Adult Social Care and Health Being Digital Strategy 2019 - 2021

To help people to achieve the best possible health and well-being outcomes, living independent and fulfilling lives in their own homes and communities by using digital innovation and technology.

Enabled People

Embedding intelligent information and new technologies that promote individual health and wellbeing to empower people to self-manage and allow them to effectively access services

Empowered Workforce

Developing a more productive, competent and confident workforce in KCC and in the Care Sector to use the tools and information they need to provide high quality care and support

Improved Partnerships

Working closely with key partners across Kent to ensure we seek opportunities to collaborate, innovate and share information to deliver better outcomes for people

eing Digital Strategy nagine if...

People were able to do more for themselves and make use of intelligent information, tools and apps to increase their independence and improve their quality of life.

We could transform the way services are delivered across all settings by improving connectivity and using innovative technology.

We could develop a more productive, capable and confident workforce by ensuring employees have the right digital tools and information and can work flexibly.

Service users were empowered and enabled to live more fulfilling and independent lives by utilising more advanced and innovative products.

We could deliver better outcomes for people by enabling key partners to more easily collaborate, innovate and share information.

nabled People

ble people to do more for themselves to increase their independence

rent State

not always easy for people to find out what services and port are available and how to access them.

ice users have to tell their story multiple times throughout social care pathway.

are providing some assistive technology services but there new innovative technologies in the market.

Your Life, Your Wellbeing Strategy Alignmen

sired Future State

ice users can engage with social care anytime, anywhere, on device.

provide residents with a choice of how they engage with us ugh providing multiple channels of communication.

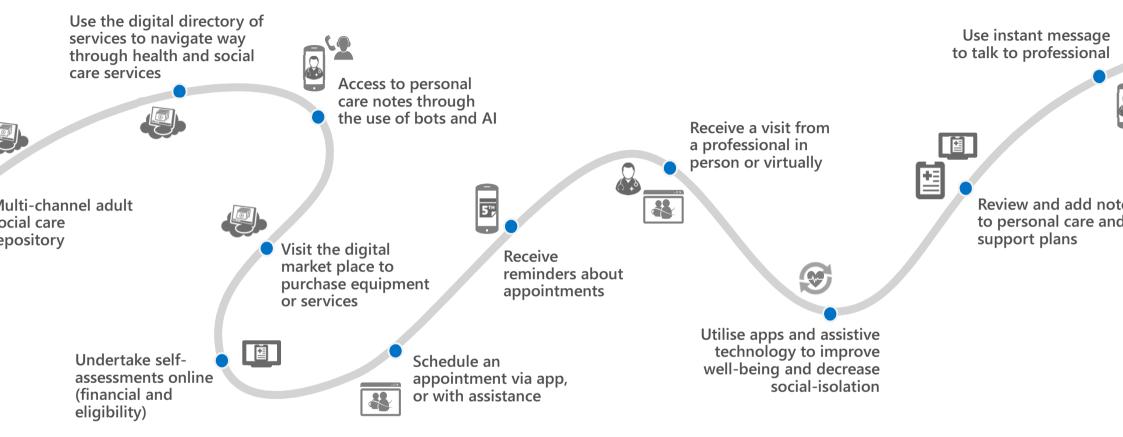

residents can use self-service tools to perform some tasks.

make use of artificial intelligence and robots to support ole with accessing and navigating services.

Through the delivery of Your Life, Your Wellbeing, we aim to:

- Create a smoother and safer pathway for our service users.
- Support people to access good-quality advice and information that allows them to look after themselves.
- Put the person at the centre of everything we do, supporting them to choose and control what care and support they receive.
