## 2. Foreword

Welcome to the County Council's Commissioning Plan for Education Provision in Kent 2020-24 (KCP). This is the latest edition of our five-year rolling Plan which we update annually. It sets out our future plans as Strategic Commissioner of education provision across all types and phases of education in Kent.

This Plan builds on the positive achievements of the last few years. We have continued to commission new primary, secondary and special provision to ensure not only a sufficient supply of school places to fulfil our statutory responsibility to ensure a school place for every child, but also to maintain a surplus of places to facilitate parental choice. This is not without its challenges, particularly in the secondary and specialist sectors as school rolls rise.

For September 2019, I am pleased to report that we:

- Commissioned 3FE permanent primary school places.
- Commissioned 8FE permanent secondary school places and a further 365 temporary Year 7 places.
- Commissioned 353 specialist places in special schools or specialist resource provisions in mainstream schools.
- Maintained over 5% surplus capacity in both the primary and secondary sectors at a County level.

I would like to thank all the schools, Headteachers and Governors for their support in ensuring sufficient school places while at the same time continuing to raise standards and improve children's achievements.

We forecast that between the 2018-19 and 2023-24 academic years total primary school rolls will increase by 698 pupils and secondary by 11,984 pupils. Further pressure will arise as new homes are built, and the Kent population increases accordingly. In order to meet the forecast, need and the local pressure from housing, for the academic years 2020-21 to 2023-24, 12FE of primary provision and 90 temporary Year R places will be needed and 53FE of secondary provision and 1,480 temporary Year 7 places.

We have seen a significant increase for several years in the numbers of pupils requiring a specialist place in order to meet their special educational needs. We will continue to address the need for high quality SEN provision within the context of the recommendations following the OFSTED/Quality Care SEND Inspection of earlier this year. Across the Plan period we plan to commission over 1,600 new specialist places.

For the 2019-23 iteration of the KCP we published forecasts which included the additional pupil places required to support planned housing development as laid out in the 12 District/Borough Council Local Plans or their variants. This was to illustrate and evidence the total infrastructure need if planned housing was built at the time, in the place and at the rate expected. For this iteration, we have reverted back to publishing forecasts that do not include the pupil places required to support planned housing and therefore they

will need to be read in that context.

The pressure on the County's Capital Budget continues to increase as a result of the requirements set out in the Plan. Lord Agnew (Parliamentary Under-Secretary of State for the School System) wrote to all Local Authorities in September 2019 outlining that the DfE will not be able to announce Basic Need allocations in 2019 for places needed in 2022. Additionally, as I write this foreword, we are still awaiting confirmation of the Basic Need Funding from the 2018 round. The delays in announcing both allocations are impacting on the Council's Medium-Term Financial Plan.

It is positive that the latest Government guidance 'Securing Developer Contributions for Education' (April 2019) included the expectation that local authorities seek developer contributions to support the funding of nursery places, sixth form provision and special educational needs provision, commensurate with the need arising from the development. The Government has also removed the 'pooling' restrictions where no more than five agreements could be linked to one project. It is as crucial as ever that we continue to work with, and are supported by, Borough and District Councils through s106 developer contributions and CIL funding to secure much of the funding needed to support the expansion of high quality education provision across all the phases of the education journey for the benefit of all children and young people in Kent.

**Richard Long - Cabinet Member for Education and Skills**

**Matt Dunkley - Corporate Director for Children, Young People and Education**

## **3. Executive Summary**

### **3.1 Purpose**

The County Council is the Strategic Commissioner of Education Provision in Kent. This Commissioning Plan sets out how we will carry out our responsibility for ensuring there are sufficient places of high quality, in the right places for all learners, while at the same time fulfilling our other responsibilities to raise education standards and promote parental preference. The Plan details our future need for education provision, thereby enabling parents and education providers to put forward proposals as to how these needs might best be met.

This Plan is a 'live' document which underpins the dynamic process of ensuring there are sufficient places for Kent children in schools, and other provisions. It is subject to regular discussion and consultation with schools, district/borough councils, KCC Members, the diocesan authorities and others. The content of this Plan reflects those discussions and consultations.

### **3.2 The Kent Context**

Kent is a diverse County. It is largely rural with a collection of small towns. Economically our communities differ, with economic advantage generally in the West, and disadvantage concentrated in our coastal communities in the South and East. Early Years education and childcare are predominantly provided by the private and voluntary sectors. Our schools are promoted by the County Council and many different trusts and take different forms including infant, junior, primary, grammar, wide ability comprehensive, all-through, single sex and faith based. Post-16 opportunities are available through schools, colleges and private training organisations.

### **3.3 What We Are Seeking to Achieve**

Our vision is that every child and young person should go to a good or outstanding early years setting and school, have access to the best teaching, and benefit from schools and other providers working in partnership with each other to share the best practice as they continue to improve. Focusing on commissioning education provision from good or better providers can assist in securing this vision. In order to address the commissioning needs outlined in this Plan we welcome proposals from existing schools, trusts, the three dioceses and new providers.

### **3.4 Principles and Guidelines**

The role of the Local Authority is set within a legal framework of statutory duties which are set out in the relevant sections of the Plan. We also have a set of principles and planning guidelines to help us in our role as the Commissioner of Education Provision (Section 5). It is important that the Local Authority is transparent and clear when making commissioning decisions or assessing the relative merits of any proposals it might receive.

### **3.5 Kent's Demographic Trends**

Information from the Office for National Statistics shows that in 2005 there were 15,613 live births in Kent (excluding Medway). The number of births rose each year up to 2012

when there was a baby boom of 18,147 children. Since this time, birth numbers have fallen to 17,062 in 2018.

The increased number of births, which required us to add significant primary school places, is now being felt in the secondary sector. Between the 2018-19 and 2023-24 academic years we forecast secondary school rolls will rise by 11,987 pupils. This is equivalent to around 13 new 6FE secondary schools. Primary rolls are forecast to rise by 698 pupils across the same period.

### **3.6 Capital Funding**

The pressure on the County's Capital Budget continues to increase as secondary school demand grows. The cost of delivering school places is currently met from Basic Need grant from the Government, prudential borrowing by the County Council, Section 106 property developer contributions and Community Infrastructure Levy monies (CIL).

The lag in funding streams causes a financial pressure for the County Council. In particular cash flow issues arise when delivering new schools which have high upfront capital costs. This has not been helped by the Lord Agnew's announcement in September 2019 that the DfE will not be able to announce Basic Need allocations in 2019 for places needed in 2022. We are still awaiting confirmation of the Basic Need Funding from the 2018 round. Similarly, developer contributions which are a major contributor to the capital cost of new school provision, are generally phased. The need to provide funding to bridge this gap is a growing pressure on the Council. This issue is becoming more critical as new secondary provision is required, for example, a new 6FE secondary school costing in excess of £20,000,000 to deliver.

The Government decision to remove the 'pooling' restrictions on developer contributions and the issuing of guidance that local authorities should seek contributions to support nursery, sixth form, and special educational needs provision will see the Council seeking the support of colleagues in Borough and District Councils in securing further developer contributions. However, it will not support the lag in the funding streams and reduce the upfront capital costs that put the Council under so much financial pressure.

The Free Schools programme is set to deliver some of the school provision Kent needs; although as highlighted in previous years, several free school projects have been delayed and the impact of this is being felt in the pressure for school places in some parts of the County.

As it remains the statutory duty of the Local Authority to secure sufficient school places KCC officers will continue to work with Education, Skills and Funding Agency (ESFA) officials to address our concerns, with particular reference to how the school's capital costs can be met ahead of the full contributions being received from developers.

### **3.7 Special Educational Needs**

As at January 2019, there were 11,763 pupils in Kent subject to an EHCP. When comparing this figure to the same point in January 2018 the number of ECHPs had increased by 1,384 (13.3%). This is higher than the increase nationally at 11.0%.

Of the pupils with an EHCP in January 2019, 42.4% were receiving their education in special schools. Of these pupils 6.6% were educated in an Independent Special School, which compares to 3.9% nationally. 32.2% were educated in mainstream which is lower than the national figure of 39.9%.

Following the Joint local area SEND inspection in March 2019 it is clear that we have much to do to improve the effectiveness of SEND provision across the County and to improve parents and carers confidence in the wider services and provision that their children receive.

In order to support the increasing number of pupils requiring SEN provision, we will seek developer contributions towards new SEN provision. This could be via new special schools, the addition of satellites of existing special schools or the addition of specialist resourced provisions. We will work closely with stakeholders to ensure that we have the right provision in place, at the right location and at the right time to support the needs of Kent pupils and their families.

### **3.8 Early Education and Childcare**

We have a surplus of just over 5,000 places for 0-4-year-olds across the County. Whilst our Childcare Sufficiency Assessment would suggest deficits of places in some districts, the surplus of places in other districts, our local knowledge, plus the absence of parental requirements for childcare brokerage, collectively indicate that Kent's childcare market is generally meeting the needs of its children and families.

Supporting the sufficiency, sustainability and quality of early years and childcare provision remain crucial in aiming to ensure a long term, sufficient supply of places.

The supply of Free Entitlement places for two, three and four year olds will be kept under review. The Service will continue to work with providers and potential providers to encourage the establishment of additional provision should this be required, whether this is for Free Entitlements and/or parent/carer funded places. Where housing developments are proposed and a deficit of Early Years places identified, we will seek developer contributions to support the funding of required new provision. When a new school is delivered according to the ESFA Baseline Design, a nursery space is now automatically included in the design.

### **3.9 Post-16 Education and Training in Kent**

The post-16 offer should meet the requirements of increasing participation. Provision is required to offer a wide range of options which lead to progressive routes towards sustainable further or higher learning, employment with training or employment. School and college post-16 performance measures, qualifications and assessments are changing quickly. Employers expect and require young people to be work-ready. At the same time providers have to be more innovative, collaborative and flexible in order to deliver a wider range of learning programmes to meet the needs of all young people in a context of shrinking resources. When reviewing the need for additional or new learning programmes at post-16 we need to consider that if students are not equipped with knowledge, skills and attitudes to be economically active, they become unemployed at

age 18 years.

Sixth form numbers have reduced across the County since 2014-15. We forecast they will increase by around 4,700 pupils across the Plan period as secondary school rolls rise. Forecasts suggest sufficient sixth form provision within the majority of non-selective planning groups but a deficit of places within the selective sector in all but one of the selective planning groups (Cranbrook). Due to the restrictions on opening new grammar provision, only the expansion of existing selective schools can be used to accommodate the projected increases in selective sixth form student numbers.

There are significant changes in the post-16 landscape ahead. These changes include the implementation of ‘T levels’ and the review of post-16 qualifications at level 3 and below and the funding that follows this. There are concerns that the changes considered could have a significant impact on sixth forms provided by Kent non-selective schools as they provide a more flexible post-16 offer for those pupils not suited to a wholly academic offer.

Kent County Council are in the process of evaluating current provision. To this end and as part of the strategic plan, the council is undertaking a system wide review of 14 – 19 provision.

The initial analysis of the 2019 Kent data has taken place and indicates the following gaps:

- A 30% plus contraction of the post 16 offer outside schools and colleges
- A noticeable contraction of Level one and Level two offer in general, particularly in schools
- A contraction in the Level three offer at 6<sup>th</sup> form

### 3.10 Kent’s Forward Plan

Detailed analysis, at district level, of the future need for primary and secondary school places is contained in Section 10 of this Plan.

This Commissioning Plan identifies the need for additional permanent and temporary school places as follows:

by 2020-21	by 2021-22	by 2022-23	by 2023-24	Between 2024-28	Post 2028	Total
<b>Primary</b> 2.5FE	<b>Primary</b> 2.5FE 60 Year 7 places	<b>Primary</b> 4.5FE 30 Year R places	<b>Primary</b> 3.3FE	<b>Primary</b> 26.6FE	<b>Primary</b> 11FE	<b>Primary</b> 50.5FE* 90 Year R places
<b>Secondary</b> 1FE 565 Year 7 places	<b>Secondary</b> 18FE 450 Year 7 places	<b>Secondary</b> 14FE 225 Year 7 places	<b>Secondary</b> 20FE 240 Year 7 places	<b>Secondary</b> 21FE 90 Year 7 places	<b>Secondary</b> 8FE	<b>Secondary</b> 82FE 1,570 Year 7 places

\*All figures rounded to the nearest 0.5FE

### Special School Commissioning Intentions

by 2020-21	by 2021-22	by 2022-23	by 2023-24	Between 2024-28	Post 2028	Total
884 places	150 places	490 places	-	120 places	-	<b>1,644 places</b>

## 4. What We Are Seeking to Achieve

The Children, Young People and Education Directorate has a clear Mission Statement. This being as follows:

**Our aim:** Making Kent a county that works for all children.

**Our vision:** All Kent children feel safe, secure, loved, fulfilled, happy and optimistic.

We will do this by:

- Joining up services to support families at the right time and in the right place;
- Securing the best childcare, education and training opportunities;
- Being the best Corporate Parent we can be;
- Developing a culture of high aspiration and empathy for children and their families;
- Valuing children and young people's voices and listening to them.

The Commissioning Plan for Education Provision in Kent aims to support the Mission statement through 'securing the best childcare, education and training opportunities.'

Our Principles and Planning Guidelines (Section 6) underpin our commissioning decisions. This is further supported by a suite of key strategies including, but not limited to:

- Vision and Priorities for Improvement 2018-21
- Early Years and Childcare Strategy 2016 – 2019
- Kent Strategy for SEND 2017-2019
- 14-24 Strategy for Learning, Employment and Skills 2017-20

To this extent we aim to:

- Ensure sufficient good or better school places for all children and young people in Kent.
- Continue to implement the Early Years and Childcare Strategy 2016-2019 to ensure there continues to be: sufficient high quality free places for two year olds, sufficient 30 hours of free childcare for the eligible working parents, more good early years settings achieving positive outcomes, more children well developed to start school and better integration of the work of Children's Centres, early years settings and schools.
- Commission more high quality specialist provision and support for pupils with Autistic Spectrum Disorder, Speech, Language and Communication Needs and Social, Emotional and Mental Health needs in mainstream and special schools;

- Work with schools, colleges, employers and training organisations to deliver the 14-24 Strategy for Learning, Employment and Skills to ensure the post-16 offer meets the requirements of increasing participation and offers a wide range of options which lead to progressive routes towards sustainable further or higher learning, employment with training or employment.

## 5. Principles and Planning Guidelines

In the national policy context, the Local Authority is the Commissioner of Education Provision and providers come from the private, voluntary, charitable and maintained sectors. The role of the Local Authority is set within a legal framework of statutory duties; the duties for each phase or type of education in Kent are shown under the relevant section in this Plan. Within this framework, the Local Authority continues to be the major provider of education by maintaining most Kent schools and it also fulfils the function of “provider of last resort” to ensure new provision is made when no other acceptable new provider comes forward.

Education in Kent is divided into three phases, although there is some overlap between these. These three phases are:

- Early Years: primarily delivered by private, voluntary and independent pre-school providers, accredited child-minders, and schools with maintained nursery classes.
- 4-16 years: “compulsory school age” during which schools are the main providers.
- Post-16: colleges and schools both offer substantial provision, with colleges as the sole provider for young people aged 19-25 years.

The Local Authority also has specific duties in relation to provision for pupils with Special Educational Needs, pupils excluded from school or pupils unable to attend school due to ill health.

### 5.1 Principles and Guidelines

It is important that the Local Authority is open and transparent in its role as the Strategic Commissioner of Education. To help guide us in this role we abide by clear principles and consider school organisation proposals against our planning guidelines. We stress that planning guidelines are not absolutes, but a starting point for the consideration of proposals.

### 5.2 Over-Arching Principles

- We will always put the needs of the learners first.
- Every child should have access to a local, good or outstanding school, which is appropriate to their needs.
- All education provision in Kent should be financially efficient and viable.
- We will aim to meet the needs and aspirations of parents and the local community.
- We will promote parental preference.
- We recognise perceptions may differ as to benefits and detrimental impacts of proposals. We aim to ensure our consultation processes capture the voice of all communities. To be supported proposals must demonstrate overall benefit to the community.
- The needs of Children in Care and those with SEN and disabilities will be given priority in any commissioning decision.
- We will also give priority to organisational changes that create environments better able to meet the needs of other vulnerable children, including those from minority

- ethnic communities and/or from low income families.
- We will make the most efficient use of resources.
- Any educational provision facing difficulties will be supported and challenged to recover in an efficient and timely manner. Where sufficient progress is not so achieved, we will seek to commission alternative provision or another provider.
- If a provision is considered or found to be inadequate by Ofsted, we will seek to commission alternative provision where we and the local community believe this to be the quickest route to provide high quality provision.
- In areas of high housing growth, we will actively seek developer contributions to fund or part fund new and additional school provision.
- In areas of high surplus capacity, we will take action to reduce such surplus.<sup>1</sup>

### **5.3 Planning Guidelines – Primary**

- The curriculum is generally delivered in Key Stage specific classes. Therefore, for curriculum viability primary schools should be able to operate at least four classes.
- We will actively look at federation opportunities for small primary schools.
- Where possible, planned Published Admission Numbers (PANs) will be multiples of 30, but where this is not possible multiples of 15 are used.
- We believe all-through primary schools deliver better continuity of learning as the model for primary phase education in Kent. When the opportunity arises, we will either amalgamate separate infant and junior schools into a single primary school or federate the schools. However, we will have regard to existing local arrangements and seek to avoid leaving existing schools without links on which they have previously depended.
- At present primary school provision is co-educational, and we anticipate that future arrangements will conform to this pattern.
- Over time we have concluded that 2FE provision (420 places) is preferred in terms of the efficient deployment of resources.

### **5.4 Planning Guidelines – Secondary**

- All schools must be able to offer a broad and balanced curriculum and progression pathways for 14-19 year olds either alone, or via robust partnership arrangements.
- PANs for secondary schools will not normally be less than 120 or greater than 360.

---

<sup>1</sup> Actions might include re-classifying accommodation, removing temporary or unsuitable accommodation, leasing spaces to other users and promoting closures or amalgamations. We recognise that, increasingly, providers will be responsible for making such decisions about the use of their buildings, but we believe we all recognise the economic imperatives for such actions.

- PANs for secondary schools will normally be multiples of 30.
- Over time we have concluded that the ideal size for the efficient deployment of resources is between 6FE and 8FE.
- Proposals for additional secondary places need to demonstrate a balance between selective and non-selective school places.
- We will encourage the formation of all-aged schools (primary through to secondary) where this is in the interests of the local community.

### **5.5 Planning Guidelines - Special Educational Needs**

- We aim, over time, to build capacity in mainstream schools by broadening the skills and special arrangements that can be made within this sector to ensure compliance with the relevant duties under SEN and disability legislation.
- For children and young people where mainstream provision is not appropriate, we seek to make provision through Kent special schools. For young people aged 16-19 years provision may be at school or college. For young people who are aged 19-25 years provision is likely to be college based.
- We recognise the need for children and young people to live within their local community where possible and we seek to provide them with day places unless residential provision is needed for care or health reasons. In such cases agreement to joint placement and support will be sought from the relevant KCC teams or the Health Service.
- We aim to reduce the need for children to be transported to schools far away from their local communities.

### **5.6 Planning Guidelines - Expansion of Popular Schools and New Provision**

- We support diversity in the range of education provision available to children and young people. We recognise that new providers are entering the market, and that parents and communities are able to make free school applications.
- We also recognise that popular schools may wish to expand or be under pressure from the local community to do so.
- As the Strategic Commissioner of Education Provision, we welcome proposals from existing schools and new providers that address the needs identified in this Plan. This includes new provision to meet increased demand and new provision to address concerns about quality.
- In order for us to support any such proposal they must meet an identified need and should adhere to the planning principles and guidelines set out above.

### **5.7 Small Schools**

KCC defines small schools as ‘those schools with fewer than 150 pupils on roll and/or a measured capacity of less than 150 places’. We have over 100 primary schools that fit this criterion.

We value the work of our small schools and appreciate the challenges faced. We continue to work with partners to ensure small schools have the resilience to deal with the challenges they face in terms of leadership and management, teaching and learning and governance and finance so that they can enable their pupils to grow up, learn, develop and achieve and continue to play a valued role in their communities.

Kent County Council and its partners, in particular the dioceses, will ensure that:

- Support is given to small schools seeking to collaborate, federate or join appropriate multi-academy trusts.
- They will work closely together to ensure that the distinctive character and ethos of small Church of England schools are protected and maintained in future collaborative arrangements.

## 6. Capital Funding

The Local Authority as Strategic Commissioner of Education Provision has a key role in securing funding to provide sufficient education provision in the County, particularly in schools.

The cost of providing additional school places is met from Government Basic Need Grant, prudential borrowing by KCC and developer contribution monies. It continues to be clear in The Medium Term Financial Plan that KCC is not in a position to undertake any additional prudential borrowing to support new provision as we may have done 3 or 4 years ago. To do so would place the Council in breach of one of its key fiscal indicators that net debt should not exceed 15% of its net revenue expenditure. Delivery of the additional school places will rely more than ever on an appropriate level of funding from Government and securing the maximum possible contribution from developers where appropriate.

In updating the Kent Commissioning Plan, we are currently revisiting the programme costs for the new MTFP period 2020-23. The requirements set out in this Plan will bring additional pressures in respect of all the places required by September 2023. At that point we forecast the need for places will be at its peak. Work is already underway to identify options to ensure we can fund the programme by the time the County Council sets its budget in February 2020. One area we have been forced to relax is the longstanding ambition to maintain a 5% operating surplus, particularly within the secondary sector, to facilitate greater parental choice. This Plan does not secure 5% surplus capacity in every planning group as that would simply add to the considerable financial challenge we face. The DfE only work on a model of 2%.

Government funding for 'Basic Need' is allocated on a formula based upon information provided by local authorities about forecast numbers of pupils and school capacity. Such funding will only provide for predicted growth in numbers arising from changes in the birth rate and from inward net migration. The basis of allocation is supposed to be to add a third year of funding to a rolling three year funding allocation. However, at the time of publication we continue to await the confirmation of the Basic Need Funding from the 2018 round (for places needed in 2021) and have been informed that allocations for the 2019 and subsequent rounds will not be announced until after the next Comprehensive Spending Review. As we enter the realms of securing new secondary schools with very high upfront capital costs this arrangement is inadequate and we have repeatedly made that point to the DfE.

One funding option which can assist with or overcome the challenges of forward funding new schools is the Free Schools programme. We have encouraged promoters to submit bids to Waves 13 and 14, with success. However, as the free school programme has become more restrictive, being targeted to certain geographical areas of the country in relation to mainstream schools, and of limited number (35) for special schools and alternative provisions, it will not be the answer to all our needs. Additionally, it is not risk free for the Local Authority. Delays in delivery can require the Authority to put in place unplanned provision with the resultant unplanned expense – both capital and revenue.

The prospect of having to meet the growth in demand for places through additional borrowing confronts the County Council with an insoluble dilemma between delivering its statutory duty on school places and maintaining its financial soundness. Members and officers continue to lobby Ministers and officials within the DfE, ESFA and RSC over this critical issue.

It is necessary to look to developer contribution monies for the pupil places required because of new housing development. In the past developer contribution funding has been secured through the negotiation of Section 106 agreements. Whilst S106 remains for meeting specific requirements of individual developments, the arrangement is supplemented by the Community Infrastructure Levy (CIL) in those districts that have adopted this.

The Government's decision to remove the 'pooling' restrictions where no more than five agreements could be linked to one project is welcomed. It was one of the issues we had been raising with government. The DfE guidance sets out the expectation that local authorities will seek developer contributions to support the funding of nursery places, sixth form provision and special educational needs provision will support our ability to collect the developer contributions necessary to deliver the education facilities required to meet the demand produced by new homes. This will require the support of our District/Borough Council colleagues. What this will not support is the lag in the funding streams and the upfront capital costs to KCC.

Account is taken of existing capacity prior to seeking developer contributions. Where surplus capacity above our operating surplus is expected to exist, after the needs of the indigenous population are served, this is available to support the need arising from new housing. In cases where services are not expected to be able to cope with the indigenous population's needs the costs of increasing service capacity are identified and costed, but these costs are not passed onto developers. Developers are asked only to contribute to needs arising from additional housing which cannot be accommodated within a surplus service capacity in the area.

## 6.1 Value for Money

In drawing up options for providing additional places, in addition to the Principles and Planning Guidelines set out in Section 5, the Local Authority consider a range of practical issues, such as:

- The condition and suitability of existing premises.
- The ability to expand or alter the premises (including arrangements whilst works are in process).
- The works required to expand or alter the premises.
- The estimated capital costs.
- The size and topography of the site.
- Road access to the site, including transport and safety issues.

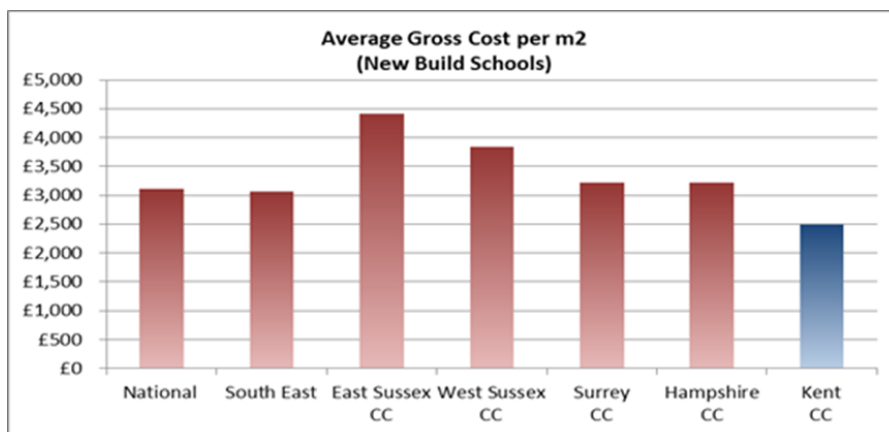

The Government has reviewed the cost of providing new school buildings. 'Baseline' designs guide local authorities towards standardisation in terms of space and design of

new schools. In meeting these guidelines, Kent is committed to securing value for money when providing additional school accommodation which is of a high quality. The build method for new accommodation will be that which is the most appropriate to meet either a bulge in school population or a permanent enlargement, and which represents good value for money.

A review of build costs indicates KCC is securing good value for money. Figure 6.1 shows the average gross cost per square metre for a new build school, while Figure 6.2 shows that for rebuild and extensions. It is evident Kent's costs are significantly below national averages and that of neighbouring authorities.

**Figure 6.1: Average Gross Cost Per Square Metre for a New Build School**

**Figure 6.2: Average Gross Cost Per Square Metre for Rebuild/Extensions**

## 7. Commissioning Special Educational Needs

### 7.1 Duties to Provide for Special Educational Needs and Disabilities

The Children and Families Act 2014 and accompanying Code of Practice set out the Special Educational Needs and Disability (SEND) system for children and young people aged 0-25 years in England. The 'Code' is statutory guidance and it details the SEND provision which schools and local authorities are required by law to make. Associated legislative requirements are also set out in the Equality Act 2010 and The Special Educational Needs and Disabilities Regulations 2014.

### 7.2 Kent Overview

Kent's SEND Strategy 2017 to 2019 is currently being refreshed. It will set out Kent's vision and intentions for the next few years and identify how they will be achieved.

Kent's current strategy sets out its intention to provide additional places for pupils with needs in the following areas:

- Autistic Spectrum Disorder (ASD)
- Speech and language and communication needs (SLCN)
- Social Emotional and Mental Health (SEMH)

### 7.3 SEND Facts and Figures

The number of pupils with special educational needs in Kent schools increased for a second consecutive year. In January 2019 it was 34,186 pupils, representing 13.4% of the total school population. This is below the national average at 14.9%. Figure 7.1 shows that the percentage of Kent school aged children (5 to 19 year olds) with an Education, Health and Care Plan (EHCP) was around 2.80-2.90% of the cohort between 2013 to 2017. Over the last two years this increased reaching 3.4% by January 2019. This is significantly higher than the national figure of 3.1%.

**Figure 7.1: Percentage of School Aged Children with an EHCP, 2013-2019**

The Local Authority is responsible for maintaining EHCPs, not only for statutory school aged children but for children and young people between the ages of 0-25 years. As of January 2019, this totalled 11,763 children and young people with an EHCP. This is an increase of 1,384 since January 2018, up 13.3% compared to 11% nationally.

Figure 7.2 shows by Kent district the number of EHCPs, the percentage increase from January 2018, and the percentage of the 0-25 year old population who have an EHCP. It can be seen that Swale and Thanet have the highest proportion of EHCPs of their 0-25 year old population at 3.2%, whilst Canterbury is the lowest with 1.9%. However, Canterbury will be affected by the high proportion of 18-25 year olds living in the district attending further education and higher education provisions. Looking at the population of 5-19 year olds it can be seen that Thanet and Swale have the highest percentage of EHCPs at 5%. Tunbridge Wells has the lowest at 2%. Canterbury is now aligned with the majority of districts at 3%.

**Figure 7.2: Number of Pupils with an EHCP Spring 2019 (Full SEN Cohort 0-25 years) by Pupil Home Address**

Home District	2018 Number of Pupils with an EHCP	2019 Number of Pupils with an EHCP	Number +/- change since 2017	Percentage Change since 2018	District % of 0-25 year old population	District % 5-19 year old population

### Age Groups

Children aged 11-15 years old account for the largest percentage of children and young people with EHCPs in Kent at 35%. This is in line with the national figure of 36%. Kent however has a higher percentage of 20-25 year olds with an EHCP at 8% whilst nationally it is 5%, and a lower percentage of 5-10 year olds at 30% as compared to 33% nationally.

Figure 7.2 shows the number of children and young people with EHCPs resident in each

district by age group, comparing to National and Kent figures.

**Figure 7.2: EHCP By Age Bands by District of Residence January 2019**

District	Under 5	Aged 5-10	Aged 11-15	Aged 16-19	Aged 20-25	Total

<b>Kent Total</b>	<b>431</b>	<b>3503</b>	<b>4127</b>	<b>2786</b>	<b>916</b>	<b>11763</b>
<b>Kent %</b>	<b>4%</b>	<b>30%</b>	<b>35%</b>	<b>24%</b>	<b>8%</b>	
<b>National %</b>	<b>3.9%</b>	<b>33.1%</b>	<b>35.6%</b>	<b>21.9%</b>	<b>5.2%</b>	

Figure 7.3 shows the rate of children and young people with an EHCP per 1,000 population for the past 4 years. The percentage of over 17 year olds has increased, whilst the 4 to 16 year olds remained fairly constant between 2016 to 2018. However, 2019 has seen an increase in the percentage of the population with an EHCP for all age groups between 4 to 24 year olds. This increase reflected the national increase in the percentage of school pupils with an EHCP.

**Figure 7.3: Percentage of Children and Young People with an EHCP Per 1,000 Population for the Past 4 Years**

## 7.4 SEN Need Types

Autistic Spectrum Disorder (ASD) remains the most common primary need type with 40% of children and young people aged 0-25 years having an EHCP with this primary need identified. This has increased from 39% in January 2018. This is significantly higher than the National figure at 29%. Nationally Speech, Language and Communication Needs are the second highest need type at 23%, whilst Kent is below this figure at 15%. Kent's second highest need type is Social Emotional and Mental Health at 18%.

Health colleagues are currently working on analysing the neurodevelopmental pathways for ASD and Attention Deficit Hyperactivity Disorder (ADHD) as well as the ASD assessment pathway, to recommend changes to their systems that will reduce the demand for a medical diagnosis of ASD. This medicalised diagnosis led pathway is resulting in the higher levels of ASD we are seeing in some of Kent's districts.

Figure 7.4 shows the number and percentages of EHCPs for each need type, and by age group.

**Figure 7.4: EHCP by Age Group/Need Type 2019**

SEN Need Type	Under 5	Aged 5-10	Aged 11-15	Aged 16-19	Aged 20-25	Total	%

## 7.5 Provision

Pupils with an EHCP in Kent are less likely to be educated in a maintained mainstream school than would be expected nationally. Figure 7.5 shows that this is the case in both the primary and secondary phases, with the gap between Kent and national being much wider at the secondary phase. Figure 7.6 shows that pupils with a new EHCP are significantly less likely to be placed in mainstream schools than pupils nationally, although the gap has reduced significantly during the past two years.

KCC is aiming to address this situation through a project with ISOS Partnership. The aims of the project being to:

- Engage those involved in supporting mainstream inclusion within the Kent local

system.

- Explore the barriers and challenges to effective inclusion of young people with additional need in mainstream settings and schools.
- To shape a shared strategic approach to fostering inclusion in mainstream settings and schools across Kent.

**Figure 7.5: Percentage of All Pupils with an EHCP in Primary and Secondary Mainstream Schools**

**Figure 7.6: Percentage of Pupils with New EHCPs Placed in Mainstream Schools**

## 7.6 Special Educational Provision in Kent – Specialist Resourced Provisions

A Specialist Resourced Provision (SRP) is a mainstream based provision, reserved for children with an EHCP. An SRP serves children that require higher levels of support than can be provided with a mainstream school's normally available resource, but whose needs are not so complex that special school placements are appropriate. A total of 1,044 SRP places have been commissioned for September 2019 (Figure 7.8). A further 906 places have been commissioned at Further Education colleges.

**Figure 7.8: Commissioned Number of SRP Places in Kent Primary and Secondary Schools - September 2019**

## 7.7 Kent Special Schools and Satellite Provisions

Kent has a total of 21 Local Authority maintained special schools and one special academy. For the academic year 2019/20 Kent has commissioned 4,546 places in Kent special schools. The current total designated number across Kent special schools as at September 2019 was 4,237 (see Figure 7.9 below). The designated number can differ from the commissioned number of places in any given year. The commissioned number reflects the need for places in that particular year and can be lower or greater than the

designated number.

Some Special schools have satellites which are classes hosted in mainstream schools. These offer an opportunity for individual pupils to learn alongside mainstream peers, with support from specialist teaching staff as appropriate. Pupils remain on roll of the special school and are included in the designated number of the special school.

**Figure 7.9: Commissioned Places at Kent Maintained Special School and Academies as at September 2019**

School	Need Type	District	Designated Number	Commissioned Places
Stone Bay School	ASD & L	Thanet	80	60
Laleham Gap School	ASD	Thanet	178	196

<b>Total Special School Places</b>			<b>4,237</b>	<b>4,546</b>

## 7.8 Independent Non-maintained Provision

Where we are unable to provide a specialist school placement in a Kent maintained special school or SRP, placements are commissioned in the independent and non-maintained sector. As of January 2019, 782 Kent resident pupils (6.6%) had funded places in an independent non maintained school. 409 of these placements were for a primary diagnosis of ASD and 296 for SEMH.

KCC's commissioning intentions for SEN include providing additional places for ASD and SEMH in mainstream schools through the establishment of SRPs, as well as commissioning additional specialist school places to reduce the number of children who

attend independent non-maintained and out of county provisions.

## 7.9 Forecasts and Future Demands

Figure 7.10 shows the forecast number of children and young people 0-25 years of age with an EHCP in Kent between 2020-21 and 2024-25. It is based on the assumption that a 15% rate of increase will apply and continue until 2022, when it is hoped that planned actions to tackle the rise will help to level out the current rate of growth.

**Figure 7.10: Total Number of EHCPs for Children and Young People (Full SEN cohort 0-25 Year Olds) Actual Figures January 2015- January 2019 and Forecast Figures for January 2020 – January 2024**

	Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024
15% increasing rate stabilising from 2022	EHCP	7,433	8,178	9,351	10,141	11,843	13,901	16,247	18,937	19,223	19,476
	Change		745	1,173	790	1,702	2,058	2,346	2,690	286	253

Further analysis of the forecast figures is currently being undertaken which will identify the commissioning need at an area level from a primary need and age specific perspective. This will inform the additional commissioning of special school places and SRPs to meet future need over and above those currently planned as set out in Figure 7.9.

Early analysis has identified current gaps in provision for ASD SRP places. Currently there are no ASD SRP provision places in primary schools in the following districts: Dover, Swale, Thanet and Tunbridge Wells, with limited provision in Ashford and Folkestone & Hythe districts. Secondary ASD SRP places are needed in Dover, Thanet and Tunbridge Wells where there are currently no SRP places.

## 7.10 Future Commissioning of Provision

To meet the need for specialist places across Kent a mixture of new special schools, expansions of existing schools and the establishment of satellites and SRPs will be commissioned across Kent. A total of 1,634 new places are forecast to be commissioned across the Plan period. Figure 7.11 identifies the number, need type and district of these new school places

## 8. Commissioning Early Years Education and Childcare

### 8.1 Legislative Context and Free Entitlements

Early Education and Childcare is legislatively governed by the Childcare Acts 2006 and 2016. These place a duty on all local authorities to improve outcomes for young children, to cut inequalities between them, to secure sufficient childcare to allow parents to work and specifically to ensure sufficient and flexible:

- 15 hours of early education for eligible two-year olds (the Two Year Old Entitlement in Kent known as Free for 2).
- The Universal Entitlement of 15 hours for and all three and four-year olds.
- 30 Hours of Free Childcare (the Extended Entitlement) for the three and four-year olds of eligible parents.

All free entitlement places can either be provided by Ofsted registered provision, schools where registration with Ofsted is not required or by schools registered with the Department for Education and inspected by the Independent Schools Inspectorate. In each case, the full Early Years Foundation Stage must be delivered. Places can be delivered over 38 weeks a year or, in line with provider ability and choice, stretched over up to 52 weeks.

### 8.2 Early Education and Childcare Provision in Kent

Early Education and Childcare in Kent is available through a large, diverse and constantly shifting market of maintained, private, voluntary and independent providers including childminders, which operate as individual businesses and are therefore subject to market forces.

Early Years **Childcare** provision for children aged 0–4 years for at least four hours a day is provided by the aforementioned range of providers. Embedded within this childcare provision will almost always be at least one of the three free entitlements (almost without exception the Universal Entitlement). Levels of provision fluctuate regularly but the summative picture at October 2019 is as follows:

- Full day care provision: **585** providers that are open for more than four hours per day, offering a total of **41,766** childcare places for 0-4 year olds.
- Sessional provision: **92** providers that are open less than four hours per day, offering a total of **2,597** childcare places for 0-4 year olds.
- Childminders: **1,097** (i.e. providers who can care for children of all ages within their own home) offering **5,774** childcare places for 0-4 year olds.
- Maintained Provision: there are **33** maintained nursery classes and a maintained nursery school offering a total of **1,783** childcare places for 0-4 year olds.
- Academies: There are **36** academies offering a total of **1,782** childcare places for 0-4 year olds.
- Independent Schools: there are **37** independent schools offering a total of **1,713** childcare places for 0-4 year olds.

- Standalone Out of School Care: In total there are **116** standalone providers, of those **42** offer breakfast clubs, **79** offer after school clubs and **58** run holiday playschemes.

It is undisputed both nationally and in Kent that assessing the childcare market and ensuring sufficiency and long-term viability of provision is both complex and presents a significant challenge for local authorities. In Kent, when assessing supply, the criteria set out in the Department for Education's 2018 Statutory Guidance for Local Authorities is used. This states that childcare places should be high quality, accessible, inclusive, affordable and sustainable, thereby able to meet the needs of all children and families. The Local Authority (in Kent as commissioned through The Education People) is required to work with providers in making available a sufficient range of flexible provision, in the right geographical areas, at the right times and offering the right sessions to fit with both standard and atypical working patterns.

### **8.3 Sufficiency of Childcare Places for Children Aged 0-4 Years Old**

In Kent County Council's Childcare Sufficiency Assessment (CSA) 2019, the assessment of sufficiency is calculated by comparing the total available childcare supply of places in each planning group and district with the forecast number of eligible children in each age group living within said planning group and district

Analysis of historical patterns of take up show us that the majority of families access childcare within the same district in which they live however, there are families who travel to neighbouring districts for this purpose. The proportion of children accessing childcare within the district in which they live is used to interpret the extent of any indicative surplus or deficit in each district. Therefore, any stated deficit of places may not apply in real terms. The Children and Families Information Service (currently offered by Agyllis) fulfils Kent County Council's statutory duty to provide a Brokerage Service for families who are unable to find childcare to meet their needs. The number of brokerage cases actually requested has not exceeded twelve annually for some years now which would suggest there are sufficient early years places for families. This is regularly monitored as, should the number of brokerage cases start to rise, this may be an indication of an actual deficit of locally accessible childcare.

In this context, Figure 8.1 provides an assessment of the population-based requirements and corresponding supply of places for 0-4 year olds incorporating all free entitlements and childcare funded by parents/carers or otherwise.

**Figure 8.1: 0-4 Year Old Childcare Sufficiency Assessment (Summer Term 2020)  
Surplus/Deficit of 0-4 Childcare Places by District – Summer 2020 (Modelled)**

District	0-4 Population (f)	0-4 Population Requiring Childcare (f)	0-4 Places Available	Surplus/Deficit of Places (f)	% of Funded 3 & 4 Year Olds Accessing a Childcare Place in the Same Planning Area as their Home Address (Summer 2019)
Ashford	7,400	4,540	4,753	213	94.3%
Canterbury	6,533	4,029	4,710	681	94.0%
Dartford	7,372	4,348	6,191	1,843	93.4%
Dover	5,390	3,280	3,349	69	93.9%
Folkestone & Hythe	4,948	3,025	4,274	1,249	94.1%
Gravesham	6,407	3,740	3,334	-406	91.9%
Maidstone	9,609	5,903	5,980	77	92.0%
Sevenoaks	6,153	3,812	4,061	249	88.2%
Swale	8,326	4,960	4,500	-460	98.0%
Thanet	7,274	4,263	5,182	919	98.0%
Tonbridge & Malling	7,102	4,562	4,550	-12	86.5%
Tunbridge Wells	5,716	3,665	4,531	866	94.6%
<b>Total</b>	<b>82,230</b>	<b>50,127</b>	<b>55,415</b>	<b>5,288</b>	<b>93.3%</b>

As Figure 8.1 indicates, there are two districts that present as having a notable deficit of places, being Gravesham and Swale. In order to understand the local nature of these, Figures 8.2 and 8.3 below show the surplus and deficit of places in these districts respectively.

**Figure 8.2: Surplus/Deficit of 0-4 Childcare Places by Planning Area in Gravesham – Summer 2020 (Modelled)**

Primary Planning Area	0-4 Population (f)	0-4 Population Requiring Childcare (f)	0-4 Places Available	Surplus/Deficit of Places (f)	% of Funded 3 & 4 Year Olds Accessing a Childcare Place in the Same Planning Area as their Home Address (Summer 2019)
Gravesend East	3,019	1,759	1,751	-8	77.7%
Gravesend West	1,832	1,039	710	-329	52.4%
Gravesham Rural East	233	141	113	-28	35.1%
Gravesham Rural South	534	363	431	68	66.5%
Northfleet	789	438	329	-109	61.3%

**Figure 8.3: Surplus/Deficit of 0-4 Childcare Places by Planning Area in Swale – Summer 2020 (Modelled)**

Primary Planning Area	0-4 Population (f)	0-4 Population Requiring Childcare (f)	0-4 Places Available	Surplus/ Deficit of Places (f)	% of Funded 3 & 4 Year Olds Accessing a Childcare Place in the Same Planning Area as their Home Address (Summer 2019)
Faversham	1,034	625	673	48	79.5%
Faversham Rural East	202	119	349	230	65.5%
Faversham Rural South	123	79	60	-19	27.3%
Sheerness, Queenborough and Halfway	1,511	833	666	-167	88.1%
Sheppey Central	880	536	310	-226	65.8%
Sheppey Rural East	265	155	88	-67	64.0%
Sittingbourne East	1,357	836	633	-203	68.8%
Sittingbourne North	1,771	1,058	823	-235	69.1%
Sittingbourne Rural West	333	194	188	-6	84.9%
Sittingbourne South	850	525	710	185	66.4%

In summary, the above tables demonstrate that, should all eligible children across all Free Entitlements take up a place, plus the demand for places funded by parent/carer fees, across the County, we have a surplus of places for 0-4 year olds of just over 5,000, which offer a very rich supply. Whilst there are indicative significant deficits in Gravesham and Swale (plus a very small deficit in Tonbridge and Malling), the surplus of places in other districts, our local knowledge, plus the absence of parent/carer requirements for childcare brokerage, collectively indicate that the Kent childcare market is generally meeting the needs of its children and families. The overall surplus has increased since 2018 by approximately 3,000 places, which reflects the fact that the population forecast for 0-4 year olds has reduced.

Over the past year, The Education People, on behalf of Kent County Council, has worked with five new providers in the Swale district. These settings are due to open shortly with three providing places in planning areas of greatest need – Sittingbourne South, Sittingbourne East and Sheerness, Queenborough and Halfway. Development of such places in urban areas is very challenging as suitable properties with the right access that meet current planning regulations are very hard to come by. This is particularly true of Gravesham where all attempts at finding properties this year have been unsuccessful. The large surplus of places in Dartford must be viewed in the context of the significant ongoing growth in the housing market and that children from Gravesham as well as those outside of Kent’s geographical borders access childcare in this district. The CSA 2019 includes a countywide plan of the profile of places by School Planning Area. These maps are used if needing to consider the supply of childcare in a smaller geographical area.

In 2018 the Department for Education announced the availability of capital funding for nursery provision in schools only, Kent was successful in bidding for three projects:

- St Mary's Church of England Primary School, Swanley;
- Molehill Primary Academy, Maidstone;
- Greenfields County Primary, Maidstone.

Plans for these are still being developed, with places expected to be available in September 2020.

#### **8.4 Future Planning**

Supporting the sufficiency, sustainability and quality of early years and childcare provision remain crucial in aiming to ensure a long term, sufficient supply of places. To do this to best effect, the Early Years and Childcare Service has Threads of Success, which is its accessible framework of services and products providing a comprehensive training, support and advice offer, differentiated for early years, school and out of school providers.

The Service will continue to work with providers and potential providers to encourage the establishment of additional provision should this be required, whether this is for Free Entitlements and/or parent/carer funded places.

The supply of Free Entitlement places for two, three and four year olds will be kept under review as planned new housing developments are built and potentially increase the demand for places. Where housing developments are proposed in school planning groups where there is an indicative deficit of places or where the size of a development means that it will require new provision, Kent County Council will engage in discussions with developers to either seek funding to provide nursery provision which may include securing community rental or leasehold accommodation availability for private, voluntary or independent sector providers of 0-4 childcare.

When a new school is delivered according to the ESFA Baseline Design, a nursery space is now included in the design. As a new school is planned, Kent County Council will work with the sponsor to identify early years provision and the most appropriate way to deliver this.

## 9. Post-16 Education and Training in Kent

### 9.1 Duties to Provide for Post-16 Students

Local authorities have responsibilities to support young people into education or training, which are set out in the following duties to:

- Secure sufficient suitable education and training provision for young people aged 16-19 years (and those aged 20-24 years with an Education, Health and Care Plan).
- Ensure support is available to all young people from the age of 13 years that will encourage, enable or assist them to participate in education or training (tracking young people's participation successfully is a key element of this duty).
- Have processes in place to deliver the 'September Guarantee' of an education or training place for all 16 and 17 year olds.

### 9.2 Kent's Key Priorities for the Next Four Years

The post-16 offer should meet the requirements of increasing participation. Provision is required to offer a wide range of options which lead to progressive routes towards sustainable further or higher learning, employment with training or employment. School and college post-16 performance measures, qualifications and assessments are changing quickly. Employers expect and require young people to be work-ready. At the same time providers have to be more innovative, collaborative and flexible in order to deliver a wider range of learning programmes to meet the needs of all young people in a context of shrinking resources. When reviewing the need for additional or new learning programmes at post-16 we need to consider that if students are not equipped with knowledge, skills and attitudes to be economically active, they become unemployed at age 18 years.

KCC recognises increasing participation can only be achieved through strategic partnerships between 14-19 providers to maximise opportunities and outcomes, increase capacity, and develop appropriate high-quality learning pathways. Vulnerable learners, particularly those who do not have maths and/or English should have opportunities to engage in personalised pathways which lead to sustained employment.

### 9.3 Expected Changes to the Post-16 Landscape, in the Next Year

T Levels are new courses coming in September 2020, which will follow GCSEs and will be equivalent to 3 A Levels. These 2-year courses have been developed in collaboration with employers and businesses so that the content meets the needs of industry and prepares students for work.

T Levels will offer students a mixture of classroom learning and 'on-the-job' experience during an industry placement of at least 315 hours (approximately 45 days). They will provide the knowledge and experience needed to open the door into skilled employment, further study or a higher apprenticeship.

#### 9.4 DfE Review of Post-16 Qualifications at Level 3 and Below

At the time of drafting this version of the Kent Commissioning Plan, the overall picture in respect of qualifications at Level 3 and below and the funding that follows them is not entirely clear. The DfE have been consulting on post-16 qualifications in England. T levels, A levels and GCSEs are not included in the consultation and will remain in place, for all other qualifications the consultation asked for views on the high-level principles and outlines proposals for the removal of funding for unreformed qualifications. The proposals include:

- To withdraw approval for funding from 1 August 2020 for new starts on qualifications that the DfE deems meet its criteria for 'pre-existing qualifications'. Students already enrolled/registered on these courses will be funded through to completion.
- To withdraw approval for funding new starts on qualifications with no take-up from August 2021.
- To withdraw approval for funding for new starts on qualifications with low take-up (under 100 enrolments) from August 2021.
- From September 2023 onward, to remove approval funding from applied general and vocational qualifications, where they overlap with A levels or T levels or do not meet defined characteristics that will be consulted on as part of the second consultation.
- To review current post-16 entry level, level 1, level 2 and other level 3 qualifications (e.g. those for adults). The DfE will agree the principles on which of these will be made eligible for funding in the future, based on the results of the consultation.

Further consultation on proposals for changes to funding for post-16 level 2 will also be undertaken.

The potential changes following the conclusion of these consultations will have a significant impact on sixth forms provided by Kent non-selective schools who provide more flexible post 16 offers for those pupils not suited to a wholly level 3 academic programme. The T levels require a high proportion of industry specialist input and work placements which schools will find challenging to deliver. If other vocational options are not available, the delivery of these is likely to become the domain of the Colleges. Without funding for the courses used by schools to provide more creative and flexible post 16 options, especially for some of our most vulnerable learners, this provision is at risk.

The International Baccalaureate (IB) at Post 16 is delivered by 27 secondary schools in Kent, making it the largest concentration of IB World Schools in the world. Several of these schools also deliver the IB Middle Years Programme. The review could potentially remove funding for this offer.

Additional funding for bespoke, independent post 16 providers has also historically been available through European Social Funding (ESF). This funding has reduced from £8.5m over 3 years, to £320,000 over 2 years. Of the 22 providers delivering under this contract in 2018/19, only 6 now remain leaving significant gaps in this provision across the County.

Kent County Council are also in the process of evaluating current provision. To this end and as part of the strategic plan, the council is undertaking a system wide review of 14 – 19 provision. The review aims to develop a rich and deep understanding of the Kent issues, identifying the impact of national policy and the local gaps to ensure key issues can be raised with the sector. Consultation on these issues with core representative groups aims to lead to a set of recommendations that can be used to change, influence and lobby and thus improve the sector.

The initial analysis of the 2019 Kent data has taken place and indicates the following gaps:

- A 30% plus contraction of the post 16 offer outside schools and colleges
- A noticeable contraction of Level one and Level two offer in general, particularly in schools
- A contraction in the Level three offer at 6th form

### 9.5 Capital Funding

The Local Authority currently receives no Basic Need funding for post-16. As secondary student numbers increase in the future, should additional post-16 provision be required it would be the responsibility of the Education and Skills Funding Agency (ESFA) to ensure this is provided.

### 9.6 Sixth Form Capacity

One group of key providers of post-16 training in Kent is school sixth forms. Figures 9.1 and 9.2 set out the current surplus or deficit of sixth form places in each district, both in selective and non-selective schools. Since 2014-15 sixth form numbers have reduced across the County. We forecast they will increase by around 4,700 pupils across the Plan period as secondary school rolls rise.

**Figure 9.1: Non-Selective Schools Sixth Form Surplus/Deficit Capacity if No Further Action is Taken**

Planning area name	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity

**Figure 9.2: Selective Schools Sixth Form Surplus/Deficit Capacity if No Further Action is Taken**

Planning area name	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2024-25 capacity
Ashford	740	45	13	-64	-112	-78	-87	-98	-74	740
Canterbury and Faversham	1,295	119	63	29	-6	-14	-18	-22	-51	1,295
North West Kent	1,512	192	189	48	-5	-34	-92	-132	-194	1,512
Dover District	688	79	40	-11	-29	-32	-56	-60	-56	688
Folkestone & Hythe District	500	56	0	-17	-25	-51	-45	-8	14	500
Gravesham and Longfield	590	0	-1	-61	-80	-100	-133	-148	-157	590
Sittingbourne and Sheppey	470	63	54	29	13	24	7	-15	-22	470
Isle of Thanet District	880	50	31	9	-20	-66	-121	-97	-56	880
Maidstone and Malling	1,355	115	79	-30	-103	-121	-156	-104	-47	1,355
West Kent	1,882	5	-111	-166	-204	-413	-550	-602	-601	1,882
Cranbrook	330	45	29	17	24	32	34	35	35	330
<b>Kent</b>	<b>10,242</b>	<b>769</b>	<b>384</b>	<b>-217</b>	<b>-548</b>	<b>-852</b>	<b>-1,217</b>	<b>-1,251</b>	<b>-1,209</b>	<b>10,242</b>

As can be seen from Figure 9.1, there appears to be sufficient non-selective sixth form capacity for the short to medium term across most planning groups, with the exception being Canterbury City which is in deficit throughout the Plan period, Maidstone in deficit from 2020-21, Gravesham and Longfield in deficit from 2021-22, Faversham planning

group in deficit from 2022-23 and Sevenoaks and Borough Green in deficit from 2024-25.

Figure 9.2 suggests that additional sixth form provision in nine selective planning groups of Kent will be required in the next 2 years. The exceptions being Cranbrook and Sittingbourne and Sheppey. However, due to the restrictions on opening new grammar provision, only the expansion of existing schools can be used to accommodate the projected increases in student numbers.

### 9.7 District and Area Analysis

This section provides an overview of the provision and offers that we believe are needed in the areas based on an analysis of the present qualifications available. This, together with schools' knowledge of types of qualifications, the sectors they cover and planned destinations should enable a review of provision of learning. From this, providers can build offers (available at different starting points), which respond to local needs and enable progression. This is essential development for any new or additional post-16 provision, but it must also be remembered that the curriculum for 14-16 year olds has its part to play in sustained progression, improved outcomes and purposeful destinations.

A common feature for each area is the number of qualifications relating to Arts and Media and the increasing popularity of Psychology and Sociology. Level 3 maths and science courses are also offered in abundance across all areas, however average outcomes for these courses are below the national average. Within each area schools are duplicating courses, sometimes with group sizes below realistic sustainability. The individual providers with a low pupil number, typically deliver entry and level 1 qualifications and consideration needs to be given to the development of appropriate destinations from these programmes.

Districts with high unemployment rates need to consider how guidance programmes and progression routes will avoid this exclusion.

Across the County there are 10 recognised post-16 providers in addition to the number of schools providing sixth form provision. The LA will work closely with all providers to ensure any post-16 provision is appropriate to the needs of the area and there is joined up thinking between providers to ensure the best possible pathways are offered to all students

**Figure 9.3: Number of Courses, by Level, Offered by Schools or Colleges Through the Post 16 UCAS System in 2019**

	North	South	East	West	Total
Entry level	1	11	9	13	34
Level 1	26	43	42	34	145
Level 2	79	110	107	86	382
Level 3	519	562	672	702	2455

**North – Dartford, Gravesham and Sevenoaks**

There is a need to develop further transition year, entry level and level one course places across the districts, with the provision in Dartford and Sevenoaks largely school and college based.

### **South – Ashford, Dover and Folkestone and Hythe**

Entry Level and Level 1 courses are being centralised by some provisions due to financial pressures which has required those, often vulnerable cohorts, to travel further to engage in such programmes, with a greater risk of dropout.

### **East – Canterbury, Swale and Thanet**

There is a need to develop further transition year, entry level and level one course places across the districts with clear progression routes. The proportion of young people who become NEET (Not in Education, Employment or Training) at the age of 17 (Year 13) is highest in this part of the County.

### **West – Maidstone, Tonbridge and Malling and Tunbridge Wells**

In Maidstone, there is a good range of provision including training provider driven vocational study programmes. All levels are well catered for and specialist provision is widely available in sports and construction.

In Tonbridge and Tunbridge Wells, provision is almost entirely in schools and colleges. There is a need to develop further transition year, entry level and level one course places across the districts.

The table overleaf (Figure 9.4) shows the number of courses, by level in each industry sector, offered by Schools or Colleges through the post 16 UCAS system in 2019.

**Figure 9.4: The Number of Courses, By Level in Each Industry Sector, Offered by Schools or Colleges**

## **10. Commissioning Statutory School Provision – Analyses and Forward Plans for each District**

### **10.1 Duties to provide for ages 4-16 years**

The law requires local authorities to make provision for the education of children from the September following their fourth birthday to the end of the academic year in which their sixteenth birthday falls. Most Kent parents choose to send their children to Kent schools. Some parents choose to educate their children independently, either at independent schools or otherwise than at school (i.e. at home); others will send their children to maintained schools outside Kent (as Kent maintained schools admit some children from other areas). Kent will offer a school place to any resident child aged between 4-16 years.

A minority of young people aged 14-16 years are offered college placements or alternative curriculum provision, usually through school links. Some children are educated in special schools or non-school forms of special education provision because of their special educational needs.

The local authority has a statutory duty to provide full time education for pupils “not in education by reason of illness, exclusion or otherwise” which is appropriate to individual pupil needs. This duty is discharged through pupil referral units, alternative provision commissioned by secondary schools and the Health Needs Education Service.

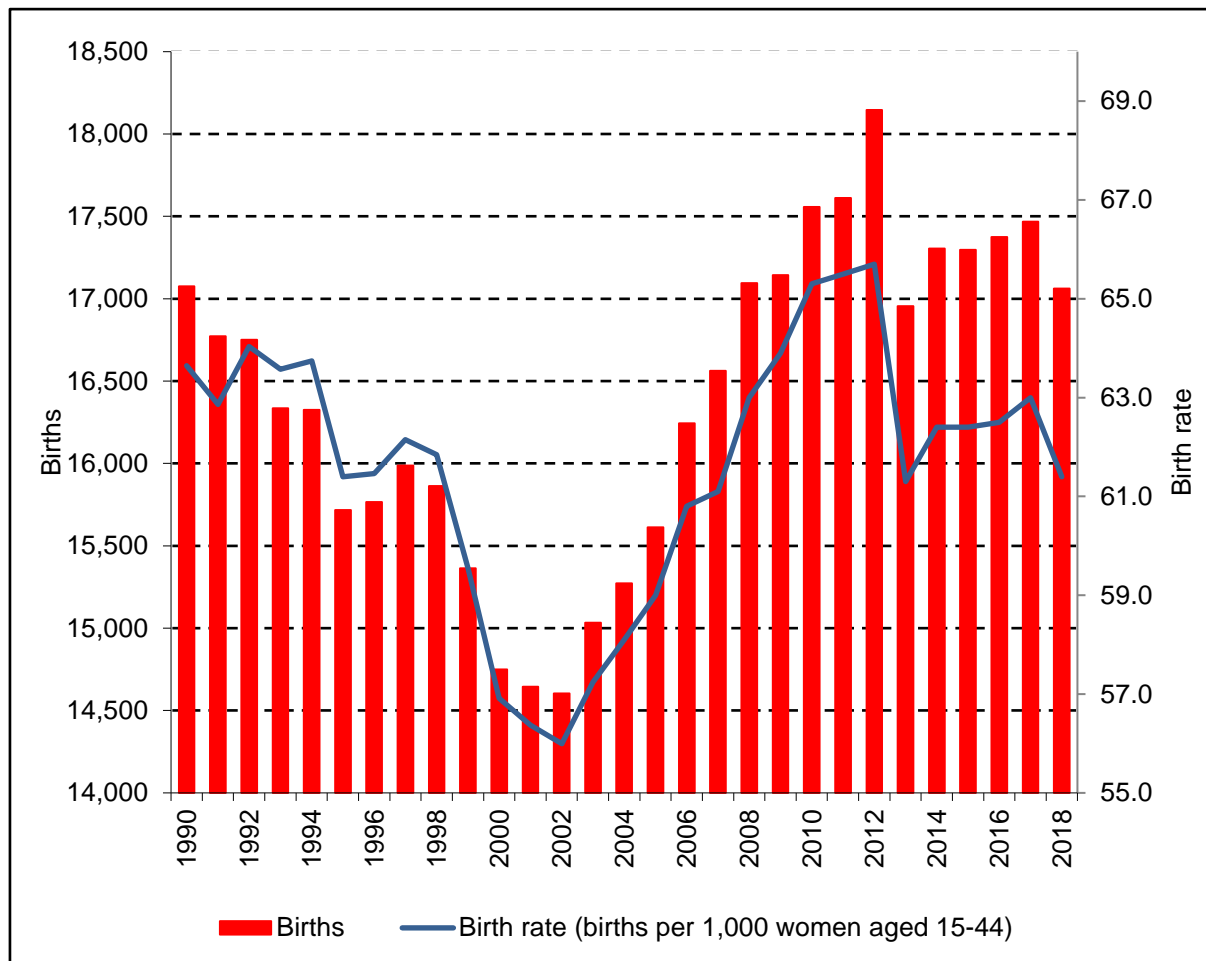

### **10.2 Kent-wide summary**

Detail on the requirement for school places is contained in the district/borough commentaries which follow. For 2020-21 and 2021-22 many projects are already in progress. For later years the need for expansion in planning groups has been noted but specific schools may not have been identified. For projects beyond 2022 the commissioning proposals maybe dependent on the pace of planned housing development being realised. A Countywide summary of the proposals for primary, secondary and SEN school places in each district/borough are set out in Section 11.

Figure 10.1 shows the Kent birth rate and the number of recorded births. Both figures dropped slightly in 2018, with the number of births being over 1,000 lower than the 2012 peak.

**Figure 10.1: Kent Births and Birth Rates 1990-2018 (ONS)**

Source: Office for National Statistics, 2018

Figure 10.2 sets out the long term population forecasts as generated by the Office of National Statistics. These provide a frame of reference within which our school forecasts sit. The numbers are not directly comparable as they forecast different populations. However, these help us to make short and medium term decisions having regard to the possible long term trend. At a County level, these forecasts suggest that the number of primary aged children will increase slightly between 2017-18 and 2022-23 before falling back to 2017-18 levels for the rest of the period shown. The number of secondary aged young people is forecast to rise until the latter part of the next decade before peaking and then falling back slightly. There are distinct differences in the population predictions between the district/boroughs which need to be considered when making commission decisions. For example, both the primary and secondary aged child population in Dartford is expected to continually rise while in Dover the primary aged population is expected to fall throughout the period with secondary rising until 2027-28 before falling back.

**Figure 10.2: Long Term Population Projections by District (ONS Sub-National Population Projections 2016)**

District	Primary Children Aged 4-11 Years				Secondary Children Aged 11-16 Years

Figure 10.3 outlines the historic and forecast house building by district/borough. All districts/boroughs are planning for significant house building. Around 6,000 dwellings were built annually in the ten-year period up to 2010-11. This reduced to about 5,000 dwellings per year in period 2011-16. A significant step change in housing completions has been seen since 2015-16 with 24,069 new homes being built in the three year period 2015-16 to 2017-18, an average of 8,023 new homes in each of the three years. A long-term yearly average of around 8,500 dwellings is anticipated from 2016-17 onwards.

We need to ensure we are planning for the education infrastructure required. How we plan to provide for new housing is outlined in the individual district/borough sections. It is important to note that pressure for school places to provide for residents of new housing is in addition to the surplus/deficit places identified in figures 10.4, to 10.7 inclusive. It is equally important to recognise that while surplus places might exist in districts, these will not always be in the right place to support new housing.

**Figure 10.3: Housing Completions and Expected New Housing By District**

Source: Business Intelligence, KCC (2019)

(1) Housing data relates to financial year (i.e. 2017-18 is the year up to 31st March 2018)

(2) The first three 5-year time periods between 2001-16 show housing completions gross of losses (i.e. demolitions have not been deducted from the overall total completed dwellings)

(3) The period 2016-21 includes two years (2016-17 and 2017-18) of completions data and three years of forecast housing data

### 10.3 Forecast Pupils In Mainstream Primary/Secondary Schools

Our mainstream primary and secondary school forecasts follow a similar pattern to the ONS population projections. For Kent primary schools we have seen a steady rise in the overall number of pupils in since 2009-10 to 2018-19, rising from 106,097 to 125,832, an increase of 19,735 pupils (18.6% increase). This is expected to slow through the medium to long-term period. Given current birth and migration patterns we forecast 17,607 Year R pupils and 126,530 Years R-6 primary aged pupils by 2023-24. These are small increases of 0.8% and 0.6% respectively over the next five years. Figures 10.4 and 10.5 provide a breakdown of expected surplus or deficit capacity in Year R and across Years R-6, by district/borough, across the five-year period to 2023-24. Dartford Borough shows the most acute need, with an expected deficit of over 500 primary school places by 2023-24 if no further action is taken. In the individual district/borough sections we break down the expected surplus/deficit of places into smaller planning groups. This enables us to identify in more detail where and when provision may need to be added or removed. The pupil growth generated by new homes will be an additional demand for school places in specific planning groups and will reduce the surplus set out here.

Thanet	12,252	1,055	1,278	1,404	1,431	1,426	1,402	12,462
Tonbridge & Malling	12,108	652	759	857	810	865	986	12,468
Tunbridge Wells	9,355	672	715	762	809	889	970	9,290
<b>Total</b>	<b>133,240</b>	<b>7,408</b>	<b>8,336</b>	<b>9,304</b>	<b>9,929</b>	<b>10,506</b>	<b>11,486</b>	<b>138,016</b>

The overall number of pupils in Kent secondary schools has risen since 2014-15, from 77,931 pupils to 82,833 in 2018-19, an increase of 6.3% over a four year period. This has been driven by larger Year 6 cohorts entering the secondary sector. We expect the increase in Year 7 rolls to continue until 2023-24 at which point it will peak and Year 7 numbers will begin to fall. Year 7-11 rolls will continue to rise throughout the forecast period reaching 96,346 pupils by 2025-26, an increase of 13,513 secondary aged pupils. This level of growth will continue to require a huge investment in the secondary estate to maintain quality and sufficiency of school places and will represent a major challenge to the Council and its commissioning partners in the years to come.

Figures 10.6 to 10.9 provide a breakdown of expected surplus or deficit capacity in Year 7 and across Years 7-11, by selective and non-selective planning groups, across the seven-year period to 2025-26. The majority of districts/boroughs are showing a need for additional secondary school places at some point in the forecast period particularly within the selective sector. Some of this can be managed through existing schools increasing the number of places offered on a temporary or permanent bases, but as not all of the pressure can be managed this way, there will be a need for new schools or satellites of existing schools. The individual district/borough sections break down the expected surplus/deficit of places into smaller planning groups based on pupil travel to learn patterns, both selective and non-selective. This enables us to identify in more detail where and when provision may be needed.

#### 10.4 Travel to School Flows

Figures 10.10 and 10.11 outline the travel to school flows for selective and non-selective provision in Kent districts. There are big differences between both the scale of travel to school flows and the direction of flows between districts – for example, Sevenoaks has an outflow of over 4,300 pupils across the selective and non-selective sectors combined. Dartford has similar-sized flows but into the district. In the 2018-19 academic year 4,110 pupils flowed into Dartford to take up secondary school places. Over half of these (2,404 pupils) were from outside of Kent (mostly from London Boroughs), the majority (1,979) attending its grammar schools. Tunbridge Wells has a high flow of pupils into the district particularly to access both non-selective denominational provision and selective provision. Tonbridge and Malling has high flows into and out of the district for both selective and non-selective provision.

## 10.5 Migration into Kent

Figure 10.10 sets out the net migration by pre-school, primary school and secondary school ages for 2017 and 2018. This shows that the overall net migration into Kent in 2018 was generally similar to the previous year with a net migration of 1,124 pre-school, 1,603 primary and 821 secondary aged pupils. The net migration of primary and secondary aged pupils remains significantly above the average net migration of the last 5 years (1,480 primary aged and 663 secondary aged).

**Figure 10.10: Pre-School (0-3 Year Olds), Primary (4-10 Year Olds) and Secondary Aged (11-15 Year Olds) Net Migration Year Ending 30th June 2018**

District	2017				2018			
	Kent districts*	London	Elsewhere	Total	Kent districts*	London	Elsewhere	Total
Pre-school	47	1,538	-479	1,106	86	1,385	-347	1,124
Primary	145	2,035	-606	1,575	125	1,834	-356	1,603
Secondary	69	891	-98	862	86	822	-87	821

\*Including Medway Source: Office for National Statistics, 2018

Across the County as a whole any fluctuation in migration may only have a small proportional impact on pupil numbers. However, at a district/borough level the fluctuation from one year to the next can be significant requiring the LA to respond swiftly to ensure sufficient school places. For instance, the net migration of primary aged pupils into Canterbury district in 2016 was 102 children, in 2017 it increased to 243 pupils, before falling to 68 in 2018. The increase in 2017 being due in part to the wholesale transfer of London families, that were previously on the housing waiting lists of London Boroughs, to much cheaper accommodation in Kent.

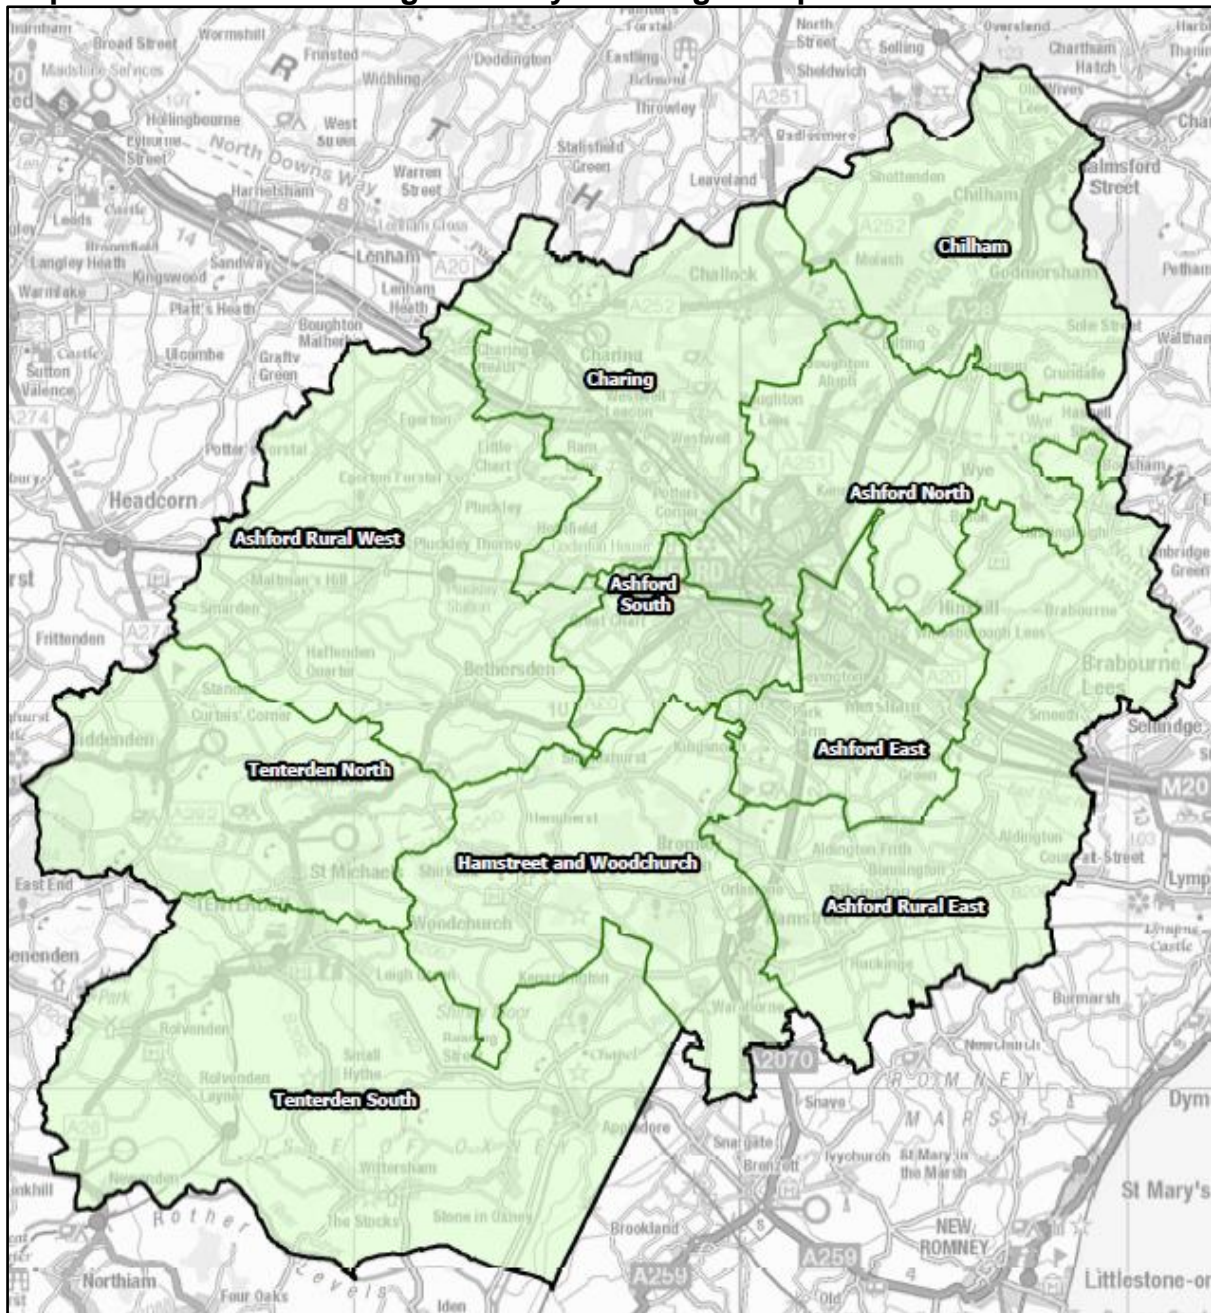

## 10.6 Ashford

### Borough commentary

- The birth rate in Ashford has fallen significantly after a four year rise and is now only 2 points above the County average. However, the number of recorded births for the year continues to rise steadily.
- We forecast sufficient primary school places across the district throughout the Plan period, although there will be some localised pressures due to house building which may need to be addressed. We will continue to see a deficit of non-selective secondary school places particularly across urban Ashford. Additional temporary Year 7 places will be added until the opening of a new secondary school at Chilmington Green, estimated for 2022.
- The Local Plan (up to 2030) was adopted in the first quarter of 2019. Within the Plan, the Borough Council have identified that up to 13,544 new homes could be delivered by 2030. This equates to an average of 1,129 new homes per annum. During the 5 year period 2013-18 a total of 2,837 houses were completed with an average of 567 per year.

### District commentary

The demand for Year R places has increased and will do so for a couple of years before stabilising from 2021-22. Forecasts suggest that we will continue to have over 5% surplus places across the district, although there are particular pressures in three planning groups: Ashford North, Ashford East and Hamstreet and Woodchurch. Year R-6 rolls continue to rise throughout the Plan period with less than 5% surplus places from 2021-22. A deficit of places is noted within the Ashford North and Ashford East planning groups.

### **Ashford North Planning Group**

Forecasts suggest a deficit of places in the planning group in both Year R and across Years R-6 from 2019-20. This pressure is linked to ongoing developments in and around central Ashford, such as at Repton Park. In the longer term planned new developments north of the M20 between Kennington, Willesborough and Eureka Park will further increase demand.

The Local Plan makes strategic provision for a new 2FE primary school to be incorporated into the 'Conningbrook Park' development area. KCC have requested that the school site is delivered in the early phase of the development. However, this is likely to be no earlier than 2023.

Prior to the delivery of the new school at Conningbrook Park, the pressure for primary school places will have to be managed across the urban planning groups (North, South and East), with temporary solutions being sought until the new school is available.

There are also significant developments within the Town Centre at Elwick Road and Victoria Road. These are in the main flats and the pupil product is expected to be lower than that which we would see from housing. This will be monitored.

### **Ashford South Planning Group**

Development at Chilmington Green is now underway with the first houses on the market from the summer of 2019. Chilmington Green Primary School (opened off-site in September 2018) and will relocate on the development during the 2020-21 academic year. This school accounts for the current high levels of surplus places in the planning group, a situation that will change as families move in.

In the longer term the Chilmington Green development provides for a further three primary schools offering a total of 7FE of provision.

### **Ashford East Planning Group**

There are a number of existing, permitted and allocated sites including Finberry, Waterbrook, New Town Works, Park Farm, Willesborough Lees and Conningbrook that have been and will be driving the pressure for primary school places. Finberry Primary School (Cheeseman's Green) currently has 1FE of accommodation but has planning permission to be a 2FE school. The second FE will be delivered for the 2020-21 academic year.

The Local Plan makes provision for a new 2FE primary school to be incorporated into the 'Court Lodge' development area, in order to meet the longer term primary education needs of that development. As the masterplan for the development is still in progress, we would not expect the new primary school to be available until the middle of the next decade.

The opening of junction 10A may increase the speed of development in and around this planning group, which would impact on the pressure for school places. This will be monitored.

### Hamstreet and Woodchurch Planning Group

The pressure for places will be due to small, localised developments. Should there be a pressure for places, there is sufficient capacity for residents to gain a school place should they require it. Some families travelling from further afield may be more likely to gain places in schools nearer to where they are resident. The Local Plan makes provision for Hamstreet Primary Academy to access a playing field and additional car parking in the St Mary's Close development opposite the Academy. If delivered it paves the way for the expansion of the Academy to 2FE subject to funding.

### Ashford Borough Analysis - Secondary

There are three planning groups which are within Ashford Borough or which cross the Borough boundary (See appendix 13.2 for the non-selective and selective planning group maps). Two planning groups are non-selective (Ashford North, Tenterden and Cranbrook), one selective. The commentary below outlines the forecast position for each of the planning groups.

#### Forecast Year 7 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Ashford Town Non-Selective	758	55	-36	-53	-35	-48	-105	-89	-36	758
Tenterden and Cranbrook Non-Selective	540	139	102	106	131	118	91	140	139	540
Ashford Selective	390	-24	13	7	17	12	-11	1	20	394

#### Forecast Years 7-11 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Ashford Town Non-Selective	3,790	543	372	165	-3	-144	-305	-362	-346	3,790
Tenterden and Cranbrook Non-Selective	2,700	764	705	640	626	591	554	589	604	2,700
Ashford Selective	1,902	-48	-39	-29	6	23	33	18	31	1,970

### Ashford Town Non-Selective Planning Group

There are four schools in the Ashford Town non-selective planning group: John Wallis Church of England Academy, The North School, The Towers School and Sixth Form Centre and Wye School. Forecasts suggest a deficit of Year 7 places from 2019-20 throughout the Plan period. Temporary places were added as planned for 2019-20 and will be added again as required until the opening of the new secondary free school within the Chilmington Green development. United Learning Trust has been approved

by the Secretary of State for Education as the sponsor of this new school. The intention is to open the school in September 2022.

### **Tenterden and Cranbrook Non-Selective Planning Group**

There are two schools in the Tenterden and Cranbrook planning group: High Weald Academy and Homewood School. There is forecast to be surplus places throughout the Plan period, although house building in Tenterden will add pressure on Homewood School.

### **Ashford Selective Planning Group**

There are two selective schools in the Borough: Highworth Grammar School and The Norton Knatchbull Grammar School (which has recently received permission from the Secretary of State to expand). Both schools have accepted pupils above their Published Admissions Number in order to meet demand. This will ensure sufficient places for pupils deemed as suitable for selective provision throughout the Plan period, subject to further pressure for new homes.

## 10.7 Canterbury

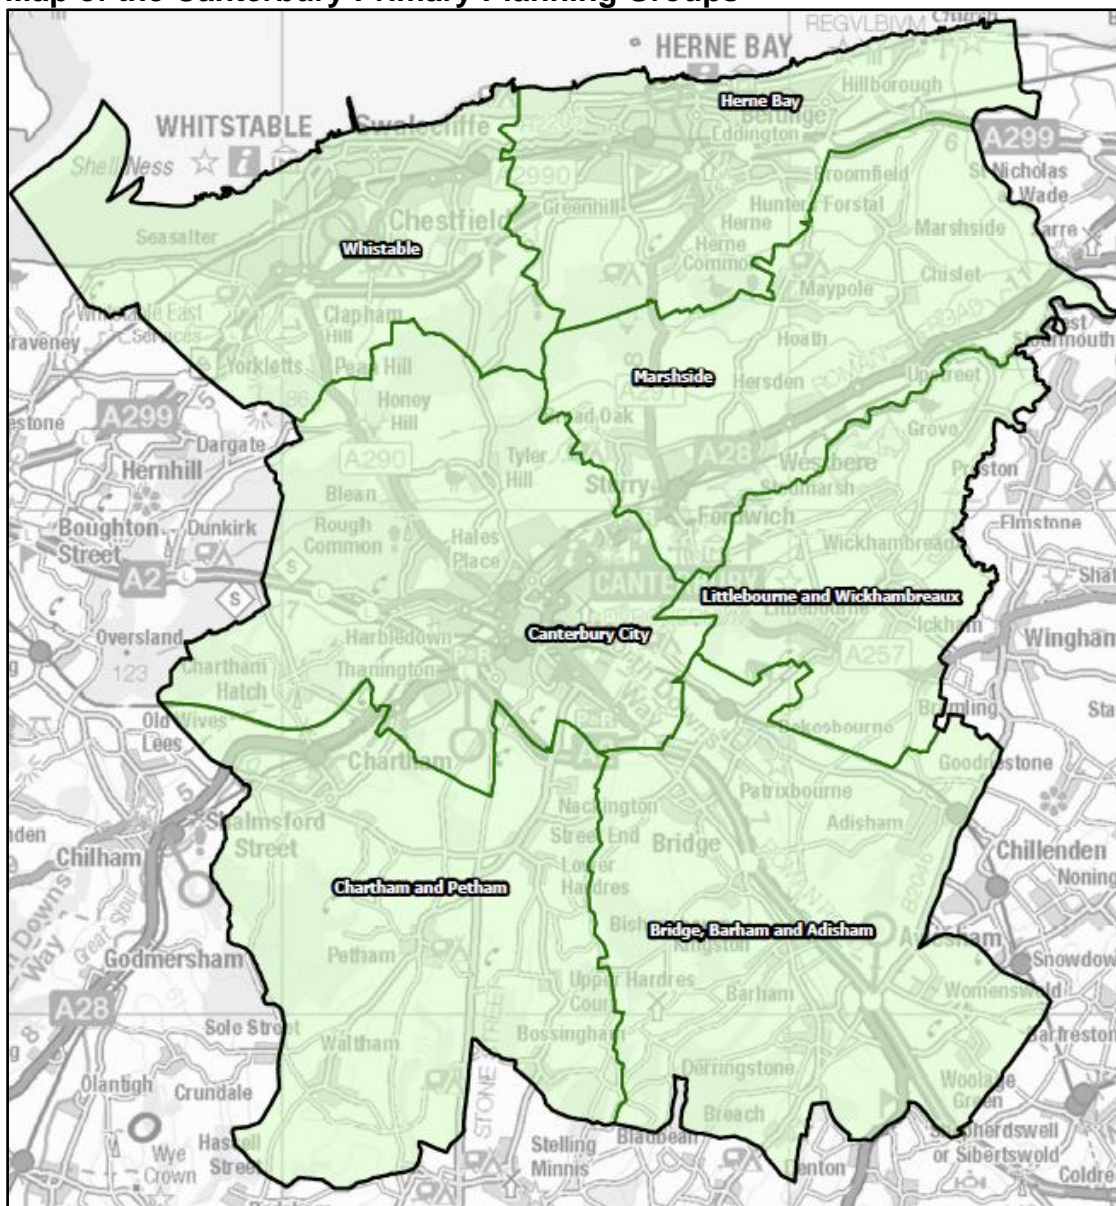

### District commentary

- The Canterbury district birth rate differs to Kent and the national picture as it is lower overall reflecting the large student population. The birth rate has continually declined from 55.2 births per 1000 women in 1990 to 38.5 per 1000 in 2018. The number of recorded births continues to fluctuate with a small decline in 2018 of 19 from 1,442 to 1,423.
- We forecast surplus primary school places across the district throughout the Plan period. Within the secondary sector, we forecast pressures for both selective and non-selective places, however this is mitigated by the opening of a new 5FE secondary school in 2021 to be run by Barton Court Academy Trust on the former Chaucer School site in Canterbury City.
- Canterbury City Council's Local Plan, adopted on 13 July 2017, proposed a total of just over 16,000 new homes during the Plan period up to 2031. This equates to an average of 925 dwellings per annum. During the 5-year period 2013-2018 a total of 3,331 houses were completed with an average of 666 per year. This figure includes a high percentage of student accommodation.

### District commentary

Forecasts indicate that across Canterbury district there will be surplus capacity for both Year R and Years R-6. The surplus for Year R peaks in 2021 with 17.2% surplus, then declines from 2022. The lower rate of housebuilding combined with the decline in birth rate has resulted in surplus primary places, particularly in Herne Bay and Whitstable. Movement of population, from Whitstable to Herne Bay and from the east of Canterbury City to the south and west is having particular impact on schools in these localities that are losing their historic population.

### Canterbury City Planning Group

In addition to the forecast need identified above, plans for new housing on the Howe Barracks site in Canterbury (Howe Green) will increase demand to the extent that action is needed to ensure sufficient local places are available from 2021. Pilgrims Way Primary School will be expanded from September 2021 to meet this localised need.

### Chartham and Petham Planning Group

A phased establishment of new 2FE primary school in Thanington to serve the new housing development of 750 homes will be required later in the development build-out period to prevent overcapacity in the planning area.

### Marshside Planning Group

Later in the Plan period we will expand Water Meadows by a form of entry or establish the first phase of a new 2FE primary school in Sturry/Broad Oak to serve the housing development in this planning area

### Whitstable Planning Group

Forecasts indicate between 2FE and 3FE (27%) surplus Year R places across the Plan period. Discussions will take place with schools on managing this surplus to ensure all schools remain viable. This could be through temporary reduction of Published Admission Numbers (PANs), whilst at the same time addressing historic inoperable PANs in two Junior schools, matching their PANs to the two Whitstable Infant Schools.

### Herne Bay Planning Group

Forecasts indicate between 1.5FE and 2FE (15.4%) surplus Year R places across the Plan period. If new housing developments are delivered in line with the Local Plan, once current spare capacity has been reduced, additional capacity will need to be provided. This could include a 1FE expansion of Briary Primary School and/or the establishment of a new phased 2FE primary school related to one of the strategic housing developments in the latter phases of the development build-out to prevent over capacity.

### Canterbury Analysis – Secondary

There are three planning groups which are within Canterbury district or which cross the Borough boundary (See appendix 13.2 for the non-selective and selective planning group maps). Two planning groups are non-selective (Canterbury City and Canterbury Coastal), one selective. The commentary below outlines the forecast position for each of the planning groups.

#### Year 7 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021--22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Canterbury City Non-Selective	530	-11	-44	-48	-80	-109	-106	-96	-90	530
Canterbury Coastal Non-Selective	618	105	81	62	81	58	47	100	114	618
Canterbury and Faversham Selective	590	-17	-29	-23	-20	-32	-37	-28	-15	605

### Years 7-11 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Canterbury City Non-Selective	2,650	-59	-98	-133	-194	-306	-409	-465	-511	2,650
Canterbury Coastal Non-Selective	3,000	436	455	427	422	413	349	365	416	3,090
Canterbury and Faversham Selective	2,865	-95	-92	-104	-107	-118	-142	-144	-137	3,025

#### Canterbury City Non-Selective Planning Group

There are three schools in the Canterbury City non-selective planning group: Archbishop's School, Canterbury Academy and St Anselm's Catholic School.

Forecasts indicate between 1.5FE (2020-21) and 3.5FE (2022-23) of Year 7 places will be required. A new 5FE secondary school on the former Chaucer Technology School site will be opened by Barton Court Academy Trust in 2021 to meet this need. An additional temporary 30 Year 7 places for 2020 will be commissioned at Canterbury Academy to meet the demand for year 7 places before the new school opens.

Pressures across all year groups (years 7 -11) in this planning group are driven by the larger Year 7 cohorts entering secondary schools from primary.

#### Canterbury Coastal Non-Selective Planning Group

There are three schools in the Canterbury Coastal non-selective planning group: The *Whitstable School*, *Herne Bay High School* and *Spires Academy*.

Forecasts indicate a surplus of between 1FE and 2FE across the Plan period which will support the pressure from the Canterbury City Planning area and the selective planning area. We will explore the future expansion of Herne Bay High by 1FE to support the predicted need which will arise from new housing developments adjacent to the School and reduce the trend of students travelling from the coast to schools in Canterbury City.

#### Canterbury and Faversham Selective Planning Group

There are four schools in the Canterbury and Faversham selective planning group: Barton Court Grammar School, Simon Langton Girl's Grammar School, Simon Langton Grammar School for Boys and Queen Elizabeth's Grammar School.

Forecasts indicate a pressure of 1FE for Year 7 places across the Plan period for selective places. Additional pressures will be placed on Faversham selective places as new housing is being delivered as per the Local Plan. An application has been submitted by two trusts to the Selective Schools Expansion Fund to open a grammar satellite on the coast. This will also meet the need identified in Thanet Selective (1FE) as the Thanet Grammar Schools are unable to expand on their current sites. If the grammar satellite is not achievable in the time frame required, discussions will be had with the grammar schools in the planning group to establish if we are able to expand

existing provisions to meet the need.

### Planned Commissioning - Canterbury

Planning Group	By 2020-21	By 2021-22	By 2022-23	By 2023-24	Between 2024-28	Post 2028
Canterbury City		0.5FE Expansion of Pilgrims Way PS				
Chartham and Petham					1FE of new 2FE Primary School in Thanington	
Marshside	0.5FE Expansion of Water Meadows				1FE expansion of Water Meadows or 1FE of new provision in Sturry/Broad Oak	2 <sup>nd</sup> 1FE of new provision in Sturry/Broad Oak.
Herne Bay					1FE expansion of Briary PS	1FE new provision in Herne Bay
Canterbury City Non-Selective	30 temporary Year 7 places at Canterbury Academy	5FE New BCAT Free School-Barton Manor				
Canterbury Coastal Non-Selective					1FE expansion of Herne Bay High School	
Canterbury and Faversham Selective	Up to 30 Year 7 places	Up to 30 Year 7 places	Up to 30 Year 7 places	Up to 5FE Satellite on Coast or expansion of existing schools		
Special School					120 place SEN satellite or new school for ASD/SLCN	
Specialist Resourced Provisions	20 place SRP (Cullum Centre) at Canterbury Academy	20 place SRP at Simon Langton Girls Grammar School				

## 10.8 Dartford

### Borough commentary

- The Dartford birth rate continues to rise and remains significantly higher than the Kent average. It is now in line with the 2012 peak. The gap from the Kent average birth rate, at 13 points, is the widest it has been since 1990. The number of births has increased again from 2017.
- The demand for Primary places continues to increase consistently, due to housing, higher birth rates, and migration. A deficit of places is forecast across all primary planning groups for the 2021-22 intake.
- Forecasts indicate that there is sufficient capacity to accommodate Secondary non-selective demand until the September 2022 intake. Selective demand remains under pressure with additional capacity required for every year to the end of the forecasting period.
- Dartford Borough Council and the Ebbsfleet Development Corporation estimated that between 2011 to 2026, approximately 17,300 new homes will be built. More recently, the Ebbsfleet Development Corporation has said that 15,000 new homes will be built in their area of responsibility alone. During the 5 year period 2013-18 a total of 4,331 houses were completed with an average of 866 per year. It is worth noting that housing delivery has significantly increased over the last three years with almost double the houses being delivered in each of the years 2015-16, 2016-17 and 2017-18 to that which was seen in 2014-15. This will need to continue in order to deliver the housing as planned in the Core Strategy.

<b>Dartford</b>	<b>10,744</b>	<b>204</b>	<b>140</b>	<b>-5</b>	<b>-192</b>	<b>-422</b>	<b>-547</b>	<b>11,644</b>

### District commentary

Forecasts indicate that there is sufficient Year R capacity for the 2020-21 intake. For 2021-22 however, demand exceeds capacity in nearly every planning group. This continues for 2022-23 and 2023-24. We will need to commission just over 1.5FE for September 2020, 1FE for September 2021 and at least an additional 2FE for September 2022. Further primary provision will be required later in the planning period subject to housing development.

Across Years R-6 we forecast a 1FE deficit of places for the September 2021 intake. This increases significantly for subsequent years. We will work with providers to commission additional capacity for older age groups. If required, this will be achieved by increasing the admission numbers in new or expanded schools earlier than that

previously planned.

In addition to the forecast need identified above, plans for further housing across the district will increase the need for school places.

### **Dartford North Planning Group**

Much of this demand is driven by the new housing on the Dartford Northern Gateway. A smaller part of this demand is being created as the Bridge Development nears its later building phases.

To support the need for new school places a new 2FE primary school (River Mill) opened in September 2019. Further forecast demand from the 2021-22 academic year will require a 1FE expansion of an existing primary school from 2022-23.

### **Dartford West Planning Group**

There is a small deficit of Year R places forecast from 2021-22. Should this prove to be the case, we would anticipate all local applicants gaining a school place in the planning group, with applicants from further afield being offered places at schools more local to their homes.

### **Dartford East Planning Group**

Demand for Year R places in Dartford East remains manageable until 2020-21, after which we will commission 30 Year R places (1FE expansion). To support further housing development a new 2FE primary school will be commissioned at St. James Lane. This is expected no earlier than 2023-24.

### **Dartford South West Planning Group**

There is a small deficit of Year R places forecast from 2021-22. Should this prove to be the case, we would anticipate all local applicants gaining a school place in the planning group, with applicants from further afield being offered places at schools more local to their homes.

### **Swanscombe and Ebbsfleet Planning Group**

This planning area is significantly impacted by the Ebbsfleet Valley housing development area. A new primary school is being established on the Ebbsfleet Green development in 2020-21 which will address the forecast shortfalls of future years. As the development progresses, a further new school will be required at Alkerden by September 2022.

In the longer term, should housing be delivered at current rates, two further new schools will be required (Western Cross and Station Quarter) in addition to the expansion of the schools at Ebbsfleet Green and Alkerden. This will provide 8FE of provision in total across the forecast period.

### **Dartford Analysis Secondary**

There are three planning groups which are within Dartford Borough or which cross the Borough boundary (See appendix 13.2 for the non-selective and selective planning group maps). Two planning groups are non-selective (Dartford and Swanley and

Gravesham and Longfield), one selective. The commentary below outlines the forecast position for each of the planning groups.

### Year 7 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity

North West Kent Selective	660	-6	-33	-58	-68	-84	-111	-83	-102	660

### Years 7-11 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Dartford and Swanley Non-Selective	4,935	492	505	398	311	247	194	82	-21	5,760
Gravesham and Longfield Non-Selective	6,106	290	134	16	-127	-236	-469	-580	-703	6,320
North West Kent Selective	3,200	7	21	-51	-167	-247	-353	-403	-446	3,300

### Dartford and Swanley Non-Selective Planning Group

There are six schools in the Dartford & Swanley non-selective planning group: Orchards Academy, Wilmington Academy, Dartford Science and Technology College, Inspiration Academy, Ebbsfleet Academy and Leigh Academy.

A new secondary school, Stone Lodge School, opened in the planning group in September 2019 in order to support the significant housing being built. Its capacity (4FE) is included in the data above. The forecasts show demand for places will continue to increase through the forecast period which will require further secondary school capacity. A second secondary school, within the Alkerden development, is due to open in September 2022 also offering 4FE of non-selective provision. In the longer term, it is expected that both schools will need to expand, offering up to a further 4FE of provision each. The timing of this will be subject to the demand from new housing.

### Gravesham and Longfield Non-Selective Planning Group

There are seven schools in the Gravesham and Longfield non-selective planning group: Longfield Academy, Meopham School, Northfleet Technology College, Northfleet School for Girls, Thamesview School, Saint George’s CE School and Saint John’s Catholic Comprehensive School.

Demand fluctuates throughout the forecast period which will require additional capacity. We will commission 30 temporary Year 7 places for 2020/21 and expand Meopham School by 1FE. The following year we add a further 1FE at both Meopham and Thamesview schools. A further 3FE of provision will be required from September 2023-24 which will be managed through the expansion of existing provision.

### North West Kent Selective Planning Group

There are four schools in the North West Kent selective planning group: Wilmington Grammar School for Girls, Wilmington Grammar School for Boys, Dartford Grammar School and Dartford Grammar School for Girls.

Demand for selective places in the North West Kent Selective Planning Group remains higher than capacity.

Current regulations prohibit new grammar schools or selective academies to be established, but the grammar schools in the planning group have all been the subject of expansions, requiring complex highways solutions and lengthy planning decision-making processes. Nevertheless, we intend to commission 2FE for 2021-22 and another 2FE in 2023-24

## 10.9 Dover

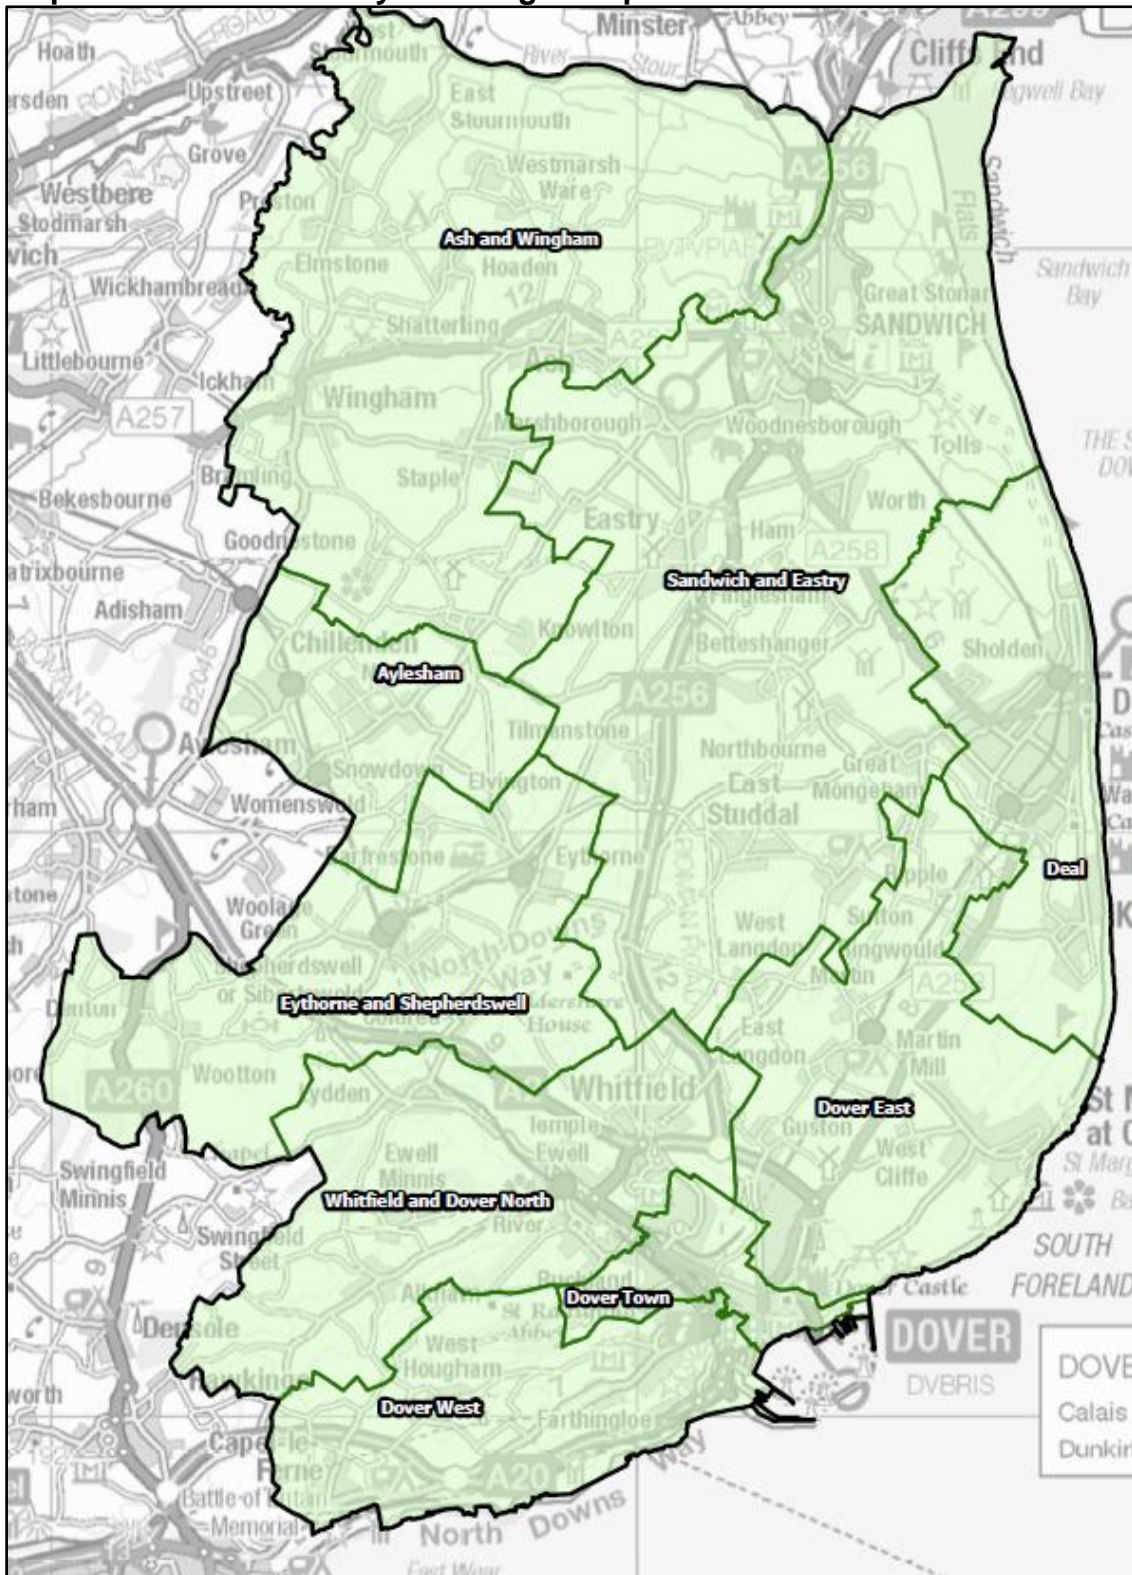

### District commentary

- The birth rate in Dover district has continued to fall from its peak in 2010 and is now four points below the County average. The number of recorded births in the district is still over 100 births below the peak of 2012.
- We forecast sufficient primary school places across the district throughout the Plan period, although there will be some localised pressures associated with house building with which may need to be addressed. Within the secondary sector, we forecast a small pressure for non-selective places in Deal and Sandwich that may need to be addressed via the addition of temporary places in 2023-24. Selective provision is also showing a small deficit, this will be managed within the selective schools.
- Dover District Council Core Strategy (adopted in 2010) sets a target that a 'minimum of 10,100 new homes should be completed by 2026, an average of 631 new homes per year. During the 5-year period 2013-18 a total of 2,837 houses were completed with an average of 567 per year. The Council are in the process of producing a new local plan covering the period 2018-2038. We will review the impact of this on our commissioning intentions.

### District commentary

The demand for Year R places is forecast to reduce across the Plan period with Dover East being the only planning group showing a deficit or less than 5% surplus of Year R places throughout the forecast period.

Year R-6 rolls fall slightly with over 5% surplus capacity forecast to be available across the district, with the exception of three planning groups: Whitfield and Dover North, Dover East and Deal.

### **Whitfield and Dover North Planning Group**

The pressure for places in the planning group is due, in part, to the first phase of the Whitfield Urban Expansion (WUE). The WUE has outline planning consent for 5,750 new homes to be delivered over the next 20 years. To provide sufficient primary school places the equivalent of three 2FE primary schools are included within the Master Plan.

The first of these new provisions is located on the Richmond Park development and will open in 2020-21 as a satellite of Whitfield Aspen Primary School. In order to ensure sufficient primary school places prior to the satellite site being available, the School added an extra form of entry from the 2016-17 academic year, taking the School from 2FE to 3FE.

The design of the satellite building allows for the swift addition of a further block of classrooms taking the school to 4FE when required, which is likely to be in the latter half of the next decade.

### **Dover East Planning Group**

Surplus places in neighbouring planning groups will support the small deficit of Year R and Year R-6 places forecast. In the longer term places will be required to support the planned development of Connaught Barracks. Additional land alongside developer contributions is being requested to enable the expansion of Guston Church of England Primary School when required.

### **Deal Planning Group**

The plan to increase primary school provision in Deal via the expansion of Deal Parochial Church of England Primary School has been revoked as forecasts would suggest that this is not currently required. However, the expansion of this school remains our strategic solution to increase primary school places in the planning group as and when required.

### **Sandwich and Eastry Planning Group**

Consented and proposed developments in Sandwich and the neighbouring villages of Eastry and Ash together account for possibly over 1,100 new homes. Should housing come forward as identified in the Local Plan, 1FE of provision in Sandwich may be required however, forecasts would suggest this would be in the second half of the next decade.

### **Dover District Analysis - Secondary**

There are three planning groups within Dover district (See appendix 13.2 for the non-selective and selective planning group maps). Two planning groups are non-selective (Dover North, Deal and Sandwich), one selective. The commentary below outlines the forecast position for each of the planning groups.

### Year 7 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Dover Non-Selective	480	101	88	43	28	42	-2	29	55	480
Deal and Sandwich Non-Selective	465	16	31	-12	35	20	-21	-10	24	465
Dover Selective	440	-11	5	-6	-7	-9	-6	-9	-10	440

### Years 7-11 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Dover Non-Selective	2,400	554	508	442	374	339	239	184	196	2,400
Deal and Sandwich Non-Selective	2,205	322	282	178	136	83	42	-1	36	2,175
Dover Selective	2,030	-88	-72	-42	-26	-17	-11	-25	-28	2,200

#### Dover Non-Selective Planning Group

There are three Schools in the Dover non-selective planning group: Astor College of the Arts, Dover Christ Church Academy and St. Edmunds RC School. We forecast surplus school places throughout the Plan period apart from a small deficit of Year 7 (-2) places in 2023-24. Should this be the case it will be managed within existing schools. The Whitfield Urban Expansion will, over time increase the pressure on local secondary school places which will initially be met via expansion of Dover Christ Church Academy as the local school.

#### Deal and Sandwich Non-Selective Planning Group

There are two Schools in the Deal and Sandwich non-selective planning group: Goodwin Academy and Sandwich Technology College. Forecasts suggest short term pressures for Year 7 places in 2020-21 and 2022-23 through to 2024-25. This is in part due to increasing numbers of families choosing travelling into the planning group from Thanet to access school places, particularly to Sandwich Technology College. As secondary numbers grow, the flow of pupils will reduce with pupils gaining places nearer to their homes where there is capacity. Should provision be required this will be managed through the addition of temporary Year 7 places.

#### Dover Selective Planning Group

Selective provision is provided by three schools: Dover Boys Grammar, Dover Girls Grammar and Sir Roger Manwood's Grammar. Forecasts suggest a small deficit of Year 7 and Years 7-11 places across the forecast period. This is due to the selective schools

accepting over PAN for a number of years rather than cohorts growing significantly. With the exception of needs arising to meet the demand from new housing, no extra provision will be required in the forecast period in order to ensure those pupils deemed as selective can gain an appropriate school place.

### Planned Commissioning - Dover

Planning Group	By 2020-21	By 2021-22	By 2022-23	By 2023-24	Between 2024-28	Post 2028
Whitfield and North Dover Primary					Expansion of Whitfield Aspen Satellite by 1FE	New 2FE primary school in Whitfield
Sandwich and Eastry Primary					1FE Sandwich planning group

Dover Non-Selective				Up to 30 Year 7 places		
Deal and Sandwich Non-Selective		Up to 30 Year 7 places		Up to 30 Year 7 places	Up to 30 Year 7 places	
Special Schools	168 place satellite of a PSCN school  12 place satellite of a PSCN school					

## 10.10 Folkestone and Hythe

### District commentary

- The birth rate in Folkestone and Hythe fell significantly from the previous year, it is 5 points below the County average and 11.5 points below the 2011 peak. The number of recorded births in the district also fell in 2018 and is over 140 births lower than 2011.
- We forecast a significant surplus of primary school places across the district throughout the Plan period. We will see a deficit of non-selective secondary school places from 2021-22, lasting around three years at which point we expect rolls to fall and a surplus of places to resume.
- The adopted Core Strategy (2013) identified that 8,750 dwellings would be required between 2006 and 2031, at an average of 350 per annum. During the 5-year period 2013-18 a total of 1,777 houses were completed with an average of 355 per annum. The District Council are in the process of producing a new local plan covering the period 2018-2037. We are working with Folkestone and Hythe District Council to ensure the education needs arising are catered for.
- An outline planning application for Otterpool Park was submitted in February 2019 for 8,500 homes. This level of development would require significant education infrastructure.

## District commentary

### Folkestone and Hythe District Analysis - Primary

We forecast just under 20% of surplus Year R places across the district, with no planning group being under pressure. Across Years R-6 surplus places are set to increase from 7.1% in 2019-20 to 14.6% in 2023-24.

As the surplus places grow, some schools may be impacted by falling rolls and consequently falling budgets. We will work with both schools maintained by KCC and those led by academy trusts to find solutions which may include the reduction of pupil admission numbers in areas of significant surplus places.

### Folkestone East Planning Group

Forecasts suggest that there will be sufficient Year R places (including a 5% surplus) across the Plan period apart from 2019-20 and 2020-21 where surplus places are forecast to fall just below 5%. There are sufficient surplus places in the neighbouring planning groups to support this.

### Folkestone West Planning Group

Land and developer contributions for a new 2FE primary school at Shorncliffe Heights was agreed several years ago. As pupil numbers have continued to fall across the district, it is expected that this provision will not be required until the latter half of the next decade.

### Hythe Planning Group

Previous plans have noted that any demand for school places in the planning groups would be predicated on the pressure felt from new housing rather than any indigenous demand. This continues to be the case. Housing delivery is slow which has led to the reduced pressure for places and consequently, the planned expansion of Palmmarsh Primary School has been put on hold. In the short to medium term we will work with schools to manage the forecast surplus places.

### Sellindge and Lympne Planning Group

Housing development in Sellindge is well underway with the 0.5FE expansion of Sellindge Primary School planned for September 2020. Any further consented housing development in the locality may require the further expansion of the School, with additional land allocated to enable this.

### Romney Marsh Planning Group

The District's Core Strategy provides for just under 600 new homes in the Romney Marsh. Subject to these being delivered, small scale expansions of St Nicholas CEPS and Greatstone Primary School may be required in the medium to longer term.

### Folkestone and Hythe District Analysis - Secondary

There are three planning groups within Folkestone and Hythe district (See appendix 13.2 for the non-selective and selective planning group maps). Two planning groups are non-selective (Folkestone and Hythe, Romney Marsh), one selective. The commentary below outlines the forecast position for each of the planning groups.

#### Year 7 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Folkestone and Hythe Non-Selective	625	57	41	10	-6	-25	-10	17	44	685
Romney Marsh Non-Selective	180	-10	1	-11	-6	-19	-6	-6	-9	180
Folkestone Selective	330	-8	14	18	17	18	17	17	14	330

### Years 7-11 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Folkestone and Hythe Non-Selective	2,715	98	142	166	161	141	76	53	86	3,425
Romney Marsh Non-Selective	900	45	22	8	-13	-25	-20	-27	-27	900
Folkestone Selective	1,680	-8	9	34	63	90	114	117	113	1,650

#### Folkestone and Hythe Non-Selective Planning Group

There are three schools in the Folkestone and Hythe non-selective planning group: Brockhill Park Performing Arts College, Folkestone Academy and The Turner Free School (opened in September 2018).

Forecasts suggest there will be a small deficit of Year 7 places in the three year period 2021-22 to 2023-24. Should this be the case it will be managed with the support of existing schools.

#### Romney Marsh Non-Selective Planning Group

There is one non-selective school in the planning group: The Marsh Academy.

Forecasts suggest there will be a deficit of Year 7 and Years 7-11 places throughout the Plan period. This is due to a combination of factors: an increase in the number of pupils resident in the Romney Marsh primary planning group and the numbers of families resident in Ashford district traveling to The Marsh Academy to take up places. As the Academy prioritises the admission of pupils resident in the district, we anticipate local residents to be admitted.

#### Folkestone Selective Planning Group

There are two selective schools in the district: Folkestone Girls Grammar and Harvey Grammar.

Forecasts suggest there will be sufficient Year 7 places available throughout the Plan period.

#### Planned Commissioning – Folkestone and Hythe

Planning Group	By 2020-21	By 2021-22	By 2022-23	By 2023-24	Between 2024-28	Post 2028

Specialist Resourced Provision		14 place primary ASD SRP at St. Nicholas CE Primary School				

## 10.11 Gravesham

### Borough commentary

- The Gravesham birth rate fell 3.6 points in 2018 but remains significantly above the Kent average, being consistently 6 to 9 points higher every year since 2010. The number of births has risen slightly but is still around 86 below the 2014 peak.
- Following several years of primary school expansions, the position in Gravesham has stabilised. With the exception of the Northfleet planning group, all other areas of primary provision in Gravesham are manageable.
- Demand for non-selective Secondary provision in Gravesham continues to increase, necessitating additional capacity. Selective secondary school rolls are also forecast to increase.
- The Gravesham Borough Council Local Plan (adopted September 2014), states an intention to build 6,170 dwellings between 2011 to 2028. About 20% of the Ebbsfleet Development Corporation area is sited in Gravesham. During the 5 year period 2013-18 a total of 1,023 houses were completed with an average of 205 per annum.

<b>Gravesham</b>	<b>9,845</b>	<b>212</b>	<b>367</b>	<b>494</b>	<b>628</b>	<b>734</b>	<b>876</b>	<b>10,362</b>

### District commentary

Traditionally, Gravesend East has carried the bulk of any Year R surplus capacity in the Borough. However, additional provision in Gravesend West shows there is now sufficient capacity in much of the Borough to provide for the forecast demand and allow a small surplus to facilitate parental preference. However, one of the academies in the Gravesend West Planning Area will be reducing its PAN from 90 to 60, which reduces the planning group Year R totals by 30 for 2020-21.

### Northfleet Planning Group

Northfleet planning group is in an area of large-scale housing development. The demand created from the development combines with traditional high levels of demand. A new 2FE Free School is being established by the Department for Education which will open in September 2020, initially with only 1FE of provision. The school will only expand to the full 2FE in seven years, or as demand increases. Further provision will be added from 2023-24 with the relocation and expansion of Rosherville CEPS to a new site on Northfleet Embankment. This will enable the school to increase from the present 0.6FE to 2FE in phases.

### Gravesham West Planning Group

A school in this planning area will be reducing its published admission number by 30 Year R places. This will reduce the school's published admission number from 90 Year R places to 60. Forecasts suggest that this will reduce surplus Year R places in the planning group from 14.0% to 7.3% by the end of the Plan period and Years R-6 from 13.5% surplus to 10.7%. This is still above the 5% surplus capacity that we try to maintain to facilitate parental choice. In the longer term (post 2024-25) the planned second FE at St. George's School primary provision will support any need for additional places.

### Gravesham Rural East Planning Group

Gravesham Rural East has a small amount of surplus Year R places, but demand for Year R provision in that planning group is not expected to change overtime. Forecasts suggest a deficit of Year R-6 places in the planning group. Surplus places in adjacent planning groups will support any demand for places.

### Gravesham Analysis Secondary

There are two planning groups which are within Gravesham Borough or cross the Borough boundary, one non-selective and one selective (See appendix 13.2 for the non-selective and selective planning group maps). The commentary below outlines the forecast position for each of the planning groups.

#### Year 7 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity

Gravesham and Longfield Selective	1,700	-44	-65	-103	-131	-153	-206	-235	-269	1,770

### Gravesham and Longfield Non-Selective Planning Group

There are seven schools in the Gravesham and Longfield non-selective planning group: Longfield Academy, Meopham School, Northfleet Technology College, Northfleet School for Girls, Thamesview School, Saint George's CE School and Saint John's Catholic Comprehensive School.

Demand fluctuates throughout the forecast period which will require additional capacity. We will commission 30 temporary Year 7 places for 2020/21 and expand Meopham School by 1FE. The following year we add a further 1FE at both Meopham and Thamesview schools. A further 3FE of provision will be required from September 2023-24 which will be managed through the expansion of existing provision.

### Gravesham and Longfield Selective Planning Group

There are two schools in the Gravesham and Longfield selective planning group: Gravesend Grammar School and the Mayfield Grammar School.

Demand is forecast to be steady, but in deficit throughout the forecasting period. To accommodate this demand, we will commission 30 temporary Year 7 places for 2020-21 and 2FE permanent provision in 2021-22.

### Planned Commissioning – Gravesham

Planning Group	By 2020-21	By 2021-22	By 2022-23	By 2023-24	Between 2024-28	Post 2028
Northfleet	1FE new provision			0.3FE at Rosherville CEPS	1FE new provision at Rosherville CEPS  1FE Expansion at Springhead Park	
Gravesham West	1FE REDUCTION				1FE expansion at St George's primary provision	
Gravesham and Longfield Non-Selective	1FE expansion 30 Year 7 places	2FE expansion		3FE expansion		
Gravesham and Longfield Selective	30 Year 7 places	2FE expansion				
Specialist Resourced Provision		15 place primary in Northfleet				

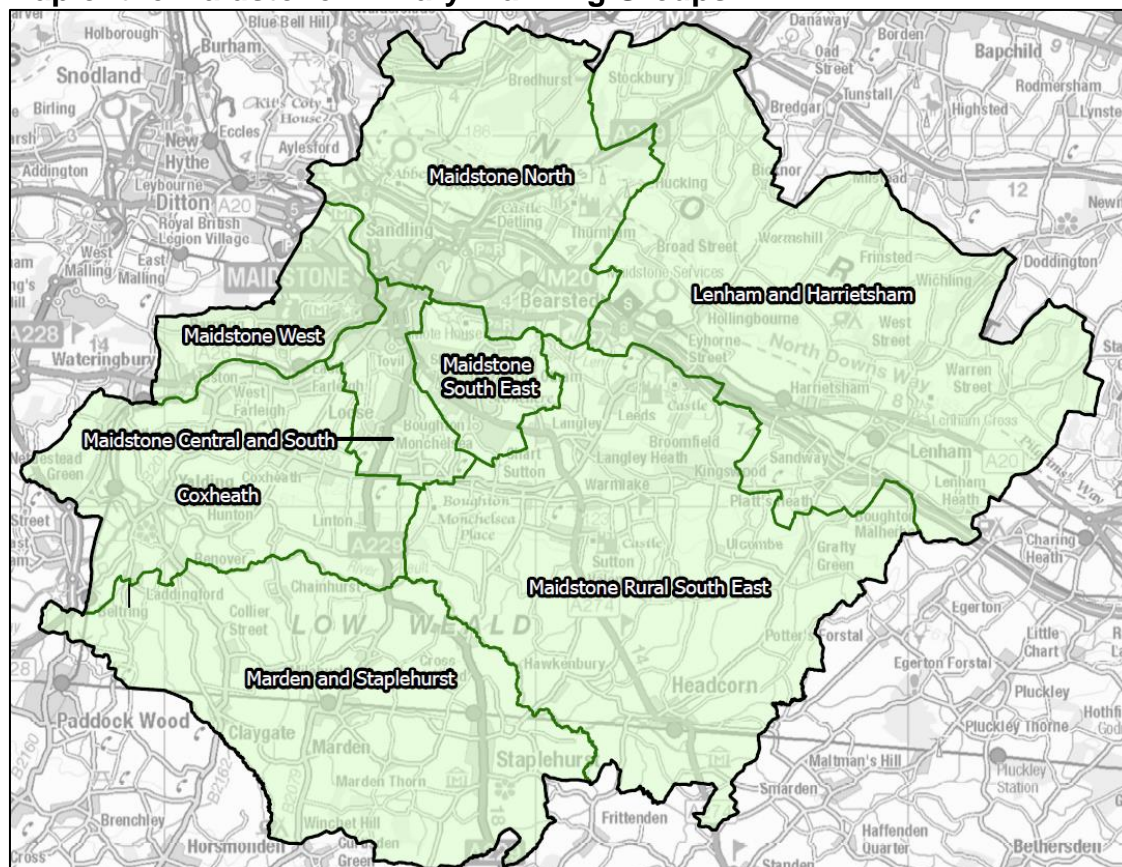

## 10.12 Maidstone

### Borough commentary

- The birth rate in Maidstone has increased each year from 2013 and is presently 7 percentage points above the County average. The number of recorded births in the Borough has increased slightly from the previous year.
- Forecasts indicate that there will be sufficient primary places for both Year R and Years R-6 across the Plan period for Maidstone district. However, there is significant place pressure within the Maidstone Central and South and Maidstone West town centre planning groups, with Year R and Years R-6 place deficits forecast throughout the Plan period.
- Within the secondary sector, there is fluctuating demand for non-selective Year 7 places over the Plan period. The initial surplus forecast moves to a significant deficit in 2023-24, before lessening in 2024-25 and 2025-26. For selective provision forecasts suggest a deficit of Year 7 and all year groups that increases during the Plan period. The demand can be managed in the early years of the Plan period, but in the medium to longer term will require additional places to be commissioned.
- Maidstone Borough Council Local Plan was formally adopted in October 2017, setting out the scale and location of proposed development up to 2031. The Borough is planning for around 17,500 dwellings or just under 900 per annum. During the 5 year period 2013-18 a total of 3,797 houses were completed with an average of 759 per year, below the 900 average required. However, it is worth noting that housing delivery has significantly increased over the last two years with well over double the houses being delivered per annum in 2016-17 and 2017-18 to that which was seen in the previous three years. This increased rate of delivery will need to continue in order to reach the housing as planned in the Core Strategy.

### District commentary

Forecasts indicate that there will be sufficient places for both Year R and Years R-6 across the Plan period for the Maidstone district as a whole. However, there is significant demand for places within the town centre planning groups, with a deficit of Year R and Years R-6 places forecast from 2020-21 in Maidstone Central and South and Maidstone West. The deficit of places within the two planning groups increases during the Plan period and peaks at -49 Year R places by 2022-23. This town centre pressure will be mitigated via places available in the Maidstone North planning group with the September 2020 opening of the new 2FE Bearsted Primary Academy Free School.

We also anticipate additional pressure from several permitted developments across the town centre area of Maidstone. There are numerous projects scheduled and on-going to convert retail and office spaces into new residential dwellings under permitted development. This will potentially increase the demand for primary places across the Maidstone town centre area in excess of that indicated in the forecasts.

The Year R-6 demand shown within the town centre planning groups will be closely monitored. Where it would be appropriate to meet this demand via bulge classes, the County Council will work with existing school(s) to offer additional provision within the required year groups.

Housing developments on the Maidstone side of Hermitage Lane will necessitate up to 2FE of additional provision (see Maidstone West below). Land has been secured that would enable a 2FE primary school to be established on the East of Hermitage Lane site. This is expected no earlier than 2024-25 and once open will help to provide the needed surplus to cover the permitted development demand.

### **Maidstone North Planning Group**

Forecasts indicate that the Maidstone North planning group will be in surplus from 2020 and throughout the Plan period. However, we do not anticipate a surplus of Reception places in Maidstone North schools; forecasting methodology uses existing travel to school flows to distribute Reception pupils from each primary planning group into individual primary schools; where new provision is established that will alter existing travel to school patterns these adjustments are not embedded within the forecasts until later years.

### **Maidstone Central and South Planning Group**

Deficits for Year R and Years R-6 places are forecast throughout the Plan period. As mentioned in the Maidstone North section, additional places in the neighbouring Maidstone North planning group are expected to accommodate deficits across the town centre planning groups via established travel to school patterns.

### **Maidstone West Planning Group**

Deficits for Year R and Years R-6 places are forecast throughout the Plan period. As mentioned in the Maidstone North section, additional places in the neighbouring Maidstone North planning group are expected to accommodate deficits across the town centre planning groups via established travel to school patterns.

In response to planned housing growth, land for a new 2FE has been secured within the East of Hermitage Lane housing development; the establishment of this school will be dependent on the pace of new housing occupation and is not anticipated to be required prior to 2024-25. The location on the boundary between Maidstone and Tonbridge and Malling means that it is important to consider demand arising from housing growth local to the site in both Maidstone North and East Malling when anticipating the timing of the school's establishment.

### **Maidstone South East Planning Group**

Forecasts indicate that small surpluses until 2022-23 when surplus Year R places drop

to zero and Years R-6 figure moves into deficit. Any demand for places which cannot be accommodated in this planning group can be catered for in the adjacent Maidstone North planning group.

### Marden and Staplehurst Planning Group

The planning group forecast indicates a small surplus during the Plan period. However, the demand for places maybe impacted by the number of new houses occupied within new family orientated developments in Marden. We will therefore monitor housing occupation and we anticipate the potential need for additional provision to be provided through the expansion of Marden Primary School from a 40 PAN to 2FE towards the end of the Plan period.

### Maidstone Analysis Secondary

There are two planning groups which are within Maidstone Borough, one non-selective and one selective (See appendix 13.2 for the non-selective and selective planning group maps). The commentary below outlines the forecast position for each of the planning groups.

#### Year 7 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Maidstone Non-Selective	1,425	149	-76	71	105	2	-92	-11	-30	1,575
Maidstone and Malling Selective	785	-33	3	-23	-24	-68	-111	-80	-83	737

#### Years 7-11 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Maidstone Non-Selective	6,945	1,029	746	607	455	257	17	82	-20	7,875
Maidstone and Malling Selective	3,715	-110	-119	-85	-78	-110	-185	-264	-324	3,685

### Maidstone Non-Selective Planning Group

There are seven established schools in the Maidstone non-selective planning group: Cornwallis Academy, The Lenham School, Maplesden Noakes School, New Line Learning Academy, St. Augustine Academy, St. Simon Stock Catholic School and Valley Park School. In addition, the School of Science and Technology will open in September

2020, providing 180 Year 7 places; these are included within the above forecast.

The forecast indicates a fluctuating demand for Year 7 places over the Plan period, with a surplus of 105 places in 2021-22 reducing to just 2 in 2022-23, before moving into a significant deficit of -92 places in 2023-24. The 2023-24 deficit is the result the 2012 birth rate spike and it is anticipated that up to 90 temporary Year 7 places will be needed to meet this demand.

In the longer term, the smaller deficits forecast for 2024-25 and 2025-26 may require either a temporary or permanent 1FE expansion within an existing school, depending on the pace and scale of housing.

### **Maidstone and Malling Selective Planning Group**

There are four schools in the Maidstone selective planning group: Invicta Grammar School, Maidstone Grammar School, Maidstone Grammar School for Girls and Oakwood Park Grammar School.

The forecasts for the planning group indicate that there will be a deficit of Year 7 and all year groups that increases during the Plan period. In recent years, schools within this planning group have admitted over PAN, creating additional selective capacity. We anticipate this pattern to continue and will accommodate the immediate forecast deficits for 2020-21 and 2021-22 (23 and 24 places respectively).

In the medium to longer term, we will commission an additional 2FE of provision in 2022-23 and a further 1FE (or 30 temporary places) in 2023-24 to meet place demand.

### **Planned Commissioning – Maidstone**

## 10.13 Sevenoaks

### District commentary

- The birth rate in Sevenoaks has increased slightly whereas the County rate has fallen. Currently the birth rate is 2.4 points above the County average. The number of births has risen in line with the birth rate but is still 82 births fewer than the 2015 peak.
- There is surplus capacity of Year R places across all planning groups, ranging from 39% in Edenbridge, to 2% in Hartley & New Ash Green. However, these primary surpluses do not take into account that Sevenoaks District Council has already approved several small-scale housing developments and has been consulting on a new Local Plan that is seeking to approve building up to 13,960 new homes in the years up to 2035. The Local Plan was in its final stages of approval and several prospective developers had taken their applications to the Inspector for approval. However, at the time of drafting this document, the inspection process meetings for November 2019 were cancelled. Therefore, it is feasible that there could be a considerable delay until the plan is approved.
- The secondary position is that there is a deficit of Year 7 places for 2020-21. There are three secondary schools in Sevenoaks district, and one satellite providing 3FE of girls selective provision for the Weald of Kent Grammar School in Tonbridge.

### District commentary

Both the Year R and Years R to 6 forecasts indicate that no additional capacity is needed in either cohort. However, this does not take into account the housing development that Sevenoaks District Council (SDC) has approved, prior to the publication of its new local plan.

Where there is the potential for demand to impact on capacity, for example, Sevenoaks,

Hartley and New Ash Green, such demand can be accommodated in adjacent planning groups.

### Sevenoaks Rural North Planning Group

There will be a small reduction in this planning group for 2021-22. West Kingsdown Primary School will reduce their PAN from 45 to 30 for the September 2021 intake.

### Sevenoaks Analysis – Secondary

There are two planning groups which are within Sevenoaks district or which cross the district boundary, both are non-selective (See appendix 13.2 for the non-selective and selective planning group maps). In order to access selective provision, residents travel out of the district with the exception being some girls who access selective provision via the satellite of the Weald of Kent Grammar School. Plans are in place for a satellite of Tunbridge Wells Grammar School for Boys on the Wilderness Site. If approved this will open for the 2021-22 academic year. Both schools are within the West Kent Selective Planning Group. The forecast surplus/deficit places for this planning group and the commissioning intentions are included below.

#### Year 7 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity

### Sevenoaks and Borough Green Non-Selective Planning Group

There are three schools in the Sevenoaks and Borough Green non-selective planning group: Knowle Academy, Wrotham School and Trinity School.

There is pressure on Year 7 places for 2021. This fluctuates between 2FE and 3FE for the duration of the commissioning period. The reason for this demand is twofold. Firstly, it is a consequence of the rising primary school rolls over the last seven years in Sevenoaks district. Secondly, the amount of capacity available outside Sevenoaks district has been reducing over the last few years.

Initially 60 temporary Year 7 places will be added for 2020-21 prior to the expansion of existing schools by 3FE from 2021-22. However, should the Local Plan be agreed in the very near future additional housing stock may see this need increase. Feasibility studies are being undertaken to ensure the Council can react if this happens.

### **Dartford and Swanley Non-Selective Planning Group**

There are six schools in the Dartford & Swanley non-selective planning group: Orchards Academy, Wilmington Academy, Dartford Science and Technology College, Inspiration Academy, Ebbsfleet Academy and Leigh Academy.

A new secondary school, Stone Lodge School, opened in the planning group in September 2019 in order to support the significant housing being built. Its capacity (4FE) is included in the data above. The forecasts show demand for places will continue to increase through the forecast period which will require further secondary school capacity. A second secondary school, within the Alkerden development, is due to open in September 2022 also offering 4FE of non-selective provision. In the longer term, it is expected that both schools will need to expand, offering up to a further 4FE of provision each. The timing of this will be subject to the demand from new housing.

### **West Kent Selective Planning Group**

There are six schools in the planning group: Judd School, Tonbridge Grammar School, Weald of Kent Grammar School, Skinners' School, Tunbridge Wells Girls' Grammar School and Tunbridge Wells Grammar School for Boys.

Demand for selective places is forecast to increase and exceed capacity during the Plan period, peaking at a deficit of -162 Year 7 places in 2022-23. In response to this demand, we will seek to establish 3FE of boys' selective provision at the Wilderness site as an annexe to Tunbridge Wells Grammar School for Boys (TWGSB) from September 2021. We will need up to 70 temporary places in existing schools in 2020-21.

For the period from 2021-22 to 2024-25 will need up to 60 places of temporary selective provision in existing schools alongside the 3FE of permanent provision proposed at the annexe. Depending on pace and scale of housing development there may be a need to make this temporary provision permanent.

## 10.14 Swale

### District commentary

- The birth rate in Swale fell 3.4 points in 2018 but is still 5 points above the County average as it has been consistently for the last 8 years. The number of recorded births fell by 56 from the previous year.
- We forecast surplus primary places across the district throughout the Plan period with up to 13.7% surplus Year R capacity in 2022. Within the secondary sector, we forecast increasing pressure for Year 7 places from 2020 with -3.3% rising to -13.6% in 2023.
- Swale Borough Council's Local Plan, adopted in July 2017, proposes a total of 13,192 new homes over the Plan period to 2031 with approximately 776 dwellings per annum. During the 5-year period 2013 to 2018 a total of 2,781 houses were completed with an average of 556 per year.

### District Commentary

Forecasts indicate that across Swale district there will be surplus capacity for both Year R and Years R-6. Year R surplus capacity peaks in 2022 at 13.7% and Year R – 6 shows an increasing surplus capacity from 7.6 % in 2020 to 10.7% in 2023.

### Faversham Planning Group

Forecasts indicate up to 2FE (25.4%) of surplus capacity in Year R in the planning group in 2022. Discussions will take place with schools on managing this surplus to ensure all schools remain viable. This could be through temporary reductions of PANs if agreed. If all housing developments come forward as planned this may reduce this surplus within a shorter time-frame than predicted.

### Sittingbourne East Planning Group

Forecasts indicate a slight pressure for Year R places in Sittingbourne East in 2021. New housing developments in the planning area may increase the pressure on places and it is proposed to expand Sunny Bank Primary School by 0.5FE to meet this need when it arises. A phased expansion of Teynham Primary School will be required when the proposed housing in the locality is brought forward.

### Sittingbourne North Planning Group

Forecasts indicate a deficit of -3 Year R places in 2020 in the planning group. It is anticipated that, should this be the case, surplus capacity in adjacent planning groups will provide sufficient places until a new 2FE primary provision as part of an all-through school is established on the Quinton Road development. This will provide primary places for this development of 1,400 new homes.

### Sheerness, Queenborough and Halfway/Sheppey Central Planning Group

Forecasts indicate a surplus of places of between 2FE and 3FE across these two planning Groups. Discussions will take place with the schools on managing this surplus to ensure all schools remain viable. This could be through temporary reductions of PANs, if agreed.

### Swale Analysis – Secondary

There are five planning groups which are within Swale district or which cross the district boundary (See appendix 13.2 for the non-selective and selective planning group maps). Three of which are non-selective (Faversham, Isle of Sheppey and Sittingbourne) and two selective (Sittingbourne and Sheppey, and Canterbury and Faversham). The commentary below outlines the forecast position for each of the planning groups.

### Year 7 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity

Sittingbourne and Sheppey Selective	270	-5	-38	-42	-60	-45	-69	-59	-56	240

### Years 7-11 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Faversham Non-Selective	1,050	79	6	-24	-54	-42	-56	-42	-26	1,050
Isle of Sheppey Non-Selective	1,950	641	661	638	576	544	469	409	384	1,950
Sittingbourne Non-Selective	3,720	8	-88	-179	-304	-393	-557	-609	-655	3,825
Canterbury & Faversham Selective	2,865	-95	-92	-104	-107	-118	-142	-143	-137	3,025
Sittingbourne and Sheppey Selective	1,230	-34	-76	-94	-139	-173	-237	-258	-271	1,200

### Faversham Non-Selective Planning Group

The Abbey School is the only non-selective school in Faversham.

The forecast Year 7 places indicate a deficit of places from 2020 onwards. By 2021 there is a deficit of -20 Year 7 places (-9.5%).

If all the housing goes ahead at the planned build out rate, 1FE permanent expansion of The Abbey School will be required from 2021.

### Isle of Sheppey Non-Selective Planning Group

The Oasis Isle of Sheppey Academy is the only non-selective school in the Isle of Sheppey planning group. It is a large wide-ability school operating on two sites.

Forecasts for Year 7 and Years 7-11 show a continuing surplus of places although decreasing in number over the Plan period: from 103 Year 7 places (26.5%) in 2020, to 77 by 2025 (19.2%). This surplus will support the deficit in the Sittingbourne non-selective planning area. The forecast surplus places are a direct result of the increasing number of pupils travelling off the Isle of Sheppey for their education. This results in additional pressure on places in the Sittingbourne non-selective planning group schools. We will continue to work with Oasis Academy Trust, Swale Borough Council and local

parties to address this issue.

### **Sittingbourne Non-Selective Planning Group**

There are three schools in the Sittingbourne non-selective planning group: Fulston Manor School, The Westlands School and Sittingbourne Community College.

Forecasts indicate that for both Year 7 and Years 7-11 there is an increasing deficit of places over the Plan period. 2020 shows a deficit of -97 (12.7%) places increasing to -192 (-25%) in 2023.

The increasing pressure showing in Sittingbourne is exacerbated by large numbers of pupils travelling off the Isle of Sheppey for their secondary education. Surplus capacity in Oasis Isle of Sheppey Academy will help to offset some of the deficit in Sittingbourne.

The Westlands School has agreed to provide an additional 45 Year 7 places to address the deficit on a temporary basis for September 2020, discussions are taking place with Swale Secondary Schools in order to identify options to meet the growing pressure for places peaking in 2023.

We will continue to press for access to the North Sittingbourne (Quinton Road) development to establish a new 6FE secondary school to meet the predicated need from 2023 onwards.

### **Sittingbourne and Sheppey Selective Planning Group**

There are two Schools in the planning group, Borden Grammar School (Boys) and Highsted Grammar School (Girls).

Forecasts indicate a deficit of Year 7 and Year 7-11 places across the Plan period. A deficit of -42 (17.5%) for Year 7 in 2020 which increases to a high of -69 places in 2023. We will discuss with the two schools in the planning group options and solutions for creating additional capacity.

### **Canterbury and Faversham Selective Planning Group**

There are four schools in the Canterbury and Faversham selective planning group: Barton Court Grammar School, Simon Langton Girl's Grammar School, Simon Langton Grammar School for Boys and Queen Elizabeth's Grammar School.

Forecasts indicate a pressure of 1FE for Year 7 places across the Plan period for selective places. Temporary provision will be added initially to ensure sufficient capacity. Additional pressures will be placed on Faversham selective places as new housing is being delivered as per the Local Plan. An application has been submitted by two trusts to the Selective Schools Expansion Fund to open a grammar satellite on the coast. This will also meet the need identified in Thanet Selective (3FE) as the Thanet Grammar Schools are unable to expand on their current sites. If the grammar satellite is not achievable in the time frame required, discussions will be had with the grammar schools in the planning group to establish if we are able to expand existing provisions to meet the need

## Planned Commissioning – Swale

## 10.15 Thanet

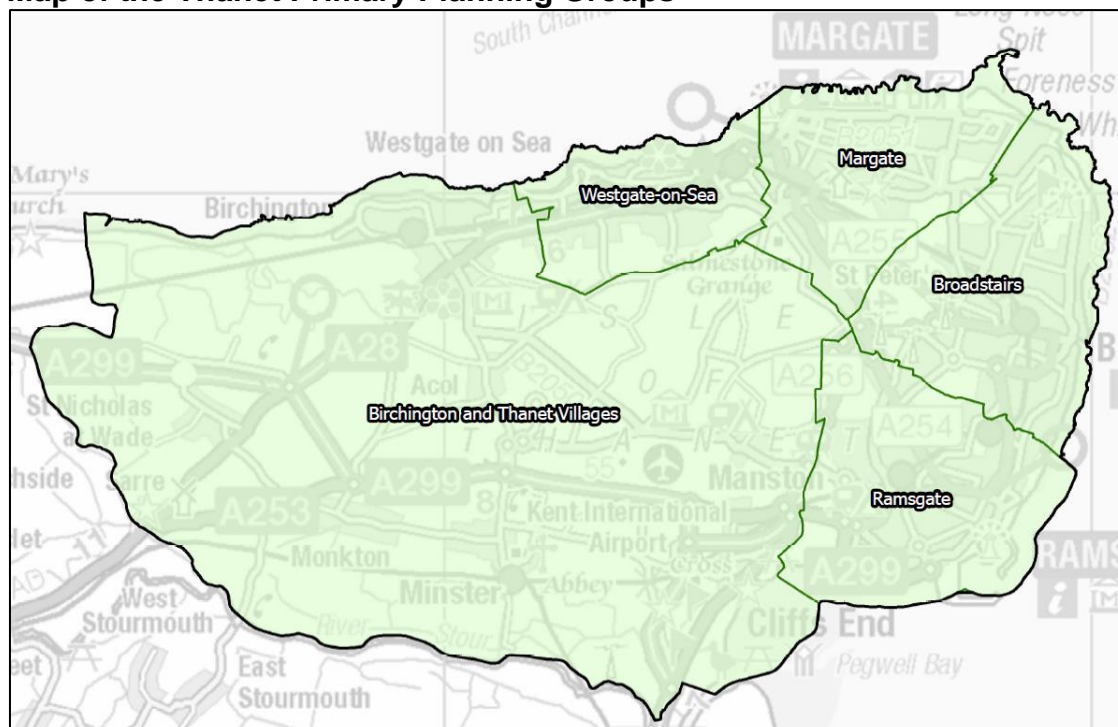

### District commentary

- The birth rate in Thanet fell by 2.8 points in 2018 but remained above the County average as it has since 2003. The number of recorded births at 1,577 was a slight increase from the previous year but remains below the high of 1,650 in 2012.
- We forecast surplus primary school places across the district throughout the Plan period. Within the secondary sector, we forecast pressures for both selective and non-selective places.
- Thanet District Council's current draft Local Plan dated July 2018 includes the provision of 17,140 additional homes in the period 2011-2031 with approximately 857 dwellings per annum to be built. During the 5 year period 2013-2018 a total of 1,668 houses were completed with an average of 334 per annum.

### District commentary

Forecasts indicate that across Thanet district there is surplus capacity for both Year R and Years R-6 peaking in 2021 with 16.3% surplus for Year R. The surplus then declines so that by 2023 it represents 12.2% surplus capacity.

There are significant differences within the individual planning groups, with Ramsgate planning group indicating a surplus capacity of 22.1% in Year R in 2021, whilst Birchington and Thanet Villages Planning area indicate by 2023 a pressure of only 0.9% surplus capacity in Year R and with a deficit for Year R-6 at -0.3% in 2022 increasing to -7% by 2023.

### Ramsgate Planning Group

Forecasts indicate between 3FE (16.3%) and 4FE (22.1%) surplus Year R places across the Plan period. Discussions are taking place with the schools on managing this surplus to ensure all schools remain viable. This could be through reduction in Published Admission Numbers, if agreed. Planned developments within Birchington and Thanet Villages planning group will help to reduce the current surplus. A new 2FE primary school to serve the Manston Green Development will be required from 2028-2031 if all housing proceeds as set out in the Local Plan.

## Birchington and Thanet Planning Group

Forecasts indicate a pressure on Year R places from 2023. Pupil pressures arising from the developments closer to the borders of the Margate and Ramsgate planning groups could initially be accommodated in Margate and Ramsgate schools due to the surplus capacity available. A new 2FE primary school to serve any new housing developments may be required from 2024-2028 if all housing comes forward as set out in the Local Plan.

## Thanet Analysis – Secondary

There are two planning groups which are within Thanet district, one non-selective and one selective (See appendix 13.2 for the non-selective and selective planning group maps). The commentary below outlines the forecast position for each of the planning groups.

### Year 7 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Thanet Non-Selective	1,159	86	-40	-72	-44	-86	-123	-112	-88	1,129
Thanet Selective	420	3	-30	-29	-15	-28	-36	-29	-22	345

### Years 7-11 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Thanet Non-Selective	5,485	467	355	261	130	-34	-258	-340	-355	5,645
Thanet Selective	1,890	4	-24	-40	-45	-72	-124	-125	-117	1,725

## Thanet Non-Selective Planning Group

There are six schools in the Thanet non-selective planning group: Charles Dickens School, Hartsdown Academy, King Ethelbert School, Royal Harbour Academy, St George's CE Foundation School and Ursuline College.

Forecasts indicate a deficit of places for both Year 7 and Years 7-11 over the Plan period. In the short-term this increased demand will be met through temporary additional Year 7 places at Royal Harbour Academy, whilst bringing forward the permanent expansion of King Ethelbert School by 2FE for September 2022. Ursuline College will expand by 1FE later in the plan period to meet the forecast need from 2023.

## Thanet Selective Planning Group

There are two schools in the Thanet selective planning group: Chatham and Clarendon Grammar School and Dane Court Grammar School.

Forecasts indicate a deficit of places for both Year 7 and Years 7-11 over the Plan period.

The two Grammar schools in Thanet are both situated on sites where expansion is unlikely to be achievable due to site, planning and highway constraints. An application has been submitted by two trusts to the Selective Schools Expansion Fund to open a grammar satellite on the coast. This will also meet the need identified in Thanet Selective.

### Planned Commissioning – Thanet

Planning Group	By 2020-21	By 2021-22	By 2022-23	By 2023-24	Between 2024-28	Post 2028
Ramsgate						2FE new primary at Manston Green

Specialist Resourced Provisions	16 Place SRP for ASD at Garlinge Primary School  16 place SRP for ASD at Holy Trinity and St Johns Primary School		20 place Secondary SRP for ASD			

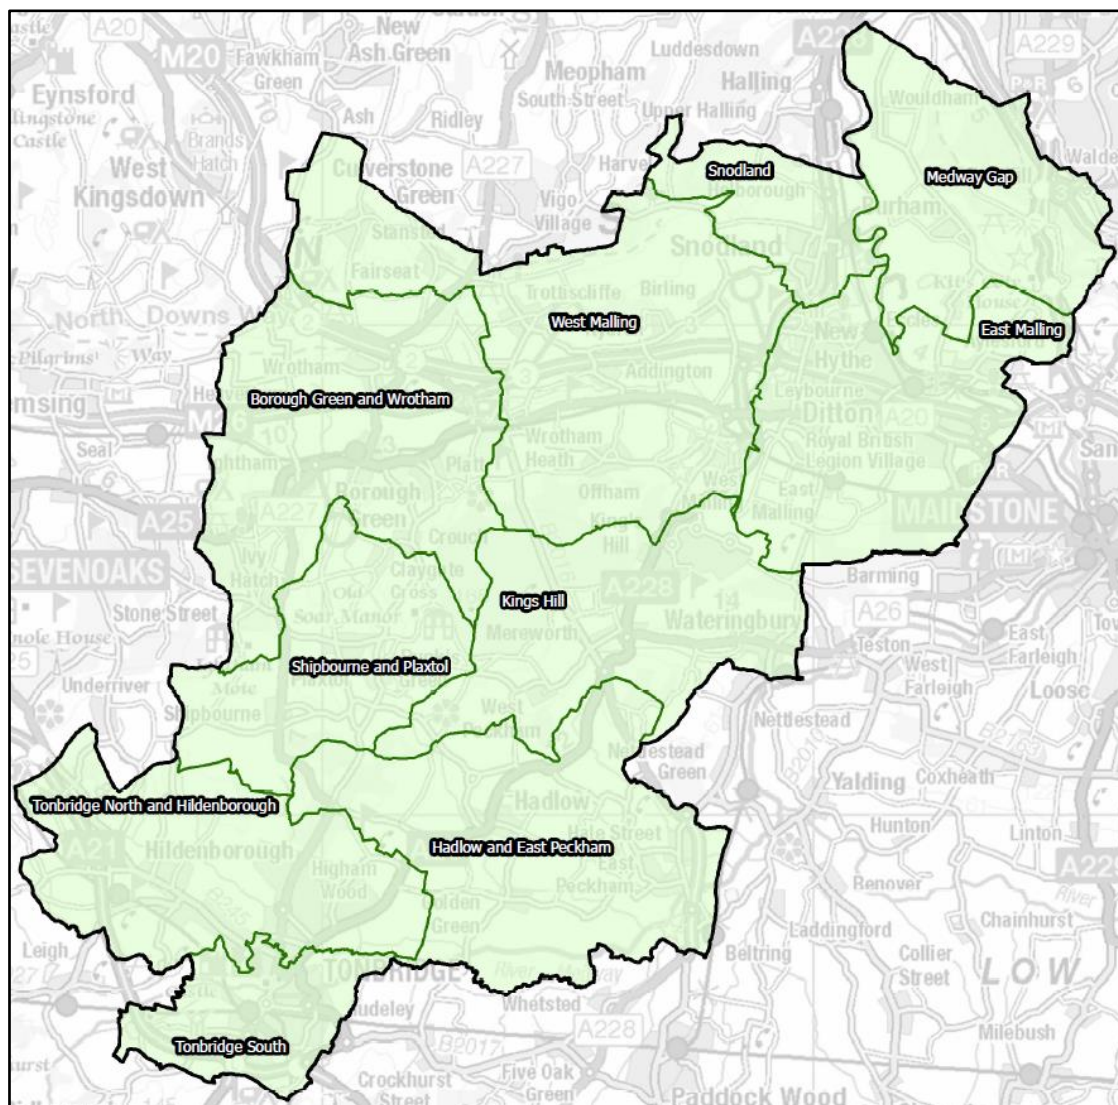

## 10.16 Tonbridge and Malling

### Borough commentary

- The birth rate for Tonbridge and Malling has fluctuated over the last five years, and despite a small drop in 2018 (0.3 points) the overall the trend is slightly upwards. The Borough birth rate for a second year is slightly higher than the Kent and national averages. The number of recorded births has also fluctuated but at 1,529 births in 2018 it is at its highest point since 2003.
- For primary education the overall forecasts indicate sufficient places to meet demand across the Plan period for Year R and all primary years, but there is local place pressure in some planning groups. For secondary provision we anticipate sufficient places during the Plan period for the Malling Non-Selective planning group. Sevenoaks and Borough Green Non-Selective selective group is forecast to have 2-3FE place deficit throughout the Plan period. Tonbridge and Tunbridge Wells Non-Selective group is forecast to have a small surplus of places apart from in 2022-23 and 2023-24 when it will have deficits of 75 and 55 places. The West Kent Selective group is anticipated to be in deficit throughout the Plan period, peaking at a deficit of -162 Year 7 places in 2022-23.
- In January 2019 the latest version of the Local Plan was submitted for examination by the Borough Council. The January 2019 Strategic Housing Market Assessment of the Borough's housing requirement indicated a need for up to 10,880 new dwellings across the 20 year period ending 2030-31, or 544 per year. During the 5 year period 2013-18 a total of 3,870 houses were completed with an average of 774 per year.

### District commentary

For primary education the overall forecasts indicate sufficient places to meet demand across the Plan period for Year R and all primary years. However, there is local place pressure within the West Malling and East Malling planning groups that may require

actions to be taken to address forecast deficits.

### West Malling Planning Group

The forecast for West Malling shows a deficit of -4 and -11 Year R places for 2021-22 and 2022-23 respectively. These deficits may be accommodated in the adjacent Kings Hill planning group or require temporary provision; we will assess the demand for the next iteration of the Commissioning Plan.

### East Malling Planning Group

The anticipated -2 place Year R deficit in 2020-21 can be addressed within capacity in neighbouring planning groups. However, the increasing deficits from 2021-22 will require up to 1FE of additional provision to be commissioned; this is likely to be most suitably met through the expansion of an existing school.

### Snodland Planning Group

The Year R demand is forecast to fluctuate across the Plan period; there is not a forecast deficit of places within any year; however, there are low levels of surplus places across the Plan period. We will continue to monitor the demand over the next 12 months to assess if additional provision will be needed within the Snodland planning group or whether any small future deficit could be appropriately accommodated within the forecast surplus in the neighbouring Medway Gap planning group.

### Tonbridge and Malling Analysis Secondary

There are four planning groups which are within Tonbridge and Malling Borough or which cross the Borough boundary (See appendix 13.2 for the non-selective and selective planning group maps). Three of which are non-selective. The commentary below outlines the forecast position for each of the planning groups.

### Year 7 Surplus/Deficit Capacity if No Further Action is Taken and Planned Housing is Delivered

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Malling Non-Selective	540	108	95	65	70	63	53	42	61	540
Sevenoaks and Borough Green Non-Selective	565	30	-79	-55	-83	-76	-78	-85	-58	525
Tonbridge and Tunbridge Wells Non-Selective	1,591	97	10	40	8	-75	-55	1	58	1,529
West Kent Selective	1,155	-48	-107	-70	-113	-162	-135	-112	-60	1,140

## Years 7-11 Surplus/Deficit Capacity if No Further Action is Taken and Planned Housing is Delivered

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021-22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Malling Non-Selective	2,700	681	623	552	493	423	369	318	315	2,700
Sevenoaks and Borough Green Non-Selective	2,605	50	-25	-50	-119	-197	-298	-302	-302	2,625
Tonbridge and Tunbridge Wells Non-Selective	7,500	716	534	441	247	57	-82	-82	-61	7,645
West Kent Selective	5,279	-172	-211	-270	-340	-460	-542	-544	-533	5,700

### Malling Non-Selective Planning Group

There are three schools in the planning group: Aylesford School, Holmesdale School and Malling School. Forecasts indicate that there will be sufficient Year 7 and Year 7-11 across the Plan period.

### Sevenoaks and Borough Green Non-Selective Planning Group

There are three schools in the Sevenoaks and Borough Green non-selective planning group: Knowle Academy, Wrotham School and Trinity School.

There is pressure on Year 7 places for 2021. This fluctuates between 2FE and 3FE for the duration of the commissioning period. The reason for this demand is twofold. Firstly, it is a consequence of the rising primary school rolls over the last seven years in Sevenoaks district. Secondly, the amount of capacity available outside Sevenoaks district has been reducing over the last few years.

An additional 3FE of non-selective provision will be commissioned in the Sevenoaks and Borough Green Non-Selective Planning Group. However, should the Local Plan be agreed in the very near future additional housing stock may see this need increase. Feasibility studies are being undertaken to ensure the Council can react if this happens.

### Tonbridge and Tunbridge Wells Non-Selective Planning Group

There are eight schools in the planning group: Hadlow Rural Community School, Hayesbrook School, Hillview School for Girls, Hugh Christie Technology College, Bennett Memorial Diocesan School, Mascalls Academy, Skinners' Kent Academy and St. Gregory's Catholic School.

The introduction of 90 Year 7 places through expansion of existing schools within the planning group means that we anticipate sufficient places until September 2022-23, at which point a deficit of -75 places is forecast, the deficit continues into 2023-24 and is then forecast to revert to a small surplus in 2024-25 and 2025-26.

However, it is anticipated that demand driven by new housing development will keep place pressure at 2023-24 levels and that permanent additional places will be needed going forward.

Our strategic response to the forecast pressure within the planning group is the proposed permanent 2FE expansion of an existing secondary school in Tunbridge Wells from 2022-23. The expansion will provide sufficient non-selective places to cover the medium-term pressure through to the end of the Plan period.

In the longer-term, new development in Tonbridge and Malling will necessitate a new 6FE secondary school and a site at Kings Hill has been identified through the emerging Local Plan process. Similarly, longer term housing developments in Tunbridge Wells will necessitate a new 6FE Secondary school within the Paddock Wood area; the County Council is also seeking to secure a site to be reserved for a 6FE secondary school within the Tunbridge Wells Town area for establishment post 2028 should it be required.

### West Kent Selective Planning Group

There are six schools in the planning group: Judd School, Tonbridge Grammar School, Weald of Kent Grammar School, Skinners' School, Tunbridge Wells Girls' Grammar School and Tunbridge Wells Grammar School for Boys.

Demand for selective places is forecast to increase and exceed capacity during the Plan period, peaking at a deficit of -162 Year 7 places in 2022-23. In response to this demand, we will seek to establish 3FE of boys' selective provision at the Wilderness site as an annexe to Tunbridge Wells Grammar School for Boys (TWGSB) from September 2021. We will need up to 70 temporary places in existing schools in 2020-21.

For the period from 2021-22 to 2024-25 will need up to 60 places of temporary selective provision in existing schools alongside the 3FE of permanent provision proposed at the annexe. Depending on pace and scale of housing development there may be a need to make this temporary provision permanent.

## 10.17 Tunbridge Wells

### Borough commentary

- The birth rate for Tunbridge Wells has fluctuated over the past five years but remains below Kent and national figures. The number of live births is slightly increased from the previous year but still 200 fewer than the peak in 2011.
- For primary education the overall forecasts indicate sufficient places to meet demand across the Plan period for Year R and all primary years. However, there is local place pressure in some planning groups. For secondary provision we anticipate there will be sufficient places during the Plan period for the Tenterden and Cranbrook non-selective planning group. Tonbridge and Tunbridge Wells non-selective group is forecast to have a small surplus of places apart from in 2022-23 and 2023-24 when it will have deficits of -75 and -55 places. The West Kent selective is anticipated to be in deficit throughout the Plan period, peaking at a deficit of -162 Year 7 places in 2022-23. Cranbrook selective group is forecast to have sufficient places throughout the Plan period.
- Tunbridge Wells Borough Council's Issues and Options document identifies the need for 648 homes per year in Tunbridge Wells Borough over the 2013-33 period (12,960 over 20 years). During the 5 year period 2013-18 a total of 1,784 houses were completed with an average of 357 per year.

### District commentary

For primary education the overall forecasts indicate sufficient places to meet demand across the Plan period for Year R and all primary years. However, there is local place pressure within the Paddock Wood and Cranbrook and Goudhurst planning groups that may need actions to be taken to address forecast deficits.

### Paddock Wood Planning group

The surplus of 18 Year R places in 2020 is anticipated to gradually reduce during the Plan period with a smaller 5 place surplus indicated by 2023. The rate at which the surplus will decrease is subject to the pace of housing occupations in the town, the surplus could diminish faster than forecast, as circa 1,000 new homes are currently being constructed; we will therefore monitor this.

Proposals to establish a new 2FE Primary Free School in the town, St Andrews, are at pre-opening stage as part of Wave 11 of the Government's Free School Programme. An opening date has not yet been confirmed by the DfE but will not be prior to September 2022; we will work with the DfE and the Trust to support an opening in line with the need for additional places due to housing growth.

### Cranbrook and Goudhurst Planning group

The Year R demand is forecast to fluctuate across the Plan period, with a one place deficit forecast for 2021-22 and 2022-23. We feel the demand can be met within the existing schools via small temporary bulges, but we will continue to monitor the demand over the next 12 months to assess if additional provision is needed.

### Tunbridge Wells Analysis – Secondary

There are four planning groups which are within Tunbridge Wells Borough or which cross the Borough boundary (See appendix 13.2 for the non-selective and selective planning group maps). Two planning groups are non-selective Tenterden and Cranbrook and Tonbridge and Tunbridge Wells. The commentary below outlines the forecast position for each of the planning groups.

#### Year 7 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021--22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Tenterden and Cranbrook Non-Selective	540	139	102	106	131	118	91	140	139	540
Tonbridge and Tunbridge Wells Non-Selective	1,591	97	10	40	8	-75	-55	1	58	1,529
West Kent Selective	1,155	-48	-107	-70	-113	-162	-135	-112	-60	1,140
Cranbrook Selective	60	-1	8	9	0	0	6	0	0	90

#### Years 7-11 Surplus/Deficit Capacity if No Further Action is Taken

	2018-19 capacity	2018-19 (A)	2019-20 (F)	2020-21 (F)	2021--22 (F)	2022-23 (F)	2023-24 (F)	2024-25 (F)	2025-26 (F)	2025-26 capacity
Tenterden and Cranbrook Non-Selective	2,700	764	705	640	626	591	554	589	604	2,700
Tonbridge and Tunbridge Wells Non-Selective	7,500	716	534	441	247	57	-82	-82	-61	7,645
West Kent Selective	5,279	-172	-211	-270	-340	-460	-542	-544	-533	5,700
Cranbrook Selective	564	10	25	26	8	0	6	3	0	630

### **Tenterden and Cranbrook Non-Selective Planning Group**

There are two schools in the Tenterden and Cranbrook planning group: High Weald Academy and Homewood School. There is forecast to be surplus places throughout the Plan period, although house building in Tenterden will add pressure on Homewood School.

### **Tonbridge and Tunbridge Wells Non-Selective Planning Group**

There are eight schools in the planning group: Hadlow Rural Community School, Hayesbrook School, Hillview School for Girls, Hugh Christie Technology College, Bennett Memorial Diocesan School, Mascalls Academy, Skinners' Kent Academy and St. Gregory's Catholic School.

The introduction of 90 Year 7 places through expansion of existing schools within the planning group means that we anticipate sufficient places until September 2022-23, at which point a deficit of -75 places is forecast, the deficit continues into 2023-24 and is then forecast to revert to a small surplus in 2024-25 and 2025-26.

However, it is anticipated that demand driven by new housing development will keep place pressure at 2023-24 levels and that permanent additional places will be needed going forward.

Our strategic response to the forecast pressure within the planning group is the proposed permanent 2FE expansion of an existing secondary school in Tunbridge Wells from 2022-23. The expansion will provide sufficient non-selective places to cover the medium-term pressure through to the end of the Plan period.

In the longer-term, new development in Tonbridge and Malling will necessitate a new 6FE secondary school and a site at Kings Hill has been identified through the emerging Local Plan process. Similarly, longer term housing developments in Tunbridge Wells will necessitate a new 6FE Secondary school within the Paddock Wood area; the County Council is also seeking to secure a site to be reserved for a 6FE secondary school within the Tunbridge Wells Town area for establishment post-2028 should it be required.

### **West Kent Selective Planning Group**

There are six schools in the planning group: Judd School, Tonbridge Grammar School, Weald of Kent Grammar School, Skinners' School, Tunbridge Wells Girls' Grammar School and Tunbridge Wells Grammar School for Boys.

Demand for selective places is forecast to increase and exceed capacity during the Plan period, peaking at a deficit of -162 Year 7 places in 2022-23. In response to this demand, we will seek to establish 3FE of boys' selective provision at the Wilderness site as an annexe to Tunbridge Wells Grammar School for Boys (TWGSB) from September 2021. We will need up to 70 temporary places in existing schools in 2020-21.

For the period from 2021-22 to 2024-25 will need up to 60 places of temporary selective provision in existing schools alongside the 3FE of permanent provision proposed at the annexe. Depending on pace and scale of housing development there may be a need to make this temporary provision permanent.

### Cranbrook Selective Planning Group

There is only one school in the Cranbrook selective planning group: Cranbrook School. We forecast sufficient Year 7 and Years 7-11 places throughout the Plan period. However, we will monitor the demand over the next 12 months as there are very small or no place surpluses forecast.

### Planned Commissioning – Tunbridge Wells

Planning Group	By 2020-21	By 2021-22	By 2022-23	By 2023-24	Between 2024-28	Post 2028
<b>Paddock Wood</b>			2FE new provision at St Andrew's (subject to planned housing growth)			
<b>Tonbridge and Tunbridge Wells Non-Selective</b>			2FE expansion of existing school		Two 6FE new schools (subject to planned housing growth)	6FE new school (subject to planned housing growth)
<b>West Kent Selective</b>	Up to 70 temporary places in existing schools.	3FE boys' selective annexe at the Wilderness site  Up to 60 temporary places in existing schools.	Up to 60 temporary places in existing schools.	Up to 60 temporary places in existing schools.	Up to 60 temporary places in existing schools.	
<b>Special Schools</b>	Oakley Special school increasing Designated Number from 242 to 252 places.		50 place secondary PSCN special school satellite.			
<b>Specialist Resourced Provision</b>	7 place SRP for SLCN at Bishop's Down Primary School

**A total of 1,644 places across Key Stages 1 to 5 are planned for the forecast period.**

## 12. Appendices

### 12.1 Forecasting Methodology Summary

To inform the process of forecasting Primary school pupil numbers, KCC receives information from the Kent Primary Care Agency to track the number of births and location of Pre-school age children. The Pre-school age population is forecast into Primary school rolls according to trend-based intake patterns by ward area. Secondary school forecasts are calculated by projecting forward the Year 6 cohort, also according to trend-based intake patterns. If the size of the Year 6 cohort is forecast to rise, the projected Year 7 cohort size at Secondary schools will also be forecast to rise.

It is recognised that past trends are not always an indication of the future. However, for the Secondary phase, travel to school patterns are firmly established, parental preference is arguably more constant than in the Primary phase and large numbers of pupils are drawn from a wide area. Consequently, forecasts have been found to be accurate.

Pupil forecasts are compared with school capacities to give the projected surplus or deficit of places in each area. It is important to note that where a deficit is identified within the next few years work will already be underway to address the situation.

The forecasting process is trend-based, which means that relative popularity, intake patterns, and inward migration factors from the previous five years are assumed to continue throughout the forecasting period. Migration factors will reflect the trend-based level of house-building in an area over the previous five years, but also the general level of in and out migration, including movements into and out of existing housing. An area that has a large positive migration factor may be due to recent large-scale house-building, and an area with a large negative migration factor may reflect a net out-migration of families. These migration factors are calculated at Pre-school level by ward area and also at school level for transition between year groups, as the forecasts are progressed.

Information about expected levels of new housing, through the yearly Housing Information Audits (HIA) and Local Development Framework (LDF) Core Strategies is the most accurate reflection of short, medium and long term building projects at the local level. Where a large development is expected, compared with little or no previous house-building in the area, a manual adjustment to the forecasts may be required to reflect the likely growth in pupil numbers more accurately.

Pupil product rates (the expected number of pupils from new house-building) are informed by the MORI New Build Survey 2005. KCC has developed a system that combines these new-build pupil product rates (PPRs) with the stock housing PPR of the local area to model the impact of new housing developments together with changing local demographics over time. This information is shared with district authorities to inform longer term requirements for education infrastructure and the Community Infrastructure Levy (CIL) discussions at an early stage.

Forecasting future demand for school places can never be completely precise given the broad assumptions which have to be made about movements in and out of any given locality, the pace of individual housing developments, patterns of occupation and not least parental preferences for places at individual schools. This will be a function of geography, school reputation, past and present achievement levels and the availability of alternative provision.
