#### Aims and Objectives

A person's method of communication should not cause for them a barrier which obstructs them from accessing any services that they may need. D/deaf and deafblind Individual in Kent need to be able to live safely and independently in their local communities. Public sector agencies must therefore ensure equality of access to services within their communities and prevent discrimination as detailed in the Equality Act 2010. Kent County Council also has a statutory responsibility under The Care Act 2014 to meet the needs of people assessed as having eligible needs including individuals with sensory impairments.

- 11 million people in the UK are deaf or hard of hearing.
- There are 151,000 British Sign Language (BSL) users in the UK.
- Deaf people are more likely to have poor mental health - up to 50%, compared to 25% for the general population, and be unemployed - 65% of working age deaf people are in employment, compared to 79% of the general population

KCC currently has a Framework arrangement (contract reference SC18074) for Interpreting and Communication Services for People who are D/deaf and Deafblind used to purchase service from a list of pre-qualified interpreters and interpreting agencies. Other public sector organisations on Kent also have access to use this contract and contract partners currently include Kent Police, Kent Fire and Rescue Service and KMPT.

This Framework contract will expire in June 2023 and alternative purchasing arrangements for this service will need to be established before this date.

Recommendations – A new framework of external providers is put in place from June 2023 for the council to use when required to provide any type of communication support for people who are D/deaf or Deafblind.

Residents/Communities/Citizens	Residents/communities/citizens
Are there any positive impacts for all or any of the protected groups as a result of the activity that you are doing?	Yes
<b>Details of Positive Impacts</b>	
<p>The procurement of specialist communication support for people who are D/deaf and Deafblind via a framework of qualified external providers will work dynamically to support services which are necessary but not always in high demand, enabling flexibility with bookings and the ability to book assignments efficiently and flexibly for people at a high level of quality.</p> <p>There is a national shortage of registered interpreters for D/deaf people, and demand exceeds supply in Kent as it does elsewhere in the country.</p> <p>Video Interpreting services will ensure high-quality low-cost provision is in place for short provision needs; this negates the need for interpreters requiring long time slots for very short provision e.g., ad-hoc communication requirements, providing best value services and increasing the likelihood that an interpreter can be sourced immediately.</p> <p>An external framework of providers will allow access to a range of communication methods, ensuring equality of access for everyone.</p>	

Research demonstrates that carers have sometimes been asked to act as interpreter for friends/ family/ partners/ which is inappropriate. The provision of externally sourced interpreting services will protect carers' rights.
