Guidance Notes

Notes: Please note that there is no 2019-20 Education attainment or absence data due to the impact of Coronavirus (COVID-19) and there are no plans for 2020-21 data to be published. Figures for indicator CYPE8 (Rate of proven re-offending by CYP) shown in red have not been published by the Ministry of Justice (MoJ) but are included for information in this scorecard. Please note that not all Children's Social Work indicators can be shown broken down by District for the associated CSWS team, as caseloads relating to these indicators are held by Area and Kent LA level teams. Cases included in a dataset are based on the Service working with the child and not the child's geographical residence. For new Teams/Services that are created within CSWS or EH, there will be no historical data shown initially, as it is only available from the point at which the new Team/Service begins.

POLARITY

H	The aim of this indicator is to achieve the highest number/percentage possible
L	The aim of this indicator is to achieve the lowest number/percentage possible
T	The aim of this indicator is to stay close to the target that has been set

RAG RATINGS

RED	Floor Standard* has not been achieved
AMBER	Floor Standard* achieved but Target has not been met
GREEN	Target has been achieved

* Floor Standards are set in Directorate Business Plans and if not achieved must result in management action

Open Access Indicators

Most centres have been closed through Covid, meaning that reporting would not be meaningful. We have now reopened 57 Open Access buildings over the summer maintaining Covid safe measures and we are in the process of opening the remainder of our centres. Open Access reporting here will commence in January 2022.

- Figures shown in brackets are National averages
- Ofsted National averages are as at 31st March 2021
- Free School Meal averages are as at January 2021 school census and based on state funded schools only

Directorate Scorecard - Kent KPIs

Education and Early Help targets have been reviewed as they were out of date. Many of the targets were set when new measures were introduced, without any trend or comparative data to support this process. Targets now take into account the national position, where this is available, and the year on year improvements seen to date, and seek to drive continuous improvement.

Commentary on Integrated Children's Services Indicators:

Children's Social Care

AMBER: The percentage of CIC Foster Care in KCC Foster Care/Rel & Friends placements (excluding UASC) is 79.5% which is below the target of 85.0%. Performance for the last 12 months has averaged 79.8%, remaining static over the past year. Information regarding the availability of in-house foster placements is continually reviewed to ensure that foster carer capacity is fully utilised and that children and young people are placed in the most suitable placement and there is a continued focus on recruiting and retaining Kent Foster Carers.

AMBER: The percentage of care leavers in education, employment or training (of those KCC is in touch with) is 60.0%, which is a slight improvement in performance achieved since the start of 2021.

AMBER: The average caseload in the Children's Social Work Teams (CSWT) is 20 cases, which is above the target caseload of no more than 18 children/young people but the lowest level achieved since February 2021 when it was also an average of 20 cases.

GREEN: The percentage re-referrals to Children's Social Work Services within 12 months of a previous referral was 24.5% for August 21, achieving the Target of below 25.0%. The rates of re-referrals have been decreasing steadily since the beginning of the year. This performance compares to the latest published England average of 22.6%, 23.9% for Kent's Statistical Neighbours and 26.0% for the South East (all comparative rates are for 2019/20 performance).

GREEN: Percentage of Returner Interviews completed for those with Children's Social Work Involvement is 91.4% which exceeds the target of 90.0%

GREEN: The percentage of children becoming subject to a child protection plan for the second or subsequent time is 21.1% which is within the target range of 17.5% - 22.5% and compares to average rates for England of 21.9%, Statistical Neighbours 22.7% and the South East 23.4% (2019/20).

GREEN: The percentage of Children in Care in same placement for the last two years (for those in care for two and a half years or more) is 73.8% and the highest performance achieved since December 2019 (74.4%). Kent's performance remains above the latest published the average for Kent's Statistical Neighbours of 64.7%, the average for the South East of 65.0% and the England average of 68.0% (comparative data is for 2019/20).

GREEN: The average number of days between becoming a child in care and moving in with an adoptive family is 324 days, which remains significantly below the nationally set target of 426 days. The definition for this measure has been amended for 2021/22 reporting following a change by the DfE to make an adjustment for foster carer adoptions. All of the figures contained within this report have been provided based on that new definition, but previous versions of this report will have used the previous definition.

GREEN: The percentage of Children's Social Work Case File Audits graded good or outstanding is 81.5%, just above the 80.0% Target.

GREEN: The percentage of case holding posts filled by permanent qualified social workers is 92.0%, remaining significantly above the target of 85.0% (which is based on the national average for Agency Social Workers of 15%)

GREEN: The average caseloads in the Children in Care (CIC) Teams is 14 cases, a slight increase from the average of 13 cases achieved earlier in the year but remaining below the target caseload of no more than 15 children/young people.

Intensive Early Help

AMBER: The percentage of referrals to an Early Help Unit where a previous episode ended within 12 months is 28.1%, which is above the target of 25.0%. Work to review the re-referrals to EH Units is being undertaken alongside an analysis of re-referrals for Children's Social Care teams

AMBER: The percentage of cases open to Intensive Early Help that were audited and graded as good or outstanding is 76.9% which is below the 80.0% target.

GREEN: The percentage of EH Assessments completed in the given month, within 6 weeks of allocation, has now started to stabilise and for August 2021 was 83.3%. The Target of 80.0% was achieved in April 2021 and performance has remained above Target.

GREEN: The percentage of EH cases closed with outcomes achieved that come back to EH or CSWS in 3 months is 13.5%, remaining below the Target of 15.0%

GREEN: The average caseload within Early Help Units is 12.6 families, below the Target of no more than 15 families and the lowest average achieved since June 2020 (9.8 cases).

Commentary on Education Indicators:

The majority of education indicators are annual. Commentary has only been provided for indicators where new data has been published since the last scorecard was issued

RED: Based on the rolling 12-month average, 39.1% of EHCPs were issued within 20 weeks (1,117 out of 2,856). In the single month of August this increased to 41.3% with 125 of plans out of 303 being issued within timescale. The Service remains focused on clearing the backlog of assessments over 20 weeks with the number reduced from 460 at the end of March to 250 at the end of June. This work on reducing the backlog is being undertaken in conjunction with the Educational Psychology service, who have experienced similar backlog challenges. The number of requests for Statutory Assessment (EHC needs assessment) remains high, with an average of 338 requests per month over the last quarter.

AMBER: The percentage of CYP registered to EHE who receive an offer of a visit within 10 school days of them being brought to our attention at 92.7% remains below the target of 95%

AMBER: The Percentage of Year 12-13 age-group (16-17 year olds) not in education, employment or training (NEET) is a seasonally impacted indicator increasing over the Summer months. In the month of August, it was 3.5%, worse than the target of 2.9% but a slight improvement on the same time last year (3.9%). However Local Authorities are judged by the DfE on the 3-month rolled figure (for December, January, and February) which in 2020/21 was 3.0% was Kent; just 0.2 percentage points behind national. A deep dive review will take place into NEET activity this autumn/winter, including district variations in NEETs and Not Knowns figures and the key characteristics of those groups, the availability of training opportunities during Covid-19, and a review of our figures compared to statistical neighbours and national. This will come to a future Cabinet Committee.

AMBER: The percentage of Children Missing Education cases, closed within 30 school days, at 88.8% is just below the target of 90%. Despite the Covid-19 pandemic and the limitations the team have experienced, they have managed to sustain the service, tracing high numbers of children and young people and returning them to education.

GREEN: Three primary aged pupils were permanently excluded from school during the last 12 months, fewer than the target (of 8). Exclusions from Kent schools remain lower than the national figure (reported as a rate of the school population).

GREEN: The number of permanent exclusions from secondary schools at nine pupils is well below the target of 27. The reduction is related to the restriction of year groups returning to the school classroom following the Covid-19 'National Lockdown 1.0' school closures last year and the recent 'National Lockdown 3.0'

Please note that there is no 2019-20 or any planned 2020-21 Education attainment data due to the impact of Coronavirus (COVID-19)
