Aims and Objectives

Context:

The KCC CCAP stems from Kent County Council (KCC) recognised the UK climate emergency on 23rd May 2019, in response to the threats and opportunities presented by climate change.

Aims & Objectives:

The aim of the strategy is to ensure that KCC is resilient to the negative impacts and well-positioned to benefit from any opportunities that arise from Kent's changing climate.

The objectives of the strategy are to:

Raise awareness of the risks and opportunities of climate change across KCC.

Integrate climate change adaptation into KCC's decision-making and service delivery.

Explore opportunities to act upon climate risks and impacts affecting services.

Encourage climate change adaptation through KCC activity across Kent.

Equality Recommendation Summary:

Given that much of the focus of the KCC CCAP is based around capacity building across KCC, it is anticipated that there will not be substantial impacts, both positive and negative, to residents, staff or service users with protected characteristics.

However, having undertaken this analysis, it is possible that the following might apply to certain groups with protected characteristics:

Residents, service users, or staff with visual impairments or learning disabilities, who are seeking to access guidance provided on KCC's website or public health messaging, will be disadvantaged if accessibility functions are not considered. Therefore, mitigating any negative impact will be resolved by consulting with the digital communications team to ensure that the correct resources are incorporated.

Similarly, certain age groups (both younger and older audiences) may not have access to the technology or digital skills to access online resources or messaging. Therefore, mitigating any negative impact will be resolved by exploring opportunities for providing non-digital copies to be provided to users that cannot access digital resources online, upon request.
