Aims and Objectives

KCC has a mobile refurbishment/replacement programme as part of the modernisation programme. The condition of each mobile building on a maintained school site has been assessed. From the assessment, two mobile blocks at Dover Grammar School for Girls have been identified as needing replacement in the next 12 months.

Decision 26/00001 approved £1,400,000 to replace these mobiles.

Since the decision was made, planning permission has been secured and a contractor has been appointed to finalise the design. However, Kent Fire and Rescue Services (KFRS), who are a key consultee, have raised a concern about access for a fire tender to the location of the mobile replacement should there be a fire.

This means that systems such as sprinklers are being required to protect the building as well as control fire propagation. An additional £400,000 will be required to cover the costs of the sprinkler system, including the tank and will increase the contingency, should this be required.
