Appendix 1: Options for Advocacy Services

Option Number	Option	Information
1 Recommended Option	Flexible Extension to current contract as is for period of 12 months (to 31 March 2023)	 Delivered with break clause or as two 6 month extensions Contract variation to allow for implementation of LPS requirements as necessary and in line with available information Work with Providers scope diversity aims for future workforce development for people from the marginalised groups the services aim to support takes into account the contract requirement will change with Liberty Protection Safeguards and allows time for the code of practice to be published allows for market engagement – either Council only or Partnership approach Tender to avoid seasonal periods when pressure is on the care market Feedback from operational colleagues and people who use the service Limited scope to progress and develop the service during this time in preparation for procuring on the basis of a better developed specification
2	Flexible Extension to current contract as is for period of 18 months (to 30 September 2023)	 break clause or reserved right for earlier termination Contract variation to allow for implementation of LPS requirements as necessary and in line with available information Work with Providers scope diversity aims for future workforce development for people from the marginalised groups the services aim to support takes into account the contract requirement will change with Liberty Protection Safeguards and allows time for the code of practice to be published allows for market engagement – either Council only or Partnership approach Tender to avoid seasonal periods

		 when pressure is on the care market Feedback from operational colleagues and people who use the service Limited scope to progress and develop the service during this time in preparation for procuring on the basis of a better developed specification
3	Extend current contract as is for period of 18 months (30 September 2023) to allow for a meaningful procurement:	 Safeguards and allows time for the code of practice to be published allows for market engagement – either Council only or Partnership approach Tender to avoid seasonal periods when pressure is on the care market Feedback from operational colleagues and people who use the service Limited scope to progress and develop the service during this time in preparation for procuring on the basis of a better developed specification
4	Do nothing the contract will end on 31 March 2022	 KCC will save the contract value KCC will remain obligated to deliver statutory functions These would be sport purchased (no contractual oversight or levers) At increased costs deliver a fragmented and inconsistent service KCC will not be delivering the non statutory elements (community LD)
5	Extend only the statutory elements of the contract for period of 18 months (30 September 2023) to allow for a meaningful procurement:	Offers an immediate financial saving to the Council
6	Procure the service on a short term basis	Complies with public procurement regulations 2015

		procurement exercise, contract award and mobilisation Potential for fragmentation of service delivery and poorer experience by people Limited scope for more innovative approaches to service development and delivery
7	Procure the services as is for the longer term with option to include LPS once implications are understood	Complies with public procurement regulations 2015 Limited scope for more innovative approaches to service development and delivery Limited scope for financial savings or efficiencies to be found
