Pregnancy and maternity	No	No	NONE	NONE	As above.
Marriage and civil partnership	No	No	NONE	NONE	As above.

Part 1: INITIAL SCREENING (date)

Context

Kent County Council is undertaking the procurement of a new Dry Mixed Recycling Processing Contract, commencing on 4th July 2021 for a duration of 27 months to 29th September 2023, (with an additional 12-month extension if required) to align with the cessation of an existing Dry Recycling contract that covers the remaining Waste Collection Authorities.

As a Waste Disposal Authority, the provision of such Waste disposal services is a statutory obligation under the Environmental Protection Act 1990.

The procurement of a new provider is needed because, as part of Kent County Council wider vision, one of our strategic outcome's states that 'Kent communities feel the benefits of economic growth by being in-work, healthy and enjoying a good quality of life'. Moreover, the Supporting Outcome states that "Kent's physical and natural environment is protected, enhanced and enjoyed by residents and visitors"

Kent County Council's Waste management services will achieve this by managing Kent residents' kerbside dry mixed recycling in the most efficient and effective manner by using the waste hierarchy as a measure of how Kent is moving waste away from landfill and prioritising the material to use it for reuse, recycling or recovery where possible.

Aims and Objectives

From 4th July 2021 Kent County Council will:

- Secure new Provider(s) for the receipt and processing of Dry Recyclate delivered to KCC's Transfer Stations by Collection Authorities in Mid and West Kent until 2023/24.

Beneficiaries

- The intended beneficiaries are householders in Kent as recipients of the district council kerbside dry recyclate collection services.

Data

- As the Waste Disposal Authority, Kent County Council is responsible for ensuring that all waste disposed of at the kerbside by householders is disposed of correctly in the most financially efficient way. The disposal of this waste is a 'back office' procedure, with all 'customer facing' elements of this process the responsibility of the Waste Collection Authorities.

Potential Impact

- This Equality Impact Assessment is a screening to indicate potential areas of impact, both positive and negative, to the diverse population of Kent, which could result from the award of a new Contractor to process the Authority's waste arisings.
- There are no Protected Characteristics that will be impacted upon either positively or negatively.
