Aims and Objectives

Develop a strategy for nutrient mitigation in the River Stour catchment. DLUHC is offering £9.8m of capital funding and £430k of revenue funding to support this work. Memorandums of understanding have to be signed to access this funding. Once the funding is secured KCC will work with the affected LPAs to develop a strategy that provides strategic mitigation for the catchment, likely in the form of wetlands. This will allow housing to receive planning permission in the catchment. There are no equality impacts from this work.
