

FORWARD PLAN OF DECISIONS

Each month the Council publishes a Forward Plan of Decisions expected to be taken during the following six months.

A “Key Decision” is an Executive-side Decision which is likely to:

- (a) result in the council incurring expenditure which is, or the making of savings which are, significant having regard to the council’s budget for the service or function to which the decision relates; or
- (b) be significant in terms of its effects on communities living or working in an area comprising two or more electoral divisions in the area of the local authority.

Key Decisions can only be taken by the Cabinet, the Leader or an individual Cabinet Member.

Decisions which should be regarded as Key Decisions because they are likely to have a significant effect either in financial terms or on the Council’s services to the community include:

- (a) Decisions about expenditure or savings over £1,000,000 which are not provided for within the approved budget or Medium Term Financial Plan
- (b) Adoption of major new policies not already included in the Policy Framework (Constitution Appendix 3) or changes to established policies
- (c) Approval of management and business plans
- (d) Decisions that involve significant service developments, significant service reductions, or significant changes in the way that services are delivered, whether County-wide or in a particular locality. For example, closure of a school, approval of a major project (such as a highway scheme) or programme of works, major changes in the eligibility criteria for provision of a service, major changes in the fees charged for a service, or proposals that would result in a service currently provided in-house being outsourced.
- (e) Decisions where the consequences are likely to result in compulsory redundancies or major changes in the terms and conditions of employment of a significant number of employees in any of the Council’s functions.

Preparation of the Forward Plan helps the Council to programme its work and ensures compliance with the Local Government Act 2000. Every month, the period covered by the Plan will be rolled forward by one month and the plan will be republished.

The Plan outlines the consultation that is proposed in respect of future decisions and who members of the public and the Council should contact to make comments on any particular item. Anyone is entitled to obtain copies of the documents that will be relied upon when a decision is taken, unless those documents are ‘Exempt’ within the meaning of the relevant sections of the Local Government Act 1972 (as amended).

Reports related to decisions will be published on the Council's web site at www.kent.gov.uk at least five days before the decision it is due to be taken. Once the decision has been taken, a copy of the Record of Decision will also be published on the Council's website.

<p>Title: 18/00064 - A28 Thanet - Road Asset Renewal and Strengthening Works</p> <p>The Decision needed: During last year’s Capital bidding round, Highways, Transportation and Waste submitted a bid for £31m to fund the resolution of 177 unfunded highway maintenance issues. This bid was separate to maintenance backlogs reported in Kent County Council’s Asset Management Strategy documents. The £31m bid related to a range of sites and issues that highway teams had identified had failed or will fail and which represented a significant safety or other risk to the business and are therefore being monitored. Funding of £7.52m for the highest priority 27 sites (high risk issues requiring intervention in the very short term) was approved and included in the capital budget, £3.495m for four sites in 2018/19, £2.925m for thirteen sites in 2019/20 and £1.1m for ten sites in 2020/21.</p> <p>The £2.925m allocated for 2019/20 includes £2.5m for the major renewal and strengthening of the A28 in Thanet, principally the section between Birchington and Margate, and that is the subject of this key decision.</p> <p>The A28 is an ‘Other Strategic’ road in our highway maintenance hierarchy. It also forms part of our Resilient Highway Network, the portion of our 5,400-mile road network that is considered to be absolutely vital to</p>

maintaining economic activity and access to key services during extreme weather emergencies and other major incidents. It is also likely to form part of the new Major Road Network that the Department for Transport has recently consulted on. (The MRN will be a new category of road between Highway England's Strategic Road Network and Local Authorities' local roads and this is being set up to put these important roads on a similar investment/improvement planning footing as motorways and trunk roads from 2021/22. Local Authorities will continue to be responsible for maintaining these roads and any funding streams are unlikely to be used for maintenance save major structural renewal.) This road is also a key link between the channel ports and Manston in respect of interim lorry parking arrangements. In short, this road is vital to the economy of East Kent.

As part of our regular mechanical condition surveys and safety inspections, we have identified that the existing road surface on the A28 between Birchington and Margate is nearing the end of its serviceable life. There are also signs of structural weakness in places. Most of these serious defects are not obvious to untrained eyes that tend to focus on pothole formation.

The main risk if left untreated is that the road surface will quickly deteriorate and need regular and numerous pothole repairs. In our professional judgement, we are very close to that eventuality now, and if allowed to occur would have a significant negative effect on the local economy as this is the only main road link into north Thanet from the west.

The road surface needs to be renewed throughout and, in some places, deeper strengthening repairs will be needed. We plan to deliver these works from April 2019 to avoid the summer holiday season. There are no commissioning implications relating to this decision as these works will be delivered under our recently awarded Road Asset Renewal Contract with Eurovia. There are also no planning or compulsory purchase aspects to this work.

18/00056 - Local Offer for Kent Care Leavers

The Decision needed:

The Children and Social Work Act (2017) was implemented on 1st April 2018 and extends the Corporate Parenting responsibility for a Local Authority to provide support to Care Leavers up until the age of 25 years (formerly 21 years). Local Authorities are required to publish a Local Offer for Care Leavers by December 2018 which sets out the services and support available and their entitlements. To meet the requirements of the Local Offer the 18plus Care Leavers Service undertook a service review in July 2018, to review the staffing capacity of the service and to plan for the increase in demand.

Consultees

The Care Leavers Service have completed a consultation with young people through the Young Adult Council (YAC) to seek their views and input into the offer. Care Leavers have been fundamental to the process, to drive the design and ensure a service user voice in the design and commissioning of our 18plus Care Leavers service. A Care Leavers Survey is due to be sent to all young people in August 2018, to establish their views on the service.

Members have been regularly updated on the Local Authorities duties under the Children and Social Work Act (2017) through the Corporate Parenting Panel. The review of the Care Leavers Service will be presented to the Corporate Parenting Panel on 19th September 2018.

The proposed decision will be considered at the Children's, Young People and Education Cabinet Committee on 29 November 2018.

staffing capacity has been reviewed and increased to meet the current demand for personal advisor support. The total cost of the structure is now £3.9m (to support 1,845 cases), of which £1.6m will need to be met from the KCC base budget (an increase of £0.7m compared to current net budget).

The structure required by the end of March 2020 will be £4.2m (to support 2,130 cases) of which £1.9m will need to be funded from the KCC base budget (an increase of £1.0m compared to current budget).

It is important to note, the increase in KCC budget requirement is subject to agreement at County Council in February 2019 as part of the 2019-22 Medium Term Financial Plan (MTFP).

Title:

18/0058 - Commissioning Plan for Education Provision 2019-23

The Decision needed:

The Commissioning Plan for Education Provision in Kent (KCP) is a five year rolling plan which is updated annually. It sets out how Kent discharges its statutory responsibility, as the Strategic Commissioner of Education Provision, to provide sufficient Early Years, SEND, Primary and Secondary places and to ensure that there are appropriate learning pathways for pupils at Post 16. It is also our responsibility to ensure that we have enough places in the right locations, to meet the demands of increased pupil numbers and parental preferences. It reflects the fact that the Local Authority's role has changed to being the commissioner, as well as continuing to be a provider, of education provision.

Data from the Office for National Statics (ONS) and the Health Authority suggest that births across the County, which have fluctuated in recent years, rose slightly in 2016-17. The numbers of families with primary and

secondary aged pupils migrating into the County continue to be greater than the numbers moving out, with a net increase in the year ending June 2017 of 1,575 pupils at primary age and 862 at secondary. The housing identified in District/Borough core plans or their variants suggest there is provision for up to 55,000 new homes across the period 2017-18 to 2022-23. These factors require increases in the provision of school places (particularly at the secondary school phase) in the coming years.

The Local Authority as Strategic Commissioner of Education Provision has a key role in securing funding to provide sufficient education provision in the County, particularly in schools, in order to meet its statutory responsibilities. The forecast capital outlay needed to fulfil the need identified in the Commission Plan 2019-23 will be provided in the report to CYPE Cabinet Committee on 29 November 2019 for comment, prior to full sign off by Cabinet in January 2019.

The Decision needed:

Kings Farm Primary School is a community school providing education for students of all abilities aged 4-11. There are currently 404 children on roll with 99 children with an SEN need and 4 children with an EHCP.

KCC want to build upon the existing provision of the school by establishing a Specialist Resource Base Provision (SRP) within the school for students with an Education, Health and Care Plan (EHCP) for Autism Spectrum Disorder (ASD)

The school has been identified by Kent County Council (KCC) as doing particularly well at supporting pupils with Autism Spectrum Disorder (ASD). KCC has asked the school to consider creating a new SRP within the school for up to 15 children. The places will be commissioned by KCC and reviewed each year. It is expected that the SRP would open initially with a small number of children currently on roll at the school who meet the criteria for a place in the SRP.

The Decision needed:

Proposed decision

To allocate funding of £1.96m from the Children's, Young People and Education Capital Budget for the temporary expansion of The Westlands School.

Background:

On 27 November 2017, the Commissioning Plan for Education Provision 2018-22 was endorsed by the Cabinet Committee and agreed by Cabinet at their meeting in January 2018. The commissioning plan forecast a deficit of 90 Year 7 places in Swale district for entry in September 2019.

Swale Academy Trust has agreed to provide a minimum of 45 additional Year 7 places on a temporary basis from September 2019. In the future it is proposed that the temporary expansion would become a permanent 2FE expansion, subject to further feasibility to identify accommodation requirements and planning agreement.

The additional costs together with inflationary pressures have led to the increase in capital costs from £3,950,000 to £5,096,934. In order to deliver phase 3 and phase 3a of the expansion of Meadowfield as planned, an extra £1,146,934 will need to be allocated from the Children, Young People and

Education Services Capital Budget. The additional funding has been factored into the current agreed Basic Need budget for 2018/19.

The Decision needed:

This project aims to produce a new Countryside Access/Rights of Way Improvement Plan for Kent, for the period 2017 – 2027. Kent County Council has a legal duty to prepare and review a Public Rights of Way Improvement Plan (ROWIP) under Section 60 of the Countryside and Rights of Way Act 2000 and update the plan every 10 years. The plan must assess the extent to which the local rights of way meet the present and likely future needs to the public as well as the opportunities the PROW network can provide for

exercise, open air recreation and the enjoyment of the area and the accessibility to blind or partially sighted persons and others with mobility problems. The plan must include a statement of the actions proposed to manage the PROW and for securing an improved network. In accordance with the guidance set out by DEFRA the plan must explain how improvements made by the local authority to the public rights of way network will provide a better experience for walkers, cyclists, horse riders, horse and carriage drivers and people with mobility problems.

The rolling programme of risk assessments / survey programme, forms an integral part of the statutory compliance package which is delivered by the Total Facilities Management (TFM) contract and managed on a day to day basis by GEN2 as our managing agent. Therefore, water hygiene costs are not split out for the Corporate landlord buildings as they included within the overall planned preventative maintenance and statutory maintenance costs.

Where KCC have responsibilities for the school risk assessments / survey programme, a fixed cost is attributed to the service provided by the TFM contractors.

Remedial works and maintenance of Corporate landlord and school water systems can be difficult to correctly estimate as it is dependent on the size and complexity of the system, together with management, reliability and potential damage issues.

For KCC schools, water systems that require remedial works are the responsibility of the school when they fall within their financial limits sho

In summary, not implementing the service charge would lead to either the deterioration or closure of existing sites. An Equality Impact Assessment has been completed and has been reviewed and updated throughout the consultation and co-production process. The Equality Impact Assessment has highlighted risks around people with disabilities other than physical and those under the age of 16, who won't be able to access the new service. Respondents to the consultation also raised concerns that this service would not be available to all disabilities. In light of the findings from the Equality Impact Assessment and the consultation we have adapted the scope of the offer and will ensure that the helpline and website is accessible to all. The successful provider will then need to devise a system to identify and signpost to appropriate services.

Title:

17/00086 - A20 Harrietsham Traffic Management Scheme

The Decision needed:

Harrietsham is identified in the emerging Maidstone Borough Local Plan as a rural service centre suitable for new housing development. The majority of the existing settlement is located to the north of the A20 corridor, whereas all 3 of the new housing development sites are to the south of the A20. During 2014/15 JMP Transport Consultants, working under a commission to Maidstone Borough Council, produced an outline design and costing for a scheme to narrow the A20 carriageway, create new footways and pedestrian crossing points and lower the speed limit from 40mph to 30mph with new gateway features at each end of the village. The construction costs were estimated by JMP at £1,105,189. The key aim of the scheme is to reduce the severance effect of the A20 and improve permeability between the new development sites and the existing housing and village centre. MBC has granted planning permissions to the housing sites on the basis that each makes proportionate S106 contributions to the Council. Payments will then be passed to Kent County Council to implement the scheme. To keep disruption to a minimum, the intention is that the scheme would be implemented in its entirety once all of the contributions have been received, rather than as a phased construction. MBC have now received a payment of £403k from the first site to reach its trigger point and a further payment is now due. Consequently KCC now has the necessary funding in place to begin to progress the scheme through design.

The scheme has been the subject of a resident petition that was submitted at the 12th July 2017 meeting of the Maidstone Joint Transportation Board, which urges the authorities to ensure that elements of the scheme are in place prior to developments being occupied.

This key decision seeks approval to review the outline design, including updated costs, and to commence detailed design work with a view to construction once the final contributions have been received. It is envisaged that public engagement on the scheme layout will be carried out during 2017/18, a report will be presented to Maidstone JTB to advise on feedback and potential amendments including any related mitigation measures.

The scheme meets KCC policy objectives of supporting existing businesses and encouraging economic activity with housing growth and job creation by reducing congestion and improving infrastructure and accessibility.

17/00063 - Ashford District Deal Refresh

The Decision needed:

The Borough Council and the County Council enjoy good relations at a political and operational level and have achieved much working together on a wide variety of projects in recent years. However, both are complex organisations, each with its own procedures and priorities and inevitably operational issues crop up which could be tackled better and faster.

The District Deal signed in 2015 is not a legally binding agreement but a short, clear statement of the Councils' shared commitment to work together in key areas.

The Deal has two main parts:

- A commitment to focus the combined efforts of both councils on delivering key strategic projects;
- An agreement to improve the way the Council's work together to make sure that we deliver the best quality outcomes possible for residents and businesses

The original Deal focused on the “Big 8” projects in Ashford, a series of regeneration projects across the district in which the two Councils are working together to deliver more effectively, as well as new ways of working across a range of agendas.

This focus has helped to deliver several projects where both Councils share an interest – achieving the funding needed for both the Ashford station signalling and for M20 junction 10a; and signing the legal agreements to bring forward development at Chilmington Green are all prime examples.

In addition to these projects, there were several examples of improved operational working. There are other areas where lessons have been learned and are being applied to improve working. In some areas of both Councils the District Deal is not fully understood and hence does not always attract the priority it deserves.

PROPOSED DECISION: To approve the LTP4 including Growth without Gridlock.

Latest Update:

The LTP4 (inc. Growth Without Gridlock) consultation has received a high number of responses. In order to properly analyse and report on findings the due date for decision has been moved to 13 July 2017.

19/05/2014 - Decision due date changed from 10/02/2014 to 17/09/2014.

REASON: The strategic position relating to Highways and Transportation projects was set out as part of the LEP Strategic Economic Plan submitted via KMEP and the LEP to the Secretary of State at the end of March 2014, you can view the decision to submit and the document submitted here, <https://democracy.kent.gov.uk/ieDecisionDetails.aspx?ID=577>

Central Government is expected to announce a funding allocation in July 2014. Based on these allocations the final selection and prioritisation of projects for inclusion in Growth without Gridlock will take place and the strategy as completed can be adopted by decision of the Cabinet Member.

The decision date has been updated to 'not before' 17 September 2014 in order that the draft strategy can be considered by the relevant Cabinet Committee before any decision is taken.

Responsible Cabinet Member - Leader and Cabinet Member for Health Reform

Reference No: 16/00120

Key Yes

Section 1 – the decision needed, how it relates to the Council's Corporate Outcomes and the Costs and risks involved.

Title:
16/00120 Sub National Transport Board for the South-East

The Decision needed:

KCC Membership of a shadow Sub- National Transport Body for the South East known as Transport for the South East (TfSE)

The Cities and Local Government Devolution Act makes provision for the establishment and constitution of Sub-National Transport Bodies (SNTBs) for any area in England (outside of Greater London. An SNTB can prepare a Transport Strategy for an area which would set out proposals for the promotion and encouragement of safe, sustainable, integrated, efficient and economic strategic transport facilities and services to and from the area of the SNTB.

The South East Seven (SE7) Councils (Kent, East Sussex, West Sussex, Hampshire and Surrey County Councils, and Brighton & Hove City Council and Medway Council) and the Local Enterprise Partnerships (LEPs) that represent the area have discussed the establishment of an SNTB for the South East, to be called Transport for the South East (TfSE). A TfSE on this geographic scale would fulfil the DfT's minimum geographic size requirements. Discussions will shortly commence with Portsmouth, Southampton and the Isle of Wight and the Solent LEP about joining TfSE.

The proposed TfSE would enables authorities to influence national and regional infrastructure providers, helping to secure the infrastructure required to support continuing economic growth. A TfSE would see Government, South East Transport Authorities and/or Combined Authorities and LEPs working together with Highways England, Network Rail and port, airport and bus operators. TfSE would require strategic transport providers to take account of its priorities.

TfSE would provide a mechanism for the area to speak with a strong, common voice on transport infrastructure and provide a single platform for strategic transport and infrastructure issues, giving partners greater, and potentially direct, influence over decisions that are currently made elsewhere. Its key outcome will be the development of a single, strategic transport infrastructure framework which would align the investment programmes from key agencies, such as Highways England, Network Rail and the LEPs.

Options

- Do nothing and not engage in the development of the SNTB for the Southeast.

- Set up the SNTB for Kent and Medway, but this would not be supported by DfT
- Engage in the development of the Shadow SNTB Board and Transport Strategy for the Southeast

How the proposed decision meets the objectives of ‘Increasing Opportunities, Improving Outcomes: Kent County Council’s Strategic Statement (2015-2020)’

The cornerstone of TfSE is the Transport Strategy. It will build upon existing Local Transport Plans, including Kent’s *Local Transport Plan 4: Delivering Growth without Gridlock*, currently out to consultation, and evidence already in place amongst the constituent Authorities, including the LEP’s Strategic Economic Plans and growth and infrastructure frameworks/studies being undertaken by a number of upper-tier Authorities, including the *Kent and Medway Growth and Infrastructure Framework*. In this way, the decision would support the Council’s second strategic outcome, “Communities benefit from economic growth by being in work, healthy and enjoying a good quality of life.”

Financial Implications

It is estimated that appropriate support for developing the shadow SNTB and the overarching Transport Strategy would total £200,000 of which KCC’s contribution is £20,000.

Legal Implications

There are no direct legal implications of the recommendations in this report, although should an TfSE SNTB be established by the Secretary of the State following the work set out in this report, then there would be legal implications arising from the establishment of the SNTB which itself would be a body corporate.

Equalities implications

There are no equality implications to establish the Shadow TfSE

Given the freedoms set out in the Care Act 2014, since these contracts started, and the Council's strategy for adult social care, 'Your Life Your Wellbeing', there is now an opportunity to move to greater integration with health services. To achieve this, it is desirable to extend these services' contracts to a single end date.

This will help achieve the corporate objectives of:

- Strategic Outcome
- Older and vulnerable residents are safe and supported with choices to live independently

Supporting Outcomes

- Those with long term conditions are supported to manage their conditions through access to good quality care and support
- People with mental health issues and dementia are assessed and treated earlier and are supported to live well
- Families and carers of vulnerable and older people have access to the advice, information and support they need
- Older and vulnerable residents feel socially included
- More people receive quality care at home avoiding unnecessary admissions to hospital and care homes
- The health and social care system works together to deliver high quality community services
- Residents have greater choice and control over the health and social care services they receive

<p>Title: Former Shepway Resource Centre, Folkestone - Disposal</p> <p>The Decision needed: LATEST UPDATE: 19/05/2014 - Decision due date changed from 18/02/2014 to 01/08/2014. REASON: The proposed decision to dispose of the Centre was delayed while internal processes were undertaken to ensure that no other suitable use could be found before disposal. This process is complete and the former resource centre will be placed on the market shortly. Responses from the</p>

market will be gauged after a period of approximately 3 months and a proposal for the site put forward at that time. The decision will be considered by the Property Sub-Committee or the Policy and Resources cabinet Committee before being taken by the Cabinet Member.

To seek approval to the disposal of the former Shepway Resource Centre following the marketing of the site

Title:
Sandwich Highways Depot

The Decision needed:

Update 09/03/2015:

DEFERRED: The disposals team at KCC are currently working on new plans for the site in order to ensure that the maximum value is secured; surveys are being carried out with a view to marketing the site in the future dependent on the outcome of those surveys.

Latest Update:

19/05/2014: Decision due date changed from 23/12/2013 to ‘Not before’ 01/11/2014.
REASON: The disposals team at KCC are currently working on new plans for the site in order to ensure that the maximum value for the site is secured. Options appraisal work is underway and this work is expected to take approx. 6 months, therefore an expected decision date is set for November.

To seek approval to proceed with the disposal of the above site to raise a capital receipt which will be allocated to support the capital programme.

To seek approval to identify and progress with the acquisition of a new site for the service.

The Director of Property and Infrastructure Support will be authorised to finalise terms for both the disposal and acquisition of a new site.

This decision is needed to enable a modern highway service operation to be provided in the East Kent Area that is both reactive and responsive to changing demands. It directly supports 3 of the Bold Steps for Kent.

- Firstly it helps deliver the “Kent Environment Strategy” by the provision of new environmentally friendly facilities (e.g. grey water) via the construction technique with the eventual adaptation of new work practices within the new depot.
- Secondly it builds relations with key business sectors across Kent as the supply chain involved in such a project provides work to businesses of all sizes.
- Thirdly by the better siting and provision of facilities for the new depot it ensures that the most robust and effective public protection arrangements are in place for road management including bad weather response.

The impact of the decision is that full assessment of the potential disposal of the site can be explored within the market place to ensure that best value principles are adhered to. In tandem a full search and feasibility study will be undertaken to identify a new location for the alternative highways depot which satisfies the above objectives.
