Guidance Notes

**Notes:** Please note that there is no 2020-21 Education attainment data due to the impact of Coronavirus (COVID-19).  
Figures for indicator CYPE8 (Rate of proven re-offending by CYP) shown in red have not been published by the Ministry of Justice (MoJ) but are included for information in this scorecard. The latest available data for this indicators remains as at Q4 for 2024-25. Updated data is not available, for the following reason stated by the MoJ: *Following discovery of a small data issue impacting some juveniles discharged from custody, these figures have been removed and will be updated as soon as possible.*  
Please note that not all Children's Social Work indicators can be shown broken down by District for the associated CSWS team, as caseloads relating to these indicators are held by Area and Kent LA level teams. Cases included in a dataset are based on the Service working with the child and not the child's geographical residence.

Commentary on Education SEND Indicators:

While 20 week rolling annual average continues to increase, exceeding national averages by over 20%, limited EP capacity has temporarily negatively impacted monthly figures. However, these too continue to outpace the national average. Assessment teams are engaging with EP lead officers to ensure that backlogs are balanced with finalisation of new cases to ensure lower performance is as short lived as possible. In addition, EP service is investigating opportunities to increase their overall capacity. In spite of these difficulties, the service is keeping the number of cases open over 20 weeks to a manageable amount and monitoring this closely.

| <b>Note:</b> The Working Together to Improve School Attendance statutory guidance has been in place since August 2024, so we have expanded the reporting on school absence to include Severe Absence as well as Persistent Absence, as these are now the two key measures. Persistent Absence is absence of 10% or more, and Severe Absence is absence of 50% or more. |                                                                                                             |          |             |     |               |      |      |             |           |             |                |             |     |                |                         |                 |

Commentary on Integrated Children's Services Indicators:

Children's Social Care

**RED:** At 71.1% the percentage of children in care placed in KCC foster care, or in placements with relatives/friends, is below the floor standard of 75.0%. The target of 85.0% is an aspirational target set to drive up the use of in-house provision. Performance against this measure is impacted by the availability of in-house foster placements, which is a national issue. Actions being taken to increase the number of fostering households include increased information events, recruitment stands at large community events, specific campaigns using social media and use of the “refer a friend” payment, to encourage existing foster carers to support recruitment of family and friends to join Kent Fostering. Part of the recruitment strategy will be to look to our existing KCC staff group, to promote becoming a foster carer and completing the initial work on whether KCC can become a “Fostering Friendly” employer. The service is at the initial stages of developing a “Create a Room” project, to support existing approved foster carers to create an additional bedroom for fostering.

**RED:** The percentage of case holding posts filled by permanent qualified social workers is 73.9%. The target for this measure is 85.0% which is based on the previous national average for Agency Social Workers of 15%. That increased to 16.2% (September 2024) but the Kent target has been kept at 85.0%. Recruiting and retaining qualified social workers remains a priority for CYPE and a range of initiatives are continually being explored and implemented. The annual collection of Children's Social Care Workforce data, provides some comparative data as at 30th September 2024 - Social Work Vacancies: Kent 15.1%, England average 17.3%, SE average 16.0%; Percentage of Agency Social Workers covering vacancies - Kent 67.6%; England average 76.2%, SE average 74.4%; Social Worker turnover - Kent 11.1%, England average 13.8%, SE average 14.4%.

**AMBER:** The Percentage of Returner Interviews completed for those with Children's Social Work Involvement is 85.3%, which is below the Target of 90.0%. For those Returner Interviews that did take place, 86.0% took place within timescale (3 working days) which is above the 80.0% target.

**AMBER:** The percentage of children becoming subject to a child protection plan for the second or subsequent time is 26.0% which is above the target range of 17.5% - 22.5%. This compares to average rates for England of 24.7%, Statistical Neighbours 24.5% and the South East 25.3% (2023/24).

**AMBER:** The percentage of care leavers in education, employment or training (of those KCC is in touch with) is 57.3% which is below the Target of 65.0%. Those not in employment will include those not able to work due to illness, disability, pregnancy or parenting responsibilities and unaccompanied asylum seeking young people who remain without status and are not able to remain in education or gain employment when they reach the age of 18. The Home Office have confirmed unaccompanied children will have their applications prioritised which should then lead to an improvement against the target. The 18+ Care Leavers Service have two specialist staff to support young people access opportunities.

**AMBER:** The average caseload in the Children in Care (CIC) Teams is 16.7 children, above the target of no more than 15 children/young people. This increase is as a result of an increase in the number of children in care and a decrease in the number of social workers in post.

**AMBER:** The average caseload in the Children's Social Work Teams (CSWT) is 21.7 children. This is above the target caseload of no more than 18 children/young people and performance has averaged 21 children over the 12 months July 2024 to June 2025.

**GREEN:** The percentage re-referrals to Children's Social Work Services within 12 months of a previous referral was 22.0%, achieving the Target of below 25.0%. **GREEN:** The percentage of Children in Care in same placement for the last two years (for those in care for two and a half years or more) is 74.0%, achieving the Target of above 70.0%. **RED:** The Percentage of Year 12-13 age-group (16–17-year-olds) not in education, employment or training (NEET) in June was 4.2% and is above the target. Please note this is a seasonal indicator and numbers will naturally increase as the academic year progresses. For this reason, the Department for Education uses the rolled average for December, January, and February. Published data for 2024/25 shows Kent to have 3.8% NEETs, which combined with the Not Known cohort (4.2%) the aggregate figure is 8.1% which higher than the previous year by 2.8 percentage points. The figures for the Southeast and England are 5.6% and 7.0% respectively. Kent has seen an increase in the cohort combined with the lack of suitable provision of Level 2 courses.

**RED:** The numbers of pupils permanently excluded from the primary phase, as a 12-month rolling average, at 33 exceeds the target of 25. Kent PRU and Attendance Service (KPAS) continues its work regarding suspensions and permanent exclusions.
