Making homes happen

#MakingHomesHappen

Who we are

We're the government's housing accelerator. We have the appetite, influence, expertise and resources to drive positive market change. By releasing more land to developers who want to make a difference, we're making possible the new homes England needs, helping to improve neighbourhoods and grow communities. So we welcome partners who share our ambition to challenge traditional norms and build better homes faster. Join us in breaking new ground to make this happen.

Our mission is to intervene in the market to ensure more homes are built in areas of greatest need, to improve affordability.

We will make this sustainable by creating a more resilient and diverse housing market.

Our objectives

We'll unlock public and private land where the market will not, to get more homes built where they are needed.

We'll ensure a range of investment products are available to support housebuilding and infrastructure, including more affordable housing and homes for rent, where the market is not acting.

We'll improve construction productivity.

We'll create a more resilient and competitive market by supporting smaller builders and new entrants, and promoting better design and higher quality homes.

We'll offer expert support for priority locations, helping to create and deliver more ambitious plans to get more homes built.

We'll effectively deliver home ownership products, providing an industry standard service to consumers.

Affordable Housing

#MakingHomesHappen

What is affordable housing

“Affordable homes are defined in line with the National Planning Policy Framework²⁴, published 27 March 2012 and updated 19 February 2019, as housing units (or traveller pitches and bed spaces when describing a shared dwelling such as a hostel) provided to specified eligible households whose needs are not met by the market. Eligibility may be determined with regard to local authority allocations policies, local incomes and local house prices depending on the type of affordable housing. Affordable housing should include provisions to remain at an affordable price for future eligible households or for the subsidy to be recycled for alternative affordable housing provision.”

Attracting Affordable Housing Grant – Key Considerations

- Additional to expected S106 delivery?
- Will it be taken forward by RP or local authority?
- Deliverability – timescales, risks.
- Viability – understanding costs and scheme revenues / income.
- Social Rent?
- Early discussion - let's see where Homes England can help.
