Children in Care Performance Report

May 2018

Produced by SCS Management Information

Publication Date: 20 June 2018

Guidance Notes

Polarity

- H The aim of this indicator is to achieve the highest number/percentage possible.
- L The aim of this indicator is to achieve the lowest number/percentage possible.
- T The aim of this indicator is to stay close to the target that has been set.

RAG Ratings

R	A red rating indicates that the current performance is significantly away from the target set: Target has been achieved
A	Floor Standard achieved but Target has not been met: Floor Standards represent the minimum level of acceptable performance. Floor Standards are set in Directorate Business Plans and if not achieved must result in management action
G	A green rating indicates that the current performance has met the target that has been set: Target has been achieved
No RAG Rating	RAG ratings are not applied to activity based indicators. Also, if the denominator is lower than 5 no RAG rating has been applied.

Direction of Travel

-  A green arrow indicates that performance has improved this month when compared to last month. Depending on the polarity of the indicator, an improvement in performance could either be a reduction or increase in numbers/percentage.
-  An amber arrow indicates that performance has remained the same as last month.
-  A red arrow indicates that performance has worsened this month when compared to last month. Depending on the polarity of the indicator, a worsening in performance could either be a reduction or increase in numbers/percentage.

YTD Data

Some of the performance indicators on the scorecard are measured using a Year to Date (YTD) approach - April to the end of the current month. For the first few months, it is advisable to treat the results of these indicators with a little caution as they are often based on a small cohort of children and therefore the percentages can be easily skewed.
