

# KASS GOOD PRACTICE GUIDANCE FOR

# STAFF CARRYING OUT COMMUNITY CARE ASSESSMENTS

**1.1** KASS has to maintain at all times a delicate balance between empowerment and safeguarding; choice and risk. It is essential for practitioners to consider when the need to protect people from harm overrides the obligation to promote choice and empowerment. The following guidance aims to improve decision-making in this regard to enable service users to achieve the outcomes that matter to them.

### 2.1 WORKING THROUGH THE 4 STEPS OF THE POSITIVE RISK MANAGEMENT PROCESS

- Step 1: Identify Strengths/Risk(s)
- Step 2: Evaluate Strengths/Risk(s)
- Step 3: Support the person to develop an Action Plan
- Step 4: Manage the Risk(s)

# Step 1: Identify strengths and risk(s)

STEP 1	Find out what factors will have an impact or effect on the risk(s).			
knowle	te cases to practitioners with the appropriate level of edge, experience and skills to carry out risk assessments on the complexity of the issues.			
	out what the <u>service user</u> wants to do (or not do) and the mes they are seeking.			
their n to obta	munication with the service user is not possible because of nental capacity, language or culture, you must provide support ain the information. e.g. a British Sign Language (BSL) reter for someone who is deaf.			
releva asses	nust compile information about the service user that is int, accurate, current and sufficient for the purposes of your sment. If appropriate, consult past records, note any cting information and seek clarification as soon as practicable.			
	sure your assessment is " <b>suitable and sufficient</b> " in the ular circumstances of the case.			
servic with th	identify a safeguarding issue because you consider that the e user is in a vulnerable situation then raise an alert in line ne Kent and Medway Multi-agency Adult Protection Policy, cols and Guidance.			
streng the ou	d the risk(s) clearly and separately along with any related of the opportunities, and identify the effect they may have on of the service user seeks. What can happen, how it can happen, and who might be ed.			

# Step 2: Evaluate Strengths/Risk(s)

STEP 2 The next task is for you to weigh up the impact and likelihood of the risk(s). Complete this step using the template below								
	<ul> <li>Make sure you involve all the relevant people i.e. service user, carer, advocate.</li> <li>Take account of any relevant environmental factors and where necessary, alert the appropriate agency.</li> </ul>							
	(chanc		t occurring) ach risk.	below) to dete and impact (le	evel of harn	n) that		
	Very	5	10	15	20	25		
	likely Likely	Low 4	Medium 8	Medium 12	High 16	High 20		
рс	LIKEIY	Low	Medium	Medium	High	High		
Likelihood	Possible	3	6	9	12	15		
(eli		Low	Low	Medium	Medium	Medium		
	Unlikely	2 Low	4 Low	6 1 ov	8 Medium	10 Medium		
	Very	LOw	2	Low 3	4	5		
	Unlikely	Low	Low	Low	Low	Low		
MA	K RATING TRIX	Minor Impact	Moderate	Significant	Serious	Major		
Adapt	ted from Kent C	County Council E	Business Risk l	Management To	olkit: Revised	2008		
				IEDIUM	HIGH			
		1 -	b	8 – 15	16 - 25			
<ul> <li>Use scores to determine the rate of response with high risk(s) being addressed as a priority.</li> </ul>								
	<ul> <li>Bear in mind any safeguarding issues that might affect the risk rating.</li> </ul>							
	rating.							

•	You must ensure that the service user and/or carer fully appreciates and genuinely understands the consequences of the risk(s) to enable them to make their best decisions.
•	Note that in some cases it may be acceptable for you to accommodate a high level of short-term risk to achieve long-term gains for the service user, provided a clear and well-reasoned case can be made to support the decision and authorisation is obtained from your manager.
•	If the risk assessment reveals that an event is likely to occur that will be extremely harmful to the health and safety of the service user, carer, staff or the public, take immediate steps to address the risk(s) by alerting the Health and Safety representative.
•	You must advise all those involved of the potential harmful event and the need to cease any activity (or inactivity) which might cause it to occur or increase its possible impact
•	Use the Supported Decision Tool (Appendix 1) if necessary to establish if the risk is acceptable to the individual and/or carer.
•	Find out if the risk is unacceptable or if it places the Council in an unlawful position by discussing the case with your manager or supervisor.
•	Managers and supervisors must guide and support practitioners in borderline, challenging or complex cases to strike the right balance between safeguarding people and supporting them in achieving their desired outcomes.
•	You must consider any children who may be young carers of an adult and who could be at risk.
•	Work with the Children Families and Education (CFE) directorate to produce an action plan that meets the outcomes of all concerned while managing risk.

# Step 3: Support the person to develop an action plan

STEP 3	You now need to place the service user and/or their carer at the centre of action planning by supporting them to make decisions that address the risk(s).
	ide information about services and community resources that is , accessible and of high quality.
comi	appropriate interpretation and advocacy services to municate the information to those people with language or ory needs.
achie	port people in looking at all options to manage the risk(s) and eve their outcomes, even if they differ from the options you d have chosen.
	ord and communicate discussions and negotiations in service 's case notes.
	must seek professional input and work with other agencies as opriate i.e. in complex and challenging cases.
alwa	re the person has been assessed as lacking capacity, you must ys act in their best interest when reaching decisions on the ns that are needed to address the risk(s).
actio mear • Reco	v sufficient time for service user and/or carer to decide which ons they are willing to support to manage the risk(s), even if it ns putting in place interim measures to address the risk(s). Ford the details in case notes and discuss the matter in ervision.
supp not il	eople choose not to accept your advice or decline offers of oort and decide to live with a level of risk to themselves that is legal, you should make sure that they understand the level of but they cannot be coerced into acceptance.
othe provi	must discuss the case with your manager or supervisor, inform rs involved on a "need to know" basis, monitor the situation and ide the service user or carer with contact details in case they uge their mind.
<ul> <li>Ensu</li> </ul>	v up the action plan, involving the relevant people. ure each person's role in delivering the plan is clearly erstood and accepted.
•	e what actions need to be taken, when they will be taken, who ake them and the outcomes that are being sought.
Deci	de the implementation date and record any disagreements.

Step 4: Manage the risk(s)

STEP	94	Finally, you have to manage the risk(s) by implementing, monitoring and reviewing the action plan.
•	Imple level.	ment the action plan promptly in accordance with the risk
•		e how and when it will be reviewed, who will carry it out and else will be involved.
•		out reviews within 3 months of the service starting and ally thereafter.
•	Depe	nding on the risk level, reviews may be more frequent.
•		ly record the details in service user's case notes and share s of the action plan with those involved.
•	Ensu	re the review is proportionate to the risk level.
•		eview may be more appropriate than a full and prehensive review.
•		ollowing is a guide for carrying out reviews proportionate to evel of risk:
Low	=	Monitor via telephone call, texting, self-review, etc
Mediu	m =	Face to face review, further risk reassessment if necessary
High		Face to face, full and comprehensive review, reassessment if necessary, regular monitoring.
•	to pre	nust monitor progress of the action plan, make quick changes vious decisions if required and intervene in a more restrictive necessary.
•		policing people's decisions unless there are very good ns for doing so. Record the reasons in service user's case
•		nust discuss with your supervisor or manager any post- mentation disagreement and seek to achieve a quick ition.
•		gers and supervisors are jointly accountable for decisions iated with positive risk management.

•	Encourage service users and carers who directly employ support workers to take up Criminal Record Bureau (CRB) or Independent Safeguarding Authority (ISA) checks of their suitability for employment.
•	Offer KASS's support in obtaining the required information as individuals are unable to apply directly for CRB and ISA checks.
•	Use review to find out if the actions to reduce the risk(s) have been effective and to what extent.
•	Find out from service user and/or carer if their outcomes have been or are currently being met and to what extent.
•	Share the result of the review with those involved.
•	Amend the action plan accordingly.
•	If a full reassessment is necessary, identify the strengths and risk(s) and follow the Good Practice Guide once again.
•	Attend training in Positive Risk Management as part of continuing professional development. This will help to develop a culture where the appropriate balance is achieved between the need to meet service user's outcomes and the directorate's duty to safeguard vulnerable adults.

## <u>The use of Personal B</u>

3

## The use of Personal Budgets and Direct Payments

KASS will provide Personal Budgets to people who meet the Fair Access to Care Services (FACS) eligibility criteria for nonresidential services. A Personal Budget may be taken as a Direct Payment, with conditions in certain circumstances. The Directorate has to ensure the proper use of the council's monies. The table below is a guide to staff on the proper use of Personal Budgets and Direct Payments, to meet needs identified in the support plan.

		7
The support plan <b>will</b> be agreed if the Personal Budget or Direct Payments will be used to fund the following;	The support plan <b>may</b> be agreed, subject to conditions laid down by KASS, if the Personal Budget or Direct Payments is to be used to fund the following:	The support plan <b>will not</b> be agreed if the Personal Budget or Direct Payments will be used to fund the following;
<ul> <li>Services from a person or private sector agency that is competent to provide it, including equipment and minor adaptations.</li> <li>Services from Voluntary Sector agencies, other than those services currently being funded under agreements or contracts with KASS</li> <li>Other arrangements that will demonstrably achieve the agreed outcomes</li> </ul>	<ul> <li>Short periods of respite and some specialist equipment</li> <li>Services from a spouse, partner or relative due to:         <ul> <li>reasons relating to service user's religious practice or belief,</li> <li>actual or potential inability to secure services from people in the local area,</li> <li>communication needs of the service user which cannot be met in the local community areas, including British Sign Language (BSL),</li> <li>a family emergency or event e.g. funeral or sickness requiring "one off" stays away from the home.</li> </ul> </li> <li>Services directly provided by KASS. A Personal Budget can fund these but a Direct Payment may not</li> </ul>	<ul> <li>Residential or nursing care other than short periods of respite and some specialist equipment.</li> <li>Services that will not meet outcomes agreed with KASS e.g. a gift for a carer.</li> <li>Services which district and borough councils currently have a duty to provide.</li> <li>Services that Health is responsible for providing e.g. NHS Continuing Healthcare.</li> <li>Support from someone who might put you or others members of the public at risk.</li> <li>Anything that is illegal</li> </ul>

### Appendices

4

#### Appendix 1

#### A Supported Decision Tool

This tool is designed to guide and record the discussion when a person's choices involve an element of risk. It will be particularly helpful to a person with complex needs or if someone wants to undertake activities that appear particularly risky. (**It can be amended to suit different service user groups**)

It can be completed by the practitioner with the person or by the person themselves with any necessary support, (including the use of communication aids/pictures where necessary). It is important that, in discussing any risk issues, the person has as much information as possible (in an appropriate form), fully appreciates, and genuinely understands any consequences, to enable them to make their best decisions.

The tool could be adapted for use within existing needs assessment and care planning processes. It also has potential application for any organization or individual providing advice and support services to people who are self-funders and ineligible for support from their local councils.

Using the tool – Practitioners need to:

- Ensure that the person has the right support to express their wishes and aspirations
- Assume capacity unless otherwise proven
- Consider the physical and mental health of the person and any specialist services they need or are already receiving

#### Issues for the practitioner to consider

When using the tool with the individual, consider carefully the following aspects of the person's life and wishes:

- dignity
- diversity, race and culture, gender, sexual orientation, age
- religious and spiritual needs
- personal strengths
- ability/willingness to be supported to self care, in terms of:
- opportunities to learn new skills
- support networks
- environment can it be improved by means of specialist equipment or assistive technology?
- information needs
- communication needs tool can be adjusted (braille, photographs, simplified language)
- ability to identify own risk(s)
- ability to find solutions
- least restrictive options
- social isolation, inclusion, exclusion
- quality of life outcomes and the risk to independence of 'not doing'.

## Supported decision tool

1. What is important to you in your life?	
2. What is working well?	
3. What isn't working so well?	
o. What long working do work.

### KASS POSITIVE RISK MANAGEMENT RISK RATING FORM

	Very likely	5	10	15	20	25
		Low	Medium	Medium	High	High
Q	Likely	4	8	12	16	20
hood		Low	Medium	Medium	High	High
ih	Possible	3	6	9	12	15
		Low	Low	Medium	Medium	Medium
ike	Unlikely	2	4	6	8	10
		Low	Low	Low	Medium	Medium
	Very Unlikely	1	2	3	4	5
		Low	Low	Low	Low	Low
RISK RATING MATRIX		Minor	Moderate	Significant	Serious	Major
Impac	t					

Use risk assessment key to determine the possible impact (level of harm) that might result and the likelihood (chance of the event occurring) from each risk.

Risk Rat	LOW	MEDIUM	HIGH
	1 - 6	8 – 15	16 - 25

Risk Level	Action and Timescale
Low	No additional measures are required; however you must monitor to ensure that the risk(s) remain acceptably low.
Medium	Take prompt action to address the risk(s). Timescales must be consistent with the complexity of the issues and the likely impact on service users and others if action was delayed.
High	Take immediate steps to address the risk(s).

This risk rating form must be used with the risk evaluation form (see reverse) to calculate the overall risk score and risk level. Where there are multiple risks the overall risk level will be determined by the highest risk score.

This form must be used to develop the detailed action plan and be placed in the service user's case file.
