Aims and Objectives

An EqIA was created in 2018 / 19 prior to the implementation of a charging policy across the 19 KCC Household Waste Recycling Centres (HWRCs) for specific non-household waste, namely, soil, rubble, hardcore and plasterboard. Charging for tyres commenced in 2012.

This EqIA still stands, albeit it was created prior to the EqIA App and is therefore in word version (with a PDF scanned signed version). This version will be attached to the App.

A Key Member Decision is now being sought to increase the charges for the disposal of these materials at the HWRCs from their current charges, and inline with inflation. The Key Decision also proposes the Director for Environment and Waste to have delegated authority to amend charges each year, as appropriate,

No further equality impacts have been identified as a result of this increase to charge.
