A summary of the comments on the proposal:

- I think in the long term the proposal is in the best interests of the children and the community.
- Good idea for Cherries Playgroup to move from the village hall to Newington CE Primary School nursery unit – better facilities and improved opportunities for all children in the community.
- I propose that the nursery is taken over by Cherries from September 2011. This would allow for the current Newington Nursery children to make a smooth transition into the Reception class in September 2011.
- I agree strongly with the proposal, as I feel the Nursery has been a financial drain on the school since it opened. I look forward to seeing a great facility being used to its full potential and not at the expense of children.
- Flexible childcare is hard to find in a village and the proposed sessions that Cherries could offer would really help the needs of working parents.
- As a parent governor this proposal will allow the school to focus its resources at infant and junior level rather than at pre-school provision and this can only help in raising standards.

- My concerns are for those children currently in the nursery, due to start school in September.
