actuarial valuation is due as at 31 March 2019 and the resulting contribution rates required by the employers will take effect from 1 April 2020.

Graeme Muir FFA
Partner, Barnett Waddingham LLP

Financial statements

Statement of Responsibilities for the Statement of Accounts Kent County Council's Responsibilities

The Council is required:

- to make arrangements for the proper administration of the Superannuation Fund's financial affairs and to ensure that one of its officers has the responsibility for the administration of those affairs. In this authority, that officer is the Corporate Director of Finance;
- to manage the Fund's affairs to secure economic, efficient and effective use of resources and safeguard its assets;
- to approve the statement of accounts.

I confirm that these Accounts were approved by the Governance and Audit Committee at its meeting on 19 July 2017 on behalf of Kent County Council.

Councillor Nick Chard
Chairman of the Governance and Audit Committee
19 July 2017

Corporate Director of Finance's Responsibilities

The Corporate Director of Finance is responsible for the preparation of the Superannuation Fund's Statement of Accounts in accordance with proper practices as set out in the CIPFA / LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code), and is required to give a true and fair view of the financial position of the Superannuation Fund at the accounting date and its income and expenditure for the year ended 31 March 2017.

In preparing this Statement of Accounts the Corporate Director of Finance has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the Code.

The Corporate Director of Finance has also:

- kept proper accounting records which were up to date; and
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

I confirm that these accounts give a true and fair view of the financial position of the Superannuation Fund at the reporting date and its income and expenditure for the year ended 31 March 2017.

Certificate of the Corporate Director of Finance

Andy Wood
Corporate Director of Finance

Financial statements

Notes to the Pension Fund Account

1. Basis of preparation

The Statement of Accounts summarises the Fund's transactions for the 2016-17 financial year and its position at 31 March 2017.

The accounts have been prepared in accordance with the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom 2016-17 which is based upon International Financial Reporting Standards, as amended for the UK public sector. The accounts are prepared on a going concern basis.

The accounts summarise the transactions of the Fund and report on the net assets available to pay pension benefits. The accounts do not take account of obligations to pay pensions and benefits which fall due after the end of the financial year. The actuarial present value of promised retirement benefits, valued on an International Accounting Standard (IAS)19 basis is disclosed at note 21 of these accounts.

2. Summary of Significant Accounting Policies

Fund Account - revenue recognition

a) Contribution income

Normal contributions, both from the members and from the employers, are accounted for on an accruals basis at the percentage rate recommended by the fund actuary in the payroll period to which they relate. Employers Deficit funding contributions are accounted for on the due dates on which they are payable under the schedule of contributions set by the scheme actuary or on receipt if earlier than the due date. Employers' augmentation contributions and pensions strain contributions are accounted for in the period in which the liability arises. Any amount due in year but unpaid will be classed as a current financial asset. Amounts not due until future years are classed as long-term financial assets.

b) Transfers to and from other schemes

Transfer values represent the amounts received and paid during the year for members who have either joined or left the Fund during the financial year and are calculated in accordance with the Local Government Pension Scheme Regulations. Individual transfers in/out are accounted for when received/paid, which is normally when the member liability is accepted or discharged. Transfers in from members wishing to use the proceeds of their additional voluntary contributions to purchase scheme benefits are accounted for on a receipts basis and are included in 'transfers in'. Bulk transfers are accounted for on an accruals basis in accordance with the terms of the transfer agreement.

c) Investment income

Dividends, interest, and stock lending income on securities have been accounted for on an accruals basis and where appropriate from the date quoted as ex-dividend (XD). Changes in the net market value of investments are recognised as income and comprise all realised and unrealised profits/losses during the year. A large number of the Fund's investments are held in income accumulating funds that do not distribute income. The accumulated income on such investments is reflected in the unit market price at the end of the year and is included in the realised and unrealised gains and losses during the year. Property related income mainly comprises of rental income which is recognised when it becomes due.

Financial statements

Fund Account - expense items

d) Benefits payable

Pensions and lump-sum benefits payable include all amounts known to be due as at the year end. Any amounts due but unpaid are disclosed in the Net Assets Statement as current liabilities.

e) Taxation

The Fund has been accepted by the HM Revenue and Customs as a registered pension scheme in accordance with paragraph 1(1) of Schedule 36 to the Finance Act 2004 and, as such, qualifies for exemption from tax on interest received and from capital gains tax on proceeds of investments sold. Tax is therefore only applicable to dividend income from equity investments. Income arising from overseas investments is subject to deduction of withholding tax unless exemption is permitted by and obtained from the country of origin. Investment income is shown net of non-recoverable tax, and any recoverable tax at the end of the year is included in accrued investment income.

By virtue of Kent County Council being the administering authority, VAT input tax is recoverable on all Fund activities including investment and property expenses.

f) Investment management, administrative, governance and oversight expenses

All expenses are accounted for on an accruals basis. Costs relating to Kent County Council staff involved in the administration, governance and oversight of the Fund, and overheads are incurred by the County Council and recharged to the Fund at the end of the year. Fees of the external investment managers and custodian are agreed in the respective mandates governing their appointments. Broadly these are based on the market value of the investments under their management and therefore increase or reduce as the value of these investments change.

Net Assets Statement

g) Financial and non financial assets

Financial assets other than debtors and cash are included in the Net Assets Statement on a fair value basis as at the reporting date. A financial asset is recognised in the Net Assets Statement on the date the Fund becomes party to the contractual acquisition of the asset. Any purchase or sale of securities is recognised upon trade and any unsettled transactions at the year-end are recorded as amounts receivable for sales and amounts payable for purchases. From the trade date any gains or losses arising from changes in the fair value of the asset are recognised by the Fund.

The values of investments as shown in the Net Assets Statement have been determined as follows:

- quoted investments are stated at market value based on the closing bid price quoted on the relevant stock exchange on the final day of the accounting period;
- fixed interest securities are recorded at net market value based on their current yields;
- investments in unquoted property and infrastructure pooled funds are valued at the net asset value or a single price advised by the fund manager;

Financial statements

- investments in private equity funds and unquoted listed partnerships are valued based on the Fund's share of the net assets in the private equity fund or limited partnership using the latest financial statements published by the respective fund managers. The valuation standards followed by the managers are in accordance with the industry guidelines and the constituent management agreements. Such investments may not always be valued based on year end valuation as information may not be available, and therefore will be valued based on the latest valuation provided by the managers adjusted for cash movements to the year end;
- pooled investment vehicles are valued at closing bid price if both bid and offer prices are published; or if single priced, at the closing single price. In the case of pooled investment vehicles that are accumulation funds, the change in market value also includes income which is reinvested in the fund;
- the Freehold and Leasehold properties were valued at open market prices in accordance with the valuation standards laid down by the Royal Institution of Chartered Surveyors. The last valuation was undertaken by Colliers International, as at 31 December 2016. The valuer's opinion of market value and existing use value was primarily derived using comparable recent market transactions on arm's length terms. The results of the valuation have then been indexed in line with the Investment Property Databank Monthly Index movement to 31 March 2017;
- debtors / receivables being short duration receivables with no stated interest rate are measured at original invoice amount.

h) Derivatives

The Fund uses derivative instruments to manage its exposure to specific risks arising from its investment activities. The Fund does not hold derivatives for speculative purposes. At the reporting date the Fund only held forward currency contracts. The future value of the forward currency contracts is based on market forward exchange rates at the year-end date and determined as the gain or loss that would arise if the outstanding contract were matched at the year-end with an equal and opposite contract.

i) Foreign currency transactions

Assets and liabilities in foreign currency are translated into sterling at spot market exchange rates ruling at the year-end. All foreign currency transactions including income are translated into sterling at spot market exchange rates ruling at the transaction date. All realised currency exchange gains or losses are included in investment income.

j) Cash and cash equivalents

Cash comprises cash in hand and demand deposits. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and that are subject to minimal risk of changes in value. Cash and cash equivalents managed by fund managers and cash equivalents managed by Kent County Council are included in investments. All other cash is included in Current Assets.

k) Financial liabilities

The Fund recognises financial liabilities other than creditors at fair value as at the reporting date. A financial liability is recognised in the Net Assets Statement on the date the fund becomes party to the liability. From this date any gains or losses arising from changes in the fair value of the liability are recognised by the Fund. Creditors are measured at amortised cost using the effective interest rate method, as required by IAS 39.

Financial statements

l) Actuarial present value of promised retirement benefits

The actuarial present value of promised retirement benefits is assessed every three years by the scheme actuary and the methodology used is in line with accepted guidelines and in accordance with IAS 19. To assess the value of the Fund's liabilities as at 31 March 2017 the actuary has rolled forward the value of the Fund's liabilities calculated for the funding valuation as at 31 March 2016. As permitted under IAS 26, the Fund has opted to disclose the actuarial present value of promised retirement benefits by way of a note to the Net Assets Statement (Note 21).

m) Contingent Assets and Liabilities and Contractual Commitments

A contingent asset/liability arises where an event has taken place that gives the Fund a possible right/obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Fund. Contingent assets/liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an inflow/outflow of resources will be required or the amount of the right/obligation cannot be measured reliably. Contingent assets/liabilities are not recognised in the Fund Account but disclosed in a note to the accounts.

3. Judgements and Assumptions made in applying accounting policies

Item	Uncertainties	Effect if actual results differ from assumption
Actuarial present value of promised retirement benefits	Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on Pension Fund assets. A firm of consulting actuaries is engaged to provide the Fund with expert advice about assumptions to be applied.	The effects on the net pension liability of changes in individual assumptions can be measured. For instance, a 0.5% increase in the discount rate assumption would result in a decrease in the pension liability of £809m. A 0.5% increase in assumed earning inflation would increase the value of liabilities by approx. £117m, and a one year increase to the life expectancy assumptions would increase the liability by approx. £340m.
Private Equity	Valuation of unquoted private equity including infrastructure investments is highly subjective and inherently based on forward looking estimates and judgements involving many factors. They are valued by the investment managers using guidelines set out in the British Venture Capital Association.	The total private equity including infrastructure investments on the financial statements are £138m. There is a risk that this investment may be under-or-over stated in the accounts.

Financial statements

4. Events after the Fund Account date

There have been no events since 31 March 2017, up to the date when these accounts were authorised, that require any adjustment to these accounts.

12. Investment Management Expenses

	2016-17 £000's	2015-16 £000's
Investment Managers Fees	18,170	14,459
Transaction Costs	1,232	502
Custody fees	83	137
Total	19,485	15,098

The management fees disclosed above include all investment management fees directly incurred by the fund including those charged on pooled fund investments.

Total transaction costs in 2015-16 were £991,000, £489,000 of which were included in cost of purchases and sales of investments and not recorded separately. From November 2015 all transaction costs incurred on purchases and sales of investments are accounted for separately. In addition to the transaction costs disclosed above, indirect costs are incurred through the bid-offer spread on investments within pooled investment vehicles. The amount of indirect costs is not separately provided to the Pension Fund.

14a. Analysis of Derivative Contracts

Objectives and policy for holding derivatives

Most of the holding in derivatives is to hedge liabilities or hedge exposures to reduce risk in the Fund. Derivatives may be used to gain exposure to an asset more efficiently than holding the underlying asset. The use of derivatives is managed in line with the investment management agreement agreed between the Fund and the investment manager.

Open forward currency contracts

In order to maintain appropriate diversification and to take advantage of overseas investment returns, a significant portion of the Fund's fixed income portfolio managed by Goldman Sachs Asset Management is invested in overseas securities. To reduce the volatility associated with fluctuating currency rates, the investment manager fully hedges the overseas, excluding emerging markets, exposure of the portfolio. This is approximately 75% of the portfolio managed by Goldman Sachs.

16. Stock Lending

The Custodians undertake a conservative programme of stock lending to approved UK counterparties against non cash collateral mainly comprising of Sovereigns and Treasury Bonds.

The amount of securities on loan at year end, analysed by asset class and a description of the collateral is set out in the table overleaf.

Financial statements

Quoted Pooled Investments	1	Net Asset Value/Bid prices on last day of accounting period	Net Asset Values	Not required
Unquoted Pooled Investments	2	Net Asset Value/Bid prices on last day of accounting period	Net Asset Values	Not required
Private Equity and Infrastructure Funds	3	Fair values as per International Private equity and venture capital guidelines (2012)	valuation of underlying investment/assets/companies/EBITDA multiples	Estimation techniques used in valuations, changes in market conditions, industry specific conditions
Property	2	Independent valuation by Colliers using RICS valuation standards	Market values of similar properties, existing lease terms estimated rental growth, estimated vacancies	Not required
Forward exchange contracts	2	Market forward exchange rates on the last day of accounting period	exchange rate risk	Not required

Sensitivity of assets valued at level 3

Having analysed historical data and current market trends, and consulted with independent investment advisors, the fund has determined that the valuation methods described above, are likely to be accurate to within the following ranges, and has set out below the consequent potential impact on the closing value of investments held at 31 March 2017.

Financial statements

	Assessed valuation range	Value as at 31 March 2017	Value on increase	Value on decrease
	(+/-)	£000's	£000's	£000's
Private Equity	20%	80,525	96,630	64,420
Infrastructure	15%	57,191	65,770	48,612

18a. Fair Value Hierachy

Level 1

Assets and Liabilities at Level 1 are those where the fair values are derived from unadjusted quoted prices in active markets for identical assets or liabilities. Investments include quoted equities, quoted fixed interest securities, quoted index linked securities and quoted unit trusts.

Level 2

Assets and Liabilities at Level 2 are those where quoted market prices are not available or where valuation techniques are used to determine fair value. These techniques use inputs that are based significantly on observable market data. Investments include Derivatives, Direct Property Investments and Property Unit Trusts.

Level 3

Assets and Liabilities at Level 3 are those where at least one input that could have a significant effect on the instrument's valuation is not based on observable market data and are valued using various valuation techniques that require significant judgement in determining appropriate assumptions. They include private equity and infrastructure investments the values of which are based on valuations provided by the General Partners to the funds in which the Pension Fund has invested. Assurances over the valuation are gained from the independent audit of the accounts.

These valuations are prepared by the Fund Managers in accordance with generally accepted accounting principles and the requirements of the law where these companies are incorporated. Valuations are usually undertaken periodically by the Fund Managers, and cash flow adjustments are used to roll forward the valuations where the latest valuation information is not available at the time of reporting.

The following table provides an analysis of the assets and liabilities of the pension fund grouped into levels 1 to 3, based on the level at which the fair value is observable.

Values at 31 March 2017	Quoted market price	Using observable inputs	With significant unobservable inputs	Total £000's
	Level 1 £000's	Level 2 £000's	Level 3 £000's

19. Nature and extent of Risks Arising From Financial Instruments

Risk and risk management

The Fund's primary long-term risk is that the Fund's assets will fall short of its liabilities (i.e. promised benefits payable to members). Therefore the aim of investment risk management is to minimise the risk of an overall reduction in the value and to maximise the opportunity for gains across the whole Fund portfolio. The Fund achieves this through asset diversification to reduce exposure to market risk (price risk, currency risk and interest rate risk) and credit risk to an acceptable level. In addition, the Fund manages its liquidity risk to ensure there is sufficient liquidity to meet the Fund's forecast cash flows. The Council manages these investment risks as part of its overall pension fund risk management programme.

Responsibility for the Fund's risk management strategy rests with the Superannuation Fund Committee.

Financial statements

Risk management policies are established to identify and analyse the risks faced by the Council's pensions operations. Policies are reviewed regularly to reflect changes in activity and in market conditions.

a) Market risk

Market risk is the risk of loss from fluctuations in equity and commodity prices, interest and foreign exchange rates and credit spreads. The Fund is exposed to market risk from its investment activities, particularly through its equity holdings. The level of risk exposure depends on market conditions, expectations of future price and yield movements and the asset mix. The objective of the Fund's risk management strategy is to identify, manage and control market risk exposure within acceptable parameters, whilst optimising the return on risk. In general, excessive volatility in market risk is managed through diversification of the portfolio in terms of geographical and industry sectors and individual securities. To mitigate market risks, the Council and its investment advisors undertake appropriate monitoring of market conditions and benchmark analysis.

The Fund has a strategic allocation to Equities at 64% and this is typical of local authority funds. It does mean that returns are highly correlated with equity markets.

Other price risk

Other price risk represents the risk that the value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or foreign exchange risk), whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all such instruments in the market. The Fund is exposed to security and derivative price risks. This arises from investments held by the Fund for which the future price is uncertain. All security investments present a risk of loss of capital. Except for shares sold short, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. The possible loss from shares sold short is unlimited. The Fund's investment managers mitigate this price risk through diversification and the selection of securities and other financial instruments is monitored by the Council to ensure it is within limits specified in the Fund Investment Strategy.

Other price risk - sensitivity analysis

Following analysis of historical data and expected investment return movement during the financial year, in consultation with the Fund's investment advisors, the Council has determined that the following movements in market price risk are reasonably possible for the 2017-18 reporting period.

Asset Type	Potential Market Movements (+/-)
UK Equities	7.94%
Overseas Equities	16.45%
Global Pooled Equities inc UK	15.00%
Bonds	5.55%
Property	13.33%
Infrastructure	14.45%
Private Equity	20.87%

The potential price changes disclosed above are based on predicted volatilities calculated based on our experience of market returns of our investments over a period of 3 years. The analysis assumes that all

Financial statements

other variables, in particular foreign currency exchange rates and interest rates, remain the same. Had the market price of the Fund investments increased/decreased in line with the above, the change in the net assets available to pay benefits in the market price would have been as follows (the prior year comparator is shown below):

Asset Type	Value as at 31 March 17 £000's	Percentage change %	Value on increase £000's	Value on decrease £000's
Cash and cash equivalents	132,102	0.00	132,102	132,102

Financial statements

Interest Rate Risk

The Fund invests in financial assets for the primary purpose of obtaining a return on investments. These investments are subject to interest rate risks, which represent the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Fund's interest rate risk is routinely monitored by the Council and its investment advisors in accordance with the Fund's risk management strategy, including monitoring the exposure to interest rates and assessment of actual interest rates against the relevant benchmarks. The Fund's direct exposure to interest rate movements as at 31 March 2017 and 31 March 2016 are set out below. These disclosures present interest rate risk based on the underlying financial assets at fair value.

Asset Type	31 March 17 £000's	31 March 16 £000's
Cash and cash equivalents	121,323	70,117
Cash Balances	10,779	7,896
Bonds		
- Directly held securities	339,752	310,896
- Pooled Funds	241,654	228,876
Total	713,508	617,785

Interest rate risk - sensitivity analysis

The Council recognises that interest rates can vary and can affect both income to the Fund and the value of the net assets available to pay benefits. A 100 basis point (bps) movement in interest rates is consistent with the level of sensitivity applied as part of the Fund's risk management strategy. The Fund's investment advisor has advised that long-term average rates are expected to move less than 100 basis points from one year to the next and experience suggests that such movements are likely. The analysis that follows assumes that all other variables, in particular exchange rates, remain constant, and shows the effect in the year on the net assets available to pay benefits of a +/- 100 bps change in interest rates:

Asset Type	Carrying amount as at 31 March 17 £000's	Change in year in the net assets available to pay benefits	
		+100bps £000's	-100bps £000's
Cash and cash equivalents	121,323	1,213	-1,213
Cash Balances	10,779	108	-108
Bonds			
- Directly held securities	339,752	-3,398	3,398
- Pooled Funds	241,654	-2,417	2,417
Total change in assets available	713,508	-4,494	4,494

Financial statements

Asset Type	Carrying amount as at 31 March 16	Change in year in the net assets available to pay benefits	
	£000's	+100bps £000's	-100bps £000's
Cash and cash equivalents	70,117	701	-701
Cash Balances	7,896	79	-79
Bonds			
- Directly held securities	310,896	-3,109	3,109
- Pooled Funds	228,876	-2,289	2,289
Total change in assets available	617,785	-4,618	4,618

Changes to both the fair value of assets and the income received from investments impact on the net assets available to pay benefits. The analysis demonstrates that a 100 bps increase in interest rates will not affect the interest received on fixed interest assets but will reduce their fair value and vice versa. Changes in interest rates do not impact on the value of cash/cash equivalent balances but they will affect interest income received on those balances.

Currency Risk

Currency risk represents the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Through their investment managers, the Fund holds both monetary and non-monetary assets denominated in currencies other than GBP, the functional currency of the Fund. Most of these assets are not hedged for currency risk. The Fund is exposed to currency risk on these financial instruments. However, a large part (£282m) of the assets managed by Goldman Sachs Asset Management held in non GBP currencies is hedged for currency risk through forward currency contracts. The Fund's currency rate risk is routinely monitored by the Council and its investment advisors in accordance with the Fund's risk management strategy, including monitoring the range of exposure to current fluctuations. The following table summarises the Fund's currency exposure excluding the hedged investments as at 31 March 2017 and 2016:

Currency exposure - asset type	Asset value as at 31 March 17	Asset value as at 31 March 16
	£000's	£000's
Overseas Equities	1,234,999	950,632
Overseas Pooled Funds	1,136,971	877,883
Overseas Bonds	40,223	39,923
Overseas Private Equity, Infrastructure and Property funds	125,388	109,638
Non GBP Cash	14,125	8,302
Total overseas assets	2,551,706	1,986,378

Currency risk - sensitivity analysis

Following analysis of historical data and expected currency movement during the financial year, in consultation with the fund's investment advisors, the Council has determined that the following movements in the values of financial assets denominated in foreign currency are reasonably possible for

Financial statements

the 2017-18 reporting period. This analysis assumes that all other variables, in particular interest rates, remain constant. A relevant strengthening/weakening of the pound against various currencies in which the Fund holds investments would increase/decrease the net assets available to pay benefits as follows:

Currency exposure - asset type	Asset value as at 31 March 17	Change to net assets available to pay benefits	
		+8.3%	-8.3%
	£000's	£000's	£000's
Overseas Equities	1,234,999	1,337,504	1,132,494
Overseas Pooled Funds	1,136,971	1,231,340	1,042,602
Overseas Bonds	40,223	43,562	36,884
Overseas Private Equity, Infrastructure and Property funds	125,388	135,795	114,981
Non GBP Cash	14,125	15,297	12,953
Total change in assets available	2,551,706	2,763,498	2,339,914

Currency exposure - asset type	Asset value as at 31 March 16	Change to net assets available to pay benefits	
		+8.3%	-8.3%
	£000's	£000's	£000's
Overseas Equities	950,632	1,029,534	871,730
Overseas Pooled Funds	877,883	950,747	805,019
Overseas Bonds	39,923	43,237	36,609
Overseas Private Equity, Infrastructure and Property funds	109,638	118,738	100,538
Non GBP Cash	8,302	8,991	7,613
Total change in assets available	1,986,378	2,151,247	1,821,509

b) Credit Risk

Credit risk represents the risk that the counterparty to a transaction or a financial instrument will fail to discharge an obligation and cause the Fund to incur a financial loss. The market values of investments generally reflect an assessment of credit in their pricing and consequently the risk of loss is implicitly provided for in the carrying value of the Fund's financial assets and liabilities.

In essence the Fund's entire investment portfolio is exposed to some form of credit risk, with the exception of the derivatives positions, where the risk equates to the net market value of a positive derivative position. However, the selection of high quality counterparties, brokers and financial institutions minimises credit risk that may occur through the failure to settle a transaction in a timely manner.

Contractual credit risk is represented by the net payment of a receipt that remains outstanding, and the cost of replacing the derivative position in the event of a counterparty default. The residual risk is minimal due to the various insurance policies held by the exchanges to cover defaulting counterparties.

Financial statements

Deposits are not made with banks and financial institutions unless they are rated independently and meet the Council's credit criteria. The Council has also set limits as to the maximum amount that may be placed with any one financial institution. The Fund's cash was held with the following institutions:

	Rating	Balance as at 31 March 17 £000's	Balance as at 31 March 16 £000's

c) Liquidity risk

Liquidity risk represents the risk that the Fund will not be able to meet its financial obligations as they fall due. The Council therefore takes steps to ensure that the Pension Fund has adequate cash resources to meet its commitments. The Council has immediate access to its Pension Fund cash holdings.

Management prepares periodic cash flow forecasts to understand and manage the timing of the Fund's cash flows. The appropriate strategic level of cash balances to be held forms part of the Fund investment strategy.

Financial statements

All financial liabilities at 31 March 2017 are due within one year.

Refinancing risk

The key risk is that the Council will be bound to replenish a significant proportion of its Pension Fund financial instruments at a time of unfavourable interest rates. The Council does not have any financial instruments that have a refinancing risk as part of its treasury management and investment strategies.

20. Funding Arrangements

In line with Local Government Pension Scheme (Administration) Regulations 2013 (as amended), the Fund is required to obtain an actuary's funding valuation every three years for the purpose of setting employer contribution rates for the forthcoming triennial period. The last such valuation took place as at 31 March 2016.

The key elements of the funding policy are:

- to ensure the long-term solvency of the Fund and ensure that sufficient funds are available to meet all the benefits as they fall due for payment;
- to ensure employer contribution rates are as stable as possible;
- to minimise the long term cost of the scheme by recognising the link between assets and liabilities and adopting an investment strategy that balances risk and return;
- to reflect the different characteristics of employing bodies in determining contribution rates where the administering authority considers it reasonable to do so.

At the 2016 valuation a maximum deficit recovery period of 17 years (2013- 20 years) is used for all employers. Shorter recovery periods have been used where affordable. This will provide a buffer for future adverse experience and reduce the interest cost paid by employers. For Transferee Admission Bodies the deficit recovery period is set equal to the future working life of current employees or the remaining contract period, whichever is the shorter.

In the 2016 triennial valuation, the smoothed value of the Fund's assets at the valuation date was £4,556m and the liabilities were £5,103m. The assets therefore, represented 89% (2013 - 83%) of the Fund's accrued liabilities, allowing for future pay increases.

The contribution rate for the average employer, including payments to target full funding has increased from 20% to 20.9% of pensionable salaries. The funding level as a percentage has increased (due to good investment returns and employer contributions) although this has been partly offset by the changes in the financial assumptions used to calculate the liabilities.

The actuarial valuation has been undertaken on the projected unit method. At individual employer level the projected unit funding method has been used where there is an expectation that new employees will be admitted to the Fund. The attained age method has been used for employers who do not allow new entrants. These methods assess the costs of benefits accruing to existing members during the remaining working lifetime, allowing for future salary increases. The resulting contribution rate is adjusted to allow for any differences in the value of accrued liabilities and the market value of assets.

Financial statements

The 2016 actuarial assumptions were as follows:

Assumptions	2016
Valuation of Assets:	Assets have been valued at a 6 month smoothed market rate
Rate of return on investments (discount rate)	5.4% p.a.
Rate of general pay increases: Long term	3.9% p.a.
Short term	CPI for period 31 March 2016 to 31 March 2020
Rate of increases to pensions in payment (in excess of guaranteed minimum pension):	2.4% p.a.

21. Actuarial Present Value of Promised Retirement Benefits

In addition to the triennial funding valuation, every year the fund's actuary undertakes a valuation of the Fund's liabilities on an IAS 19 basis, using the same base data as the funding valuation rolled forward to the current financial year, taking account of changes in membership numbers and updating assumptions to the current year.

The actuarial present value of promised retirement benefits as at 31 March 2017 was £9,062.3m (31 March 2016: £7,479.8m). The Fair Value of the Scheme assets at Bid Value being £5,565.2m (31 March 2016: £4,597.5m) the Fund has a net liability of £3,497.1m as at 31 March 2017 (31 March 2016: £2,882.3m). The Fund accounts do not take account of liabilities to pay pensions and other benefits in the future. Based on the latest valuation, the fair value of net assets of the Fund represents 61.41% of the actuarial valuation of the promised retirement benefits. Future liabilities will be funded from future contributions from employers.

The liability above being calculated on an IAS 19 basis and differs from the results of the 2016 triennial funding valuation because IAS 19 stipulates a discount rate rather than a rate which reflects a market rate.

Assumptions used:	% p.a.
Salary increase rate	4.2%
Inflation/Pensions increase rate	2.7%
Discount rate	2.7%

24. Additional Voluntary Contributions

Scheme members have the option to make additional voluntary contributions to enhance their pension benefits. In accordance with regulation 4(2)(b) of the LGPS (Management and Investment of Funds) Regulations 2009, these AVC contributions are not included within the Pension Fund Accounts. These contributions are paid to the AVC provider directly by the employer and are invested separately from the Pension Fund, with either Equitable Life Assurance Company, Prudential Assurance Company or Standard Life Assurance Company. These amounts are included within the disclosure note figures below.

	Prudential		Standard Life		Equitable Life

Financial statements

25. Related Party Transactions

The Kent Pension Fund is required to disclose material transactions with related parties, not disclosed elsewhere, in a note to the financial statements. During the year each member of the Kent County Council Superannuation Fund Committee is required to declare their interests at each meeting. None of the members of the Committee or senior officers undertook any material transactions with the Kent Pension Fund.

	2016-17 £000's	2015-16 £000's
Kent County Council is the largest single employer of members of the Pension Fund and during the year contributed: A list of all contributing employers and amount of contributions received is included in the Fund's annual report available on the pension fund website at: www.kentpensionfund.co.uk	67,989	66,968

Key management personnel

The employees of Kent County Council who held key positions in the financial management of the Kent Pension Fund during 2016-17 were the Corporate Director of Finance and Procurement, the Head of Financial Services, the Treasury and Investments Manager and the Pensions Manager. Details of officers' remuneration and members' allowances can be found in the accounts of Kent County Council under notes 6 and 7.

26. Contingent Liabilities and Contractual Commitments

Outstanding capital commitments (investments) as at 31 March 2017 totalled £102.3m (31 March 2016: £61.9m).

These commitments relate to outstanding call payments due on unquoted limited partnership funds held in private equity and infrastructure parts of the portfolio. The amounts 'called' by these funds are irregular in both size and timing over the life of each fund.

27. Contingent Assets

32 admitted body employers in the Kent Pension Fund hold insurance bonds to guard against the possibility of being unable to meet their pension obligations. These bonds are drawn in favour of the Fund and payment will only be triggered in the event of employer default.

Independent Auditor's report

Independent auditor's report to the members of Kent County Council on the consistency of the pension fund financial statements included in the superannuation fund annual report

Opinion

The superannuation fund financial statements of Kent County Council (the "Authority") for the year ended 31 March 2017 which comprise the fund account, the net assets statement and the related notes of Kent County Council superannuation fund are derived from the audited pension fund financial statements for the year ended 31 March 2017 included in the Authority's Statement of Accounts (the "Statement of Accounts").

In our opinion, the accompanying superannuation fund financial statements are consistent, in all material respects, with the audited financial statements in accordance with proper practices as defined in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2016/17 and applicable law.

Superannuation fund annual report - Superannuation fund financial statements

The superannuation fund annual report and the superannuation fund financial statements do not reflect the effects of events that occurred subsequent to the date of our report on the Statement of Accounts. Reading the superannuation fund financial statements and the auditor's report thereon is not a substitute for reading the audited Statement of Accounts and the auditor's report thereon.

Who we are reporting to

This report is made solely to the members of the Authority, as a body, in accordance with Part 5 paragraph 20(5) of the Local Audit and Accountability Act 2014 and as set out in paragraph 43 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. Our work has been undertaken so that we might state to the members of the Authority those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Authority and the Authority's members as a body, for our audit work, for this report, or for the opinions we have formed.

The audited financial statements and our Report thereon

We expressed an unmodified audit opinion on the superannuation fund financial statements in the Statement of Accounts in our report dated 20 July 2017.

Corporate Director of Finance responsibilities for the superannuation fund financial statements in the superannuation fund annual report

Under the Local Government Pension Scheme Regulations 2013 the Chief Financial Officer of the Authority is responsible for the preparation of the superannuation fund financial statements, which must include the fund account, the net asset statement and supporting notes and disclosures prepared in accordance with proper practices. Proper practices for the superannuation fund financial statements in both the Statement of Accounts and the superannuation fund annual report are set out in the CIPFA/

Independent Auditor's report

LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2016/17.

Auditor's responsibility

Our responsibility is to express an opinion on whether the superannuation fund financial statements in the superannuation fund annual report are consistent, in all material respects, with the audited superannuation fund financial statements in the Statement of Accounts based on our procedures, which were conducted in accordance with International Standard on Auditing 810 (Revised), Engagements to Report on Summary Financial Statements.
