Guidance Notes

Notes: Please note that there is no 2019-20 Education attainment or absence data due to the impact of Coronavirus (COVID-19) and there are no plans for 2020-21 data to be published. Figures for indicator CYPE8 (Rate of proven re-offending by CYP) shown in red have not been published by the Ministry of Justice (MoJ) but are included for information in this scorecard. Please note that not all Children's Social Work indicators can be shown broken down by District for the associated CSWS team, as caseloads relating to these indicators are held by Area and Kent LA level teams. Cases included in a dataset are based on the Service working with the child and not the child's geographical residence. For new Teams/Services that are created within CSWS or EH, there will be no historical data shown initially, as it is only available from the point at which the new Team/Service begins.

POLARITY

H	The aim of this indicator is to achieve the highest number/percentage possible
L	The aim of this indicator is to achieve the lowest number/percentage possible
T	The aim of this indicator is to stay close to the target that has been set

RAG RATINGS

RED	Floor Standard* has not been achieved
AMBER	Floor Standard* achieved but Target has not been met
GREEN	Target has been achieved

* Floor Standards are set in Directorate Business Plans and if not achieved must result in management action

Directorate Scorecard - Kent KPIs

Education and Early Help targets have been reviewed as they were out of date. Many of the targets were set when new measures were introduced, without any trend or comparative data to support this process. Targets now take into account the national position, where this is available, and the year on year improvements seen to date, and seek to drive continuous improvement.

Commentary on Integrated Children's Services Indicators:**Children's Social Care**

AMBER: The percentage re-referrals to Children's Social Work Services within 12 months of a previous referral was 28.0% for March 21 and has remained above the Target of 25.0% this reporting year. The rates of referrals have been decreasing and for the rolling 3-months to March 2021 was 25.9%. This compares to the latest published information for the England average of 22.6%, 23.9% for Kent's Statistical Neighbours and 26.0% for the South East (all comparative rates are for 2019/20 performance). As the rates of re-referrals for the year were higher than anticipated a separate piece of work has been commissioned to analyse the re-referral data and to undertake targeted case file audits.

AMBER: The percentage of Children in Care in same placement for the last two years (for those in care for two and a half years or more) is 67.2%. Performance has been below target for the last 2 months but remains above the latest published the average for Kent's Statistical Neighbours of 64.7% and the average for the South East of 65.0%. It is now slightly below the England average of 68.0% (comparative data is for 2019/20).

AMBER: The percentage of CIC Foster Care in KCC Foster Care/Rel & Friends placements (excluding UASC) is 79.3% which is below the target of 85.0%. Year-to-date performance has averaged 80.0% so has remained very static. Information regarding the availability of in-house foster placements is continually reviewed to ensure that foster carer capacity is fully utilised and that children and young people are placed in the most suitable placement and there is a continued focus on recruiting and retaining Kent Foster Carers.

AMBER: The percentage of care leavers in education, employment or training (of those KCC is in touch with) is 59.9%. Performance for this measure this year has averaged 61.0% so has remained fairly static.

AMBER: The average caseload in the Children's Social Work Teams (CSWT) is 21 cases, which is above the target caseload of no more than 18 children/young people.

GREEN: Percentage of Returner Interviews completed for those with Children's Social Work Involvement is 92.3% which exceeds the target of 90.0%

GREEN: The percentage of children becoming subject to a child protection plan for the second or subsequent time is 22.4% which is within the target range of 17.5% - 22.5% and compares to average rates for England of 21.9%, Statistical Neighbours 22.7% and the South East 23.4% (2019/20).

GREEN: The average number of days between becoming a child in care and moving in with an adoptive family is 316 days, which remains significantly below the nationally set target of 426 days.

GREEN: The percentage of Children's Social Work Case File Audits graded good or outstanding is 80.1%, just above the 80.0% Target.

GREEN: The percentage of case holding posts filled by permanent qualified social workers is 92.5%, remaining significantly above the target of 85.0% (which is based on the national average for Agency Social Workers of 15%)

GREEN: The average caseloads in the Children in Care (CIC) Teams is 13.5 cases, remaining below the target caseload of no more than 15 children/young people.

Intensive Early Help

AMBER: The percentage of referrals to an Early Help Unit where a previous episode ended within 12 months is 28.1%, which is above the target of 25.0% and an increase from the 25.0% performance in September 2020. Work to review the re-referrals to EH Units is being undertaken alongside an analysis of re-referrals for Children's Social Care teams.

AMBER: The percentage of cases open to Intensive Early Help that were audited and graded as good or outstanding is 72.3% which is below the 80.0% target.

GREEN: The percentage of EH Assessments completed in the given month, within 6 weeks of allocation has continued to improve and in March 2021 was 78.4%, above the target of 70.0%. The improvement in the year-to-date, which started from a performance level in April of 58.0%, have been aided by a new performance reporting tool giving managers clear oversight and improved ability to track progress.

GREEN: The Percentage of EH cases closed with outcomes achieved that come back to EH or CSWS in 3 months is 13.6%, below the Target of 15.0%

Commentary on Education Indicators:

The majority of education indicators are annual. Commentary has only been provided for indicators where new data has been published since the last scorecard was issued

RED: Based on the rolling 12-month average, 32.7% of EHCPs were issued within 20 weeks (772 out of 2,363). In the single month of March this increased to 40.3% with 177 of plans out of 439 being issued within timescale. This percentage increase is in the context of an overall increase in the number of EHC plans issued each month. This is the result of using an outside contractor to draft EHC plans where assessments have extended beyond 20 weeks (those in the 'backlog') and an increase in the number of SEN Assessment and Placement Officers (Interim positions) who issue the draft and final EHC plans.

RED: The percentage of CYP registered to EHE who receive an offer of a visit within 10 school days of them being brought to our attention at 93.5% remains below the target of 100%

AMBER: The Percentage of Year 12-13 age-group (16-17 year olds) not in education, employment or training (NEET) is a seasonally impacted indicator increasing over the Summer months. In the month of March, it was 3.2%, worse than the target of 2.4% but broadly in line with the performance for the same time last year (3.4%). However Local Authorities are judged by the DfE on the 3-month rolled figure (for December, January, and February) which in 2019/20 was 3.3%, below our target and in the fourth quintile (second from bottom) of all LAs.

AMBER: The percentage of Children Missing Education cases, closed within 30 school days, at 88.8% is just below the target of 90%. Despite the COVID pandemic and the limitations the team have experienced, they have managed to sustain the service, tracing high numbers of children and young people and returning them to education.

GREEN: One primary aged pupil was permanently excluded from school during the last 12 months, fewer than the target (of 8). Exclusions from Kent schools remain lower than the national figure (reported as a rate of the school population).

GREEN: The number of permanent exclusions from secondary schools is also just one pupil well below the target of 27. The reduction is due to the Covid-19 pandemic. 'National Lockdown 1.0' school closures resulted in 34 school days lost to all pupils with exception to 'key worker' and 'vulnerable' children from 23 March 2020 to 31 May 2020. Select 'primary' and 'secondary' year groups returned to school from 01 June 2020 and 15 June 2020 respectively. 'National Lockdown 3.0' school closures resulted in 39 school days lost to all pupils with exception to 'Key worker' and 'vulnerable' children from 05 January 2021 to 05 March 2021.
